## 3RD INFANTRY DRUM CORPS TO MARCH MAY 30

The "Old Guard Fife and Drum Corps" of the Third U. S. Infantry Regiment, oldest active military regiment in existence, will take part in the Memorial Day parade here May 30 and the program in the cemetery, it was announced Thursday evening at a meeting of the Memorial Day committee at the GAR home, E. Middle St.

Established in 1794, the Third Infantry Regiment participated in the Indian campaigns, the War of 1812, the Mexican War, Civil War, Spanish American War, World Wars I and II and Korean War. Companies D, C, E, F, G, I and K, took part in the Battle of Gettysburg.

The "Old Guard Fife and Drum Corps" is made up of volunteers from the regiment who are chosen both for knowledge of music and of the Revolutionary and Civil War history. Its members, garbed in exact replicas of a Revolutionary War Fife and Drum Corps, will play Revolutionary War tunes here May 30 at a concert on Lincoln Square at 1:15 p.m. and for a review of a Guard of Honor from the local Howitzer Battery of the National Guard by the speaker at 1:30 o'clock. It will lead the military division of the parade and at the cemetery will play Civil War and Revolutionary War numbers during the program at the reburial.

**SEEK DONATIONS**  
According to arrangements completed by the Memorial Day committee, the fife and drum corps, stationed at Fort Meyer, will arrive here at 10 o'clock on the morning of May 30 and tour the battlefield and Visitor Center under National Park supervision before dining at the American Legion Home.

Treasurer Arthur Warman reported expenditures of \$650 for last year's Memorial Day program including approximately \$300 for bands for the parade, and the remainder for lunches for the state police, mounted guard and military band members, plus printing of programs and purchase of additional bunting to re-

## ADOPT \$5,500 BUDGET; OKAY NEW PROGRAMS

A budget of \$5,500 was adopted by the Gettysburg Junior Chamber of Commerce at its meeting Thursday evening at the Western Maryland Railway station.

Among the planned events for the year are completion of "Campaign Gettysburg," operation of Junior Champ, Junior Golf and Junior Tennis tournaments, Santa's Shanty and of the distinguished Youth award.

Thomas Piper, chairman, announced that one-third of the booths for the antique show in August have been sold.

New projects adopted included the appointment of an aviation committee to investigate the possibility of furthering aviation activities in the area, and a committee to work with the state Junior Chamber on constitutional reform.

A "hole-in-one" contest will be held April 20 and 29 on the local driving range. An award of \$50 will be given to the golfer driving a ball closest to the pin.

**OTHER EVENTS**  
Thomas Brown was named chairman of a committee arranging for a trip to New York for an award winner.

Barton Hoppe was named chairman of a committee to conduct an "Auto-Cross" sports car rally to be held probably in June. Drivers of sports cars will be timed over a designated course. An award will be made to the winner. Hoppe said the Hagerstown Sports Car Club may take part in the event.

Preliminary plans were discussed for a number of activities during the battle anniversary period, July 1 to 4, marking the completion of "Campaign Gettysburg."

Incoming President Richard Guise announced he will appoint a number of committees at the next meeting.

**OBSERVES BIRTHDAY**  
Dr. Frank H. Kramer, retired head of the education department of Gettysburg College, and popular teacher of courses in oriental art at the College, is observing his 75th birthday today.

**LOCAL WEATHER**

## Justice Hughes On New U.S. Stamp

The late Charles Evans Hughes, jurist and statesman, is portrayed on a 4-cent commemorative stamp released at Washington, D.C., Wednesday. The stamp is available at the local post office.

Hughes served as governor of New York, associate justice of the U.S. Supreme Court, secretary of state, member of the Permanent Court of Arbitration at The Hague, judge of the Permanent Court of International Justice and in 1930 was appointed chief justice of the United States.

## G. HAGEMYER ELECTED HEAD OF LOCAL PTA

Gerald Hagemyer, director of the Hoffman Home, Littlestown, Thursday evening was elected president of the Gettysburg Junior-Senior High School Parent-Teacher Association at its meeting in the local high school.

Others elected were: Mrs. Catharine Deitch, vice president; Mrs. Pamela Kistler, secretary; Elmer Johnson, treasurer. Mrs. Kistler and Johnson are teachers at the high school. Mrs. Deitch has been secretary of the PTA for a year.

Paul Mehling, assistant high school principal, representing Clifford B. Snowberger, principal, accepted award checks that are to be presented later to the winners of the spelling contest held recently at the school. The winners, all members of Miss Mary Hartman's Spelling Club, are: First, \$10, Phyllis Ackley; second, \$5, Barbara Clapper, and third, \$2.50, Margaret McFarland. They will compete in a regional contest Saturday at the Susquehanna High School.

**PRESENT ENTERTAINMENT**  
The Misses Judy Kunkel and Bonita Hughes, seniors, sang three selections: "When the Red, Red Robin," "Allegheny Moon" and "Side by Side." They were accompanied on the piano by Miss Sharon Nett, a Sophomore.

Miss Brenda Liss, a Junior, presented her own choreographic creation to "Clair de Lune."

Rev. Edwin Elliott presided at the brief business meeting. The treasurer's report indicated a balance of \$239.45. The president's

## 500 SEE MUSICAL

Approximately 500 filled the Student Christian Association auditorium Thursday night for the first of three performances of "South Pacific" by the Owl and Nightingale Club. The show will be presented again tonight and Saturday. The actors were called back repeatedly for curtain calls at the conclusion of the presentation. Most of the spectators also praised the crew which prepared the scenery and stage hands for outstanding work in presenting the musical in a three area stage.

Out standing in the cast were principals Janet Johnson, Andrew Yoh, Bill Parker, Carol Bellamy and Jon Harvey.

## TOP SCHOOL PATROL

The Lincoln School safety patrol has been selected by the American Automobile Association as the top patrol in Gettysburg and will be guests of the AAA, along with similar winning patrols from other communities at the Zumbo Shrine circus at Harrisburg, Chief of Police Jack Bartlett was notified Thursday by Jack Russell of the AAA committee.

## By STERLING F. GREEN

**WASHINGTON (AP)—**The Pentagon today ordered defense contractors and their suppliers to shift steel purchases to those companies which have not raised prices. The action was announced by Secretary of Defense Robert S. McNamara.

The possible lines of government attack, now officially confirmed by the Justice Department are:

1. Possible criminal penalties against the price-raising firms and their executives if the government can find and prove any price collusion.
2. A move to dismember the industry's giant, U.S. Steel Corp., if the government can convince a federal court that it "so dominates the industry that it controls prices and should be broken up."

## TEACHER WHO SERVED FOR 46 YEARS IS FETED

Miss Helen R. Hantz, Fifth Grade teacher at the York Springs Elementary School, was specially honored at a teachers' recognition night program held in the elementary school's all-purpose room Thursday evening for all teachers with 10 years or more of teaching experience in that school system.

Miss Hantz will retire at the end of the current school term after 46 years of teaching in the Bermudian Springs area. For 42 years she taught in one-room schools.

Three hundred former students and friends attended the affair.

## MANY PAY TRIBUTE

During the banquet the present Fifth Grade class of Miss Hantz gathered on the stage to sing "School Days" and to usher their teacher from her banquet table to a seat of honor at a teacher's desk on the stage, complete with school bell and a red apple.

Then former pupils from all but two of the schools in which Miss Hantz taught rose to pay tribute to her. There were former students of Miss Hantz from the present York Springs Elementary School, the State Road School in Latimore Twp. where she taught from 1935 until the school was closed in 1939; from Blackberry School where she taught from 1939-42 and 1953-55; from Bushey's School where she was teacher from 1923-33; Plainfield, 1926-28; Miller's, 1921-23; Hickory Point, 1919-21; Fickes', 1913-19; Wierman's Mill, 1917-18, and Will's School, where she started teaching in the 1916-17 school year. Only the Fickes' and Will's schools were not represented. All of the one-room schools in which she taught are now closed.

The special program for Miss Hantz followed a banquet program at which all teachers in the school system with 10 years or more in the system were honored.

## FORMER PUPILS SPEAK

After the banquet program, pictures were shown of schools and groups Miss Hantz had taught through the years and then former students spoke briefly in tribute to Miss Hantz.

Melvin Prosser spoke for the State Road School pupils and Mrs. Grayson Weigle, mother of six children who were taught by Miss Hantz at State Road School, read a letter of tribute for her "love and devotion" to her pupils.

Paul B. Lerew, a former pupil at Blackberry School and now a Bermudian Springs School director, spoke, as did Raymond Leer, a former pupil and also a school director. These former pupils replaced the current Fifth Graders on the stage.

## TAUGHT SUPERINTENDENT

Adams County Superintendent of Schools-elect M. Francis Coulson who went to school to Miss Hantz at Bushey's School and the Rev. Ernest Leer, a York Lutheran pastor, were next to speak. They were followed by Melvin Worley, a former Plainfield pupil.

## BIRTH ANNOUNCEMENTS

**At Warner Hospital**  
Mr. and Mrs. Charles W. Bretzman, Bendersville, son, today.  
Mr. and Mrs. Robert Snyder, 59 South St., daughter, today.

**At Carlisle Hospital**  
Mr. and Mrs. Dale M. Guise, Gardners R. 2, son, Wednesday.

## Bermudian Teachers Honored

This group of teachers in the Bermudian Springs Joint School system with periods of service ranging from 10 to 46 years each was honored at a banquet Thursday evening in the York Springs Elementary School at a gathering of 300 parents, former pupils, patrons and school officials.

They are (left to right, front row: Miriam E. Wagner, Alice H. Koons, Nellie M. Hartman, Helen R. Hantz, Nellie E. Harbold and Mary K. Dissinger; standing, Charles R. Phillips, Carroll C. Slothour, Eleanor C. Wolfinger, Margie R. Moul, Cleo C. Neely, Kathryn E. Racer, Clyde L. Kennedy and Clair L. Bricker. (Ziegler Studio photo)

## SET DATES FOR DAY CAMPS OF GIRL SCOUTS

Plans for Girl Scout Day camping at Camp Happy Valley near Fairfield were outlined Thursday evening at a meeting of the camp directors, District Adviser Miss Judy Porter and the camp coordinator, Mrs. M. Hardy Nichols, at Mrs. Nichols' home on Buford Ave.

The day camp for the Gettysburg units other than the St. Francis Xavier troops, will be held June 11-15 with Mrs. Arthur Phiel as director. The Juliette Low Neighborhood, Bendersville, Bendersville, Biglerville, Cash-town and Fairfield, will hold its day camp June 18-22 with Mrs. Marvin Fox as director. The Littlestown and St. Francis Xavier troops of Gettysburg will camp June 25-29 with Mrs. Donald Fair as director and the Conewago Chapel, East Berlin, Hampton, New Oxford and York Springs troops will be in camp July 2-6 with Mrs. Arthur Phiel as director.

As in the past, the camps will open each morning at 9 o'clock and close at 3 in the afternoon when buses will return to their starting points. Seniors who have completed their five-point program are eligible to serve as program aides and are asked to advise the directors by May 15 if they will serve.

Registration deadlines for the camps will be May 21 for the first week of camping, May 28 for the second, June 4 for the third and June 11 for the fourth week. Later registrations will be placed on a waiting list. No registration fees.

## LIST CANCER CANVASSERS IN BOROUGH

Eleven teams of solicitors are conducting the Cancer Crusade in Gettysburg with 85 workers covering all sections of the borough.

The names of the local canvassers with the name and address of each team captain listed first follow:

Mrs. J. Herbert Raymond, 66 E. Broadway; Mrs. Charles Jacobs, Mrs. Robert Codori, Miss Louise Hartzell, Mrs. Richard Folkenroth, Mrs. Harvey Knoose, Mrs. George Burgner, Mrs. Sebastian Hafer, Mrs. Sterling Musselman and Mrs. Joseph Riley.

Mrs. Robert J. Oyler, 206 Ridge Ave.; Mrs. Gilbert Lease, Mrs. Rose Bevilacqua, Mrs. Virginia Lohuis, Mrs. Leopold Pick, Mrs. Lay Brown, Mrs. William Weaver, Mrs. Richard Squith, Mrs. Richard Unger and Mrs. Charles Rogers.

## OTHER ASSIGNMENTS

Mrs. Murray Wentz, 353 York St.; Miss Leonide Bowling, Miss Helen Spangler, Mrs. James Henry, Mrs. Martin Crabbill, Miss Vestal Stallsmith, Mrs. Verna Arndt, Mrs. Lila Craig and Mrs. G. Marion Stambaugh.

Mrs. Anna Bracey, 54 E. Middle St.; Mrs. James Slaybaugh, Mrs. David McCullough, Mrs. Ralph Johnson and Mrs. George Ditchburn.

Mrs. Thomas Ziegler, 25 Stein-

## Inland Steel Won't Hike Price

CHICAGO (AP)—Joseph L. Block, chairman of Inland Steel Co., was quoted by the Chicago Daily News today as saying his firm will not follow the rise in steel prices.

An interview from Tokyo by Keyes Beech of the Daily News Foreign Service quoted Block as saying:

"Even though steel profits are not adequate, we do not feel that an advance in steel prices at this time would be in the national interest."

"That is my feeling and the feeling of our executives at home," Block told the Daily News correspondent.

The Adams County Cancer Crusade is entering its second week and the first date for captains to turn in money received from their workers will be Friday from 7 to 9 p.m. at the West Street bank.

The American Cancer Society and the National Cancer Institute have designated 1962 as Cancer Progress Year in an effort to point up the advances made against cancer in the last 25 years. While they cannot offer anything as spectacular as the man in space science has given us, they can show, in human terms, dramatic and remarkable results. Twenty-five years ago about 160,000 persons were alive, cured of cancer. Today there are more than 1,100,000. The number is increasing each day. The cure rate for cancer climbed from one out of seven in the late 1930's to one out of three in the late 1950's. Today, according to the society, it could be one out of two if all cancers were diagnosed early and treated promptly.

Among the goals of Cancer Progress Year are "to intensify the efforts being made to persuade the public to act for its own protection; to improve the care of the cancer patient; and to step up all programs to speed up the final victory over cancer."

Final victory will come from the laboratory and, while today we are in the midst of the most massive research at-

(Continued On Page 4)

## New Wax Museum Invites Local Folks

The officers and directors of the new National Civil War Wax Museum have invited Gettysburg area residents to a preview showing of their museum in its new building on Steinwehr Ave. at Culp St. next Monday, Tuesday and Wednesday from 9 a.m. to 9 p.m. Admission will be free during the three-day preview.

The museum, which contains more than 150 figures and 35 scenes and presents a panoramic tableau with more than 80 figures in an audio-visual presentation of the three-day Battle of Gettysburg, will have its formal public opening on Thursday, April 19.

## 100 VISIT COLLEGE

One hundred guidance students at Gettysburg High School visited Gettysburg College this afternoon to get a "first hand" glimpse of what the local institution looks like. Under the direction of Mrs. Anita Horch, guidance teacher, the students toured the college, visited the dormitories, laboratories, classrooms,

## SAYS THIRD OF JAYCEE PLANS IS COMPLETE

Work of remodeling the fronts of business places and homes in the central part of the community in connection with "Campaign Gettysburg" is "about 35 per cent completed," Attorney Oscar F. Spicer of the Junior Chamber of Commerce told the Business and Professional Women at their dinner meeting Thursday evening in the YWCA.

Attorney Spicer said efforts are being made to urge "100 per cent completion" by July 1, with the Jaycees planning a number of programs during the battle anniversary program to mark completion of the project.

A slide presentation on "Campaign Gettysburg" made by the Saturday Evening Post was shown with William Black as projectionist and Attorney Spicer as narrator. Both are members of the promotion committee for the campaign.

## "GIRL OF MONTH"

Miss Eileen Zeigler, daughter of Robert G. Zeigler, was introduced as the Junior Business and Professional "Girl of the Month." Miss N. Louise Ramer of the Career Advancement Committee noted that Miss Zeigler is the recipient of a \$1,200 scholarship granted by Sico Oil Corporation, the first Gettysburg High School winner of the scholarship. She will enter West Chester State College this fall to major in elementary education and specialize in teaching Spanish. She is a "straight A" senior student at the school here.

Favors for the dinner attended by 39 members and guests consisted of

## Appoint Counsel For AAA Club Here

Atty. Gerald R. Walner, Gettysburg, has been appointed legal counsel of the AAA Gettysburg Motor Club.

Announcement of the appointment was made today by William E. Miller, general manager of the club. He said the appointment "will provide an additional, valuable service to members of the local club. He will be available to members for legal advice in connection with the operation of a passenger motor vehicle."

## Allied, Red Talks Hinge On Free Access To Berlin

By JOHN M. HIGHTOWER  
WASHINGTON (AP)—The new round of U.S.-Soviet talks on the possibility of a Berlin settlement is expected to concentrate at the outset on the problem of guaranteed access for Western powers between West Germany and Berlin.

The first session will be held here Monday by Secretary of State Dean Rusk and Soviet Ambassador Anatoly F. Dobrynin.

The United States set forth its ideas on the requirements of an access agreement in an informal working paper submitted to Allied governments earlier this week in preparation for the talks.

## NEED GUARANTEES

The U.S. proposal, circulated for allied reaction and comment, is understood to have stressed the need for guarantees by the Soviet Union of unhindered access to West Berlin by surface and air routes. The possibility was raised that this could be arranged under an international authority that has operational control of the supply line.

Informants said this position on the critical access issue was substantially the same as that taken

## Conduct Services For Robert Saylor

Funeral services for Robert F. Saylor Jr., 34, Grandview Terrace, who was found dead early Wednesday morning in his service station on Carlisle St., were conducted this morning, meeting at the Bender Funeral Home at 8:15 o'clock. There was a Requiem Mass at 9 o'clock in St. Francis Xavier Catholic Church with the Rev. Fr. Joseph Kealy officiating.

Interment was made in the Gettysburg National Cemetery. The pallbearers were J. C. Lowry Jr., Bernard Yanelli, Daniel Henler, Donald McCauslin, Donald Saylor and Robert Monahan.

## CHICAGO CW ROUND TABLE COMING HERE

The Chicago Civil War Round Table will visit Gettysburg April 25-29 in a tour that will include side trips to Antietam and Harper's Ferry.

National Park Superintendent James B. Myers will be host and National Park Historians Dr. Frederick Tilberg and Dr. Harry Pfanz, guides and lecturers for the tours of the battlefield here. The Hotel Gettysburg will be the base for the visitation.

The Round Table will leave Chicago Wednesday, April 25, at 2:35 in the afternoon and arrive by plane in Washington at 7:23 that night. They will travel by bus from Washington to the Hotel Gettysburg.

## START AT CASHTOWN

Thursday, April 26, the group will leave at 9 a.m. for Cashtown where Dr. Tilberg and Dr. Pfanz will tell of the concentration of the Confederate army there, and then the group will follow the route of Lee's armies into Gettysburg to complete the study of the First Day's battle.

Following lunch at the Dutch Cupboard and Lamp Post Tea Room, with one bus going to one and the other to the other dining establishment, the group will begin a study of the Second Day's battle. That evening, following dinner at the hotel, Mrs. Pfanz and Tilberg will again speak on the battle after which the group will tour the Visitor Center and Cyclorama.

Friday, April 27, at 9 a.m. the

(Continued On Page 3)

## COLLEGE GRAD DIES THURSDAY

James Arthur Singmaster, 83, for many years president of his engineering consulting firm, Bronxville, N. Y., died Thursday. He was an alumnus of Gettysburg College in the class of 1898.

Elder brother of the late Elsie Singmaster Lewars of Gettysburg, he received the honorary degree of Doctor of Science from Gettysburg College in 1937.

He received his master's degree from Gettysburg College in 1901 after doing graduate work for two years at Lehigh University. He served with the New Jersey Zinc Company, Palmerston, N. J., successively as chemist, superintendent, general superintendent and technical director from 1900 until 1927. He was president of the firm of consulting engineers under the name of Singmaster and Bryer, Inc., from 1927 until his retirement.

He was an inventor and patent holder of numerous improvements

## TRIO IS BEING TRIED IN COURT WITHOUT JURY

Trial continued in Adams County court today on the charge of cheating by false pretense in connection with the sale of aluminum siding for homes brought against Joseph Seidman, 33, Glenolden; Irvin Jack Page, 43, Philadelphia, and Barry Marks, 33, Wynnewood.

On the stand this morning was Mrs. Clara Bittinger, sister of Mrs. Crawford Dick, who was at the home of Mr. and Mrs. Dick last August when the three Philadelphia men visited the Dick home in Freedom Twp. to seek to place aluminum siding on the home.

Testimony of Mr. and Mrs. Dick and Mrs. Bittinger has been that the three men represented that the Dick home had been chosen as a "model house" and that aluminum siding was to be placed on it and then it would be used to show others interested in siding for their homes.

## NOT USING JURY

The testimony of Mr. and Mrs. Dick was that they were to receive \$75 for each home for which aluminum siding was sold as a result of the demonstration of their home, up to \$2,960. They also contend they were to have the siding put on the side of their house free.

The contract they signed states that no one may represent the work as a model or free job and that the Dicks are to pay \$64.98 a month for 60 months for the work.

The trial is being held before the court without a jury. Mrs. Dick said Thursday afternoon that among other statements

## LIBRARY BD. REPRESENTED AT PA. AFFAIRS

Three representatives of the Adams County Public Library were in Harrisburg Thursday to attend the third Governor's Conference of Library Trustees at the Penn-Harris Hotel.

In a message from Governor Lawrence, who is in Japan, read by Attorney General David Stahl, the state executive said, "Good library service is our greatest educational ally."

The local delegation included C. P. Keefer, a member and former president of the county library's board of directors; Mrs. W. Richard Schubart, also a member of the board, and Mrs. Mary S. Wilson, the county librarian.

In his statement Lawrence described libraries as a major force in helping people perfect their skills and talents and develop their mental and spiritual resources. "It is my earnest hope that the future of Pennsylvania's public libraries will be decided on the basis of one consideration alone — the continuing fulfillment of Pennsylvania's human resources," he concluded.

## AT LEGISLATIVE DINNER

Representatives of the county library also were in Harrisburg Wednesday evening for a legislative dinner given at the Penn-Harris by the Pennsylvania Library Association and its trustees' section. Arthur P. Sinkler, Lancaster, Pennsylvania chairman for National Library Week and president of the Hamilton Watch Company, and Lt. Gov. John Morgan Davis were the speakers.

Mrs. Mary Wilson was introduced as the new lobbyist for the PLA by the state library organization's president, Miss Lorena Garlock, Pittsburgh. In addition to Mrs. Wilson, the county library was represented by Board President H. Thomas Fyle, Dr. Frank Hewelson and Mr. Keefer, members of the board of directors.

Among the legislators in attendance was State Senator D. Elmer Hawbecker of the Adams-Franklin District.

## HESS BUYS PROPERTY

Selmar Hess, Chambersburg St., bought the Robert E. McGuigan estate property on Buford Ave. at Chambersburg St. Thursday evening at public sale for \$14,000. The sale was conducted by Fred A. Hummelbaugh, executor of the McGuigan will.

## SECURE LICENSE

Marriage licenses have been secured in Westminster by the following: Dennis Innerst, East Berlin; and Arlene Harman, Dover; Arthur James Kuhn and Carrie Geisler Starry, New Oxford.

## TO TEACH CLASS

The Rev. John Bishop, assistant pastor, will be the teacher for the Men's Bible Class of St. James Lutheran Sunday School Sunday morning at 9:30 o'clock.

### 3RD INFANTRY DRUM CORPS TO MARCH MAY 30

The "Old Guard Fife and Drum Corps" of the Third U. S. Infantry Regiment, oldest active military regiment in existence, will take part in the Memorial Day parade here May 30 and the program in the cemetery, it was announced Thursday evening at a meeting of the Memorial Day committee at the GAR home, E. Middle St.

Established in 1794, the Third Infantry Regiment participated in the Indian campaigns, the War of 1812, the Mexican War, Civil War, Spanish American War, World Wars I and II and Korean War. Companies D, C, E, F, G, I and K, took part in the Battle of Gettysburg.

The "Old Guard Fife and Drum Corps" is made up of volunteers from the regiment who are chosen both for knowledge of music and of the Revolutionary and Civil War history. Its members, garbed in exact replicas of a Revolutionary War Fife and Drum Corps, will play Revolutionary War tunes here May 30 at a concert on Lincoln Square at 1:15 p.m. and for a review of a Guard of Honor from the local Howitzer Battery of the National Guard by the speaker at 1:30 o'clock. It will lead the military division of the parade and at the cemetery will play Civil War and Revolutionary War numbers during the program at the rostrum.

#### SEEK DONATIONS

According to arrangements completed by the Memorial Day committee, the fife and drum corps, stationed at Fort Meyer, will arrive here at 10 o'clock on the morning of May 30 and tour the battlefield and Visitor Center under National Park supervision before dining at the American Legion Home.

#### ADOPT \$5,500 BUDGET; OKAY NEW PROGRAMS

Miss Hantz will retire at the end of the current school term after 46 years of teaching in the York Springs area. For 42 years she taught in one-room schools. Three hundred former students and friends attended the affair.

#### MANY PAY TRIBUTE

During the banquet the present Fifth Grade class of Miss Hantz gathered on the stage to sing "School Days" and to usher their teacher from her banquet table to a seat of honor at a teacher's desk on the stage, complete with school bell and a red apple.

Then former pupils from all but two of the schools in which Miss Hantz taught rose to pay tribute to her. There were former students of Miss Hantz from the present York Springs Elementary School, the State Road School in Latimore Twp. where she taught from 1935 until the school was closed in 1959; from Blackberry School where she taught from 1923-26 and 1933-35; from Bushey's School where she was teacher from 1928-33; Plainfield, 1926-28; Miller's, 1921-23; Hickory Point, 1919-21; Fickes', 1918-19; Wierman's Mill, 1917-18, and Wilt's School, where she started teaching in the 1916-17 school year. Only the Fickes' and Wilt's schools were not represented. All of the one-room schools in which she taught are now closed.

The special program for Miss Hantz followed a banquet program at which all teachers in the school system with 10 years or more in the system were honored.

#### FORMER PUPILS SPEAK

After the banquet program, pictures were shown of schools and groups Miss Hantz had taught through the years and then former students spoke briefly in tribute to Miss Hantz.

Melvin Prosser spoke for the State Road School pupils and Mrs. Grayson Weigle, mother of six children who were taught by Miss Hantz at State Road School, read a letter of tribute to her "love and devotion" to her pupils.

Paul B. Lerew, a former pupil at Blackberry School and now a Bermudian Springs School director, spoke, as did Raymond Loer, a former pupil and also a school director. These former pupils replaced the current Fifth Graders on the stage.

#### TAUGHT SUPERINTENDENT

Adams County Superintendent of Schools-elect M. Francis Coulson who went to school to Miss Hantz at Bushey's School and the Rev. Ernest Leer, a York Lutheran pastor, were next to speak. They were followed by Melvin Worley, a former Plainfield pupil.

#### BIRTH ANNOUNCEMENTS

**At Warner Hospital**  
Mr. and Mrs. Charles W. Bretzman, Bendersville, son, today.  
Mr. and Mrs. Robert Snyder, 59 South St., daughter, today.

**At Carlisle Hospital**  
Mr. and Mrs. Dale M. Guise, Gardners R. 2, son, Wednesday.

### Bermudian Teachers Honored

This group of teachers in the Bermudian Springs Joint School system with periods of service ranging from 10 to 46 years each was honored at a banquet Thursday evening in the York Springs Elementary School at a gathering of 300 parents, former pupils, patrons and school officials.

They are (left to right, front row: Miriam E. Wagner, Alice H. Koons, Nellie M. Hartman, Helen R. Hantz, Nellie E. Harbold and Mary K. Dissinger; standing, Charles R. Phillips, Carroll C. Slothour, Eleanor C. Wolfinger, Margie R. Moul, Cleo C. Neely, Kathryn E. Racer, Clyde L. Kennedy and Clair L. Bricker. (Ziegler Studio photo)

### SET DATES FOR DAY CAMPS OF GIRL SCOUTS

Plans for Girl Scout Day camp at Camp Happy Valley near Fairfield were outlined Thursday evening at a meeting of the camp directors, District Adviser Miss Judy Porter and the camp coordinator, Mrs. M. Hardy Nichols, at Mrs. Nichols' home on Buford Ave.

The day camp for the Gettysburg units other than the St. Francis Xavier troops, will be held June 11-15 with Mrs. Arthur Phiel as director. The Juliette Low Neighborhood, Arentsville, Bendersville, Biglerville, Cash-town and Fairfield, will hold its day camp June 18-22 with Mrs. Marvin Fox as director. The Littlestown and St. Francis Xavier troops of Gettysburg will camp June 25-29 with Mrs. Donald Fair as director and the Conewago Chapel, East Berlin, Hampton, New Oxford and York Springs troops will be in camp July 2-6 with Mrs. Arthur Phiel as director.

As in the past, the camps will open each morning at 9 o'clock and close at 3 in the afternoon when buses will return to their starting points. Seniors who have completed their five-point program are eligible to serve as program aides and are asked to advise the directors by May 15 if they will serve.

Registration deadlines for the camps will be May 21 for the first week of camping, May 28 for the second, June 4 for the third and June 11 for the fourth week. Later registrations will be placed on a waiting list. No registration fees.

Mrs. Robert J. Oyler, 206 Ridge Ave.; Mrs. Gilbert Lease, Mrs. Rose Bevilacqua, Mrs. Virginia Lohuis, Mrs. Leopold Pick, Mrs. Jay Brown, Mrs. William Weaver, Mrs. Richard Smith, Mrs. Richard Unger and Mrs. Charles Rogers.

#### OTHER ASSIGNMENTS

Mrs. Murray Wentz, 353 York St.; Miss Leonide Bowling, Miss Helen Spangler, Mrs. James Henry, Mrs. Martin Crabbill, Miss Vestal Stallsmith, Mrs. Verna Arndt, Mrs. Lila Craig and Mrs. G. Marion Stambaugh.

Mrs. Anna Bracey, 54 E. Middle St.; Mrs. James Slaybaugh, Mrs. David McCullough, Mrs. Ralph Johnson and Mrs. George Ditchburn.

Mrs. Thomas Ziegler, 25 Stein-

(Continued On Page 3)

#### CLERICAL ERROR

The real estate assessment in East Berlin is \$695,331, the chief assessor's office said today. A clerical error had shown an assessment of \$657,706 which was reported in the list of assessments published earlier this week. The increase found in the East Berlin assessment raises the total assessment for the county to \$32,277,007.

### Inland Steel Won't Hike Price

CHICAGO (AP) — Joseph L. Block, chairman of Inland Steel Co., was quoted by the Chicago Daily News today as saying his firm will not follow the rise in steel prices.

An interview from Tokyo by Keyes Beech of the Daily News Foreign Service quoted Block as saying:

"Even though steel profits are not adequate, we do not feel that an advance in steel prices at this time would be in the national interest."

"That is my feeling and the feeling of our executives at home," Block told the Daily News correspondent.

#### The Adams County Cancer Crusade

is entering its second week and the first date for captains to turn in money received from their workers will be Friday from 7 to 9 p.m. at the West Street bank.

The American Cancer Society and the National Cancer Institute have designated 1962 as Cancer Progress Year in an effort to point up the advances made against cancer in the last 25 years. While they cannot offer anything as spectacular as the man in space science has given us, they can show, in human terms, dramatic and remarkable results. Twenty-five years ago about 160,000 persons were alive, cured of cancer. Today there are more than 1,100,000. The number is increasing each day. The cure rate for cancer climbed from one out of seven in the late 1930's to one out of three in the late 1950's. Today, according to the society, it could be one out of two if all cancers were diagnosed early and treated promptly.

#### Among the goals of Cancer Progress Year

are "to intensify the efforts being made to persuade the public to act for its own protection; to improve the care of the cancer patient; and to step up all programs to speed up the final victory over cancer."

Final victory will come from the laboratory and, while today we are in the midst of the most massive research at

(Continued On Page 4)

### New Wax Museum Invites Local Folks

The officers and directors of the new National Civil War Wax Museum have invited Gettysburg area residents to a preview showing of their museum in its new building on Steinwehr Ave. at Culp St. next Monday, Tuesday and Wednesday from 9 a.m. to 9 p.m. Admission will be free during the three-day preview.

The museum, which contains more than 150 figures and 35 scenes and presents a panoramic tableau with more than 80 figures in an audio-visual presentation of the three-day Battle of Gettysburg, will have its formal public opening on Thursday, April 19.

#### 100 VISIT COLLEGE

One hundred guidance students at Gettysburg High School visited Gettysburg College this afternoon to get a "first hand" glimpse of what the local institution looks like. Under the direction of Mrs. Anita Horch, guidance teacher, the students toured the college, visited the dormitories, laboratories, classrooms, etc.

### SAYS THIRD OF JAYCEE PLANS IS COMPLETE

Work of remodeling the fronts of business places and homes in the central part of the community in connection with "Campaign Gettysburg" is "about 35 per cent completed," Attorney Oscar F. Spicer of the Junior Chamber of Commerce told the Business and Professional Women at their dinner meeting Thursday evening in the YWCA.

Attorney Spicer said efforts are being made to urge "100 per cent completion" by July 1, with the Jaycees planning a number of programs during the battle anniversary program to mark completion of the project.

A slide presentation on "Campaign Gettysburg" made by the Saturday Evening Post was shown with William Black as projectionist and Attorney Spicer as narrator. Both are members of the promotion committee for the campaign.

#### "GIRL OF MONTH"

Miss Eileen Zeigler, daughter of Robert G. Zeigler, was introduced as the Junior Business and Professional "Girl of the Month." Miss N. Louise Ramer of the Career Advancement Committee noted that Miss Zeigler is the recipient of a \$1,200 scholarship granted by Sico Oil Corporation, the first Gettysburg High School winner of the scholarship. She will enter West Chester State College this fall to major in elementary education and specialize in teaching Spanish. She is a "straight A" Senior student at the school here.

Favors for the dinner attended by 39 members and guests consisted of

### Appoint Counsel For AAA Club Here

Atty. Gerald R. Walmer, Gettysburg, has been appointed legal counsel of the AAA Gettysburg Motor Club.

Announcement of the appointment was made today by William E. Miller, general manager of the club. He said the appointment "will provide an additional, valuable service to members of the local club. He will be available to members for legal advice in connection with the operation of a passenger motor vehicle."

## Allied, Red Talks Hinge On Free Access To Berlin

By JOHN M. HIGHTOWER

WASHINGTON (AP) — The new round of U.S.-Soviet talks on the possibility of a Berlin settlement is expected to concentrate at the outset on the problem of guaranteed access for Western powers between West Germany and Berlin.

The first session will be held here Monday by Secretary of State Dean Rusk and Soviet Ambassador Anatoly F. Dobrynin.

The United States set forth its ideas on the requirements of an access agreement in an informal working paper submitted to Allied governments earlier this week in preparation for the talks.

#### NEED GUARANTEES

The U.S. proposal, circulated for allied reaction and comment, is understood to have stressed the need for guarantees by the Soviet Union of unhindered access to West Berlin by surface and air routes. The possibility was raised that this could be arranged under an international authority that has operational control of the supply line.

Informants said this position on the critical access issue was substantially the same as that taken

### Conduct Services For Robert Saylor

Funeral services for Robert F. Saylor Jr., 34, Grandview Terrace, who was found dead early Wednesday morning in his service station on Carlisle St., were conducted this morning, meeting at the Bender Funeral Home at 8:15 o'clock. There was a Requiem Mass at 9 o'clock in St. Francis Xavier Catholic Church with the Rev. Fr. Joseph Kealy officiating.

Interment was made in the Gettysburg National Cemetery. The pallbearers were J. C. Lowry Jr., Bernard Yanetti, Daniel Hemler, Donald McCauslin, Donald Saylor and Robert Monahan.

### CHICAGO CW ROUND TABLE COMING HERE

The Chicago Civil War Round Table will visit Gettysburg April 25-29 in a tour that will include side trips to Antietam and Harper's Ferry.

National Park Superintendent James B. Myers will be host and National Park Historians Dr. Frederick Tilberg and Dr. Harry Pfanz, guides and lecturers for the tours of the battlefield here. The Hotel Gettysburg will be the base for the visitation.

The Round Table will leave Chicago Wednesday, April 25, at 2:35 in the afternoon and arrive by plane in Washington at 7:23 that night. They will travel by bus from Washington to the Hotel Gettysburg.

#### START AT CASHTOWN

Thursday, April 26, the group will leave at 9 a.m. for Cashtown where Dr. Tilberg and Dr. Pfanz will tell of the concentration of the Confederate army there, and then the group will follow the route of Lee's armies into Gettysburg to complete the study of the First Day's battle.

Following lunch at the Dutch Cupboard and Lamp Post Tea Room, with one bus going to one and the other to the other dining establishment, the group will begin a study of the Second Day's battle. That evening, following dinner at the hotel, Dr. Pfanz and Tilberg will again speak on the battle after which the group will tour the Visitor Center and Cyclorama.

Friday, April 27, at 9 a.m. the

(Continued On Page 3)

### COLLEGE GRAD DIES THURSDAY

James Arthur Singmaster, 83, for many years president of his engineering consulting firm, Bronxville, N. Y., died Thursday. He was an alumnus of Gettysburg College in the class of 1898.

Eldest brother of the late Elsie Singmaster Lewars of Gettysburg, he received the honorary degree of Doctor of Science from Gettysburg College in 1957.

He received his master's degree from Gettysburg College in 1901 after doing graduate work for two years at Lehigh University. He served with the New Jersey Zinc Company, Palmerston, N. J., successively as chemist, superintendent, general superintendent and technical director from 1900 until 1927. He was president of the firm of consulting engineers under the name of Singmaster and Bryer, Inc., from 1927 until his retirement.

He was an inventor and patent holder of numerous improvements

(Continued On Page 3)

### TRIO IS BEING TRIED IN COURT WITHOUT JURY

Trial continued in Adams County court today on the charge of cheating by false pretense in connection with the sale of aluminum siding for homes brought against Joseph Seidman, 53, Glenolden; Irvin Jack Page, 43, Philadelphia, and Barry Marks, 33, Wynwood.

On the stand this morning was Mrs. Clara Bittinger, sister of Mrs. Crawford Dick, who was at the home of Mr. and Mrs. Dick last August when the three Philadelphia men visited the Dick home in Freedom Twp. to seek to place aluminum siding on the home.

Testimony of Mr. and Mrs. Dick and Mrs. Bittinger has been that the three men represented that the Dick home had been chosen as a "model house" and that aluminum siding was to be placed on it and then it would be used to show others interested in siding for their homes.

#### NOT USING JURY

The testimony of Mr. and Mrs. Dick was that they were to receive \$75 for each home for which aluminum siding was sold as a result of the demonstration of their home, up to \$2,960. They also contend they were to have the siding put on the side of their house free.

The contract they signed states that no one may represent the work as a model or free job and that the Dicks are to pay \$64.98 a month for 60 months for the work.

The trial is being held before the court without a jury. Mrs. Dick said Thursday afternoon that among other statements

(Continued On Page 2)

### LIBRARY BD. REPRESENTED AT PA. AFFAIRS

Three representatives of the Adams County Public Library were in Harrisburg Thursday to attend the third Governor's Conference of Library Trustees at the Penn-Harris Hotel.

In a message from Governor Lawrence, who is in Japan, read by Attorney General David Stahl, the state executive said, "Good library service is our greatest educational ally."

The local delegation included C. P. Keefe, a member and former president of the county library's board of directors; Mrs. W. Richard Schubart, also a member of the board, and Mrs. Mary S. Wilson, the county librarian.

In his statement Lawrence described libraries as a major force in helping people perfect their skills and talents and develop their mental and spiritual resources. "It is my earnest hope that the future of Pennsylvania's public libraries will be decided on the basis of one consideration alone — the continuing fulfillment of Pennsylvania's human resources," he concluded.

#### AT LEGISLATIVE DINNER

Representatives of the county library also were in Harrisburg Wednesday evening for a legislative dinner given at the Penn-Harris by the Pennsylvania Library Association and its trustees' section. Arthur P. Sinkler, Lancaster, Pennsylvania chairman for National Library Week and president of the Hamilton Watch Company, and Lt. Gov. John Morgan Davis were the speakers.

Mrs. Mary Wilson was introduced as the new lobbyist for the PLA by the state library organization's president, Miss Lorena Garloch, Pittsburgh. In addition to Mrs. Wilson, the county library was represented by Board President H. Thomas Pyle, Dr. Frank Hewitson and Mr. Keefe, members of the board of directors.

Among the legislators in attendance was State Senator D. Elmer Hawbecker of the Adams-Franklin District.

#### HESS BUYS PROPERTY

Selman Hess, Chambersburg St., bought the Robert E. McGuigan estate property on Buford Ave. at Chambersburg St. Thursday evening at public sale for \$14,000. The sale was conducted by Fred A. Hummelbaugh, executor of the McGuigan will.

#### SECURE LICENSE

Marriage licenses have been secured in Westminster by the following: Dennis Innerst, East Berlin, and Arlene Harman, Dover; Arthur James Kuhn and Carrie Geisler Starry, New Oxford.

#### TO TEACH CLASS

Rev. John Bishop, assistant pastor, will be the teacher for the Men's Bible Class of St. James Lutheran Sunday School Sunday morning at 9:30 o'clock.

## PLAN PAGEANT AT FAIRFIELD

The Mennonite Players, a religious drama group of the Fairfield Mennonite Church, will present its annual Easter play Palm Sunday evening at 7:30. The program is one of a series of Lenten services sponsored by the Fairfield Mennonite Church.

The three-act drama, "The Stumbling Block," by Mary U. Glazener, will be presented at the Fairfield Mennonite Church under the direction of Mrs. Arthur Roth. Set in the first century A. D., the play deals with racial and social tensions and prejudices between the Jerusalem and Greek Christians.

J. Warren Martin portrays the Apostle Paul on his last visit to Jerusalem. Others in the cast are Mrs. Charles Williams, G. E. R. Smith, Cathy Roth, Roger Benner, Ray Trembow, R. Edwin Stoner, Mrs. J. Warren Martin, G. Robert Smith, John D. Benner and Frederick K. Bream.

The costuming is under the supervision of Mrs. Lloyd Benner and Mrs. Delmar Richardson. David Benner and Robert Bream will direct the staging.

## SA FUNDS USED ON N.J. COAST

Money raised by the Adams County Salvation Army Service Units during last year's campaign helped feed persons driven from their homes along the New Jersey coast by the recent storm there, Roland W. Keller, Salvation Army Service Extension director, said today.

In urging countians to donate in the current county-wide drive for \$7,666, Keller noted that the Salvation Army provided 10 mobile canteens which for 13 days served disaster victims, police Civil Defense Workers, linemen and all emergency workers with hot food, clothing, etc., on a 24 hour a day basis, along the New Jersey and Delaware coasts.

The Adams County Salvation Army Service units' contribution went specifically towards a new modern mobile canteen which was on duty in the Long Beach, N. J., area for 10 days. The unit served more than 1,000 individuals daily for the first 10 days during and after the storm. In the beginning of the storm the unit provided water and hot food to the residents of the storm stricken area and was the only means of serving food on the island for the first four days during which electric and water supplies were completely cut off.

Keller observed that no matter where a disaster strikes the Salvation Army goes to provide the necessities of life to victims of the disaster and emergency workers. Contribution to the Salvation Army, he said, help carry on disaster assistance as well as meeting the needs of unfortunate local individuals.

### HOSPITAL REPORT

Admissions: Walter Guyette, 15 Chambersburg St.; Linda A. Lewis, Thurmont R. 2; Mrs. Elizabeth N. Holoka, R. 1; Mrs. Charles Holland, York Springs; Mrs. Robert A. Epley, Hanover; Mrs. Charles W. Bretzman, Bendersville; Mrs. Robert Snyder, 59 South St.; Maurice N. Gardner, Biglerville R. 1; Julius Barthelme, East Berlin, instead of Julia Barthelme, has been admitted.

Staub and infant daughter, New Oxford R. 1; Mrs. Richard E. Hess and infant son, Biglerville R. 1; Mrs. John E. Hilliard and infant son, Hanover; Mrs. Kenneth Appller, Littlestown R. 1; Stephen Olinger, 137 S. Washington St.; Michael and Richard Rosensteel, Emmitsburg; John C. Mickle Jr., Biglerville R. 1; Mrs. Bernard M. Decker, Taneytown R. 1; Barbara J. Summers, Cumberland Twp.

## Weather

Extended forecasts for April 14 through April 18:

Eastern Pennsylvania, Southeastern New York and New Jersey — Temperatures are expected to average near normal over southeastern New York and two to six degrees below normal over eastern Pennsylvania and New Jersey. Milder Saturday and Sunday. Cooler Monday with little day-to-day change Tuesday and Wednesday. Precipitation may total more than one-half of an inch, falling as rain or showers during the middle of the period.

Middle Atlantic States—Temperatures will average about five degrees below normal. Cool Saturday, warmer Sunday, cooler Monday or Tuesday. Precipitation will be about Monday and Wednesday and may average one-half of an inch.

Western Pennsylvania — Temperatures will average three to six degrees below normal. A little warmer Saturday but turning cooler again around the first of the week. Precipitation will average about three-quarters of an inch, occurring as snow flurries in the north portion Saturday and showers Sunday and Monday.

## Social Happenings

For Social News Phone ED 4-4613 or 4-1131

Mrs. Frank H. Sargent and son, Brent, have returned to their home in Fairfax, Va., after visiting the former's parents, Mr. and Mrs. C. R. Wolff, York St.

The Gettysburg Alumni Club of Alpha Xi Delta will meet with the active chapter of the sorority in the sorority room in Hanson Hall Sunday evening at 5:30 p.m. for dessert.

The Hannah Circle of St. James Lutheran Church met Wednesday evening in the Maud Miller room following Lenten service, with 11 members present. The program "The Well Read Woman" was in charge of Mrs. Arthur Warman.

The Arts and Crafts Guild of Adams County has resumed the practice of displaying paintings and craft articles in the window of Harry D. Ridinger's insurance office, Carlisle St. The displays will be changed weekly. The painting now on display was painted by Rear Admiral Earle A. Dely, East Berlin R. 2, and is an idealistic conception of "A Dream City."

Mrs. Warren Heiny, president of the ULCW of the Central Pennsylvania Synod, was the guest speaker at the meeting of Women of the Seminary Tuesday evening. She discussed the work of the ULCW.

Miss Grace C. Kenney, associate professor of health and physical education at Gettysburg College, has returned from Cincinnati where she attended the national convention for health, physical education and recreation.

Mrs. Thomas L. Cline Jr. has announced the following entries to date for the Table Fashions Tea being sponsored by the Episcopal Churchwomen on May 4: Woman's Community Club of Littlestown and vicinity, Gamma Phi Beta sorority alumni, Woman's Club of Gettysburg, Gettysburg Garden Club, Woman's Christian Fellowship of the Presbyterian Church, Soroptimist Club, Marsh Creek Homemakers Club, Linen Shop, York and Naval Officers' Club, Mechanicsburg. Reservations may be made with Mrs. Cline until April 20.

St. Francis Xavier Mother's Club will have a bake sale on Saturday from 9 a.m. to noon at the Gettysburg Hardware Store.

The Eagles Club will hold a dance on Saturday evening with the Variety Trio playing.

The Mary Howe Trio will play at the VFW for dancing on Saturday evening.

Dancing to the music of the Walter Carl's Orchestra will be the Saturday evening feature at the Elks' Club.

The Moose Club will have a family party this evening, Saturday evening they will feature two floor shows and dancing to Pat Patterson's Orchestra.

Dr. Ralph B. Jackson, local veterinarian, addressed the Adams County 4-H Light Horse and Pony Club Thursday evening at the West St. Bank on the topic "Horse Health." He discussed first aid measures to be used before the veterinarian arrives and answered questions on preventive care and symptoms to look for in examining a sick horse.

Wilson Clapsaddle spoke briefly on a possible club-sponsored horse show to be held before the roundup August 8. Mrs. Lawrence Heltzel invited any interested Little Valley 4-H'ers to accompany the Ridge View Club on its two scheduled trips to the state police academy at Hershey, Pa.

Plans for next month's program of a "Show of Breeds" were discussed. Horse show dates are April 21, Tamec Farms, Carlisle, and May 6, Carroll-Adams Show, Littletown. The next meeting of the club will be May 17.

### Methodist WSCS Meeting Is Held

"The Responsible Christian Citizen" was the theme of the devotion at the monthly meeting of the Woman's Society of Christian Service of Centenary Methodist Church, held on Tuesday evening at the church. Mrs. Lois Sells, April program leader, led the group prayer. Mrs. Estella Furlow was pianist for group singing.

Mrs. Faye Daum, president, conducted the business period. Reports were heard from Mrs. Marian Study, Mrs. Esther Beachtel, Mrs. Ruth Smith and Mrs. Christine Jones. The closing prayer was led by Mrs. Daum. The birthdays of Mrs. Maggie Cutsail, Mrs. Bertha Babyion, Mrs. Lottie Meliott, Mrs. Carrie Byers, Mrs. Charlotte Byers and Mrs. Marguerite Howell were noted.

A white elephant sale, conducted by Mrs. Marjorie Morelock, was enjoyed during the social hour. The door prize was contributed by Mrs. Marian Study and won by Mrs. Evelyn Brown. Refreshments were served to the group by Mrs. Study, Mrs. Nancy Bucke, Mrs. Betty Warehime, Mrs. Joan Feeser and Mrs. Catherine Mayers.

It is planned to have a guest

## TRIO IS BEING

(Continued From Page 1)

made by the three men was that they had a "good friend in Gettysburg, Attorney Daniel Teeter." Teeter, as district attorney, is prosecuting the three on the cheating charge, which also includes a count of conspiracy to do an unlawful act.

"AN IMPORTANT GUY" Mrs. Dick said she told the men that "you don't get something for nothing" as they outlined the plan to the Dick family, but she added they insisted that in the Dick case the family would "get something for nothing."

Mrs. Dick said she believed the statements when Marks, under the name "B. Shane" appeared in a white Cadillac and was represented as a representative of "Reynolds Aluminum Co. earning \$75,000 a year." She said they had been told that Reynolds was opening an office here and "that's a big company and I was sure they were gonna open an office here and when you get a fellow making that much money he's an important guy."

Fern Olier, a local aluminum dealer, and a representative of a Hanover aluminum concern, testified that the cost of work called for in the installation specified in the Dick contract would be "about \$960" and the cost of a similar job involving the use of the best quality material would be "about \$1,300." Both testified that Reynolds Aluminum, as far as they knew, does not making siding for houses, but it is the primary manufacturer, providing the metal which other firms make into siding for houses.

The trial continued this afternoon. Trial was to have been heard today of the action in replevin with bond brought by Motor Insurance Corporation of New York against Hilly Rife Motors of New Oxford. The case concerned a station wagon allegedly stolen in Canada which later was located on the New Oxford company's lot. Thursday afternoon Attorneys Donald G. Oyler and Eugene Hartman, representing the contending parties, asked the court to continue the case for settlement.

## HOSEY SIGNS GUILTY PLEAS

Roy Raymond Hosey, 56, Hot Springs R. 2, Va., this morning entered pleas of guilty to charges of aggravated assault and battery and assault with deadly weapon before Justice of the Peace Robert P. Snyder.

Hosey, charged with stabbing George Elmer Daniels, 46, Berkeley, W.Va., Monday night at Biglerville, left the scene following the incident and was arrested by Virginia state police in Hot Springs as a result of a teletype sent out by local state police asking that Hosey be picked up.

Sheriff Dawson Miller and Deputy Guy Seifert went to Hot Springs jail Thursday to pick up Hosey and bring him here. They arrived with their prisoner Thursday night.

Hosey was one of a number of persons visiting a relative in Biglerville Monday. Monday night an argument began and during the course of it Daniels was stabbed in the stomach, and cut on the face, ear and chest. He was removed to the Warner Hospital here and state police notified. By that time Hosey had left the premises, and the search began for him.

Following the arraignment before the justice this morning, Hosey was returned to jail for sentence by the county court.

### NEW YORK EGGS

NEW YORK (AP) - (USDA) - Wholesale egg offerings short on large; ample on medium browns and generally light on balance. Demand active on large; fair on medium browns and good on balance.

Calves 675. Good and choice vealers 30.00 to 35.00; choice and prime 35.00 to 40.00; utility 20.00 to 26.00.

speaker at the next meeting on Tuesday, May 8, at the church. The hostesses will be Mrs. Bertha Shull, Mrs. Violet Staveland and Mrs. Lois Sells.

## G. J. BAADTE DIES THURSDAY

George J. Baadte, 62, Gettysburg R. 4, died Thursday at his farm home in Mt. Pleasant Twp. He had been in ill health for about two years, suffering from a heart condition.

The barn at the Baadte farm burned March 24 with a loss of about \$20,000. Fire from the barn threatened the Baadte home for a time.

A native of Sheldon, Iowa, he was born February 19, 1900, a son of F. A. and Elizabeth (Moes) Baadte. He was a member of St. Joseph's Catholic Church, Bonneauville.

Surviving are his wife, the former Genevieve Doffmeyer, and five children: Gerald Baadte, Salisbury, Md.; Donald Baadte, Gettysburg R. 4; Robert Baadte, Hanover; Seaman John Baadte, Great Lakes Naval Base, and Mrs. Iris Bollinger, Hanover. Also surviving are three sisters, Mrs. Isabelle Harker, Plain Oaks, Ill.; Mrs. Eleanor Williams, also of Plain Oaks, and Mrs. Mildred Callenius, Remson, Iowa; two brothers, Albert Baadte, Lemar, Iowa, and Earl Baadte, Lankford, S. D., and 13 grandchildren.

A viewing will be held at the Peters Funeral Home here this evening from 7 to 9 o'clock with the Rev. Fr. Louis Forng to lead prayers at 8 o'clock.

The body will then be shipped to the Vander-Ploeg Funeral Home, Sheldon, Iowa, for requiem mass at St. Anthony's Catholic Church and interment in the church cemetery in Hoster, Iowa.

## J. D. POHLMAN EXPIRES AT 76

Joseph Dominic Pohlman, 76, Gettysburg R. 5, died this morning at 5:05 o'clock in the Hanover Hospital where he had been a patient for three weeks. He had been in failing health for the last year.

A native of Adams County, he was a son of the late Francis and Mary (Goshman) Pohlman. His wife, the former Amelia M. Fleschman, died in 1951.

A retired farmer, he was a member of Sacred Heart Catholic Church (Conewago Chapel), and is survived by seven children: Miss Salome M. Pohlman, Gettysburg R. 5; Mrs. G. Guy Smith, Littlestown R. 2; Mrs. Herbert R. Wildasin, Gettysburg R. 5; Mrs. Llewellyn E. Zartman, New Oxford R. 1; Gerald J. Pohlman, New Oxford R. 2; Miss Rita L. Pohlman, Gettysburg R. 5, and Mrs. Howard J. Bowling, Carlisle, Calif.

Also surviving are 13 grandchildren and two brothers, Michael Pohlman, Hanover R. 4, and J. Eugene Pohlman, New York City.

Funeral services Monday morning, meeting at the Fred F. Feiser Funeral Home, New Oxford, at 8 o'clock to go to Sacred Heart Church for a requiem mass at 8:45 o'clock at which the Rev. Fr. John P. Bolen will officiate. Interment in the church cemetery. Friends may call Sunday evening after 7 o'clock at the funeral home in New Oxford. The rosary will be recited there at 8 o'clock that evening.

## 3RD INFANTRY

(Continued From Page 1)

place worn out bunting. He reported a balance of \$200 in the account.

Warman said letters will be sent various business places and individuals within about a week asking donations for the current Memorial Day activities. He said extra large donations are being asked to permit increasing the balance so funds will be available for "an especially large Memorial Day program in 1963."

### SELECTING SPEAKER

Chairman Chester S. Shriver said the Marine Band has placed Gettysburg's Memorial Day program in 1963 as "top priority" on its list of engagements. The only thing that would prevent its presence would be need to provide music for some special event at the call of the President of the U. S., Shriver said he had been told.

Secretary William G. Weaver said the U. S. Defense Department is selecting the speaker for this year's program and it is anticipated his name will be made known to the local committee soon.

As mayor, Secretary Weaver said the town's decorations will be placed for Memorial Day. Park Superintendent James B. Myers reported on plans for decoration of the National Cemetery for the event. Parade Marshal LeRoy Winebrenner gave preliminary reports on plans for the parade.

### READ REGRETS

Letters of regret for inability to be present May 30 were read from General Dwight D. Eisenhower, Vice President Lyndon B. Johnson, U. S. Senator Barry Goldwater and Secretary of Defense McNamara.

Next meeting of the committee will be held at the GAR rooms on Friday, May 4.

The VFW committee of the Memorial Day committee promised to send invitations to all veterans' groups in the area to attend the services May 30.

## Upper Communities

Telephone Mrs. John Leeti, Biglerville 677-7612

Members of Flohr's Lutheran Church, McKnightstown, will vote on the preliminary plan for a parish education building on Sunday morning from 8:30 to 9 o'clock, 10 to 10 15 o'clock, and 11:15 to 11:30 o'clock.

The Young People's Department of St. Paul's Lutheran Church and Bender's Lutheran Church, Biglerville, will go to Harrisburg Sunday to see "The Passion Play." Bus transportation will leave from St. Paul's Church parking lot at 5:30 p.m. The total cost for ticket and bus fare will be \$1 per person.

"Do's and Don'ts of Flower Arranging," was the theme of an illustrated talk by Mrs. Charles Conrad, Lemoyne, at a special meeting of the Biglerville Garden Club Monday evening. She discussed different phases of the schedule of the Biglerville Garden Club Flower Show which will be held on May 3 and 4 in the social rooms of St. Paul's Lutheran Church, Biglerville. The public is invited to attend the flower show and tea. Hostesses for Monday evening's meeting were Mrs. Sterling Roth, chairman, Mrs. Jane Wilson, Mrs. O. A. Nary and Mrs. Earl Carey.

The next regular meeting of the club will be held on June 11 at 2 p.m. with the Gettysburg Garden Club members as guests. Presidents and several members of other garden clubs in District Four will also be invited. Mrs. M. Francis Coulson will be in charge of the program. The hostesses will be Mrs. Clair Shillito, chairman, Mrs. Robert C. Eicholtz, Mrs. Daniel Dettler, Mrs. Richard Trostel, Mrs. J. Willis Weigle, Mrs. Robert E. Eicholtz and Mrs. Charles Spicer.

The Biglerville Service Unit of the Salvation Army has two wheel chairs available for use. Anyone desiring the use of them may contact Miss Jean Thomas of Thomas' Country Store, Biglerville.

The second year Catechetical Class of Flohr's Lutheran Church, McKnightstown, will be confirmed on Palm Sunday morning during the 9 o'clock service.

A Holy Baptism service will be held at the Wenksville Methodist Church at 9 o'clock, at the Bendersville Methodist Church at 10 o'clock, and at the Orrtanna Methodist Church at 11:30 o'clock Palm Sunday morning.

The Woman's Society of Christian Service of the Orrtanna Methodist Church will hold a sacrificial meal Sunday evening at 7:30 o'clock at the church.

The Bendersville Methodist Church Choir will rehearse at the church Monday evening at 7:30 o'clock.

The ladies of Bender's Lutheran Church, Butler Twp., will hold a food sale on Saturday, April 21, beginning at 8 a.m. in front of Dugan's Barber Shop, S. Main St., Biglerville.

The Biglerville Elementary School Patrol has been chosen as one of three patrols in Adams County to be guests of the AAA at the Shrine Circus. The group will go by bus with the other two patrols to Harrisburg, leaving the Eisenhower Elementary School building, Gettysburg, at noon on April 28.

Mrs. Dora Shaffer, Gardners, was the guest of honor at a surprise birthday party Wednesday evening given by her husband at the home of their son-in-law and daughter, Mr. and Mrs. Edward Kuykendall, Gardners. Balloons were used in decorating, and a birthday cake centered the refreshment table. Those present were: Mr. and Mrs. James Trump, Mr. and Mrs. Wilbert Trump, Lester Trump and children, Dean, Leon, Brenda and Carlos, Mr. and Mrs. Mervin Murray, Mr. and Mrs. Peter Kimmel, Mr. and Mrs. Nile Little and son, Richard, and Mr. and Mrs. Kuykendall's daughters, Debbie and Brenda. Mrs. Shaffer received many gifts.

The April meeting of the Christian Fellowship Sunday School Class of Trinity United Church of Christ, Biglerville, which was scheduled for Saturday evening, has been cancelled.

The Trilogy Club will meet Tuesday afternoon at 2 o'clock at the home of Mrs. Ralph Tyson, Gardners. Mrs. William Wilson, Gettysburg, is in charge of the program and will have as her guest Mrs. D. L. Radsma, Gettysburg, who will speak on her native country, Holland.

Paraments purchased and made by the Ladies Aid Society of the Upper Meridian Lutheran Church, Gardners R. D., will be dedicated during the worship service Sunday morning at 9 o'clock.

### REPORTS DAMAGE

Dr. John Beegle, 253 Baltimore St., notified borough police Thursday night that someone had backed into the garage door of a property owned by his father at 255 Baltimore St.

## DEATHS

J. Raymond Anderson

J. Raymond Anderson, 77, Newville R. 1, died Wednesday evening at his home.

He was born in Cumberland County to the late Charles and Nancy Maurice Anderson. He was a retired farmer.

He is survived by his wife, Mrs. Grace Golden Anderson; three sons, John Anderson, East Berlin R. 1; George, Carlisle R. 6, and Carl, Carlisle; 14 grandchildren, nine great-grandchildren; four brothers, James Anderson, R. 2; Oscar, Carlisle R. 6; Norman, Carlisle R. 5, and Charles, Newville, and two sisters, Mrs. Earl Raudabaugh, Carlisle R. 6, and Mrs. Norman Souders, Newville R. 1.

The funeral services will be held on Saturday at 2 p.m. in the Gibson Funeral Home, Mt. Holly Springs, with Rev. Jacob Zepp officiating. Burial will be in the Mt. Holly Springs Cemetery. Friends may call this evening at the funeral home.

Mrs. Mary Ella Ecker, Mrs. Mary Ella Ecker, 88, Taneytown R. 1, died this morning at 10:10 o'clock at the Warner Hospital where she was admitted Tuesday.

Funeral arrangements, in charge of the Little Funeral Home, Littlestown, are incomplete.

## TEACHER WHO

(Continued From Page 1)

pill, and Clyde Kennedy, formerly a pupil at Wierman's Mill School and now a high school teacher at Bermudian Springs. He was among eight or nine former pupils of Miss Hantz identified as members of the teaching profession or preparing for it.

At the banquet Miss Hantz had been presented with a camera by the teachers' association there. She also was given an orchid corsage from Hawaii and one of the floral centerpieces from the banquet tables.

After the formal program, Miss Hantz greeted the scores of former pupils who had gathered for the affair.

### HONOR 17 'VETS

Amos D. Meyers, supervising principal of the Bermudian Springs schools, was master of ceremonies for the program for Miss Hantz. John Rebert, president of the Bermudian Springs teachers' organization, was the toastmaster for the banquet.

The teachers, in addition to Miss Hantz, who were recognized for periods of service covering 10 years or more included: Miriam C. Wagner, Alice H. Koons, Nelle M. Hartman, Nellie E. Harbold, Mary K. Dissinger, Charles R. Phillips, Carroll C. Slothour, Eleanor C. Wolfinger, Margie R. Moul, Cleo C. Neely, Kathryn E. Rager, Clyde L. Kennedy, Clair L. Bricker, Glenn Kemper, Charles Kennedy and Dale R. Roth. All were in attendance except the last three named.

## Two Communions For Presbyterians

Palm Sunday will be observed in the Gettysburg Presbyterian Church with the sacrament of Holy Communion being administered at both the 8:30 and 10:45 a.m. services. The anthem, "The Palms" by Faure will be sung by the Senior Choir with George Heffran, soloist, and the second selection will be "Surely He Hath Borne Our Griefs" by Handel from "The Messiah." The Communion meditation by the pastor, the Rev. R. A. MacAskill; will be "Prelude To Triumph."

At the 8:30 a.m. service the following members of the Communicants' class will unite with the church: Maria Toni Barriga, Debbie Beldier, John Biggins, Lucinda Deitch, Ellen Johnson, Sarah Lott, Susan Markley, Besse Moorhead, Kathy Orwig, Wayne Stahle, Debbie, A. N. Stahle, Susan Swope and Edmund Thomas III. Other uniting will be Miss Alice Biggins, Mr. and Mrs. Barry Breighner, Mr. and Mrs. Harold E. Day, Mrs. Howard Maxwell, Mr. and Mrs. Robert Reid, Mrs. Priscilla Shaffer and Dr. and Mrs. John R. Stemen.

At 2 p.m. the College Fellowship will have an outing and service. In the evening at 6:30 o'clock, there will be a combined meeting of the Junior and Senior High Fellowship groups for the motion picture, "The Son of Man."

## Wedding

Smith-Splain

It was announced today that wedding of Miss Connie Rose Splain, daughter of Mr. and Mrs. Lewis B. Splain, 322 North Fourth St., Columbia, Pa., to Edward Keefe Smith, son of Mr. and Mrs. Mark W. Smith, R. 4, was solemnized recently at Westminster, Md., by the Rev. Mr. Hilliar. The bride attended Columbia High School. The groom is a graduate of Gettysburg High School and is serving in the United States Army.

### ADVERTISE IN THE TIMES

## Congress To Double Peace Corps Budget

WASHINGTON (AP)—Congress has voted to more than double the Peace Corps budget and let the agency sign up thousands of new volunteers.

The Senate passed the authorization bill Thursday and sent it to

President Kennedy, who had asked for the expansion.

Under the measure, Kennedy is authorized to spend \$63.75 million to put 9,970 volunteers into the corps by the fall of 1963.

The Peace Corps now has about 900 volunteers, but expects to have 2,400 on its roster by June 30, and 5,100 by next fall.

## Littlestown LEGION WOMEN GOING TO VISIT AT MOUNT ALTO

The Ladies' Auxiliary of Ocker-Snyder Post No. 321, American Legion, completed plans for the annual visit to the Samuel G. Dixon State Hospital, Mount Alto, at the monthly meeting held following the community church services on Wednesday evening at the post home on E. King St. The auxiliary and post members will go to Mount Alto leaving at 1 p.m. on Sunday from the Legion Home. It is planned to take homemade cookies and a gift from the unit for each of the 95 veteran patients, also a half pound bag of chocolates for each veteran from the post. Members of the auxiliary and other women of the community are invited to donate cookies and take them to the home of the unit rehabilitation chairman, Mrs. William J. Yingling, 24 E. King St., on or before Saturday noon.

Mrs. James W. Fager, president, was in charge of the meeting which opened with the salute to the flag; group singing of the National Anthem; prayer by Miss Beulah Wintrobe, chaplain; moment of silence observed in respect for those deceased; recitation of the Preamble to the Constitution of the American Legion Auxiliary; roll call and report by Mrs. Vernon H. Study, acting secretary.

**TO SELL POPPIES**  
The unit will sell memorial poppies made by the disabled veterans in observance of Memorial Day this year. Mrs. Donald L. Before, poppy chairman, announced that the poppies have arrived and will be distributed. The cheer committee read notes of thanks from the Kebab family, Mrs. Leonard Kershner and Mrs. Harry D. Scholl; this committee also reported that Mrs. Harry O. Harner is a patient in the Warner Hospital, Gettysburg. A letter of thanks was read from Miss Gloria Bowers, local high school junior, for the opportunity to attend Keystone Girls State, Inc., this summer for a week under sponsorship of the unit.

A congratulatory message was read from Mrs. Russell Hamme, membership chairman of Adams, Franklin, Fulton and York County Council, for reaching the quota. Special thanks went to Mrs. Ernest R. Sentz, who enrolled the following new members: Mrs. Lloyd T. Bortner, Mrs. Albert J. Boyd, Mrs. William T. Grogg Jr., Mrs. Richard B. Hartlaub, Mrs. Herbert J. Sell, Mrs. Samuel J. Snyder and Mrs. Stewart N. Long.

Mrs. Fager, coupon chairman, reported that 2,956 coupons were sent to the department in March; as community service chairman, she reported that three hospital beds, three wheel chairs, one bed-side commode and several pairs of crutches are available for community use by telephoning her at 359-5436. Mrs. Wilbur E. Mackley, secretary, sent a letter of appreciation to Mrs. Estelle Furlow for the hospital equipment which she recently donated to the unit.

**INVITATION TO HANOVER**  
An invitation was received from the American Legion Auxiliary of Hanover to visit with the unit there on Thursday, May 3, when a covered dish supper and program on Pan America will be featured. Hymns for the month of April are "Abide With Me," "Softly Now the Light of Day" and "In the Garden of Tomorrow." Appreciation was expressed to Miss Louise Duttera and Mrs. Ivan D. Rickrode who recently donated hand-crocheted pillow cases and two pillows to the unit. The auxiliary will color eggs for the children of the community. The business session con-

### "SHE SMILES"

She smiles and I see heaven  
... right before my eyes ...  
her face has power to beguile  
... the wisest of the wise  
... like morning glories opening  
... so her warm lips part  
... touching every corner ...  
of my searching heart ... what  
a privilege to behold ... such  
a wondrous thing ... she  
smiles and I hear melodies  
... only lovers sing ... what  
causes this phenomenon ...  
of blessed tenderness ... how  
can a single smile seem like  
... a heavenly caress ...  
I'll never know and yet each  
time ... she smiles her smile  
for me ... paradise is with-  
in reach ... and joys are three  
times three.

## CHICAGO CW

(Continued From Page 1)

round table will visit Cemetery Hill, Culp's Hill and E. Cavalry Field. The afternoon will be given over to a study of Pickett's Charge.

### TO HARPER'S FERRY

That evening at a banquet in the Hotel Gettysburg an "Antietam Free-for-all" will be held with E. B. Long as moderator, and General Edward J. Stackpole, Willard Webb, Lloyd Miller and the superintendents and historians of the Gettysburg, Antietam and Harper's Ferry parks as commentators.

Saturday morning, April 28, the group will visit Harper's Ferry. At noon that day they will join the Harrisburg Civil War Round Table at lunch at Keedysville. In the afternoon, Antietam will be visited.

Saturday evening, April 28, dinner will be at the Francis Scott Key Hotel in Frederick and a program will be presented by the park officials from Gettysburg, Antietam and Harper's Ferry. They will return to Gettysburg that night by bus.

Sunday morning, April 29, after church, a summation discussion will be given at the Visitor Center. That afternoon one bus will go to South Mountain for a lecture there while the second bus passengers tour various museums in Gettysburg.

### HERE LAST IN '52

At 6:15 that night the group will depart from Washington airport and at 9:38 that night will arrive at the Chicago airport.

The last similar tour by the Chicago Civil War Round Table here was made in 1952.

The publication put out by the Chicago Civil War Round Table for its members giving details of trip lists source books members should read in preparation for the trip. They start from Volume 27 of the official records of the Union and Confederate armies and include "Battles and Leaders of the Civil War"; "Collected Works of Abraham Lincoln"; Volume 3 of Freeman's "R. E. Lee"; Volume 3 of Freeman's "Lee's Lieutenants"; and 23 other books including the Comte de Paris' "History of the Civil War," Volume 3, and Carl Sandberg's "Abraham Lincoln, the War Years."

cluded with the prayer for peace by the chaplain, group singing of "America" and prayer by a president.

A group game during the social hour was won by Miss Wintrobe. The guess package, contributed by Mrs. Mackley, was received by Mrs. Study. Refreshments were served by Mrs. John Bair and Mrs. Norman Sentz.

The next meeting of the unit will be held on Wednesday, May 9, at the post home, when a mother-daughter covered dish social will be featured.

## Steel

(Continued From Page 1)

Thursday night it began to make a pattern, as Atty. Gen. Robert F. Kennedy gave out a few crumbs of information.

First, he announced he had ordered a grand jury investigation in New York of the firecracker chain of virtually identical price increases set off by U.S. Steel.

That was all the attorney general told, and he told it because Blough under news conference questioning had disclosed that price records of U.S. Steel had been subpoenaed Thursday morning. Blough said he was not subpoenaed personally.

Later the Bethlehem, Jones & Laughlin and Armco Steel corporations confirmed they had received subpoenas, and that the president of still another company, not identified, has subpoenaed to appear a week from today.

Next, newsmen learned that the attorney general had discussed with a group of visiting foreign college professors — the possibility of forcing U.S. Steel to divest some segments of its vast empire of ore fields, blast furnaces, mills and fabricating plants.

## G. HAGEMYER

(Continued From Page 1)

annual report listed a total of 330 members, comprising of 310 parents and 20 teachers.

The Adams County Council of PTA will hold its annual dinner and school of instruction at the Fairfield High School May 8. The PTA will pay the banquet and registration fee for the newly elected officers. The Central District annual conference will be held in Steelton April 28, at 10 p.m. All interested persons are invited to attend.

There was a display of science projects prepared by students in the following classes: Mrs. Mary Ann Adams' earth science classes, Mrs. Pamela Kistler's and Mrs. Zoe Ridinger's biology classes, and Donald Ullrich's Seventh Grade science classes.

The meeting opened with devotions by Rev. John Bishop. Refreshments were served.

## SAYS THIRD OF

(Continued From Page 1)

ed of miniature spring hats and table decorations were in keeping with the Easter motif.

Mrs. Harold Sharpe, chairman of the dinner committee, was assisted by Mrs. Sizer Burton, Mrs. Eva Pape, Miss Beatrice Pfeiffer, Miss Doris Redding, Miss Freda Troxell, Mrs. Flo Woolumer and Mrs. C. William Zhea.

Miss Mary Duttera, chairman of the Public Affairs committee, was in charge of the program. Other members of her committee included Miss Nina Morrow, Mrs. James Parry and Miss Rebecca Sachs.

The invocation was given by the club president, Mrs. Edith Bushman, who also reminded the members of an invitation given the B and P group to join the Annie Danner Club for its 35th anniversary party April 24. Members planning to attend are to make reservations no later than April 17.

## SET DATES FOR

(Continued From Page 1)

will be accepted at camp. Bus schedules will follow the same pattern as in previous years and will be announced prior to each camping period. Each camp will have a closing program to which parents will be invited.

Programs will include music and dancing, crafts, nature study, hiking, dramatics, recreation, out-of-door cooking and campcrafts. Fly-ups will work on the Rambler badge. Intermediates will work on the Insect badge. Those Girl Scouts who complete the requirements and attend all of the camping sessions will be presented with their badges at the final session of each camp.

The camp fee will be \$4 which includes transportation, milk, badges, craft materials and one noon cookout. The cost for the overnight stay for fly-ups, interests to cover the cost of dinner and breakfast.

Each Scout will receive a camp-bulletin which includes applications for day camp and established camping throughout the Penn-Laurel Girl Scout Council. Registrations are to be sent, with checks, to the Penn-Laurel office at 1245 W. Princess St., York.

## Additional Radar Unit Coming Here

Five additional radar units will be assigned to Pennsylvania highways this month to bolster the state's war on speeders.

In making the announcement Thursday, State Police officials also said that 34 radar teams patrolling the state around the clock made a total of 4,145 speeding arrests, including 3,260 cars, 880 trucks and five buses.

The Harrisburg troop (patrolling Dauphin, Cumberland, York, Adams and Perry Counties) will receive an additional unit, as will troops at Greensburg and Bethlehem. Two units are being assigned to the Turnpike patrol, making a total of four on the 470-mile toll road system.

More than 300 persons attended the Kennie's Food Market and N. O. Sixeas Furniture Store cooking school held Thursday evening in the Eisenhower School auditorium under the direction of Mrs. Martha Logan, home economist for Swift and Company, Homer Bell, Baltimore, was master of ceremonies. The major prize, an electric console sewing machine, was awarded to Mrs. P. J. Reaver, Gettysburg R. 2. Many other prizes were given and will be announced in a display advertisement of Kennie's Store in Monday's edition of The Times.

## SNOW HURTING BALL SEASON

By THE ASSOCIATED PRESS

A 6-inch snowfall blanketed Minnesota's Metropolitan Stadium Thursday, forcing postponement of the Twins' home opener against Los Angeles as inclement weather continued to disrupt the first week of the 1962 baseball season.

The Twins, forced to call off their Friday curtain-raiser before the home folks, were hopeful of getting the game in Saturday, but club officials were not overly optimistic.

Elsewhere, rain forced postponement of the Detroit and Washington game, held down crowds at Kansas City and Chicago and threatened to mar other home openers Friday at Detroit, New York, Baltimore and Cleveland.

### 854 ATTENDANCE

The Tigers and Senators were rained out for the second day and Detroit faced the prospect of sitting it out once more when the weather man forecast snow flurries for their home opener with the New York Yankees.

The Athletics and White Sox, meanwhile, got their games in Thursday but the people filling both parks could have been easily seated in a small indoor arena.

Only 854, smallest crowd ever, braved stiff winds and 45-degree temperature at Kansas City, and the drizzly weather at Chicago held attendance to 1,087.

## COLLEGE GRAD

(Continued From Page 1)

in chemical manufacturing in this country and abroad.

He is survived by his widow, the former Helen P. Jacks of Allentown, to whom he was married 58 years ago, and one son, James A. Jr., St. Louis, Mo. A brother, Edmund H. Singmaster of Philadelphia, also survives.

Services will be held at the Fred H. McGrath and Son Funeral Home, Bronxville, N. Y., on Sunday at 4 p.m. Friends may call at the funeral home after 3 p.m. Saturday. Instead of flowers, those who wish may make contributions to Laurence Hospital Building Fund at Bronxville.

## Named Chairman For Promotion

Mrs. Henry T. Bream, director of the Lutheran Inner Mission, has been selected by Mrs. Marian Sheridan, regional chairman of Pennsylvania Welfare Forum, to serve as Adams County chairman for promotion of the coming annual conference. Mrs. Bream today announced that the 53rd annual conference will be held in Harrisburg on May 10, 11 at the Penn-Harris Hotel.

She stated that the program this year will deal with current crucial health and welfare issues in the Commonwealth. She said, "Because of major legislative and other decisions which will be made in the immediate future on the organization and financing of health, recreation and welfare services, it is imperative that Adams County be well represented in these sessions. We hope that every local agency and organization concerned with these matters will send at least one delegate."

The conference theme is "Pennsylvania — Growth or Decay?" Many state and national figures will speak. Conference registration forms and more details may be obtained from the 319 N. Second St., Harrisburg, or from Mrs. Bream.

## SPECIAL SERVICES

A special service is being planned at the Mt. Joy Church, Taneytown Rd., Sunday evening at 7 o'clock. A hymn sing will be conducted and there will be special music. Jack Cook will show travel pictures. The public is invited. The annual Easter Egg Hunt of the Sunday School will be held Good Friday afternoon at 1 o'clock. All members of the Sunday School are invited to attend.

ADVERTISE IN THE TIMES

## Three Injured In Hanover Accident

Three persons suffered minor injuries in a collision involving three cars at the intersection of Locust and E. Walnut Sts., Hanover, Thursday about 2 p.m. They were treated at the Hanover Hospital and discharged.

Hanover police identified them as Mrs. Marie Carbaugh and her daughter-in-law, Mrs. Marlene Carbaugh, both of Hanover, and John L. Toot, of Abbottstown R. 1, driver of another car.

Toot was arrested for failure to stop at a stop sign. Bernard W. Carbaugh Jr., was driving the car in which his wife and mother were riding. Police estimated damage to the Carbaugh and Toot cars at \$300 each and to a parked car, owned by J. A. Neiderer, Spring Grove R. 3, at \$100.

## Marshall Allen Engaged To Marry

The engagement of Marshall Allen, former director of the Gettysburg Battlefield Preservation Association and now employed by an engineering firm in Washington, D. C., and Mrs. Constance Fagan Russe, Fairfax City, Va., was announced at a luncheon at the Russe home last Sunday.

Mrs. Russe, a widow, is a native of Garden City, Long Island, and is a graduate of Adelphi College there. She was active in the merchandising world and is a former buyer for Bonwit Teller of New York. She is currently associated with a McLean, Va., real estate firm.

Mr. Allen, who was divorced earlier this month, attended the College of William and Mary after graduating from Unionville (Va.) High School. Mrs. Russe is the widow of Cmdr. Frederick W. Russe of Fairfax. The couple will reside in Washington.

## R. E. Rice Funeral Services Held Today

Funeral services for Ralph E. Rice, 67, who died at his home at Biglerville R. 1 Tuesday evening, were held at 2 o'clock this afternoon at Dugan's Funeral Home, Bendersville, with the Rev. Dr. Henry W. Sternat officiating. Burial was in the Biglerville Cemetery.

The pallbearers were Walter Roberts, John Deardorff Sr., Blaine Hartman, Francis Kane, Harold Peters and Percy Gardner.

## Nations Plan Area Link For Progress

WASHINGTON (AP)—The United States and Brazil entered today into a \$276-million agreement to bring progress and development to Brazil's impoverished northeast.

The Alliance for Progress program involves a joint effort aimed at solving the problems of the 600,000-square-mile region of 23 million inhabitants. The State Department described the agreement as "one of the most ambitious actions yet taken under the Alliance for Progress."

The agreement was signed by Brazilian Foreign Minister San Thiago Dantas and U.S. Secretary of State Dean Rusk.

## 2 Cars Collide In Hanover Thursday

A 56-year-old man was hospitalized and two teen-age girls were treated at the Hanover Hospital for minor bruises following a two-car collision at the intersection of Frederick St. and Fleming Ave., Hanover, Thursday night at 9 o'clock.

Robert F. Hamm, Hanover, identified by Hanover police as driver of one of the cars, was admitted to the hospital for observation of possible chest injuries. His condition was listed as satisfactory.

The two girls, who were passengers in a car driven by John Edward Kuhn, 19, of Gettysburg R. 5, were identified as Sally Swartz, 15, and Patsy Showers, 16, both of Hanover.

Police estimated damage to the Kuhn car at \$1,000 and to the Hamm vehicle at \$500. Police said the Kuhn car came to a halt on the lawn at the home of Harry Freilich, 272 Frederick St., Hanover.

WASHINGTON (AP)—Congress has sent to President Kennedy a \$13-billion bill authorizing acquisition of new weapons by the military.

The measure cleared Congress Thursday when the House swiftly accepted Senate amendments. It authorizes procurement of missiles, airplanes, ships and other weapons—and includes \$320 million more than the administration sought to speed the B70 reconnaissance strike bomber program. The B70 stems from the controversial B70 program.

## LL COMPLETES SEASON PLANS; OPENS MAY 26

The Gettysburg Little League held its regular bimonthly meeting Thursday evening at the Elks Home with all sponsors well represented. Bob Kenworthy, president, presided.

The board approved the schedule for tryouts, auction and regular season schedule. Tryouts will begin on April 30. All youngsters are requested to have a form filled out and signed by the parents before coming to the tryouts. The forms have been distributed to the schools and must be returned by next Wednesday.

### TWO TWIN BILLS

The regular season will get underway Saturday, May 26, with a doubleheader. The Gettysburg National Bank will tangle with the Rotary in the first game while the Elks and Moose will clash in the second. The scheduling committee has set up such a card that only two doubleheaders will be played during the year, the opening day twin-bill and a double contest during the week of July 4.

It was noted that once the season gets underway, no Little League will be allowed to play in the Pee-Wee or Minor Leagues. These leagues were set up for the smaller youngsters who do not make the regular Little League squads.

Anyone interested in umpiring games throughout the year is asked to contact Bob Signor who is now setting up a schedule of umpires to work the various games.

Ken Fair, manager of the Glenn L. Bream team, introduced Don Ferring as the new assistant while Art Phiel, Lions' manager introduced Howard J. Hartzell as his coach.

LOS ANGELES (AP) — Dist. Atty. William B. McKesson says he will ask Superior Court April 18 to set a new trial for Mickey Cohen and four codefendants on murder and conspiracy charges. They are accused of the fatal shooting of Jack (The Enforcer) Whalen in a restaurant Dec. 2, 1959.

A jury failed to agree and was discharged last Tuesday in the trial of Cohen, Sam Frank LoCigno, Roger Leonard, George Perry and Joseph DeCarlo.

## Test 3 Stages Of Nike-Zeus Rocket

POINT MUGU, Calif. (AP) — The Nike-Zeus antimissile rocket, still under development, has made its first transoceanic trip in which all three stages were tested.

"Missile and ground guidance elements of the system used in the test performed as expected; test objectives were met," the Army announced after Thursday's launching.

The Nike-Zeus system is designed as a weapon against attacking intercontinental missiles, seeking them out and destroying their effectiveness before they reach their targets.

### ADVERTISE IN THE TIMES

### LEGAL NOTICES

Public notice is hereby given that by virtue of a Writ of Execution (mortgage foreclosure) issued out of the United States District Court for the Middle District of Pennsylvania, to me directed, I will expose and offer for sale at public vendue to the highest bidder, for cash, on the premises of the real estate described in Butler Township, Adams County, Pennsylvania, on the 9th day of May, 1962, at 10:00 o'clock a.m., D.S.T., all the right, title and interest of Norman V. Baumgardner and Francis C. Baumgardner, Defendants and Mortgagee, in and to the following described real estate and property, including improvements thereon:

ALL THOSE two tracts of land situate, lying and being in Butler Township, Adams County, Pennsylvania, more particularly bounded and described as follows:

TRACT #1: BEGINNING at a post at corner of land now or formerly of George E. Harman and John Hoff, thence by said lands North 52 1/2 degrees West 13.5 perches to post; thence by lands now or formerly of Mrs. Warren North 30 degrees West 66 perches to a stone at lands now or formerly of John Dotterer and John Miller, thence by lands now or formerly of John Miller and George E. Harman North 61 1/2 degrees East 49.3 perches to a post; the place of beginning, containing 1.7 acres and 115 perches, more or less.

TRACT #2: A tract of land having a uniform width of 16 1/2 feet and extending for a distance of 1.7 perches, more or less; the line of said land beginning at a stump in a public road and running thence by lands now or formerly of John W. Miller, formerly Michael Deatrick, North 60 1/2 degrees East to a post, containing 121.7 perches, more or less as a private road and means of access from the public road hereinafter mentioned to Tract #1, hereinafter described, and 19 perches now or formerly of John H. Dotterer and Sadie Alice Peppie to be a wire fence and each of said parties are required to make a half thereof. The old established line fence to revert to Sadie Alice Peppie.

MEANING AND INTENDING to describe and mortgage all the same premises which William L. Baumgardner and Grace H. Baumgardner, husband and wife, conveyed to said Michael Deatrick by deed dated August 4, 1954, recorded in the Office of the Recorder of Deeds for Adams County, Pennsylvania, Book 67, Page 279.

SUBJECT, HOWEVER, to (1) pole line easement in favor of the Metropolitan Edison Company by instrument dated June 13, 1959, recorded in the aforesaid Recorder's Office in Miscellaneous Docket No. Page 285; and (2) Tract of 1.22 acres conveyed in a certain deed from George E. Harman and Dillie M. Harman, to Sadie Alice Peppie, dated March 19, 1911, recorded in the aforesaid Recorder's Office in Deed Book 76, Page 279.

Improvements thereon consists of a Two-Story Brick Building, One Frame Barn and Several Outbuildings. Seized and taken in Execution at the suit of United States of America vs. Norman V. Baumgardner and Francis C. Baumgardner, Mortgagee to collect \$5,179.48 with interest and costs. Judgment No. 7083, U. S. District Court, Middle District of Pennsylvania. Writ issued February 28, 1962.

NOTICE  
To all parties in interest and claimants: A Schedule of Distribution of Sale will be filed by the United States Marshal on May 21, 1962, and that distribution will be made in accordance with said Schedule unless exceptions are filed thereto within 10 days thereafter.

# PLAN PAGEANT AT FAIRFIELD

The Menomonee Players, a religious drama group of the Fairfield Menomonee Church, will present its annual Easter play Sunday evening at 7:30. The program is one of a series of Lenten services sponsored by the Fairfield Menomonee Church.

The three-act drama, "The Starving Block," by Mary U. Glazener, will be presented at the Fairfield Menomonee Church under the direction of Mrs. Arthur Roth. Set in the first century A. D., the play deals with racial and social tensions and prejudices between the Jerusalem and Greek Christians.

J. Warren Martin portrays the Apostle Paul on his last visit to Jerusalem. Others in the cast are Mrs. Charles Williams, G. E. R. Smith, Cathy Roth, Roger Benner, Ray Trembow, R. Edwin Stoner, Mrs. J. Warren Martin, G. Robert Smith, John D. Benner and Frederick K. Bream.

The costumes are under the supervision of Mrs. Lloyd Benner and Mrs. Delmar Richardson. David Benner and Robert Bream will direct the staging.

The public is invited.

# SA FUNDS USED ON N.J. COAST

Money raised by the Adams County Salvation Army Service Units during last year's campaign helped feed persons driven from their homes along the New Jersey coast by the recent storm there, Roland W. Keller, Salvation Army Service Extension director, said today.

In urging countians to donate in the current county-wide drive for \$7,666, Keller noted that the Salvation Army provided 10 mobile canteens which for 13 days served disaster victims, police Civil Defense Workers, linemen and all emergency workers with hot food, clothing, etc., on a 24 hour a day basis, along the New Jersey and Delaware coasts.

The Adams County Salvation Army Service units' contribution went specifically towards a new modern mobile canteen which was on duty in the Long Beach, N. J., area for 10 days. The unit served more than 1,000 individuals daily for the first 10 days during and after the storm. In the beginning of the storm the unit provided water and hot food to the residents of the storm stricken area and was the only means of serving food on the island for the first four days during which electric and water supplies were completely cut off.

Keller observed that no matter where a disaster strikes the Salvation Army goes to provide the necessities of life to victims of the disaster and emergency workers. Contribution to the Salvation Army, he said, help carry on disaster assistance as well as meeting the needs of unfortunate local individuals.

# HOSPITAL REPORT

Admissions: Walter Guyette, 15 Chambersburg St.; Linda A. Lewis, Thurmont R. 2; Mrs. Elizabeth N. Holoka, R. 1; Mrs. Charles Holland, York Springs; Mrs. Robert A. Epley, Hanover; Mrs. Charles W. Bretzman, Bendersville; Mrs. Robert Snyder, 59 South St.; Maurice N. Gardner, Biglerville R. 1; Julius Barthelme, East Berlin, instead of Julia Barthelme, has been admitted.

Discharges: Mrs. Melvin L. Bange and infant son, Brodbeck R. 1; Mrs. Terrence M. Sease and infant son, Thurmont; Mrs. Mark Raber and infant son, Littlestown; Mrs. Clair J. Staub and infant daughter, New Oxford R. 1; Mrs. Richard E. Hess and infant son, Biglerville R. 1; Mrs. John E. Hilliard and infant son, Hanover; Mrs. Kenneth Appier, Littlestown R. 1; Stephen Olinger, 137 S. Washington St.; Michael and Richard Rosensteel, Emmitsburg; John C. Micklej Jr., Biglerville R. 1; Mrs. Bernard M. Decker, Taneytown R. 1; Barbara J. Summers, Cumberland Twp.

# Weather

Extended forecasts for April 14 through April 18:

Eastern Pennsylvania, South-eastern New York and New Jersey — Temperatures are expected to average near normal over southeastern New York and two to six degrees below normal over eastern Pennsylvania and New Jersey. Milder Saturday and Sunday. Cooler Monday with little day-to-day change Tuesday and Wednesday. Precipitation may total more than one-half of an inch, falling as rain or showers during the middle of the period.

Middle Atlantic States—Temperatures will average about five degrees below normal, cool Saturday, warmer Sunday, cooler Monday or Tuesday. Precipitation will be about Monday and Wednesday and may average one-half of an inch.

Western Pennsylvania — Temperatures will average three to six degrees below normal. A little warmer Saturday but turning cooler again around the first of the week. Precipitation will average about three-quarters of an inch, occurring as snow flurries in the north portion Saturday and showers Sunday and Monday.

# Social Happenings

For Social News Phone ED 4-4613 or 4-1131

**Mrs. Frank H. Sargent and son,** Brent, have returned to their home in Fairfax, Va., after visiting the former's parents, Mr. and Mrs. C. R. Wolff, York St.

**The Gettysburg Alumni Club** of Alpha Xi Delta will meet with the active chapter of the sorority in the sorority room in Hanson Hall Sunday evening at 5:30 p.m. for dessert.

**The Hannah Circle of St. James** Lutheran Church met Wednesday evening in the Maud Miller room following Lenten service, with 11 members present. The program "The Well Read Woman" was in charge of Mrs. Arthur Warman.

**The Arts and Crafts Guild** of Adams County has resumed the practice of displaying paintings and craft articles in the window of Harry D. Ridinger's insurance office, Carlisle St. The displays will be changed weekly. The painting now on display was painted by Rear Admiral Earle A. Deily, East Berlin R. 2, and is an idealistic conception of "A Dream City."

**Mrs. Warren Heiny, president** of the ULCW of the Central Pennsylvania Synod, was the guest speaker at the meeting of Women of the Seminary Tuesday evening. She discussed the workings of the ULCW.

**Miss Grace C. Kenney, associate professor** of health and physical education at Gettysburg College, has returned from Cincinnati where she attended the national convention for health, physical education and recreation.

**Mrs. Thomas L. Cline Jr.** has announced the following entries to date for the Table Fashions Tea being sponsored by the Episcopal Churchwomen on May 4: Woman's Community Club of Littlestown and vicinity, Gamma Phi Beta sorority alumni, Woman's Club of Gettysburg, Gettysburg Garden Club, Woman's Christian Fellowship of the Presbyterian Church, Soroptimist Club, Marsh Creek Homemakers Club, Linen Shop, York and Naval Officers' Wives' Club, Mechanicsburg. Reservations may be made with Mrs. Cline until April 20.

**St. Francis Xavier Mother's** Club will have a bake sale on Saturday from 9 a.m. to noon at the Gettysburg Hardware Store.

**The Eagles Club** will hold a dance on Saturday evening with the Variety Trio playing.

The Mary Howe Trio will play at the VFW for dancing on Saturday evening.

Dancing to the music of the Walter Carl's Orchestra will be the Saturday evening feature at the Elks' Club.

The Moose Club will have a family party this evening. Saturday evening they will feature two floor shows and dancing to Pat Patterson's Orchestra.

**Dr. Ralph B. Jackson, local veterinarian,** addressed the Adams County 4-H Light Horse and Pony Club Thursday evening at the West St. Bank on the topic "Horse Health." He discussed first aid measures to be used before the veterinarian arrives and answered questions on preventive care and symptoms to look for in examining a sick horse.

Wilson Clapsaddle spoke briefly on a possible club-sponsored horse show to be held before the roundup August 8. Mrs. Lawrence Heltzel invited any interested Little Valley 4-H'ers to accompany the Ridge View Club on its two scheduled trips to the state police academy at Hershey, Pa.

Plans for next month's program of a "Show of Breeds" were discussed. Horse show dates are April 21, Tamec Farms, Carlisle, and May 6, Carroll-Adams Show, Littlestown. The next meeting of the club will be May 17.

# TRIO IS BEING

(Continued From Page 1)

made by the three men was that they had a "good friend in Gettysburg, Attorney Daniel Teeter." Teeter, as district attorney, is prosecuting the three on the cheating charge, which also includes a count of conspiracy to do an unlawful act.

**"AN IMPORTANT GUY"**

Mrs. Dick said she told the men that "you don't get something for nothing" as they outlined the plan to the Dick family, but she added they insisted that in the Dick case the family would "get something for nothing."

Mrs. Dick said she believed the statements when Marks, under the name "B. Shane" appeared in a white Cadillac and was represented as a representative of "Reynolds Aluminum Co. earning \$75,000 a year." She said they had been told that Reynolds was opening an office here and "what's a big company and I was sure they were gonna open an office here and when you get a fellow making that much money he's an important guy."

Fern Ohler, a local aluminum dealer, and a representative of a Hanover aluminum concern, testified that the cost of work called for in the installation specified in the Dick contract would be "about \$980" and the cost of a similar job involving the use of the best quality material would be "about \$1,300." Both testified that Reynolds Aluminum, as far as they knew, does not make siding for houses, but it is the primary manufacturer, providing the metal which other firms make into siding for houses.

The trial continued this afternoon.

Trial was to have been heard today of the action in replevin with bond brought by Motor Insurance Corporation of New York against Hilby Rife Motors of New Oxford. The case concerned a station wagon allegedly stolen in Canada which later was located on the New Oxford company's lot. Thursday afternoon Attorneys Donald G. Oyler and Eugene Hartman, representing the contending parties, asked the court to continue the case for settlement.

# HOSEY SIGNS GUILTY PLEAS

Roy Raymond Hosey, 56, Hot Springs R. 2, Va., this morning entered pleas of guilty to charges of aggravated assault and battery and assault with deadly weapon before Justice of the Peace Robert P. Snyder.

Hosey, charged with stabbing George Elmer Daniels, 46, Berkeley, W.Va., Monday night at Biglerville, left the scene following the incident and was arrested by Virginia state police in Hot Springs as a result of a teletype sent out by local state police asking that Hosey be picked up.

Sheriff Dawson Miller and Deputy Guy Seifert went to Hot Springs jail Thursday to pick up Hosey and bring him here. They arrived with their prisoner Thursday night.

Hosey was one of a number of persons visiting a relative in Biglerville Monday. Monday night an argument began and during the course of it Daniels was stabbed in the stomach, and cut on the face, ear and chest. He was removed to the Warner Hospital here and state police notified. By that time Hosey had left the premises, and the search began for the man.

Following the arraignment before the justice this morning, Hosey was returned to jail for sentence by the county court.

# NEW YORK EGGS

Browns: Extras (47 lbs. min.) 35½-36½; top quality (47 lbs. min.) 33½-37½; mediums (41 lbs. average) 28½-30½; smalls (36 lbs. average) 21½-22½; peewees 17-18.

# LANCASTER LIVESTOCK

LANCASTER, Pa. (AP) (USDA) — Weekly livestock review:

Cattle 4,900. Prime slaughter steers 31.50; high choice and prime 29.00 to 31.00; good to low good choice 24.50 to 27.00; heifers 15.75 to 17.50; utility and special bulls 20.00 to 22.00; good and choice feeder steers 23.50 to 25.50 to 30.00.

Calves 675. Good and choice weaners 30.00 to 35.00; choice and prime 35.00 to 40.00; utility 20.00 to 26.00.

speakers at the next meeting on Tuesday, May 8, at the church. The hostesses will be Mrs. Bertha Shull, Mrs. Violet Staveland and Mrs. Lois Seils.

# Methodist WSCS Meeting Is Held

"The Responsible Christian Citizen" was the theme of the devotionals at the monthly meeting of the Woman's Society of Christian Service of Centenary Methodist Church, held on Tuesday evening at the church. Mrs. Lois Seils, April program leader, led the group prayer. Mrs. Estella Furlow was pianist for group singing.

Mrs. Faye Daum, president, conducted the business period. Reports were heard from Mrs. Marian Study, Mrs. Esther Bechtel, Mrs. Ruth Smith and Mrs. Christine Jones. The closing prayer was led by Mrs. Daum.

The birthdays of Mrs. Maggie Cutsail, Mrs. Bertha Babylon, Mrs. Lottie Mellett, Mrs. Carrie Byers, Mrs. Charlotte Byers and Mrs. Marguerite Howell were noted.

A white elephant sale, conducted by Mrs. Marjorie Morelock, was enjoyed during the social hour. The door prize was contributed by Mrs. Marian Study and won by Mrs. Evelyn Brown. Refreshments were served to the group by Mrs. Study, Mrs. Nancy Bucke, Mrs. Betty Warehime, Mrs. Joan Feaser and Mrs. Catherine Mayers.

It is planned to have a guest

# G. J. BAADTE DIES THURSDAY

George J. Baadte, 62, Gettysburg R. 4, died Thursday at his farm home in Mt. Pleasant Twp. He had been in ill health for about two years, suffering from a heart condition.

The barn at the Baadte farm burned March 24 with a loss of about \$20,000. Fire from the barn threatened the Baadte home for a time.

A native of Sheldon, Iowa, he was born February 19, 1900, a son of F. A. and Elizabeth (Moes) Baadte. He was a member of St. Joseph's Catholic Church, Bonneauville.

Surviving are his wife, the former Genevieve Doffmeyer, and five children: Gerald Baadte, Salisbury, Md.; Donald Baadte, Gettysburg R. 4; Robert Baadte, Hanover; Seaman John Baadte, Great Lakes Naval Base, and Mrs. Iris Bollinger, Hanover. Also surviving are three sisters, Mrs. Isabelle Harker, Plain Oaks, Ill.; Mrs. Eleanor Williams, also of Plain Oaks, and Mrs. Mildred Callenius, Remson, Iowa; two brothers, Albert Baadte, Lemar, Iowa, and Earl Baadte, Lankford, S. D., and 13 grandchildren.

A viewing will be held at the Peters Funeral Home here this evening from 7 to 9 o'clock with the Rev. Fr. Louis Forgeng to lead prayers at 8 o'clock.

The body will then be shipped for the Vander-Ploeg Funeral Home, Sheldon, Iowa, for requiem mass at St. Anthony's Catholic Church and interment in the church cemetery in Hoster, Iowa.

# J. D. POHLMAN EXPIRES AT 76

Joseph Dominic Pohlman, 76, Gettysburg R. 5, died this morning at 5:05 o'clock in the Hanover Hospital where he had been a patient for three weeks. He had been in failing health for the last year.

A native of Adams County, he was a son of the late Francis and Mary (Goshman) Pohlman. His wife, the former Amelia M. Flesham, died in 1951.

A retired farmer, he was a member of Sacred Heart Catholic Church (Conewago Chapel), and is survived by seven children: Miss Salome M. Pohlman, Gettysburg R. 5; Mrs. B. Guy Smith, Littlestown R. 2; Mrs. Herbert R. Wildasin, Gettysburg R. 5; Mrs. Llewellyn E. Zartman, New Oxford R. 1; Gerald J. Pohlman, New Oxford R. 2; Miss Rita L. Pohlman, Gettysburg R. 5, and Mrs. Howard J. Bowring, Carlisle, Cal.

Also surviving are 13 grandchildren and two brothers, Michael Pohlman, Hanover R. 4, and J. Eugene Pohlman, New York City.

Funeral services Monday morning, meeting at the Fred F. Feiser Funeral Home, New Oxford, at 8 o'clock to go to Sacred Heart Church for a requiem mass at 8:45 o'clock at which the Rev. Fr. John P. Bolen will officiate. Interment in the church cemetery. Friends may call Sunday evening after 7 o'clock at the funeral home in New Oxford. The rosary will be recited there at 8 o'clock that evening.

# 3RD INFANTRY

(Continued From Page 1)

placed worn out bunting. He reported a balance of \$200 in the account.

Warman said letters will be sent various business places and individuals within about a week asking donations for the current Memorial Day activities. He said extra large donations are being asked to permit increasing the balance so funds will be available for "an especially large Memorial Day program in 1963."

**SELECTING SPEAKER**

Chairman Chester S. Shriver said the Marine Band has placed Gettysburg's Memorial Day program in 1963 as "top priority" on its list of engagements. The only thing that would prevent its presence would be need to provide music for some special event at the call of the President of the U. S., Shriver said he had been told.

Secretary William G. Weaver said the U. S. Defense Department is selecting the speaker for this year's program and it is anticipated his name will be made known to the local committee soon.

As mayor, Secretary Weaver said the town's decorations will be placed for Memorial Day. Park Superintendent James B. Myers reported on plans for decoration of the National Cemetery for the event. Parade Marshal LeRoy Winebrenner gave preliminary reports on plans for the parade.

**READ REGRETS**

Letters of regret for inability to be present May 30 were read from General Dwight D. Eisenhower, Vice President Lyndon B. Johnson, U. S. Senator Barry Goldwater, and Secretary of Defense McNamara.

Next meeting of the committee will be held at the GAR rooms on Friday, May 4.

The VFW committee of the Memorial Day committee promised to send invitations to all veterans' groups in the area to attend the services May 30.

# Upper Communities

Telephone Mrs. John Leeti, Biglerville 677-7612

**Members of Flor's Lutheran** Church, McKnightstown, will vote on the preliminary plan for a parish education building on Sunday morning from 8:30 to 9 o'clock, 10 to 10 15 o'clock, and 11:15 to 11:30 o'clock.

**The Young People's Department** of St. Paul's Lutheran Church and Bender's Lutheran Church, Biglerville, will go to Harrisburg Sunday to see "The Passion Play." Bus transportation will leave from St. Paul's Church parking lot at 5:30 p.m. The total cost for ticket and bus fare will be \$1 per person.

**"Do's and Don'ts of Flower Arranging,"** was the theme of an illustrated talk by Mrs. Charles Conrad, Lemoyne, at a special meeting of the Biglerville Garden Club Monday evening. She discussed different phases of the schedule of the Biglerville Garden Club Flower Show which will be held on May 3 and 4 in the social rooms of St. Paul's Lutheran Church, Biglerville. The public is invited to attend the flower show and tea. Hostesses for Monday evening's meeting were Mrs. Sterling Roth, chairman, Mrs. Jane Wilson, Mrs. O. A. Nary and Mrs. Earl Carey.

The next regular meeting of the club will be held on June 11 at 2 p.m. with the Gettysburg Garden Club members as guests. Presidents and several members of other garden clubs in District Four will also be invited. Mrs. M. Francis Coulson will be in charge of the program. The hostesses will be Mrs. Clair Shillko, chairman, Mrs. Robert C. Eicholtz, Mrs. Daniel Dentler, Mrs. Richard Trostle, Mrs. J. Willis Weigle, Mrs. Robert E. Eicholtz and Mrs. Charles Spicer.

**The Biglerville Service Unit** of the Salvation Army has two wheel chairs available for use. Anyone desiring the use of them may contact Miss Jean Thomas of Thomas' Country Store, Biglerville.

**The second year Catechetical** Class of Flor's Lutheran Church, McKnightstown, will be confirmed on Palm Sunday morning during the 9 o'clock service.

**A Holy Baptism service** will be held at the Wensville Methodist Church at 9 o'clock, at the Bendersville Methodist Church at 10 o'clock, and at the Orrtanna Methodist Church at 11:30 o'clock Palm Sunday morning.

**The Woman's Society of Christian Service** of the Orrtanna Methodist Church will hold a sacrificial meal Sunday evening at 7:30 o'clock at the church.

**The ladies of Bender's Lutheran** Church, Butler Twp., will hold a food sale on Saturday, April 21, beginning at 8 a.m. in front of Dugan's Barber Shop, S. Main St., Biglerville.

**The Biglerville Elementary** School Patrol has been chosen as one of three patrols in Adams County to be guests of the AAA at the Shrine Circus. The group will go by bus with the other two patrols to Harrisburg, leaving the Eisenhower Elementary School building, Gettysburg, at noon on April 28.

**Mrs. Dora Shaffer, Gardners,** was the guest of honor at a surprise birthday party Wednesday evening given by her husband at the home of their son-in-law and daughter, Mr. and Mrs. Edward Kuykendall, Gardners. Balloons were used in decorating, and a birthday cake centered the refreshment table. Those present were: Mr. and Mrs. James Trump, Mr. and Mrs. Wilbert Trump, Lester Trump and children, Dean, Leon, Brenda Murray, Mr. and Mrs. Peter Kimmel, Mr. and Mrs. Nile Little and son, Richard, and Mr. and Mrs. Kuykendall's daughters, Debbie and Brenda. Mrs. Shaffer received many gifts.

**The April meeting of the Christian** Fellowship Sunday School Class of Trinity United Church of Christ, Biglerville, which was scheduled for Saturday evening, has been cancelled.

**The Trilogy Club** will meet Tuesday afternoon at 2 o'clock at the home of Mrs. Ralph Tyson, Gardners. Mrs. William Wilson, Gettysburg, is in charge of the program and will have as her guest Mrs. D. L. Radsma, Gettysburg, who will speak on her native country, Holland.

**Parents purchased** and made by the Ladies Aid Society of the Upper Meridian Lutheran Church, Gardners R. D., will be dedicated during the worship service Sunday morning at 9 o'clock.

**REPORTS DAMAGE**

Dr. John Beegle, 253 Baltimore St., notified borough police Thursday night that someone had backed into the garage door of a property owned by his father at 255 Baltimore St.

# Congress To Double Peace Corps Budget

WASHINGTON (AP)—Congress has voted to more than double the Peace Corps budget and let the agency sign up thousands of new volunteers.

The Senate passed the authorization bill Thursday and sent it to President Kennedy, who had asked for the expansion.

Under the measure, Kennedy is authorized to spend \$63.75 million to put 9,970 volunteers into the corps by the fall of 1963.

The Peace Corps now has about 900 volunteers, but expects to have 2,400 on its roster by June 30, and 5,100 by next fall.

## Out Of The Past

From the Files of the  
Star and Sentinel and  
The Gettysburg Times  
FIFTEEN YEARS AGO

**Shortage Of Water:** Because of its inability to obtain sufficient water even to meet the needs of its present plant at Biglerville the C. H. Musselman Company has been forced to forego further development there and instead has turned to the development of its West Virginia plant, John A. Hauser, president of the Company, testified today as the hearing on the case of the Pennsylvania Utilities Commission against the Biglerville Water Co. was resumed here. Mr. Hauser said that developments at the West Virginia plant were furnishing employment to between 40 and 45 residents of that state which would have gone to Pennsylvania workers had it been possible to expand the Biglerville plant.

**Son Of Mt. Joy Pastor Killed:** Wilbert S. Held, 23, a graduate student at Western Reserve University at Cleveland, Ohio, and eldest son of the Rev. Charles E. Held, Mt. Joy Lutheran pastor, and Mrs. Held, was one of six persons fatally injured at dusk Saturday in a head-on collision on the Slippery Rock-Grove City highway. Described by the Associated Press as one of the worst traffic accidents on record in Western Pennsylvania, the crash took the lives of six of the seven persons involved. The tragedy occurred about 7:20 o'clock Saturday evening when a car occupied by a Grove City couple crashed head on into a machine in which five Slippery Rock students and alumni were returning to Cleveland from a reunion at Slippery Rock College. Held graduated from Slippery Rock in January, following his discharge from the service as a lieutenant in the Air Force, and was taking postgraduate work at Western Reserve leading to a master's degree in physical education. Besides his work at the university, he served as a substitute teacher in the Cleveland schools.

**Sells Store To Son:** John Null, owner of Null's Store, Greenmount, for many years, has sold the business to his son, Walter S. Null, for years a Zerling's Hardware employee.

**College Adds Two Courses:** Two required courses will be introduced into Gettysburg College's curriculum within the next two academic years, Registrar Charles R. Wolfe has announced. The discontinuation of the freshman "Orientation" course and the increase of the required Bible Course to six-semester hours instead of the present three-semester hours also were made known. The two courses to be initiated are "Introduction to Contemporary Civilization" and "Literary Foundations of Western Culture." The first course will be given in the freshman year and the second in the sophomore year.

**New Industry Handicapped:** More than 100 men and women are working from six to seven days a week turning out magnetic coils ranging in size from a tiny one, hardly larger than the circumference of a pencil, to huge transformers weighing more than half a ton, at the plant of the Inductive Equipment corporation, and still this new Gettysburg concern is unable to keep up with the

## Today's Talk

**COMPANIONS**

One of the first conclusions that the Creator came to was that "it is not good for man to live alone." So He scattered through the world companions for this human being, the greatest creation of His mind. Not only other human beings, but companions of the field, of the forest, of the vast open spaces, and of the bandwork of men's minds — art, literature and the crafts.

What would any of us do without these companions to fall back upon in the midst of discouragement and loss?

Every man is followed by shadows. Shadows of his better self, shadows of ideals, of reflected faith from the brave.

Behind every great and earnest man of action must be his background of inherited hope, his own crowd of heroic folk.

Your silent books, your sweet and holy memories, your high-spots of achievement, your moments of beautiful human companionship — these are what are able to lift you in moments of dullness and drab despair.

There isn't a human being who breathes who hasn't in some part of his nature — hidden secretly and quite securely, perhaps — some choice treasure of beauty, some previous gem of unpolished worth, known and felt to himself alone.

So that it is most possible for a man at times to be his own best companion — his best friend in need.

You can only be good to the world by being good to yourself. We are reflected gifts of the Creator.

But there is no thrill quite equal to the thrill of pouring something fine and self-flavored into the hoping heart of someone else.

Tomorrow Mr. Adams will talk on the subject: "The Sample That You Are"

Protected, 1962, by The George Matthews Adams Service

## Just Folks

**BE OF THE FEW!**  
Goals which are hard to win,  
Few men attain,  
Many give up, when in  
Doubt, fear or pain.  
This is the truth of men —  
Only the very few  
Fight to the finish, when  
Hard is the task to do.

That which is hard to gain  
Holds the best thrill,  
Easily none attain  
Wisdom or skill.  
Difficult? Face it out!  
End what's begun.  
Pride follows dread and doubt  
Once it is done.

Seek not the easy road,  
Welcome the doubt,  
Welcome the heavy load,  
Work to be stout!  
Steeper the hill to climb,  
Grander the view!  
Aim for the heights sublime,  
Be of the few!

Protected, 1962, by The George Matthews Adams Service

demand for its products, due to inability to obtain materials which go into the coils. They can get only 25 and 30 per cent of the copper wire they need. The copper wire is purchased from the Anaconda Copper company and other copper manufacturers and is "drawn" to the sizes needed in batteries of machines at the plant. John R. Gaston, plant president and manager, says that the copper is shorter in supply now than during the war because what came into the United States duty-free during the past few years has been used. The United States is short 40,000 tons at the present, he said.

**Campaign To Elect Woman To School Board:** The Gettysburg branch of the American Association of University Women launched a campaign this week for the election of a Gettysburg mother to the local school board. Proposed by the chairman of the legislative committee, Mrs. Donald P. McPherson Jr., the suggestion received the unanimous endorsement of the group of approximately 40 women in attendance. The president, Mrs. Forrest Craver, explained that the legislative committee had "no particular person or persons in mind but it would be a sorry situation indeed if no capable woman would consent to run for that important office."

## ARMY CAPTAIN at Capernaum

"And when Jesus was entered into Capernaum, there came unto him a centurion..."

—Matthew VIII:5

Unlike most soldiers of the Roman legion who occupied Palestine during the time of Jesus, this centurion had a great deal of respect for the Jews and their religion, and was considered by them to be a godly man. Luke reports that the elders of the Jews spoke to Jesus on his behalf, saying:

"He loveth our nation, and he hath built us a synagogue."

It has been conjectured that, since Galilee was ruled by Herod Antipas, the centurion probably commanded some Roman troops maintained by that tetrarch at Capernaum.

When the Roman sought the favor of Jesus, it was for the healing of a servant "who was dear to him," but was on the point of death—reduced to utter impotence and misery by some form of palsy or paralysis.

The character of the centurion is all the more remarkable when viewed in its proper historical perspective. In those days, a servant was little better than a slave. If he fell ill, and was unable to further serve his master, he was usually banished to an infirmary, or taken to the home of relatives or friends.

When he asked Jesus to help the sick servant, Jesus told the Roman:

"I will come and heal him."

But the centurion had so much faith in the Master's prowess that he said, "Lord, I am not worthy that thou shouldst come under my roof: but speak the word only, and my servant shall be healed."

Just as the soldiers obeyed his commands, the centurion said, so the forces of good would heal the sick servant at the command of Jesus.

When Jesus heard this, He turned to His followers and said:

"Verily I say unto you, I have not found so great faith, no, not in Israel."

And He healed the centurion's servant "in the self-same hour."

Dr. George A. Buttrick pointed out that "this faith was a far cry from Roman pride, and the worship in Pagan temples."

"He could have been brutal to his servants—Caesar once apologized for feeling pity for a slave—but instead he sought the help of Christ for a favored servant."

**Dairy Breeding Co-operative:** Arrangements have been completed with the Southeastern Pennsylvania Artificial Breeding Cooperative, located at Landisville, to extend its service immediately to Adams County. County Agent M. T. Hartman announced today. The service will be available for Holstein, Guernsey, Jersey and Ayrshire cattle. Approximately 600 head of cattle are already signed for membership in the cooperative and the county agent expects herds totaling 1,600 to 2,000 head eventually will be receiving the service in Adams County.

**Memorial Day Plans:** No further word has been heard from President Truman and the Memorial Day Observance Committee is going ahead with its plans on the assumption that the president will be here May 30. The president "tentatively" accepted an invitation to deliver the Memorial Day address in the National Cemetery on March 21. U. S. Senator Francis J. Myers personally extended Gettysburg's invitation on that date at the

tack ever launched against a disease, there is still great need for expanding the cancer research effort. These are worthy goals. The best way to observe Cancer Progress Year is to have a health check-up and to make a contribution to the American Cancer Society's April Crusade.

Yes, Virginia, there is an Easter bunny... but sometimes, he's a bell.

According to one European legend, church bells, which do not ring from Good Friday to Easter, fly to Rome. On their way back, they drop eggs for children to find.

Bells have always been closely associated with religious observances, reports World Book Encyclopedia. Long before Christ, high priests of the Israelites wore bells as a protection against evil spirits. Since the 500's Christians have used bells to summon worshippers.

During the Middle Ages, bells were considered spiritual things. They received the blessing of a bishop and were washed with holy water — a custom popularly known as the baptism of the bell. The bishop prayed that the bell would summon the faithful to worship, drive away storms and frighten evil spirits.

Bells had other uses, too, such as announcing the curfew or calling attention to the notices of town criers. They warned of fires and called soldiers together.

In fact, the power of bells to rally people was so great that a conqueror frequently melted down the bells of a town.

Calvary, the name of the site of Christ's Crucifixion, comes from the Latin word for skull. The place may have gotten the name from its shape, from skulls seen there in ancient times, or from a legend that the skull of Adam was buried there. No one knows the actual site of Calvary.

## Saxton Reactor Is In Operation

SAXTON, Pa. (AP)—A new atomic power reactor has gone into operation in this Bedford County community some 25 miles south of Altoona, starting a five-year experimental program to raise the efficiency of atomic power.

The reactor, owned by the non-profit Saxton Nuclear Experimental Corp., began operating Thursday.

Westinghouse Electric Corp., which designed and developed the power plant, will plan the five-year test program and supply the nuclear fuel and special equipment required. Saxton personnel will operate the reactor.

Total cost of the project, including construction of the reactor, was placed at \$8.5 million. The Saxton Corp. was formed by four operating subsidiaries of the General Public Utilities Sys-

tem—Pennsylvania Electric Co., Metropolitan Edison Co., New Jersey Power and Light Co., and Jersey Central Power and Light Co. Pennsylvania State University and Rutgers University are associate members.

South it may occur any time from December to February. Even foreign lands now have special tree planting days. Among the more prominent are Canada, England, Germany, Australia, France, Norway and Japan. Russia is also in on the tree parade.

In this country, most schools observe Arbor Day with special tree planting ceremonies. And today, many persons active in tree care and forest preservation work first learned to know and love their leafy friends on such a childhood Arbor Day.

## Bolt Athletes Honored By Lions, Rotary Clubs; "Shorty" Miller Speaker

The athletes at Littlestown High School were honored Thursday evening at a banquet in Banker's Restaurant, Littlestown, by the Littlestown Lions and Rotary Clubs. The annual affair is sponsored by the various civic and service clubs in the community.

Eugene E. "Shorty" Miller, retired educator from Harrisburg and a former professional football player and official, told the students, "If you go out for a sport, make up your mind you will suffer disappointments. It will be rough and it will be plenty tough."

Miller said that one thing everyone must remember is that "you can't lick a man that won't be licked." He exemplified that by telling about his experiences when he tried out for the Penn State football team in 1910. He said he was only 115 pounds and a left-hander, but decided to play quarterback. His size immediately placed him on the ninth team but he stuck it out and, after he scored a touchdown on the first play when he got into a game, Miller said he "played every game in college after that except one when I was scouting."

The 71-year-old retired principal of Edison Junior High School in Harrisburg said it was "a great thrill to come to a community like that where you don't take anything but the best."

### OTHER SPEAKERS

Clayton Evans, who is retiring as director of athletics at the school, was the toastmaster. He introduced Elmer Gall, president of the Littlestown Lions Club, and Clyde Crouse, president of the Rotary Club, and both spoke briefly. Others introduced and making brief remarks were Marvin Breighner, president of the Athletic Council, who said he was "proud of the school's coaching staff"; Frank E. Basehauer, high school principal, who said that the school has good coaches, good moral support of the community and "good kids," all of which combine to make champions, and Paul E. King, supervising principal, who said that he was extremely pleased with all phases of the athletic program and one "of which we can be very proud." King recognized Henry T. Bream, director of athletics at Gettysburg College, who aided in obtaining the speaker but was unable to be present.

### EVANS INTRODUCED THE FOUR HEAD COACHES WHO REVIEWED THE PAST YEAR'S ACTIVITIES AND MADE SOME PREDICTIONS FOR 1962.

Ron Lawhead, head grid coach, said they will have 42 squad members returning, including 12 lettermen. He presented the Seniors, co-captain Ron Sponseller, co-captain Don Jones, John Streig, Don Selby, Charles Sease and James Rineaman, and his associates, Richard Thomas, Donald Kump and Jack Bream; faculty manager, Kenneth Rineaman, and statistician, Ronald Hedges.

### LIUDS CAGE SQUAD

Head Cage Coach Jack Bream introduced his associates, Robert Misset and Don Kump, and said, "This year's teams was the greatest bunch of boys I have ever worked with. I never received complaints, the boys didn't miss any practices and they worked hard." The two seniors on the squad, Donald Jones and Don Arbogast, were introduced.

Baseball Coach Don Feaser said their season is just getting underway but he hopes for a good showing. A review of the track team's first encounter was given and it is anticipated that, with some experience, the boys will make a good showing.

As his last official act, retiring Director Clayton Evans said that Bream would be in charge of the dinners in the following years and asked him to note the policies for the forthcoming year. Bream said that the athletic director's job would be lessened with more responsibilities being taken on by the athletic council. He also said that a booster club is being formed and outlined the procedures and objectives of that group. The committee presently working on the project includes Feaser, Breighner and Lawhead.

Bream also noted that wrestling will be taught at the school next year with Lawhead to handle the coaching chores.

Over 200 persons, including fathers of the athletes, members of the Lions and Rotary Clubs, teachers and guests, were present.

## ANGELS TAKE CHISOX, 1-0 ON 4-HITTER

By MIKE RATHET  
Associated Press Sports Writer

What's this The American League pitchers' haven?

The same sluggers who smashed a record of 1,334 homers during the 1961 campaign have been the victims of four shutouts in nine games this season—the latest Ken McBride's four-hit job that gave the Los Angeles Angels a 1-0 triumph over the Chicago White Sox Thursday.

McBride, 28, a right-hander, hooked up in a pitchers' duel with White Sox rookie Joel Horlen and kept the Chicagoans away from the plate until Leon Wagner hit a 0-1 pitch for a home run leading off the ninth inning.

McBride, 12-15 last year, had to survive a rocky first inning in which a potential White Sox run was thrown out at the plate.

### NAILED AT PLATE

Luis Aparicio opened with a walk, then stole second. When Nellie Fox banged a hit to center, the fleet White Sox shortstop tried to come around and score. Lee Thomas' peg on the fly to catcher Bob Rodgers nailed Aparicio.

Minnesota belted Kansas City 9-5 in the only other game played. Detroit and Washington were rained out for the second straight day and the other clubs were not scheduled.

The Tigers will try to get a game in today, opening at home against the New York Yankees, but the Twins already have been snowed out of today's scheduled curtain-raiser at home against the Angels. Other home openers have Boston at Baltimore and Washington at Cleveland.

While McBride was keeping the White Sox scoreless, Horlen, 24, was equally as effective against the Angels. The right-hander ended up with a five-hitter and the tough loss.

Rookie Joe Bonkowski, 21, a right-hander, pitched 5-1-3 innings of strong relief and won it for the Twins by singling and scoring the go-ahead run in the fifth on Bob Allison's single. He gave up only one run after Dick Hovsey's homer had chased Minnesota starter Don Lee. Norm Bass took the loss for the A's.

### Buffalo Evens Playoff Series

The scene shifts to Springfield Saturday in the best-of-seven American Hockey League semifinal playoff between the Cleveland Barons and Springfield Indians. The teams are tied at two wins apiece.

The Barons, who evened the series Wednesday in Cleveland, may use sub goalie Al Cullen in the nets Saturday. Cullen, a 20-year-old amateur, replaced injured regular Les Binkley Wednesday and played well in beating the Indians, 4-2.

The teams move back to Cleveland for the sixth game Sunday. Meanwhile in the AHL's other Calder Cup semifinal, Buffalo drew even with Hershey Thursday at one game apiece in a best-of-five series. The Bisons, with veteran Dave Creighton leading the attack, battered the Bears, 5-1 at Hershey, Pa.

Creighton, who played for Hershey 10 years ago, set up two Buffalo goals and scored a third. Murray Hall netted two for the Bisons who scored three times in the third period to break open a tight game.

The series moves to Buffalo for the third and fourth games Saturday and Sunday.

### Fairfield Defends County Loop Title

Fairfield High School, defending Adams County League champions, will lack the "down the middle power" it had last year in the opinion of Coach Jack McAndrews. Fairfield opens defense of its title on Tuesday when it meets Littlestown on the Fairfield diamond.

McAndrews is seeking a capable catcher, shortstop, second baseman and center fielder.

The team will miss the hitting of Joe McCauslin, Ted Kane and John Snively, all of whom graduated, and John Weikert, who was recently married.

There are now 19 candidates seeking regular berths. They include:

Seniors — Jim Neely, George Haines, Charley Mort, Ray Trembow, Terry Martin; Juniors—Tom Reindollar, Dave Benner, Stu Sites, Don Briggs, Ray Adlesberger, Larry Weikert; Sophomores — Don Dick, Lester Harbaugh; Freshmen — Dennis McGlaughlin, Dennis Martin, Mike Reindollar, Bob Sanders, Greg Wertz and Gary Spence.

### BOWLS HIGH SERIES

Gladys Hefelfinger, a member of the Upper Adams Ladies League, bowled a 609 series in league competition Tuesday evening at the Upper Adams Lanes. Her games were 192-201-216. She had a 169 average in the league.

Participants and guests at the annual Littlestown High School sports banquet held Thursday evening in Banker's Restaurant, Littlestown, were, left to right: Clyde Crouse, president of the Rotary Club; Jack Bream, new athletic director; Eugene E. "Shorty" Miller, Harrisburg, guest speaker; Clayton Evans, retiring athletic director and team manager; and Elmer Gall, president of the Lions Club. The Lions and Rotary were cosponsors of the event. ## LEAFS HEADING FOR 1ST TITLE IN 7 YEARS

By JOE MOOSHL  
Associated Press Sports Writer

TORONTO (AP)—The Toronto Maple Leafs find themselves in the delightful position of being two games up on the Chicago Black Hawks today in their best-of-seven Stanley Cup championship and could put an early end to the hockey series if they play with the same authority in Chicago as they did on their home ice.

Aiming to win their first cup in 11 years, the Leafs put on another tremendous exhibition in turning back Chicago's bid 3-2 Thursday night. It was a satisfying triumph because the Hawks played much better hockey than they did in the opener Tuesday when they fell 4-1.

### NOT UNEXPECTED

The two victories by Toronto were not totally unexpected because the Hawks have won only one game at Maple Leaf Gardens since Jan. 2, 1960. That was last March 17 by a 3-1 count.

The Hawks cannot be counted out as yet. These are the same Hawks who lost two games to Montreal in the semifinal series and then came back to win four straight.

Billy Harris put the Leafs in front Thursday on a goal at 2:35 while Murray Balfour was serving a penalty. For a time it appeared as if that was to be the end of the scoring. Midway in the third period, however, Stan Mikita tied with the first of his two goals. Wasting no more than one minute, Toronto came back with Frank Mahovlich making it 2-1 and some seven minutes later George Armstrong clinched the decision with Toronto's third goal.

## BULLETS LOSE GOLF CONTEST

The Gettysburg College golf team suffered its first defeat of the season, but not before putting up a stiff battle as Lehigh won a slim 9-3-3/2 decision Thursday afternoon in Bethlehem.

George Markley and Chuck Johnson were the lone Bullet winners and Tom Boals pulled out a tie from his sixth place post. Gettysburg's consistent Junior, George Markley was also the match's low medalist with a 76.

Gettysburg (2-1) will journey to Carlisle Saturday to meet Dickinson.

Summaries: George Markley, G., defeated Don Doney (83) 2-1-1/2; Chuck Johnson, G., (78) defeated Bob Feurst (85), 3-0; Bob Noonan, L. (85) defeated Bob Brush (91), 3-0; Jerry Flynn, L. (87) defeated Wayne Chalmers (89), 2-1-1/2; Joe Kirby, L. (89) defeated Jim McCloy (86), 2-1; Irv Smith, L. (89) tied Tom Boals (90), 1-1-1/2.

## Phillies Open At Home Tonight

PHILADELPHIA (AP)—The Philadelphia Phillies open their home season tonight at Connie Mack Stadium against one of the National League's new entries, the Houston Colt 45s, who have won their first three games.

The game also will mark the eastern debut of the newly-franchised Texas team. A crowd of 15,000 is expected for the 8:05 p.m. opener.

Manager Gene Mauch called on rookie Jack Hamilton, who had a 9-9 record with Williamsport of the Eastern League last year, to pitch against Dick Farrell, a former Phil Both are right-handers.

"If Jack can throw strikes," said Mauch, "he can win up here and we might as well find out." Rain Thursday forced postponement of a Phillies' workout. The Weather Bureau forecast a light rain or drizzle today but said there would be gradual clearing this afternoon with mostly fair weather tonight, and a low near 40.

## FAIR CANCELS BASEBALL ACT

SEATTLE (AP)—Officials of the Seattle World's Fair have decided they aren't going to let homer-snagger Sal Durante of Brooklyn get banged up if they can help it.

They've called off the stunt where Sal, 20, would catch a baseball dropped off the 600-foot Space Needle.

Sal grabbed Roger Maris' record-breaking 61st homer last season. Soon after that exposition officials offered Durante \$1,000 if he could catch a ball dropped from the Space Needle. He made plans to try it.

Then Dr. Kenneth C. Clark, a University of Washington physicist started doing a little figuring. He came out of his one-man huddle estimating the baseball dropped from the tower would be traveling 130 miles an hour and gathering speed when sure-handed Sal caught it.

## PIERCE MAKES DEBUT IN N.L.

SAN FRANCISCO (AP)—Left-hander Bill Pierce, who pitched 189 winners in 14 American League seasons, makes his first National League start tonight for the San Francisco Giants.

Billy isn't worried about making the change in leagues as he comments, "The distance to the plate is the same in each."

Three starting San Francisco pitchers got the credit as the Giants won all three games in the opening series with the Milwaukee Braves—the final 8-4 Thursday. Pierce gets acquainted with the Nationals by opposing the defending champion Cincinnati Reds.

"I've faced a few of our batters in Florida during previous springs," he points out. "And I watched the World Series on television."

"Sometimes you can see things better on television than you can from the dugout, but that doesn't hold true all the way."

Early in the spring, Pierce had nothing but trouble as opposing batters whacked him freely. But in his final two outings against the Cleveland Indians he showed enough to win a starting assignment.

"Everything went wrong at first," he admits. "Then things got better and I got stronger."

## Racing Returns To Downs Tonight

CHARLES TOWN, W. Va.—Racing returns to the Eastern Panhandle of West Virginia tonight when Shenandoah Downs kicks off a 31-night spring meeting with the nation's leading rider, a Pennsylvania beauty queen and a new color scheme for saddle cloths on lap. Post time is 7:15.

The night track also will introduce the Twin Double, having scrapped its Big Bonanza pool for the four-way bet. The Twin Double consists of picking the winners of the fifth, sixth, seventh and eighth races. It was introduced in this area at the Charles Town day track in 1961 and paid a record \$22,000 mutual for a \$2 bet last winter.

Ronald Ferraro, the apprentice who leads the national jockey standings with more than 80 winners this year, will ride on the inaugural program. Ferraro will fly to Shenandoah following the afternoon program at the Laurel Race Course.

Petite Mariann Gutzenda, queen of the 15th annual Pennsylvania State Maple Tree Festival, will preside in the winners circle following the running of the Maple Tree Purse.

### Major League Stars By THE ASSOCIATED PRESS

PITCHING — Dean Stone, Colts, former American League shutout Chicago Cubs 2-0 on three hits striking out nine, and allowing only one man to reach second base as Houston won third straight.

## DERBY ENTRIES ARE ENTERED IN BIG RACES

By JOHN CHANDLER  
Associated Press Sports Writer

Horsemens with interest in the \$125,000-added Kentucky Derby, May 5 will be watching results from Tanforan and Laurel Race courses on Saturday when several 3-year-olds get important tests.

Neil S. McCarthy's Royal Attack, who captured the Santa Anita Derby, returns to action in the \$15,000-added Westlake Handicap at Tanforan, San Bruno, Calif. Ada L. Rice's Daddy R., winner of the Governor's Gold Cup at Bowie, heads the line-up for the \$25,000-added Chesapeake Stakes at Laurel, Md.

Royal Attack packing 113 pounds, moves older horses in the 1-1/4 mile Westlake. Trainer Buddy Hirsch was unable to spot a 3-year-old event for his colt, and will give Royal Attack his final prep for the \$85,000 California Derby April 21. Eddie Burns will ride.

### DOZEN MAY START

A dozen may start in the Westlake, with Revel, Mrs. Helen Kenaston's sprint ace, packing top weight of 121. Wonder Y Ranch's Sea Orbit and Malcolm Shelton's Double Lea, each with 120, are others likely to start.

Sammy Boulmetis pilots Daddy R. in the Chesapeake, also at 1-1/4 miles. Previous Chesapeake winners include Whiskery, Cavalcade, War Admiral and Citation, all of whom went on to win the Derby.

George D. Widener's Endymion, Marion R. Frankel's Sidluck, Rokeby Stable's Crackpool, Bruce Campbell's Dedimond are other Derby eligibles in the Chesapeake.

## Will Play Game Under New Rules

Fairfield and Littlestown High School baseball teams will play a contest in May using two changes of official rules in order to shorten the length of the game. It was announced at a banquet Thursday evening in Littlestown honoring the school's athletes.

Head baseball coach Donald Feaser said that he and Fairfield coach Jack McAndrews have agreed to use a three-ball, two-strike count throughout the game, and to play an offensive and defensive team.

Feaser said that he can see no difference in the outcome of the game with the lower count except that it will shorten the tilt by a half hour or more. He cited the feasibility of getting more players, especially offensive or defensive specialists, into the game as the reason for the two special teams.

Under this setup, the team would have two lineups, with the coaches inserting good hitters offensively and the best defensive players when on the field.

## GHS-Canner Game Set For April 24

The Gettysburg-Biglerville High School baseball game, rained out here Thursday, was postponed until today and this morning was again rescheduled for Tuesday, April 24, after unrelenting rain made playing conditions impossible.

The Warriors will now open their season at Chambersburg Monday afternoon in a South Penn League game.

### By THE ASSOCIATED PRESS PHILADELPHIA — George

Benton, 160-1/2, Philadelphia, stopped Rudolph Bent, 165, Kingston, Jamaica, 2.

MIAMI, Fla. — Freddie Butts, 150, Portland, Maine, outpointed Harry Lee Irvin, 146, Pompano Beach, Fla., 10.

TOKYO — Hiroyuki Ebihara, 112, Japan, knocked out Ray Ortiz, 110-1/2, Philippines, 3.

## Grid Scrimmage Saturday At 2

A full-dress scrimmage Saturday afternoon at 2 o'clock on Memorial Field, to which the public is invited, will conclude the spring football practice at Gettysburg College.

The Bullets, under Coach Eugene Haas, began their drills on March 26. Reports indicate the Bullet staff has been pleased with the showing of the candidates for next season's varsity.

## TWINS HAVE GOOD TALENT

KANSAS CITY (AP)—The Minnesota Twins have been tabbed as a club with some talented baseball players and a pitching staff made up of Camilo Pascual and a guy named Joe.

Catcher Earl Battey, shortstop Zorro Versalles, first baseman Vic Power, and outfielders Harmon Killebrew and Bob Allison spell out the nucleus of a good baseball club. And anyone who has watched Pascual spin a curve will swear the ball breaks for five minutes.

The Joe is Joe Bonkowski who pitched his first major league victory Thursday against the Kansas City Athletics. For a 21-year-old who has been in organized baseball only three years it was quite a thrill.

After throttling the A's with three hits in a 5-2-3-inning relief stint, the young right-hander told newsmen:

"When Manager (Sam) Mele told me to get ready I was the happiest guy in the park. I want to work from the bottom to the top."

Last season Joe had a 3.21 earned run average in with Syracuse. The year before at Wilson in the Carolina League he pitched a no-hitter and faced exactly 37 batters.

## CAGE PLAYOFF KNOTTED 2-2

BOSTON (AP)—Boston Coach Red Auerbach feels the Celtics have regained the upper hand in the National Basketball Association playoff finals.

"The series has now turned in our favor—let them worry," Auerbach said Thursday after a Celtics comeback had produced a 115-103 victory over Los Angeles and knotted the best-of-seven competition 2-2.

The teams meet here Saturday night and in Los Angeles Monday. If a seventh game is needed it will be in Boston Wednesday night.

Laker hopes to foil Boston's bid for an unprecedented fourth straight NBA playoff title appear to rest squarely on the foul line. In all four games to date, win or lose, Boston has managed more field goals but the Lakers have averaged nearly 15 more free throw chances per contest. Altogether, Los Angeles has converted 139 of 173 chances, Boston 96 of 116.

Count on one cup of torn salad greens (fairly lightly packed) for each serving when you are making a chef's salad.

Frost that cake as soon as it is cool. If you let it stand overlong without being covered, it will probably get too dry.

## HURLERS TURN IN GOOD JOBS FOR NEW COLTS

By MIKE RATHET  
Associated Press Sports Writer

Dean Stone, 32, a left-hander who hurled a three-hit shutout for his first victory in the majors since 1957, is the newest hero on a rapidly growing list for the Houston Colts' all-conquering cast of castoffs.

Becoming the third former American League southpaw to win for the National League's new entry, Stone blanked Chicago 2-0 Thursday for Houston's second straight shutout and third consecutive victory over the Cubs.

Stone, following the example set by Bobby Shantz and Hal Woodeshick, struck out nine, walked only two, permitted only one batter to reach second base and hurled no-hit ball for the final six innings.

### TIES 3 MARKS

Another auspicious beginning was made by Los Angeles southpaw Pete Richert, who tied three major league strikeout records in the Dodgers 11-7 walloping of Cincinnati.

Coming on in relief, Richert struck out Vada Pinson to end a four-run rally in the second inning. He struck out four—one reached base when catcher John Roseboro let a third strike get past him—in the third inning, then fanned the first man he faced in the fourth before pitcher Joey Jay grounded out.

The six strikeouts tied the mark set in 1954 by the Dodgers' Karl Spooner for most consecutive strikeouts by a pitcher making his major league debut and equalled the mark for relief pitchers established by Philadelphia's Jack Mayer in 1958. The four in one inning matched an often accomplished feat.

San Francisco walloped Milwaukee 8-4 in the only other game scheduled.

### JAY LOSES SECOND

Stone got the run he needed on Hal Smith's run-producing single in the fourth and received some working room when Bob Anderson wild pitched Bob Aspromonte home in the eighth. Jack Curtis started for the Cubs and took the loss.

The Dodgers chased Reds' starter Joey Jay, who lost his second, in the fifth when a seven-run outburst. Wally Moon's double knocked in the run that snapped a 4-4 tie. Roseboro doubled, took third when pitcher Bob Miller threw to first thinking Roseboro had missed the bag and scored when the return throw to third went wild. Richert got the victory.

Shortstop Jose Pagan drove in four runs for the Giants and also scored a run to make Jack Sanford's mound chores easier. Bob Buhl absorbed the defeat for the Braves.

## Will Not Stop Baseball Game

LANSING, Mich. (AP)—You can relax now, Tigers and Yanks and baseball fans.

State Sen. John P. Smeekens says he won't try and stop Sunday's game between Detroit and New York.

Smeekens had threatened to seek enforcement of a 1896 Michigan blue law forbidding sports contests and spectating on Sunday if the Senate didn't go along with his contention that the blue laws of Michigan need revising.

The measure, shutting most retail stores on Saturday or Sunday, passed the Senate Thursday. It also legalizes Sunday baseball.

## Bolt Athletes Honored By Lions, Rotary Clubs; "Shorty" Miller Speaker

The athletes at Littlestown High School were honored Thursday evening at a banquet in Banker's Restaurant, Littlestown, by the Littlestown Lions and Rotary Clubs. The annual affair is sponsored by the various civic and service clubs in the community.

Eugene E. "Shorty" Miller, retired educator from Harrisburg and a former professional football player and official, told the students, "If you go out for a sport, make up your mind you will suffer disappointments. It will be rough and it will be plenty tough."

Miller said that one thing everyone must remember is that "you can't lick a man that won't be licked." He exemplified that by telling about his experiences when he tried out for the Penn State football team in 1910. He said he was only 115 pounds and a left-hander, but decided to play quarterback. His size immediately placed him on the ninth team but he stuck it out and, after he scored a touchdown on the first play when he got into a game, Miller said he "played every game in college after that except one when I was scouting."

The 71-year-old retired principal of Edison Junior High School in Harrisburg said it was "a great thrill to come to a community like that where you don't take anything but the best."

### OTHER SPEAKERS

Clayton Evans, who is retiring as director of athletics at the school, was the toastmaster. He introduced Elmer Gall, president of the Littlestown Lions Club, and Clyde Crouse, president of the Rotary Club, and both spoke briefly. Others introduced and making brief remarks were Marvin Breighner, president of the Athletic Council, who said he was "indeed proud of the school's coaching staff"; Frank E. Basehauer, high school principal, who said that the school has good coaches, good moral support of the community and "good kids," all of which combine to make champions; and Paul E. King, supervising principal, who said that he was extremely pleased with all phases of the athletic program and one "of which we can be very proud." King recognized Henry T. Bream, director of athletics at Gettysburg College, who aided in obtaining the speaker but was unable to be present.

Evans introduced the four head coaches who reviewed the past year's activities and made some predictions for 1962.

Ron Lawhead, head grid coach, said they will have 42 squad members returning, including 12 lettermen. He presented the Seniors, co-captain Ron Spensler, co-captain Don Jones, John Strevig, Don Selby, Charles Sease and James Rineaman, and his associates, Richard Thomas, Donald Kump and Jack Bream; faculty manager, Kenneth Rineaman, and statistician, Ronald Hedges.

### LIUDS CAGE SQUAD

Head Cage Coach Jack Bream introduced his associates, Robert Musser and Don Kump, and said, "This year's team was the greatest bunch of boys I have ever worked with. I never received complaints, the boys didn't miss any practices and they worked hard." The two Seniors on the squad, Donald Jones and Don Arbogast, were introduced.

Baseball Coach Don Feaser said their season is just getting underway but he hopes for a good showing. A review of the track team's first encounter was given and it is anticipated that, with some experience, the boys will make a good showing.

As his last official act, retiring Director Clayton Evans said that Bream would be in charge of the dinners in the following years and asked him to note the policies for the forthcoming year. Bream said that the athletic director's job would be lessened with more responsibilities being taken on by the athletic council. He also said that a booster club is being formed and outlined the procedures and objectives of that group. The committee presently working on the project includes Feaser, Breighner and Lawhead.

Bream also noted that wrestling will be taught at the school next year with Lawhead to handle the coaching chores.

Over 200 persons, including fathers of the athletes, members of the Lions and Rotary Clubs, teachers and guests, were present.

## MUST CLEAR WARRIOR TIE

PHILADELPHIA (AP) — Eddie Gottlieb, owner of the Philadelphia Warriors, said today he wouldn't have any comment on the status of Coach Frank McGuire's 3-year contract until he talked to McGuire. McGuire expressed interest in the head basketball coaching job at South Carolina.

McGuire served one year of the past last season with the National Basketball Association team, which is reportedly going to be sold to a San Francisco group for transfer to the West Coast.

Gottlieb was asked for comment on McGuire's visit Thursday to South Carolina to discuss the job with athletic director Marvin Bass.

McGuire said he is interested but "would have to get clarification of my position with the Warriors before making any plans."

McGuire is known to be reluctant to move to the West Coast. Gottlieb said he could not say when he would talk to McGuire.

## MOLINA WILL BATTLE LANE

SAN JOSE, Calif. (AP) — Undeclared lightweight boxer Luis Molina, who won notice and ranking with two victories in a week this year, figures he'll know Saturday night whether he's ready to challenge for the 135-pound title.

Home grown and home developed, the 23-year-old ex-Marine fights veteran left-hander Kenny Lane of Muskegon, Mich., at the San Jose Civic Auditorium in a nationally televised (ABC) 10-round.

"If I beat Lane, I'm going to Las Vegas and challenge the winner of the Joe Brown-Carlos Ortiz title fight," Molina declares.

He got his first chance before a video audience on short notice, Feb. 24, outpointing Texan Manuel Gonzalez at Las Vegas as a substitute bout when the Brown-Ortiz match was postponed.

On Tuesday of the same week in San Jose, Molina had knocked out veteran Len Matthews in the first round. The victories were Nos. 18 and 19 for the little slugger who turned pro in 1959.

Ring Magazine lists Kenny No. 10 among lightweight challengers. The National Boxing Association has Molina ranked No. 4 among the junior welterweights although he can make the 135-pound lightweight limit.

ADVERTISE IN THE TIMES

## ANGELS TAKE CHISOX, 1-0 ON 4-HITTER

By MIKE RATHET  
Associated Press Sports Writer

What's this The American League pitchers' haven?

The same sluggers who smashed a record of 1,534 homers during the 1961 campaign have been the victims of four shutouts in nine games this season—the latest Ken McBride's four-hit job that gave the Los Angeles Angels a 1-0 triumph over the Chicago White Sox Thursday.

McBride, 26, a right-hander, hooked up in a pitchers' duel with White Sox rookie Joel Horlen and kept the Chicagoans away from the plate until Leon Wagner hit a 0-1 pitch for a home run leading off the ninth inning.

McBride, 12-15 last year, had to survive a rocky first inning in which a potential White Sox run was thrown out at the plate.

### NAILED AT PLATE

Luis Aparicio opened with a walk, then stole second. When Nellie Fox batted a hit to center, the fleet White Sox shortstop tried to come around and score. Lee Thomas' peg on the fly to catcher Bob Rodgers nailed Aparicio.

Minnesota belted Kansas City 9-5 in the only other game played. Detroit and Washington were rained out for the second straight day and the other clubs were not scheduled.

The Tigers will try to get a game in today, opening at home against the New York Yankees, but the Twins already have been snowed out of today's scheduled curtain-raiser at home against the Angels. Other home openers have Boston at Baltimore and Washington at Cleveland.

While McBride was keeping the White Sox scoreless, Horlen, 24, was equally as effective against the Angels. The right-hander ended up with a five-hit and the tough loss.

Rookie Joe Bonkowski, 21, a right-hander, pitched 5 1/3 innings of strong relief and won for the Twins by singling and scoring the go-ahead run in the fifth on Bob Allison's single. He gave up only one run after Dick Howser's homer had chased Minnesota starter Don Lee. Norm Bass took the loss for the A's.

## Buffalo Evens Playoff Series

The scene shifts to Springfield Saturday in the best-of-seven American Hockey League semifinal playoff between the Cleveland Barons and Springfield Indians. The teams are tied at two wins apiece.

The Barons, who evened the series Wednesday in Cleveland, may use sub goalie Al Cullen in the nets Saturday. Cullen, a 20-year-old amateur, replaced injured regular Les Binkley Wednesday and played well in beating the Indians, 4-2.

The teams move back to Cleveland for the sixth game Sunday. Meanwhile in the AHL's other Calder Cup semifinal, Buffalo drew even with Hershey Thursday at one game apiece in a best-of-five series. The Bisons, with veteran Dave Creighton leading the attack, battered the Bears, 5-1 at Hershey, Pa.

Creighton, who played for Hershey 10 years ago, set up two Buffalo goals and scored a third. Murray Hall netted two for the Bisons who scored three times in the third period to break open a tight game.

The series moves to Buffalo for the third and fourth games Saturday and Sunday.

## Fairfield Defends County Loop Title

Fairfield High School, defending Adams County League champions, will lack the "down the middle power" it had last year in the opinion of Coach Jack McAndrews. Fairfield opened defense of its title on Tuesday when it meets Littlestown on the Fairfield diamond.

McAndrews is seeking a capable catcher, shortstop, second baseman and center fielder.

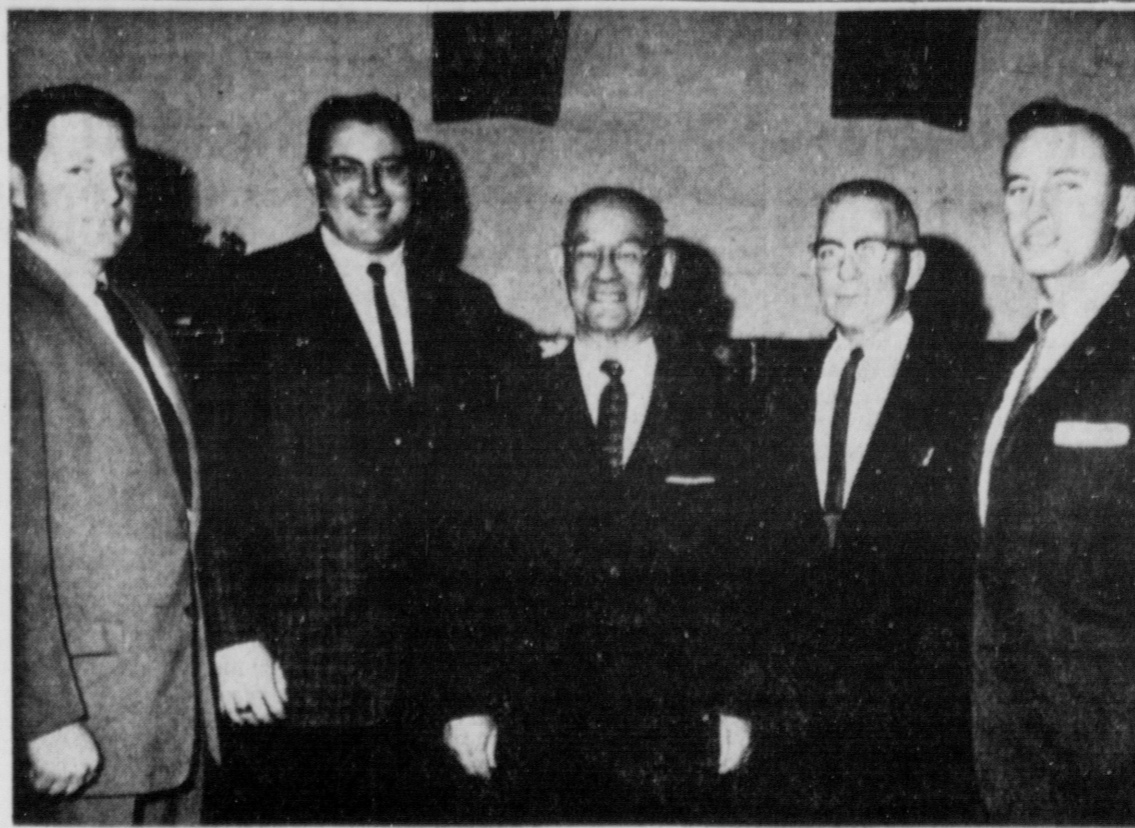

The team will miss the hitting of Joe McCauslin, Ted Kane and John Snively, all of whom graduated, and John Weikert, who was recently married.

There are now 19 candidates seeking regular berths.

Seniors — Jim Neely, George Haines, Charley Mort, Ray Trembow, Terry Martin; Juniors — Tom Reinhold, Dave Benner, Stu Sites, Don Briggs, Ray Adlesberger, Larry Weikert; Sophomores — Don Dick, Lester Harbaugh; Freshmen — Dennis McGlaughlin, Dennis Martin, Mike Reinhold, Bob Sanders, Greg Wortz and Gary Spence.

### BOWLS HIGH SERIES

Gladys Hefelfinger, a member of the Upper Adams Ladies League, bowled a 609 series in league competition Tuesday evening at the Upper Adams Lanes. Her games were 192-201-216. She had a 169 average in the league.

Participants and guests at the annual Littlestown High School sports banquet held Thursday evening at Banker's Restaurant, Littlestown, were, left to right: Clyde Crouse, president of the Rotary Club; Jack Bream, new athletic director; Eugene E. "Shorty" Miller, Harrisburg, guest speaker; Clayton Evans, retiring athletic director and toastmaster; and Elmer Gall, president of the Lions Club. The Lions and Rotary were cosponsors of the event. (Times photo)

## LEAFS HEADING FOR 1ST TITLE IN 7 YEARS

By JOE MOOSHIL  
Associated Press Sports Writer

TORONTO (AP) — The Toronto Maple Leafs find themselves in the delightful position of being two games up on the Chicago Black Hawks today in their best-of-seven Stanley Cup championship and could put an early end to the hockey series if they play with the same authority in Chicago as they did on their home ice.

Aiming to win their first cup in 11 years, the Leafs put on another tremendous exhibition in turning back Chicago's bid 3-2 Thursday night. It was a satisfying triumph because the Hawks played much better hockey than they did in the opener Tuesday when they fell 4-1.

### NOT UNEXPECTED

The two victories by Toronto were not totally unexpected because the Hawks have won only one game at Maple Leaf Gardens since Jan. 2, 1960. That was last March 17 by a 3-1 count.

The Hawks cannot be counted on as yet. These are the same Hawks who lost two games to Montreal in the semifinal series and then came back to win four straight.

Billy Harris put the Leafs in front Thursday on a goal at 2:35 while Murray Balfour was serving a penalty. For a time it appeared as if that was to be the end of the scoring. Midway in the third period, however, Stan Mikita turned the first of his two goals.

Wasting no more than one minute, Toronto came back with Frank Mahovlich making it 2-1 and some seven minutes later George Armstrong clinched the decision with Toronto's third goal.

## BULLETS LOSE GOLF CONTEST

The Gettysburg College golf team suffered its first defeat of the season, but not before putting up a stiff battle as Lehigh won a slim 9 1/2-8 1/2 decision Thursday afternoon in Bethlehem.

George Markley and Chuck Johnson were the lone Bullet winners and Tom Boals pulled out a tie from his sixth place spot. Gettysburg's consistent Junior, George Markley was also the match's low medalist with a 76.

Gettysburg (2-1) will journey to Carlisle Saturday to meet Dickinson.

Summaries: George Markley, G., defeated Don Dorney (83) 2 1/2-1 1/2; Chuck Johnson, G., (78) defeated Bob Feurst (85), 3-0; Bob Noonan, L., (85) defeated Bob Brush (91), 3-0; Jerry Flynn, L., (87) defeated Wayne Chalmers (89), 2 1/2-1 1/2; Joe Kirby, L., (89) defeated Jim McCloy (86), 2-1; Irv Smith, L., (89) tied Tom Boals (90), 1 1/2-1 1/2.

## Phillies Open At Home Tonight

PHILADELPHIA (AP) — The Philadelphia Phillies open their home season tonight at Connie Mack Stadium against one of the National League's new entries, the Houston Colt 45s, who have won their first three games.

The game also will mark the eastern debut of the newly-franchised Texas team. A crowd of 15,000 is expected for the 8:05 p.m. opener.

Manager Gene Mauch called on rookie Jack Hamilton, who had a 9-0 record with Williamsport of the Eastern League last year, to pitch against Dick Farrell, a former Phil Both are right-handers.

"If Jack can throw strikes," said Mauch, "he can win up here and we might as well find out."

Rain Thursday forced postponement of a Phillies' workout. The Weather Bureau forecast a light rain or drizzle today but said there would be gradual clearing this afternoon with mostly fair weather tonight, and a low near 40.

## FAIR CANCELS BASEBALL ACT

SEATTLE (AP) — Officials of the Seattle World's Fair have decided they aren't going to let homer-snagger Sal Durante of Brooklyn get banged up if they can help it.

They've called off the stunt where Sal, 20, would catch a baseball dropped off the 600-foot Space Needle.

Sal grabbed Roger Maris' record-breaking 61st homer last season.

Soon after that exposition officials offered Durante \$1,000 if he could catch a ball dropped from the Space Needle. He made plans to try it.

Then Dr. Kenneth C. Clark, a University of Washington physicist started doing a little figuring. He came out of his one-man huddle estimating the baseball dropped from the tower would be traveling 130 miles an hour and gathering speed when sure-handed Sal caught it.

## PIERCE MAKES DEBUT IN N.L.

SAN FRANCISCO (AP) — Left-hander Bill Pierce, who pitched 189 winners in 14 American League seasons, makes his first National League start tonight for the San Francisco Giants.

Billy isn't worried about making the change in leagues as he comments, "The distance to the plate is the same in each."

Three starting San Francisco pitchers got the credit as the Giants won all three games in the opening series with the Milwaukee Braves—the finale 8-4 Thursday. Pierce gets acquainted with the Nationals by opposing the defending champion Cincinnati Reds.

"I've faced a few of their batters in Florida during previous springs," he points out. "And I watched the World Series on television."

"Sometimes you can see things better on television than you can from the dugout, but that doesn't hold true all the way."

Early in the spring, Pierce had nothing but trouble as opposing batters whacked him freely. But in his final two outings against the Cleveland Indians he showed enough to win a starting assignment.

"Everything went wrong at first," he admits. "Then things got better and I got stronger."

## Racing Returns To Downs Tonight

CHARLES TOWN, W. Va. — Racing returns to the Eastern Panhandle of West Virginia tonight when Shenandoah Downs kicks off a 31-night spring meeting with the nation's leading rider, a Pennsylvania beauty queen and a new color scheme for saddle cloths on tap. Post time is 7:15.

The night track also will introduce the Twin Double, having scrapped its Big Bonanza pool for the four-way bet. The Twin Double consists of picking the winners of the fifth, sixth, seventh and eighth races. It was introduced in this area at the Charles Town day track in 1961 and paid a record \$22,000 mutual for a \$2 bet last winter.

Ronald Ferraro, the apprentice who leads the national jockey standings with more than 80 winners this year, will ride on the inaugural program. Ferrari will fly to Shenandoah following the afternoon program at the Laurel Race Course.

Petite Mariann Gurzenda, queen of the 15th annual Pennsylvania State Maple Tree Festival, will preside in the winners circle following the running of the Maple Tree Purse.

Major League Stars  
By THE ASSOCIATED PRESS  
PITCHING — Dean Stone, Colts, former American League shut out Chicago Cubs 2-0 on three hits striking out nine, and allowing only one man to reach second base as Houston won third straight.

BATTING — Jose Pagan, Giants, drove in four runs with a single, double and triple, and scored once himself in 8-4 victory over Milwaukee.

## Grid Scrimmage Saturday At 2

A full-dress scrimmage Saturday afternoon at 2 o'clock on Memorial Field, to which the public is invited, will conclude the spring football practice at Gettysburg College.

The Bullets, under Coach Eugene Haas, began their drills on March 26. Reports indicate the Bullet staff has been pleased with the showing of the candidates for next season's varsity.

## TWINS HAVE GOOD TALENT

KANSAS CITY (AP) — The Minnesota Twins have been tabbed as a club with some talented baseball players and a pitching staff made up of Camilo Pascual and a guy named Joe.

Catcher Earl Battey, shortstop Zorro Versalles, first baseman Vic Power, and outfielders Harmon Killebrew and Bob Allison spell out the nucleus of a good baseball club. And anyone who has watched Pascual spin a curve will swear the ball breaks for five minutes.

The Joe is Joe Bonkowski who pitched his first major league victory Thursday against the Kansas City Athletics. For a 21-year-old who has been in organized baseball only three years it was quite a thrill.

After throttling the A's with three hits in a 5 2-3-inning relief stint, the young right-hander told newsmen:

"When Manager (Sam) Mele told me to get ready I was the happiest guy in the park. I want to work from the bottom to the top."

Last season Joe had a 3.21 earned run average in with Syracuse. The year before at Wilson in the Carolina League he pitched a no-hitter and faced exactly 27 batters.

## CAGE PLAYOFF KNOTTED 2-2

BOSTON (AP) — Boston Coach Red Auerbach feels the Celtics have regained the upper hand in the National Basketball Association playoff finals.

"The series has now turned in our favor—let them worry," Auerbach said Thursday after a Celtics comeback had produced a 115-103 victory over Los Angeles and knotted the best-of-seven competition 2-2.

The teams meet here Saturday night and in Los Angeles Monday. If a seventh game is needed it will be in Boston Wednesday night.

Laker hopes to foil Boston's bid for an unprecedented fourth straight NBA playoff title appear to rest squarely at the foul line. In all four games to date, win or lose, Boston has managed more field goals but the Lakers have averaged nearly 15 more free throw chances per contest. Altogether, Los Angeles has converted 139 of 173 chances, Boston 86 of 116.

## Will Play Game Under New Rules

Fairfield and Littlestown High School baseball teams will play a contest in May using two changes of official rules in order to shorten the length of the game, it was announced at a banquet Thursday evening in Littlestown honoring the school's athletes.

Head baseball coach Donald Feaser said that he and Fairfield coach Jack McAndrews have agreed to use a three-ball, two-strike count throughout the game, and to play an offensive and defensive team.

Feaser said that he can see no difference in the outcome of the game with the lower count except that it will shorten the tilt by a half hour or more. He cited the feasibility of getting more players, especially offensive or defensive specialists, into the game as the reason for the two special teams.

Under this setup, the team would have two lineups, with the coaches inserting good hitters offensively and the best defensive players when on the field.

GHS-Canner Game  
Set For April 24

The Gettysburg-Biglerville High School baseball game, rained out here Thursday, was postponed until today and this morning was again rescheduled for Tuesday, April 24, after unrelenting rain made playing conditions impossible.

The Warriors will now open their season at Chambersburg Monday afternoon in a South Penn League game.

By THE ASSOCIATED PRESS  
PHILADELPHIA — George Benton, 160 1/2, Philadelphia, stopped Rudolph Bent, 165, Kingston, Jamaica, 2.

MIAMI, Fla. — Freddie Butts, 150, Portland, Maine, outpointed Harry Lee Irvin, 146, Pompano Beach, Fla., 10.

TOKYO — Hiroyuki Ebihara, 112, Japan, knocked out Ray Ortiz, 110 1/2, Philippines, 3.

SHOOT ON SUNDAY

The Gettysburg Archery Club will hold a 28-target field shoot Sunday at the local range. Registration will be from 10 a.m. to 2 p.m. Door prizes will be awarded.

## HURLERS TURN IN GOOD JOBS FOR NEW COLTS

By MIKE RATHET  
Associated Press Sports Writer

Dean Stone, 32, a left-hander who hurled a three-hit shutout for his first victory in the majors since 1957, is the newest hero on the Houston Colts' all-conquering cast of castoffs.

Becoming the third former American League southpaw to win for the National League's new entry, Stone blanked Chicago 2-0 Thursday for Houston's second straight shutout and third consecutive victory over the Cubs.

Stone, following the example set by Bobby Shantz and Hal Woodeshick, struck out nine, walked only two, permitted only one batter to reach second base and hurled no-hit ball for the final six innings.

### TIES 3 MARKS

Another auspicious beginning was made by Los Angeles southpaw Pete Richert, who tied three major league strikeout records in the Dodgers 11-7 walloping of Cincinnati.

Coming on in relief, Richert struck out Vada Pinson to end a four-run rally in the second inning. He struck out four—one reached base when catcher John Roseboro let a third strike get past him—in the third inning, then fanned the first man he faced in the fourth before pitcher Joey Jay grounded out.

The six strikeouts tied the mark set in 1954 by the Dodgers' Karl Spooner for most consecutive strikeouts by a pitcher making his major league debut and equaled the mark for relief pitchers established by Philadelphia's Jack Mayer in 1958. The four in one inning matched an often accomplished feat.

San Francisco walloped Milwaukee 8-4 in the only other game scheduled.

**Today's Talk**  
**COMPANIONS**  
One of the first conclusions that the Creator came to was that "it is not good for man to live alone."  
So He scattered through the world companions for this human being, the greatest creation of His mind. Not only other human beings, but companions of the field, of the forest, of the vast open spaces, and of the bandwork of men's minds — art, literature and the crafts.  
What would any of us do without these companions to fall back upon in the midst of discouragement and loss?  
Every man is followed by shadows. Shadows of his better self, shadows of ideals, of reflected faith from the brave.  
Behind every great and earnest man of action must be his background of inherited hope, his own crowd of heroic folk.  
Your silent books, your sweet and holy memories, your high spots of achievement, your moments of beautiful human companionship — these are what are able to lift you in moments of dullness and drab despair.  
There isn't a human being who breathes who hasn't in some part of his nature — hidden secretly and quite securely, perhaps — some choice treasure of beauty, some previous gem of unpolished worth, known and felt to himself alone.  
So that it is most possible for a man at times to be his own best companion — his best friend in need.  
You can only be good to the world by being good to yourself. We are reflected gifts of the Creator.  
But there is no thrill quite equal to the thrill of pouring something fine and self-flavored into the hoping heart of someone else.  
Tomorrow Mr. Adams will talk on the subject: "The Sample That You Are"  
Projected, 1962, by The George Matthews Adams Service

**ARMY CAPTAIN  
at Capernaum**

"And when Jesus was entered into Capernaum, there came unto him a centurion..." — Matthew VIII:5

Unlike most soldiers of the Roman legion who occupied Palestine during the time of Jesus, this centurion had a great deal of respect for the Jews and their religion, and was considered by them to be a godly man. Luke reports that the elders of the Jews spoke to Jesus on his behalf, saying: "He loveth our nation, and he hath built us a synagogue."  
It has been conjectured that, since Galilee was ruled by Herod Antipas, the centurion probably commanded some Roman troops maintained by that tetrarch at Capernaum.  
When the Roman sought the favor of Jesus, it was for the healing of a servant "who was dear to him," but was on the point of death—reduced to utter impotence and misery by some form of palsy or paralysis.  
The character of the centurion is all the more remarkable when viewed in its proper historical perspective. In those days, a servant was little better than a slave. If he fell ill, and was unable to further serve his master, he was usually banished to an infirmary, or taken to the home of relatives or friends.  
When he asked Jesus to help the sick servant, Jesus told the Roman: "I will come and heal him."  
But the centurion had so much faith in the Master's prowess that he said, "Lord, I am not worthy that thou shouldst come under my roof: but speak the word only, and my servant shall be healed."  
Just as the soldiers obeyed his commands, the centurion said, so the forces of good would heal the sick servant at the command of Jesus.  
When Jesus heard this, He turned to His followers and said: "Verily I say unto you, I have not found so great faith, no, not in Israel."  
And He healed the centurion's servant "in the self-same hour."  
Dr. George A. Buttrick pointed out that "this faith was a far cry from Roman pride, and the worship in Pagan temples."  
"He could have been brutal to his servants—Caesar once apologized for feeling pity for a slave—but instead he sought the help of Christ for a favored servant."

**Out Of The Past**  
From the Files of the Star and Sentinel and The Gettysburg Times  
**FIFTEEN YEARS AGO**  
**Shortage Of Water:** Because of its inability to obtain sufficient water even to meet the needs of its present plant at Biglerville the C. H. Musselman Company has been forced to forego further development there and instead has turned to the development of its West Virginia plant, John A. Hauser, president of the Company, testified today as the hearing on the case of the Pennsylvania Utilities Commission against the Biglerville Water Co. was resumed here. Mr. Hauser said that developments at the West Virginia plant were furnishing employment to between 40 and 45 residents of that state which would have gone to Pennsylvania workers had it been possible to expand the Biglerville plant.

**Son Of Mt. Joy Pastor Killed:** Wilbert S. Held, 23, a graduate student at Western Reserve University at Cleveland, Ohio, and eldest son of the Rev. Charles E. Held, Mt. Joy Lutheran pastor, and Mrs. Held, was one of six persons fatally injured at dusk Saturday in a head-on collision on the Slippery Rock-Grove City highway. Described by the Associated Press as one of the worst traffic accidents on record in Western Pennsylvania, the crash took the lives of six of the seven persons involved. The tragedy occurred about 7:20 o'clock Saturday evening when a car occupied by a Grove City couple crashed head on into a machine in which five Slippery Rock students and alumni were returning to Cleveland from a reunion at Slippery Rock College. Held graduated from Slippery Rock in January, following his discharge from the service as a lieutenant in the Air Force, and was taking postgraduate work at Western Reserve leading to a master's degree in physical education. Besides his work at the university, he served as a substitute teacher in the Cleveland schools.

**Sells Store To Son:** John Null, owner of Null's Store, Greenmount, for many years, has sold the business to his son, Walter S. Null, for years a Zerling's hardware employee.

**College Adds Two Courses:** Two required courses will be introduced into Gettysburg College's curriculum within the next two academic years, Registrar Charles R. Wolfe has announced. The discontinuation of the freshman "Orientation" course and the increase of the required Bible Course to six-semester hours instead of the present three-semester hours also were made known. The two courses to be initiated are "Introduction to Contemporary Civilization" and "Literary Foundations of Western Culture." The first course will be given in the freshman year and the second in the sophomore year.

**New Industry Handicapped:** More than 100 men and women are working from six to seven days a week turning out magnetic coils ranging in size from a tiny one, hardly larger than the circumference of a pencil, to huge transformers weighing more than half a ton, at the plant of the Inductive Equipment corporation, and still this new Gettysburg concern is unable to keep up with the

**Just Folks**  
**BE OF THE FEW!**  
Goals which are hard to win, Few men attain, Many give up, when, in Doubt, fear or pain. This is the truth of men — Only the very few Fight to the finish, when Hard is the task to do.  
That which is hard to gain Holds the best thrill, Easily none attain Wisdom or skill, Difficult? Face it out! End what's begun. Pride follows dread and doubt Once it is done.  
Seek not the easy road, Welcome the doubt, Welcome the heavy load, Work to be stout! Steeper the hill to climb, Grand the view! Aim for the heights sublime, Be of the few!

demand for its products, due to inability to obtain materials which go into the coils. They can get only 25 and 30 per cent of the copper wire they used. The copper wire is purchased from the Anaconda Copper company and other copper manufacturers and is "drawn" to the sizes needed in batteries of machines at the local plant. John R. Gaston, plant president and manager, says that the copper is shorter in supply now than during the war because what came into the United States duty-free during the past few years has been used. The United States is short 40,000 tons at the present, he said.

**Campaign To Elect Woman To School Board:** The Gettysburg branch of the American Association of University Women launched a campaign this week for the election of a Gettysburg mother to the local school board. Proposed by the chairman of the legislative committee, Mrs. Donald P. McPherson Jr., the suggestion received the unanimous endorsement of the group of approximately 40 women in attendance. The president, Mrs. Forrest Craver, explained that the legislative committee had "no particular person or persons in mind but it would be a sorry situation indeed if no capable woman would consent to run for that important office."

tack ever launched against a disease, there is still great need for expanding the cancer research effort. These are worthy goals. The best way to observe Cancer Progress Year is to have a health check-up and to make a contribution to the American Cancer Society's April Crusade.  
Yes, Virginia, there is an Easter bunny... but sometimes, he's a bell.  
According to one European legend, church bells, which do not ring from Good Friday to Easter, fly to Rome. On their way back, they drop eggs for children to find.  
Bells have always been closely associated with religious observances, reports World Book Encyclopedia. Long before Christ, high priests of the Israelites wore bells as a protection against evil spirits. Since the 500's Christians have used bells to summon worshippers.  
During the Middle Ages, bells were considered spiritual things. They received the blessing of a bishop and were washed with holy water — a custom popularly known as the baptism of the bell. The bishop prayed that the bell would summon the faithful to worship, drive away storms and frighten evil spirits.  
Bells had other uses, too, such as announcing the curfew or calling attention to the notices of town criers. They warned of fires and called soldiers together.  
In fact, the power of bells to rally people was so great that a conqueror frequently melted down the bells of a town.  
Calvary, the name of the site of Christ's Crucifixion, comes from the Latin word for skull. The place may have gotten the name from its shape, from skulls seen there in ancient times, or from a legend that the skull of Adam was buried there. No one knows the actual site of Cal-

vary, reports World Book Encyclopedia, but tradition places it where the Church of the Holy Sepulchre now stands.  
Maundy Thursday is believed to get its name from Christ's commandment — mandatum, in Latin — to His followers. During the Last Supper He said, "A new commandment I give unto you: that ye love one another."  
April is the month when man pays homage to trees! During this month, many tree-conscious communities throughout the land will celebrate the 90th anniversary of Arbor Day.  
The great day was born April 10, 1872, in the state then known as "treeless Nebraska," by J. Sterling Morton, later to become secretary of agriculture. More than 1,000,000 trees were planted across the Nebraska prairies for the occasion.  
While tree planting festivals have been held in many lands for centuries, no one ever set aside a special annual date for the event until Morton arrived on the scene. He fathered the plan and gave the name for the holiday. Eventually, these Arbor Day projects became so popular that the Nebraska legislature in 1895 adopted the title, "Tree Planter's State." It also changed the official observance to April 22 — the date of Morton's birth.  
In the years since, every state has adopted the idea although the date of its observance varies widely, due to climatic conditions. In the North, the day is generally observed in April while in the

**Saxton Reactor Is In Operation**  
SAXTON, Pa. (AP)—A new atomic power reactor has gone into operation in this Bedford County community some 25 miles south of Altoona, starting a five-year experimental program to raise the efficiency of atomic power.  
The reactor, owned by the non-profit Saxton Nuclear Experimental Corp., began operating Thursday.  
Westinghouse Electric Corp., which designed and developed the power plant, will plan the five-year test program and supply the nuclear fuel and special equipment required. Saxton personnel will operate the reactor.  
Total cost of the project, including construction of the reactor, was placed at \$8.5 million. The Saxton Corp. was formed by four operating subsidiaries of the General Public Utilities Sys-

tem—Pennsylvania Electric Co., Metropolitan Edison Co., New Jersey Power and Light Co., and Jersey Central Power and Light Co. Pennsylvania State University and Rutgers University are associate members.  
South it may occur any time from December to February. Even foreign lands now have special tree planting days. Among the more prominent are Canada, England, Germany, Australia, France, Norway and Japan. Russia is also on the tree parade.  
In this country, most schools observe Arbor Day with special tree planting ceremonies. And today, many persons active in tree care and forest preservation work first learned to know and love their leafy friends on such a childhood Arbor Day.

**Letters To The Editor**  
Dear Sir,  
On April 9, 1962, the Phi Sigma Kappa Fraternity was the victim of a fire. The brotherhood wishes to thank the volunteer fire department of Gettysburg for their speed and efficiency. As a result of their quick action, the firemen were able to limit the fire to only one room. Also, these efficient men accomplished their task with almost no damage due to water and fire fighting techniques. The brothers of Phi Sigma Kappa are very grateful for the fire department's work, and deem themselves fortunate to be located in a community which has such a highly commendable fire department.  
We sincerely remain,  
The Brothers and Pledges of Phi Sigma Kappa

# WIDOW RAISES 12 CHILDREN ON SMALL FARM

SOAP LAKE, Wash. (AP)—These are the 13 reasons you can bet on Beth Scheib to succeed as a farmer: A widow's courage and one dozen little Scheibs aged 2 months to 14 years.

Every Scheib helps—even baby Larry, whose yells for dinner punctuate the need for making the Scheib acres provide a living.

Pretty Beth (her age you can't have, but she was married at 17) was widowed last August when a plane crash killed Lawrence Scheib and two neighbors.

"The bankers, Farm Home Administration advisers and everyone else told me to sell out and move to town," Beth says.

**HER OWN WAY**

"What could I do in town with 12 children? For the price of a year's payment on the farm I couldn't even rent a house."

"I'm trying it my own way."

Her own way is driving the tractor, plowing the fields, harvesting the alfalfa. When the older children are in school she pays a baby sitter 50 cents an hour to watch the smaller tykes.

"I couldn't hire a man for 50 cents an hour and I couldn't pay more," says realistic Mrs. Scheib. Steve is 11 and the man of the family. "You kids," he says sternly, "keep away from the tractor!" Linda, 14, and Kathy, 13, are the big girls who help with the housework. Jerry is 10, Clifford 9 and Jim is 8; strong farmhands all. They feed the livestock and help with the irrigation. Doing what they can to help are Peggy, 7; Barbara 5; Don, 4; Wally, 2.

**RAISE OWN BEEF**

The Scheib farm is 10 acres but 65 more are cultivated for Mrs. Leonard McNamara, a neighbor widowed by the same crash that left 12 Scheibs fatherless.

"We raise our own beef for the locker," Mrs. Scheib says. "We plan to build up our herd of cattle. We used to have a truck garden but I think we'll skip the garden patch and stick to real farming. This is our trial year."

It takes about \$200 a month in hard cash to feed the tribe of Scheibs.

**PROTECT THEIR FATHERS**

CHEBOYGAN, Mich. (AP)—State Police say four teen-aged girls told them they set fire to an old one-room school because it was slated to become a tavern.

Officers quoted the girls as saying they feared if the schoolhouse becomes a tavern their fathers might drink to excess there.

# SUMMER TV TO CONSIST OF REPEATS

**By CYNTHIA LOWRY**  
**AP Television-Radio Writer**

NEW YORK (AP)—Now comes the period when television stores its winter vocabulary in plastic bags and moth crystals and pulls out its collection of summer words.

As the days grow longer and screens replace storm windows, television gives a three-month vacation to such descriptive words and phrases as dynamic, original script, fresh approach, novel and, of course, live broadcast.

In their place come words which the viewer must view with equal suspicion if not downright cynicism. These include re-runs of selected episodes, and repeated by popular demand.

**SEASON OF REPEATS**

Television is on the threshold of its annual season of repeats, and one of the most closely held secrets of the big industry is the technique used in selecting, out of 26 or 39 programs in a series, 13 or more for re-running.

Last season, a method in selection was readily discernible in action, adventure, western and private eye series. The industry was beginning to be uncomfortable about mounting complaints of unnecessary and excessive displays of brutality and violence. It appeared the shows were picked on the basis of the number and longevity of the fights and the number of corpses sighted in a half hour or 60 minutes.

This year they are probably going back to picking numbers out of a hat.

**LUCILLE BARK**

The feminine half of the old "Love Lucy" quartet—Lucille Ball and Vivian Vance—will be reunited in Lucy's new fall series. William Frawley, who played Viv-

# Baseball Is Back At Polo Grounds

NEW YORK (AP)—A colorful ticker-tape welcome still fresh in their minds, the New York Mets bring National League baseball back to New York when they meet the Pittsburgh Pirates at the Polo Grounds today.

The Pirates were the last visiting team to play in the Polo Grounds back in 1957 before the Giants abandoned New York for San Francisco. Since then the historic old ball park has been used for everything but baseball.

The Mets, who'll play just one year in the Polo Grounds before moving to a new stadium now under construction in Flushing Meadows, officially arrived in New York Thursday. Casey Stengel and his team got the city's traditional ticker-tape parade up Broadway and a City Hall reception as well. The Mets might just as well have won Wednesday's opener in St. Louis (they lost 11-4) the way the crowds roared.

lan's husband, is unavailable, being tied up with an important part in Fred MacMurray's "My Three Sons," a comedy hit renewed for a third season on ABC. And, of course, Desi Arnaz would hardly be a casting director's choice for the love interest. The new show has no name yet but it is set in CBS' Monday night schedule.

Recommended weekend viewing:

Tonight—"Young People's Concert." CBS, 7:30-8:30 (Eastern Standard Time)—final concert of the season by Leonard Bernstein and the New York Philharmonic Orchestra.

Sunday—"Give Us Barabbas," NBC, 6-7 p.m.—repeat of the Henry Denker drama based on the Bible story, with James Daly and Kim Hunter; "He Is Risen," NBC, 8:30-9—story of the Crucifixion told in terms of art masterpieces and words of the New Testament; "The Action in New Orleans," NBC, 10-11—original comedy starring Audrey Meadows and Bob Cummings.

# 9 INCHES OF SNOW FALLS IN MINNESOTA

**By THE ASSOCIATED PRESS**

Spring weather was on a climatic binge Thursday.

Nine inches of snow covered sections of Minnesota as an April snowstorm spread across northern Midwest areas. Freezing weather chilled areas from the northern Great Lakes region westward into Montana.

Nine inches of rain pelted north-east sections of Mississippi, causing flooding in Tupelo. Heavy rain, hail and severe thunderstorms hammered broad areas of the Southeast.

The snow, heavy in some areas, extended across sections of the Dakotas, northern Iowa and southern Minnesota and headed into Wisconsin. Falls of three to six inches were indicated. Nine inches of snow piled up in Pipestone, Minn., in a four-hour period.

**WATER BREAKS LEVEE**

Thunderstorms and showers were general in the Southeast except for Florida. Amounts were two to three inches in Louisiana, Tennessee, Georgia, Alabama and the Carolinas. Falls in Jackson, Miss., measured nearly 3½ inches in a six-hour period.

The floodwaters from King Creek broke through a levee in Tupelo, sending overflows knee deep in four factories and threatening many homes. Nearly nine inches of rain pelted the city of 20,000 in a 10-hour period.

Severe thunderstorms with heavy rain and hail hit the Gulf Coast Wednesday. Heavy hail was reported in Stringer, Miss.; Lufkin and Longview, Tex., and Custer, La.

Showers dampened areas from the Gulf States northward into the Ohio Valley and the Middle Atlantic Coast states.

Mostly dry and pleasant weather prevailed in most of the western half of the nation.

Freezing weather also was reported in northern New England. But temperatures in other parts of the country ranged mostly in the 40s and 50s with the 60s and 70s in the extreme South.

# White Will Be Sworn In Monday

WASHINGTON (AP)—Byron R. White will be sworn in Monday as a justice of the Supreme Court, the Justice Department said today.

The nomination of White to move up from deputy attorney general to the highest bench whizzed through the Senate Wednesday on a voice vote a few hours after unanimous approval by the Senate Judiciary Committee.

White, 44, succeeds Charles Evans Whittaker who retired April 1 on the advice of his physician.

The usual practice is to administer the oath privately in the court's chambers, then hold a public swearing-in ceremony in open session. The next such session is set for 10 a.m. Monday.

# FINSTERWALD EARLY LEADER

**By KEN ALTYA**  
**GREENSBORO, N.C. (AP)**—That fat 77 Dow Finsterwald shot in finishing third in the Masters tournament playoff with Arnold Palmer and Gary Player last Monday apparently had no lasting ill effects.

Finsterwald, 32, playing from Tequesta, Fla., carried a two-stroke lead into today's second round of the \$35,000 Greater Greensboro open golf tournament after a super 65 opening round Thursday.

"Finsterwald," as his fellow pros on tour call him, shaved six shots off par, playing the 36-hole course in 32-33. His score was one stroke over the tournament record set 21 years ago by Byron Nelson.

**12-STAKE BETTER**

Finsterwald's 12-stroke improvement over his last round at the Masters gave him a two-stroke edge over runnerup Julius Boros of Southern Pines, N.C., who carded 33-34-67. Back of them were six 68 shooters, seven at 69 and 13 at 70.

At par 71, with eight others, was Arnold Palmer, the Masters king, who had a so-so putting day and went to the practice green after his round to sharpen his short game.

At 70 was Samuel Jackson Snead, already \$23,000 richer for having played in previous Greensboro tournaments, and pursuing his eighth success here.

# Red Cigarettes Like Fireworks

VIENNA (AP)—"It's like fireworks or the explosion of a plastic bomb."

A complaining Hungarian thus described a new brand of cigarettes in the Communist-ruled country, in a letter to the provincial newspaper Bekes Megyei Napisag.

"If you smoke it, ashes drop in all directions like lava after the eruption of a volcano," he wrote.

**GOODMAN IN MOSCOW**

NEW YORK (AP)—Benny Goodman will appear in Moscow for the first jazz concert of his Soviet tour on May 30, his 53rd birthday.

# Scribe Tells Of Catholic Church Law

By JULES LOH

Associated Press Staff Writer  
The word excommunication has an ominous ring.

Because the word is back in the news, in connection with the New Orleans dispute over integration of Catholic schools, it's worth examining in some detail.

The Catholic Church, like any other organization, has certain rules for its members. Should a member deliberately and openly violate a rule, he forfeits some of the benefits of membership—provided he is fully aware of both the rule and the penalty.

That, broadly, is what excommunication is.

It is the most severe form of church censure, used only as a last resort after persuasion has failed.

## ACTS ARE DEFINED

Acts which carry the penalty are defined in Catholic canon law. They range from forcing a person to become a priest or nun to selling indulgences and marrying before a non-Catholic minister. Key provisions, however, are that the offender knows that what he is about to do would result in excommunication but does it deliberately anyway.

In New Orleans, one of the segregationist leaders disclosed that a confidential letter she received from the archbishop said:

"We deem it our duty to admonish you that any further attempt by you through word or deed to hinder our orders or provoke our devoted people to disobedience or rebellion against the church will subject you to excommunication."

## SECONDARY PURPOSE

The archbishop had refused to reveal the contents of the letter, which serves to point out that, as one authority put it, excommunication is medicinal rather than punitive. Its aim is to protect the church and correct the offender; punishment is only a secondary purpose.

Nor is it intended to sever a person from God, only from the church. A person under the usual form of excommunication doesn't even lose membership in the church. He may attend all its services but may not take an active part in some of them, and may not receive any of the sacraments except penance (confession).

A more severe form of excommunication is rarely invoked and it is only for particularly grave crimes such as laying violent hands on the pope. It usually requires that the person be named publicly. Thereafter he may not even enter the church.

There have been a number of

# VIRUS CANCER IS PRODUCED IN HAMSTERS

By FRANK CAREY

Associated Press Science Writer  
ATLANTIC CITY, N.J. (AP)—

Production of cancer in laboratory animals with a virus that commonly causes a severe type of respiratory cold in humans was reported today.

The achievement was announced by a group of Texas researchers who said tumors were produced in hamsters with one type of adenovirus—a microbe first isolated from diseased human adenoids nine years ago and now known to have various strains. Effective vaccines against some strains have been developed.

And the American Cancer Society, which helped support the Texas research, said the work provides a new stimulus to the theory that some human cancers could be caused by viruses—and thus are possibly open to treatment or prevention by vaccines.

## VIRUS-CAUSED

But the ACS, in a report released simultaneously with the formal announcement by the Texas group, stressed that production of the hamster cancers with a virus responsible for another type of human ailment by no means constitutes proof that human cancers are virus-caused.

Dr. John J. Trentin of Baylor University College of Medicine told about the hamster tumor re-

cases of excommunication in the United States, one of them in Louisiana.

In 1955 Bishop Jules B. Jeanmard of Lafayette, La., excommunicated some parishioners who beat up a catechism teacher during an integration dispute. The bishop said anyone else who dares to interfere with the ministry of the priest also would be excommunicated automatically.

search in a report prepared for the annual meeting of the American Association for Cancer Research, one of the world's leading organizations of cancer investigators.

Co-authors of the report were Dr. Yoshio Yabe, also of Baylor, and Dr. Grant Taylor of the M.D. Anderson Hospital, University of Texas.

Trentin said cancers were produced in the hamsters by injecting viruses known as type-12 adenovirus.

## TYPES DIFFER

That's one of a number of the various types of adenovirus that constitute a common source of respiratory infection among both children and adults.

The type of respiratory ailment caused by the adenoviruses differs from the garden-variety of common cold in several respects: 1. The onset is usually more gradual.

2. The symptoms—including fever, chills, runny nose, watering eyes, sore throat, hoarseness, wheezing, cough and a general down-in-the-dumps feeling—are more severe.

3. The malady, disabling but seldom going on to further complications, lasts longer than an ordinary cold.

Trentin said that in a separate study it was found that more than 25 per cent of patients treated for a variety of diseases at one hospital had been exposed and were immune to the same kind of virus used in the hamster studies.

PHILADELPHIA (AP)—Masis Paloutian, 36, charged with planting a homemade bomb on the lawn of Rep. William J. Green Jr., has been ruled sane by a judge and able to stand trial.

Judge Vincent A. Carroll did not disclose any results of the psychiatric tests in making the ruling Thursday.

Paloutian was arrested Jan. 3, three weeks after Green, city Democratic chairman, found a length of pipe stuffed with gunpowder near his house. Police said a defective fuse prevented it from exploding.

# PUBLIC SALE

Three Adjoining Houses and Lots

J. B. Zimmerman Estate

April 20, 1962, at 6:00 P.M.

The undersigned Executors will offer at public sale on the above date, upon the premises to be sold, the following three adjoining houses and lots located on the East side of Fourth Street, North of the railroad crossing in the Borough of Gettysburg, Adams County, Pennsylvania:

# UNION READIES HUGE STRIKE OF THREE MILLION

By FRANK N. MANITZAS

BUENOS AIRES (AP)—Argen-

tina's powerful General Confederation of Labor readied its 3 million members today for possible nationwide strikes and demonstrations against the government's drastic new austerity program.

The confederation put its predominantly Peronist membership on a state of alert and warned President Jose Maria Guido's young government that its economic measures may result in grave social disturbances.

The confederation issued its

rhum using the theme, "The Last Seven Words of Christ," from 1 until 3 p.m. Easter Sunday, sunrise service at the United Presbyterian Church at 6 a.m.

Emmitsburg Presbyterian. Rev. William M. Hendricks, pastor. Church School at 9:45 a.m.; worship at 10:15 a.m.; Youth Fellowship at 7 p.m.; pre-Easter filmstrip, "A Meditation for Holy Week and Easter," at 7:30 p.m. Wednesday, Children's Choir practice and fellowship hour at 7 p.m.; Bible study and prayer service at 8 p.m. Thursday, special Holy Communion service at 7:30 p.m.

Bart's EUB. Sunday School at 9:30 a.m. Saturday, April 14, Ladies' Aid meeting and film, "Oberammergau Passion Scenes of Christ," at 7:30 p.m.

Harney EUB. Holy Communion at 9 a.m.

Grace United Church of Christ, Keyville. Rev. William F. Wiley, pastor. Palm Sunday. Divine worship with sermon, "The Nails of Sloth," at 9 a.m.; Church School at 10 a.m. Friday, Lenten service with sermon, "Thomas Makes the Test," at 7:30 p.m.

Grace United Church of Christ, Taneytown. Church School at 9:15 a.m.; worship with sermon, "The Nails of Sloth," and reception of Confirmation Class, at 10:30 a.m. Wednesday, Junior Choir rehearsal at 6:45 p.m.; worship with sermon, "The Repentant Thief Is Forgiven," at 7:30 p.m. Maundy Thursday, Holy Communion with sermon, "Thomas Makes the Test," at 7:30 p.m. Good Friday, community service at the United Presbyterian Church with ministers of the Taneytown Minis-

alert order after the government sharply hiked import duties and sales taxes and raised gasoline prices. Electric rates had already been jumped 50 per cent a week ago, and Economics Minister Federico Pinedo hinted railway fares would be the next to go up.

Pinedo declared the austerity measures—expected to increase the cost of living by at least 10 per cent—were necessary to repair the damage done the economy by the dictatorship of Juan D. Peron, ousted by the military in 1955.

But the Argentine worker enjoyed relative prosperity from Peron's free-spending policies. Labor demonstrated repeatedly against deposed President Arturo Frondizi's austerity program, which was less stringent than Pinedo's.

Tom Mahoney is in his 32nd season as Army's gymnastic coach. His team record is phenomenal with 187 victories, 23 setbacks and 5 ties.

# WIDOW RAISES 12 CHILDREN ON SMALL FARM

SOAP LAKE, Wash. (AP)—These are the 13 reasons you can bet on Beth Scheib to succeed as a farmer: A widow's courage and one dozen little Scheibs aged 2 months to 14 years.

Every Scheib helps—even baby Larry, whose yells for dinner punctuate the need for making the Scheib acres provide a living.

Pretty Beth (her age you can't have, but she was married at 17) was widowed last August when a plane crash killed Lawrence Scheib and two neighbors.

"The bankers, Farm Home Administration advisers and everyone else told me to sell out and move to town," Beth says.

**HER OWN WAY**

"What could I do in town with 12 children? For the price of a year's payment on the farm I couldn't even rent a house.

"I'm trying it my own way."

Her own way is driving the tractor, plowing the fields, harvesting the alfalfa. When the older children are in school she pays a baby sitter 50 cents an hour to watch the smaller tykes.

"I couldn't hire a man for 50 cents an hour and I couldn't pay more," says realistic Mrs. Scheib. Steve is 11 and the man of the family. "You kids," he says sternly, "keep away from the tractor!" Linda, 14, and Kathy, 13, are the big girls who help with the housework. Jerry is 10, Clifford 9 and Jim is 8; strong farmhands all. They feed the livestock and help with the irrigation. Doing what they can to help are Peggy, 7, Barbara 5, Don, 4; Wally, 2.

**RAISE OWN BEEF**

The Scheib farm is 10 acres but 65 more are cultivated for Mrs. Leonard McNamara, a neighbor widowed by the same crash that left 12 Scheibs fatherless.

"We raise our own beef for the locker," Mrs. Scheib says. "We plan to build up our herd of cattle. We used to have a truck garden but I think we'll skip the garden patch and stick to real farming. This is our trial year."

It takes about \$200 a month in hard cash to feed the tribe of Scheibs.

# SUMMER TV TO CONSIST OF REPEATS

By CYNTHIA LOWRY  
AP Television-Radio Writer

NEW YORK (AP)—Now comes the period when television stores its winter vocabulary in plastic bags and moth crystals and pulls out its collection of summer words.

As the days grow longer and screens replace storm windows, television gives a three-month vacation to such descriptive words and phrases as dynamic, original script, fresh approach, novel and, of course, live broadcast.

In their place come words which the viewer must view with equal suspicion if not downright cynicism. These include re-runs of selected episodes, and repeated by popular demand.

**SEASON OF REPEATS**

Television is on the threshold of its annual season of repeats, and one of the most closely held secrets of the big industry is the technique used in selecting, out of 26 or 39 programs in a series, 13 or more for re-running.

Last season, a method in selection was readily discernible in action, adventure, western and private eye series. The industry was beginning to be uncomfortable about mounting complaints of unnecessary and excessive displays of brutality and violence. It appeared the shows were picked on the basis of the number and longevity of the fights and the number of corpses sighted in a half hour or 60 minutes.

This year they are probably going back to picking numbers out of a hat.

**LUCILLE BACK**

The feminine half of the old "Love Lucy" quartet—Lucille Ball and Vivian Vance—will be reunited in Lucy's new fall series, William Frawley, who played Vivian's husband, is unavailable, being tied up with an important part in Fred MacMurray's "My Three Sons." A comedy hit renewed for a third season on ABC And, of course, Desi Arnaz would hardly be a casting director's choice for the love interest. The new show has no name yet but it is set in CBS' Monday night schedule.

Recommended weekend viewing

Tonight—"Young People's Concert" CBS, 7:30-8:30 (Eastern Standard Time)—final concert of the season by Leonard Bernstein and the New York Philharmonic Orchestra.

Sunday—"Give Us Barabbas," NBC, 6-7 p.m.—repeat of the Henry Denker drama based on the Bible story, with James Daly and Kim Hunter. "He Is Risen," NBC, 8:30-9—story of the Crucifixion told in terms of art masterpieces and words of the New Testament: "The Action in New Orleans," NBC, 10-11—original comedy starring Audrey Meadows and Bob Cummings

# Baseball Is Back At Polo Grounds

NEW YORK (AP)—A colorful ticker-tape welcome still fresh in their minds, the New York Mets bring National League baseball back to New York when they meet the Pittsburgh Pirates at the Polo Grounds today.

The Pirates were the last visiting team to play in the Polo Grounds back in 1957 before the Giants abandoned New York for San Francisco. Since then the historic old ball park has been used for everything but baseball.

The Mets, who'll play just one year in the Polo Grounds before moving to a new stadium now under construction in Flushing Meadows, officially arrived in New York Thursday. Casey Stengel and his team got the city's traditional ticker-tape parade up Broadway and a City Hall reception as well.

The Mets might just as well have won Wednesday's opener in St. Louis (they lost 11-4) the way the crowds roared.

ian's husband, is unavailable, being tied up with an important part in Fred MacMurray's "My Three Sons." A comedy hit renewed for a third season on ABC And, of course, Desi Arnaz would hardly be a casting director's choice for the love interest. # 9 INCHES OF SNOW FALLS IN MINNESOTA

By THE ASSOCIATED PRESS

Spring weather was on a climatic binge Thursday.

Nine inches of snow covered sections of Minnesota as an April snowstorm spread across northern Midwest areas. Freezing weather chilled areas from the northern Great Lakes region westward into Montana.

Nine inches of rain pelted northeast sections of Mississippi, causing flooding in Tupelo. Heavy rain, hail and severe thunderstorms hammered broad areas of the Southeast.

The snow, heavy in some areas, extended across sections of the Dakotas, northern Iowa and southern Minnesota and headed into Wisconsin. Falls of three to six inches were indicated. Nine inches of snow piled up in Pipestone, Minn., in a four-hour period.

**WATER BREAKS LEVEE**

Thunderstorms and showers were general in the Southeast except for Florida. Amounts were two to three inches in Louisiana, Tennessee, Georgia, Alabama and the Carolinas. Falls in Jackson, Miss., measured nearly 3½ inches in a six-hour period.

The floodwaters from King Creek broke through a levee in Tupelo, sending overflows knee deep in four factories and threatening many homes. Nearly nine inches of rain pelted the city of 20,000 in a 10-hour period.

Severe thunderstorms with heavy rain and hail hit the Gulf Coast Wednesday. Heavy hail was reported in Stringer, Miss.; Lufkin and Longview, Tex., and Custer, La.

Showers dampened areas from the Gulf States northward into the Ohio Valley and the Middle Atlantic Coast states.

Mostly dry and pleasant weather prevailed in most of the western half of the nation.

Freezing weather also was reported in northern New England. But temperatures in other parts of the country ranged mostly in the 40s and 50s with the 60s and 70s in the extreme South.

# White Will Be Sworn In Monday

WASHINGTON (AP)—Byron R. White will be sworn in Monday as a justice of the Supreme Court, the Justice Department said today.

The nomination of White to move up from deputy attorney general to the highest bench whizzed through the Senate Wednesday on a voice vote a few hours after unanimous approval by the Senate Judiciary Committee.

White, 44, succeeds Charles Evans Whitaker who retired April 1 on the advice of his physician.

The usual practice is to administer the oath privately in the court's chambers, then hold a public swearing-in ceremony in open session. The next such session is set for 10 a.m. Monday.

# FINSTERWALD EARLY LEADER

By KEN ALTYA  
GREENSBORO, N.C. (AP)—That fat 77 Dow Finsterwald shot in finishing third in the Masters tournament playoff with Arnold Palmer and Gary Player last Monday apparently had no lasting ill effects.

Finsterwald, 32, playing from Tequesta, Fla., carried a two-stroke lead into today's second round of the \$35,000 Greater Greensboro open golf tournament after a super 65 opening round Thursday.

"Finsty," as his fellow pros on tour call him, shaved six shots off par, playing the 36-35 course in 32-33. His score was one stroke over the tournament record set 21 years ago by Byron Nelson.

**12-STAKE BETTER**

Finsterwald's 12-stroke improvement over his last round at the Masters gave him a two-stroke edge over runnerup Julius Boros of Southern Pines, N.C., who carded 33-34-67. Back of them were six 68 shooters, seven at 69 and his eighth success here.

# Red Cigarettes Like Fireworks

VIENNA (AP)—"It's like fireworks or the explosion of a plastic bomb."

A complaining Hungarian thus described a new brand of cigarettes in the Communist-ruled country, in a letter to the provincial newspaper Bekes Megyei Napisajag.

"If you smoke it, ashes drop in all directions like lava after the eruption of a volcano," he wrote.

# GOODMAN IN MOSCOW

NEW YORK (AP)—Benny Goodman will appear in Moscow for the first jazz concert of his Soviet tour on May 30, his 53rd birthday.

13 at 70.

At par 71, with eight others, was Arnold Palmer, the Masters king, who had a so-so putting day and went to the practice green after his round to sharpen his short game.

At 70 was Samuel Jackson Snead, already \$23,000 richer for having played in previous Greensboro tournaments, and pursuing six 68 shooters, seven at 69 and his eighth success here.

## Holy Spirit Carries On Work Of God

By REV. M. S. BARNHART JR., Pastor, Trinity Lutheran Church, Arendtsville

On the night before his crucifixion, Jesus was preparing his disciples for the separation that was soon to come. He told them that when He was gone, He would send them "another Comforter." He told them that this "Comforter" would guide them into all truth; that He would quicken their memories of Him, would "bear witness" to Him; that He would make them stronger to carry the burdens that life would lay upon them. Jesus said, this Comforter, "the Holy Spirit or Holy Ghost," would come and remain with them. As we read what Jesus said about the Holy Spirit His meaning becomes clearer and clearer. The Spirit will take up His work and carry it on to the end of time. It is a divine promise.

After Christ's ascension, the disciples who had received that promise were convinced that it had been fulfilled. They found themselves in possession of powers which they had not had before. Their minds were clearer about the meaning of all that they had seen in Jesus and heard from Him; they were stronger to perform those tasks within their commission; all sorts of things were happening in their lives which they could not explain and which they could never have brought to pass by themselves.

**BELIEF DEEPENS**

Thinking of these things, they knew that God was working in them and using them to do His work and, remembering the promise that Christ had made, they said, "It is the Holy Ghost!" Their belief in the Holy Spirit was deepened as the years went by. Before their very eyes, God was working great miracles. The greatest of these miracles was none of the things that we commonly call by that name, not the healing of the sick nor the raising of the dead nor the unexplained opening of prison doors but the miracle of the conversion of men to Christ.

These people who had received the Holy Spirit were for the most part poor and uneducated men, but Jesus had given them a commission which coming from any other man would have seemed

mon, "Behold, Thy King," at 9:30 a.m. Wednesday, preparatory service with sermon, "Counted Among Transgressors," at 7:30 p.m. Thursday, Holy Communion with sermon, "Remembering Jesus," at 7:30 p.m. Good Friday service with sermon, "Because Christ Died," at 2 p.m.

**St. Mark's United Church of Christ,** White Run, Rev. Dr. Howard Schley Fox, pastor, Palm Sunday service with distribution of palms at 9 a.m.; choir rehearsal at 10 a.m. Good Friday, the service of the Cross at 2 p.m.

**Bendersville Methodist,** Rev. Merrel D. Long, pastor, Church School at 9 a.m.; worship with sermon, "The Enthroned Christ," reception of members and baptismal service at 10 a.m.; MYF at 7 p.m.

**Wenksville Methodist,** Worship with Holy Communion and reception of members at 9 a.m.; Church School at 10 a.m.

**Ortanna Methodist,** Church School at 10:30 a.m.; Holy Communion and baptismal service at 11:30 a.m.; WSCS sacrificial meal at 7:30 p.m.

**St. Mary's Catholic,** New Oxford, Rev. Joseph L. Browne, pastor, Masses at 7:30, 9 and 10:30 a.m. Tuesday, Stations of the Cross at 2:45 p.m. Wednesday, Lenten devotions at 7:30 p.m. Friday, Stations of the Cross at 7:30 p.m. Saturday, confessions at 4 and 7 p.m.

**Church of God,** New Oxford, Sunday School at 10 a.m.; worship at 11 a.m.; worship at 7:30 p.m. Wednesday, prayer meeting at 8 p.m. Friday, YPE at 8 p.m. **Conewago Chapel,** Rev. John P. Bolen, pastor, Masses at 7 and 9:30 a.m.; confessions at 9 a.m.; Mass, Holy Name Office and benediction at 7 p.m. Daily mass at 7 a.m. except Wednesday, Saturday, confessions at 4 and 6 p.m.

**First Lutheran,** New Oxford, Rev. John Kugle, pastor, Church School at 9:30 a.m.; worship at 8:15 a.m.; worship with reception of Confirmation Class at 10:20 a.m. Wednesday, preparatory service at 7:30 p.m. Thursday, Holy Communion at 7:30 p.m.

**Great Conewago Presbyterian,** Hunterstown, John R. Korver, supply pastor, Sunday School at 9:45 a.m.; worship at 11:15 a.m. **Trinity United Church of Christ,** Biglerville, Rev. Nevin R. Frantz, pastor, Worship and Rite of Confirmation at 9 a.m.; Church School at 10 a.m. Wednesday, Lenten fellowship hour in the social room of Zion Church, Arendtsville, at 7:30 p.m. Good Friday, preparatory service in Zion Church at 7:30 p.m.

**Zion United Church of Christ,** Arendtsville, Church School at 10 a.m.; worship at 11 a.m.; union Lenten service in the Lutheran Church at 7:30 p.m. Wednesday, Lenten fellowship hour in the social room at 7:30 p.m. Good Friday, preparatory service at 7:30 p.m.

**St. James Lutheran,** Wenksville, Sunday School at 8:45 a.m.; worship with sermon at 9:45 a.m.

(Continued On Page 10)

absurd. He told them to go out and "make disciples of all nations." Because He had told them to do it, they went out and preached and were themselves astonished at the results. At first it was only to their own people that they spoke of Jesus, but by and by Paul came and "labored more abundantly than they all." Jews, Greeks and Romans, and all that great mixed population that lived around the Mediterranean Sea, heard the Gospel of Jesus Christ, and by the thousands they turned away from

their old religions, from their idols and their superstitions and their immoralities, and became members of the Christian Church that sprang up everywhere. A power was at work that was greater than the power of all men. It was the power of the Holy Spirit of God.

**CAN'T PLEAD IGNORANCE**

And then, as time went on, they saw unfolding in these new converts the same kind of power that they had themselves possessed. Perhaps in thinking about the way men first came to be-

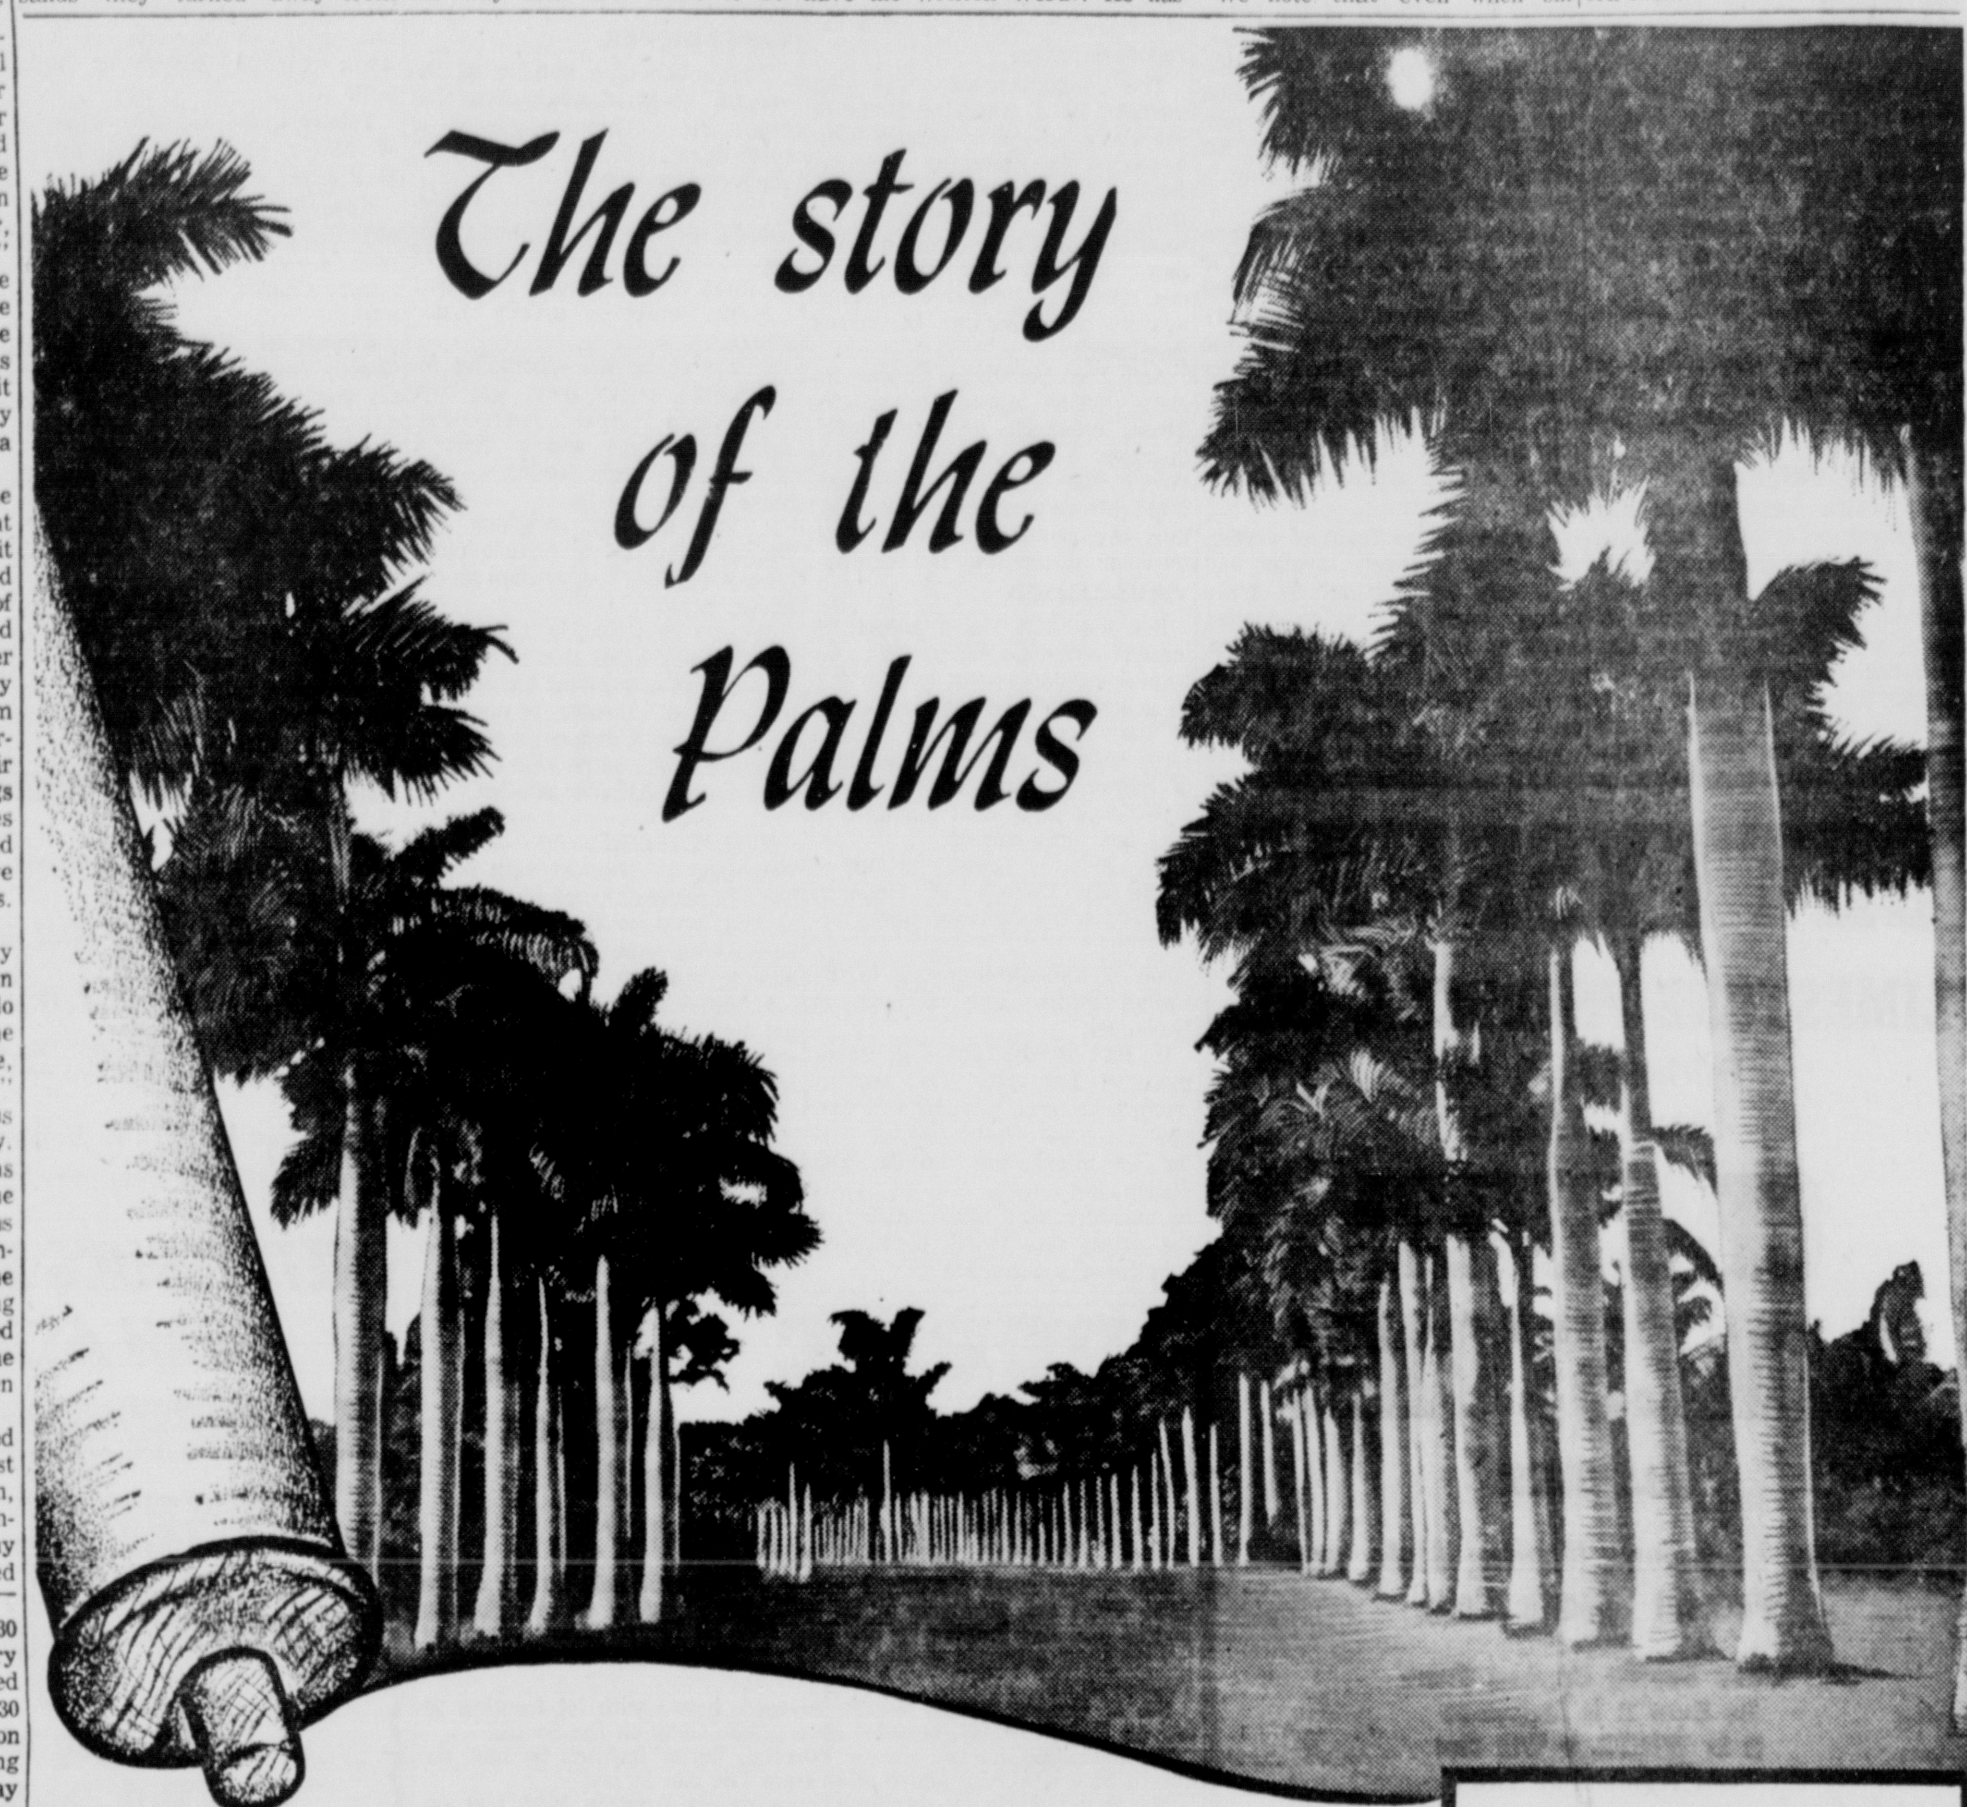

lieve in the Holy Ghost, we can get some new ideas of the importance which the Holy Spirit must have for our lives as Christians. God has set for us a great task in His commissions (of no less importance than He gave to His first disciples). It is yet His will that we shall be like Him. God has shown us in Jesus Christ what a Christian should be like and He has sent His Holy Spirit unto us as He did unto His first disciples. We cannot plead ignorance to excuse our failures (we have the Written Word). He has

given us the promise of the Comforter. Therefore the power of God is ours to use. Even with the great commission of Jesus Christ empowered by the very Holy Spirit of God the world 2,000 years after the commission is far from Godlike; far from being attuned to God's will. I suppose the reason for the slow progress lies very deep in man's nature. Sin is deeply embedded there, and that same sin is always hindering our advance toward God and His Kingdom.

We note that even when sin

has been forgiven — and we are always aware that God is ready to forgive our sins — the root is still there, making us desire the things God does not desire, and forbidding us to love the things that God so ardently desires.

Our growth towards God is a continual conflict in which we are meeting repeated defeats. The thing that God demands of us is too hard, far too hard for our mortal strength. So it is here that the truth of the Holy Spirit of God finds its place, yes, even in the heart and minds of modern men.

## The story of the Palms

There were hundreds of trees along the Bethany Road. But no one noticed them. People were hastening over those last few miles, bound for Jerusalem to celebrate the feast.

Then the King passed by. A gentle Galilean with kind, sorrowful eyes — riding to His coronation.

People cheered and shouted *Hosanna*. Some laid cloaks on the dusty roadway. And then, someone discovered the trees . . . beautiful palms that had stood unnoticed. Their graceful branches became the carpet of the King!

And when men sought a name for that triumphal Sunday, they named it for the palms. It is a day for discovering the spiritual beauty God has planted along the road of life — a day to worship Our King.

# COMMAND POST IS SETUP IN 4 JET PLANES

By FRED S. HOFFMAN  
WASHINGTON (AP)—At an airfield a few minutes by helicopter from the White House, a big silver plane stands ready for flight at any hour.

Its crew is never far. It is guarded by Air Force policemen and dogs.

This is no ordinary Air Force plane, although it looks about the same as tankers used to refuel bombers of the Strategic Air Command.

It is a new airborne command post specially fitted as a refuge for President Kennedy and the top command in event of a surprise nuclear attack. There are three such planes, one always standing by.

## 4 JET CRUISERS

If war should come, the nation's defense and counterattack could well be directed from one of these four-jet, swept-wing giants cruising more than 40,000 feet above the earth.

Aerial command posts intended

specifically for the President have been in operation for about two months. Their existence has been kept under wraps.

Together with an underground sanctuary in Maryland and the Navy command ship Northampton in the Atlantic, the planes provide alternate emergency headquarters from which the President and defense chiefs could prosecute a war in safety, even though key government and military centers are destroyed.

Packed with elaborate communications equipment, they can instantly contact U.S. forces around the world. With air refueling and enough supplies they can stay aloft for days.

## UNINTERRUPTED CONTROL

These command planes, converted KC135 turbojet tankers, form another element in a growing system designed to assure uninterrupted control of U.S. ground, air and sea forces under all circumstances.

The presidential planes are much like the command aircraft which the Strategic Air Command has been flying for 14 months, only less spartan.

The KC135s are rated at better than 600 miles an hour. The tanker version costs about \$3.5 million each, but the command types probably are considerably more expensive.

# A Lovelier You

By MARY SUE MILLER  
TOEING THE FASHION LINE.

To be well-dressed, a woman must follow the fashion trends. Otherwise, she comes to look like a character in a period play.

But in following fashion trends, she must be clever about adapting them to herself.

ing them to herself. Failing to do this, she becomes a carbon copy. And individuality is the acme of good dressing.

Unless you are in a position to have your clothes specially created for you, an individual stamp must be derived from small touches—a jewel, a handbag, a shoe.

This season shoe styling in particular serves the cause of individuality with a diverse selection of toe shapes, heel heights, colors and details. Toes are rounded, chiseled, squared or flattened. Each of them appears on a variety of heels from the low spool, through the stacked and Louis, to the high, slender stilet.

Detailing is equally various. Often shanks or heels are bared. Bows, perforations and buckles decorate toes. The two-color shoe is a major influence. As for ex-

## River Basin Group To Be Chartered

WILKES-BARRE, Pa. (AP)—The Susquehanna River Basin Association, organized some time ago for the promotion and development of the basin's resources, received a non-profit charter today.

Presentation of the charter to Mayor Frank Slatery of Wilkes-Barre, president of the association, was made at a brief ceremony in the chambers of President Judge Frank Pinola of the Luzerne County Court.

Basse A. Beck, general manager of the Sunbury Daily Item, is treasurer of the organization, which has some 50 members in the areas of Pennsylvania, New York and Maryland drained by the Susquehanna River system.

Slatery has said his group envisions a program similar to that of the Delaware River Compact, in which the states involved and the federal government have joined together for development of the river basin's resources.

ample, a caramel kid pump bound with black patent.

The word on color is deepened neutrals, 'clear midbrights and whitened pastels. In materials, Juster takes over with patent, glossy leathers and polished silks.

Now, what is your pleasure? Express y-o-u-r-s-e-l-f! The variety in footwear allows for individual expression, for a footnote that personalizes a costume.

## CLUES TO GOOD CARRIAGE

For a lovelier figure, walk with the grace that nature intended! To check or improve on your ability, send for "CLUES TO GOOD CARRIAGE," my leaflet giving complete instructions on shoes, stockings and walking techniques that enhance both carriage and legline. Write to me: A Lovelier You, Box 138, The Gettysburg Times, Dundee, Ill., enclosing a LARGE, SELF-ADDRESSED STAMPED ENVELOPE, and five cents in coin. ©1962, Field Enterprises, Inc.

## Orrtanna

MRS. LUTHER WETZEL  
ORRTANNA — The monthly meeting of the WWS of the Mt. Carmel EUB Church was held on Monday evening in the church hall with nine members and one guest present.

The installation of the new officers prefaced the meeting. They are: President, Mrs. Dale Wetzel; vice president, Mrs. Robert Shindeldecker; secretary, Mrs. Wendell Wetzel; treasurer, Mrs. Clyde Metz; secretary of spiritual life, Mrs. Alfred Gotwalt; secretary of missionary education, Mrs. John Baker; secretary of social relations, Mrs. Charles Shindeldecker; secretary of missionary education for children and local church, Mrs. Paul Wetzel, and chairman of social activities, Mrs. Olmer Spence.

The president, Mrs. Dale Wetzel, opened the meeting with prayer. Reports of committees were given and a discussion of the convention to be held in Hagerstown in the near future followed.

The group voted to have family night for the May meeting with Mrs. Robert Shindeldecker as leader for the program.

Mrs. Paul Wetzel was delegated to investigate cost of a new sweater and accessories for the church. The group will meet for its monthly Bible study May 1 with Mrs. Dale Wetzel as hostess at her home in Cashtown.

Mrs. Claire Rebert will be the leader. Rev. Alfred Gotwalt served as leader for the worship part of the program in the absence of the leader, Mrs. William Weigle, due to illness in the family. Rev. Gotwalt read the scripture from Isaiah and offered prayer. Hymns were sung. The chapter studied was "Golden Chains" with the following participating: Dominican Republic, Mrs. Gotwalt; Puerto Rico, Mrs. Robert Shindeldecker; Ecuador, Mrs. Claire Rebert, Mrs. Edward Spence and Mrs. Wendell Wetzel; Chile, Mrs. Dale Wetzel. comments followed by the leader. After a hymn, closing

## JFK WILL SEE FLEET ACTION

WASHINGTON (AP)—President Kennedy sees the Atlantic Fleet in action today and Saturday. From sea and shore he watches the Navy and Marine Corps—their ships, planes, missiles and men—in combat exercises.

Kennedy flies to Norfolk, Va., this afternoon for a secret briefing on the fleet's attack and defensive capabilities, then boards ship for an on-the-spot view of fleet operations.

The President was scheduled to take off from Andrews Air Force Base in Maryland and land 40 minutes later at the Oceana Naval Air Station near Norfolk. Vice President Lyndon B. Johnson precedes him to Oceana, and a host of government officials, members of Congress and diplomats join them later at Norfolk.

## TO INSPECT SUB

The President will board the submarine Thomas A. Edison at Hampton Roads. He'll spend about an hour on the nuclear-powered craft, but probably won't have time for a cruise.

Tonight he'll be aboard the command ship Northampton.

After reviewing a fleet of 48 ships Saturday morning, Kennedy will watch an antisubmarine war-

worship was conducted by Mrs. Clyde Metz. During the installation services in which the regular pianist, Mrs. Clyde Metz, participated, Mrs. Claire Rebert served as pianist.

Refreshments and a social hour followed with Mrs. Robert Shindeldecker as hostess.

fare demonstration and firings of the Terrier, Bullpup and Sidewinder missiles. The A3J Vigilante supersonic bomber and F4H Phantom II interceptor-bomber will display their firepower off the Enterprise and Forrestal.

Kennedy is due back in Washington late Saturday.

ATLANTA, Ga. (AP)—Mrs. C. E. Woolman, wife of the president and general manager of Delta Air Lines, died Thursday after a long illness. Mrs. Woolman was born in Petersburg, Mich., was graduated from the University of Illinois and taught domestic science at Louisiana State University.

## Abbottstown

ABBOTTSTOWN — The Municipal Authority has announced that work on the water system will begin Saturday and cautioned residents that the pressure during the work hours will be low.

Richard Karschner, student at Susquehanna University, Selinsgrove, spent the weekend with his parents, Rev. and Mrs. L. J. Karschner.

The Bernard Baruch Handicap, to be run at Saratoga, August 8, is one of the few horse races named after a living person.

Open everyday including Sundays — 9 A.M. to 9 P.M.

## COMMAND POST IS SETUP IN 4 JET PLANES

By FRED S. HOFFMAN  
WASHINGTON (AP)—At an airfield a few minutes by helicopter from the White House, a big silver plane stands ready for flight at any hour.

Its crew is never far. It is guarded by Air Force policemen and dogs.

This is no ordinary Air Force plane, although it looks about the same as tankers used to refuel bombers of the Strategic Air Command.

It is a new airborne command post specially fitted as a refuge for President Kennedy and the top command in event of a surprise nuclear attack. There are three such planes, one always standing by.

### 4 JET CRUISERS

If war should come, the nation's defense and counterattack could well be directed from one of these four-jet, swept-wing giants cruising more than 40,000 feet above the earth.

Aerial command posts intended

specifically for the President have been in operation for about two months. Their existence has been kept under wraps.

Together with an underground sanctuary in Maryland and the Navy command ship Northampton in the Atlantic, the planes provide alternate emergency headquarters from which the President and defense chiefs could prosecute a war in safety, even though key government and military centers are destroyed.

Packed with elaborate communications equipment, they can instantly contact U.S. forces around the world. With air refueling and enough supplies they can stay aloft for days.

### UNINTERRUPTED CONTROL

These command planes, converted KC135 turbojet tankers, form another element in a growing system designed to assure uninterrupted control of U.S. ground, air and sea forces under all circumstances.

The presidential planes are much like the command aircraft which the Strategic Air Command has been flying for 14 months, only less spartan.

The KC135s are rated at better than 600 miles an hour. The tanker version costs about \$3.5 million each, but the command types probably are considerably more expensive.

## A Lovelier You

By MARY SUE MILLER

**TOEING THE FASHION LINE.**  
To be well-dressed, a woman must follow the fashion trends. Otherwise, she comes to look like a character in a period play.

But in following fashion trends, she must be clever about adapting them to herself. Failing to do this, she becomes a carbon copy. And individuality is the acme of good dressing.

Unless you are in a position to have your clothes specially created for you, an individual stamp must be derived from small touches—a jewel, a handbag, a shoe.

This season shoe styling in particular serves the cause of individuality with a diverse selection of toe shapes, heel heights, colors and details. Toes are rounded, chiseled, squared or flattened. Each of them appears on a variety of heels from the low spool, through the stacked and Louis, to the high, slender shaft.

Detailing is equally various. Often shanks or heels are bared. Bows, perforations and buckles decorate toes. The two-color shoe is a major influence. As for ex-

## River Basin Group To Be Chartered

WILKES-BARRE, Pa. (AP)—The Susquehanna River Basin Association, organized some time ago for the promotion and development of the basin's resources, received a non-profit charter today.

Presentation of the charter to Mayor Frank Slattery of Wilkes-Barre, president of the association, was made at a brief ceremony in the chambers of President Judge Frank Pinola of the Luzerne County Court.

Basse A. Beck, general manager of the Sunbury Daily Item, is treasurer of the organization, which has some 50 members in the areas of Pennsylvania, New York and Maryland drained by the Susquehanna River system.

Slattery said his group envisions a program similar to that of the Delaware River Compact, in which the states involved and the federal government have joined together for development of the river basin's resources.

The group voted to have family night for the May meeting with Mrs. Robert Shindledecker as leader for the program.

Mrs. Paul Wetzel, and chairman of social activities, Mrs. Olmer Spence.

The president, Mrs. Dale Wetzel, opened the meeting with prayer.

Reports of committees were given and a discussion of the convention to be held in Hagerstown in the near future followed.

# Holy Spirit Carries On Work Of God

By REV. M. S. BARNHART JR., Pastor, Trinity Lutheran Church, Arendtsville

On the night before his crucifixion, Jesus was preparing his disciples for the separation that was soon to come. He told them that when He was gone, He would send them "another Comforter." He told them that this "Comforter" would guide them into all truth; that He would quicken their memories of Him, would "bear witness" to Him; that He would make them stronger to carry the burdens that life would lay upon them. Jesus said, this Comforter, "The Holy Spirit or Holy Ghost," "the Spirit of Truth," would come and remain with them. As we read what Jesus said about the Holy Spirit His meaning becomes clearer and clearer. The Spirit will take up His work and carry it on to the end of time. It is a divine promise.

After Christ's ascension, the disciples who had received that promise were convinced that it had been fulfilled. They found themselves in possession of powers which they had not had before. Their minds were clearer about the meaning of all that they had seen in Jesus and heard from Him; they were stronger to perform those tasks within their commission; all sorts of things were happening in their lives which they could not explain and which they could never have brought to pass by themselves.

**BELIEF DEEPENS**

Thinking of these things, they knew that God was working in them and using them to do His work and, remembering the promise that Christ had made, they said, "It is the Holy Ghost!" Their belief in the Holy Spirit was deepened as the years went by. Before their very eyes, God was working, great miracles. The greatest of these miracles was none of the things that we commonly call by that name, not the healing of the sick nor the raising of the dead nor the unexplained opening of prison doors but the miracle of the conversion of men to Christ.

These people who had received the Holy Spirit were for the most part poor and uneducated men, but Jesus had given them a commission which coming from any other man would have seemed absurd. He told them to go out and "make disciples of all nations." Because He had told them to do it, they went out and preached and were themselves astonished at the results. At first it was only to their own people and that they spoke of Jesus, but by and by Paul came and "labored more abundantly than they all." Jews, Greeks and Romans, and all that great mixed population that lived around the Mediterranean Sea, heard the Gospel of Jesus Christ, and by the thousands they turned away from their old religions, from their idols and their superstitions and their immoralities, and became members of the Christian Church that sprang up everywhere. A power was at work that was greater than the power of all men. It was the power of the Holy Spirit of God.

**CANT PLEAD IGNORANCE**

And then, as time went on, they saw unfolding in these new converts the same kind of power that they had themselves possessed. Perhaps in thinking about the way men first came to be-

lieve in the Holy Ghost, we can get some new ideas of the importance which the Holy Spirit must have for our lives as Christians. God has set for us a great task in His commissions (of no less importance than He gave to His first disciples). It is yet His will that we shall be like Him. God has shown us in Jesus Christ what a Christian should be like, and He has sent His Holy Spirit unto us as He did unto His first disciples. We cannot plead ignorance to excuse our failures (we have the Written Word). He has given us the promise of the Comforter. Therefore the power of God is ours to use. Even with the great commission of Jesus Christ empowered by the very Holy Spirit of God the world 2,000 years after the commission is far from Godlike; far from being attuned to God's will, I suppose the reason for the slow progress lies very deep in man's nature. Sin is deeply embedded there, and that same sin is always hindering our advance toward God and His Kingdom.

We note that even when sin has been forgiven — and we are always aware that God is ready to forgive our sins — the root is still there, making us desire the things God does not desire, and forbidding us to love the things that God so ardently desires.

Our growth towards God is a continual conflict in which we are meeting repeated defeats. The thing that God demands of us is too hard, far too hard for our mortal strength. So it is here that the truth of the Holy Spirit of God finds its place, yes, even in the heart and minds of modern men.

# The story of the Palms

There were hundreds of trees along the Bethany Road. But no one noticed them. People were hastening over those last few miles, bound for Jerusalem to celebrate the feast.

Then the King passed by. A gentle Galilean with kind, sorrowful eyes — riding to His coronation.

People cheered and shouted *Hosanna*. Some laid cloaks on the dusty roadway. And then, someone discovered the trees... beautiful palms that had stood unnoticed. Their graceful branches became the carpet of the King!

And when men sought a name for that triumphal Sunday, they named it for the palms. It is a day for discovering the spiritual beauty God has planted along the road of life — a day to worship Our King.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

### EXTENDS TOUR

**HARRISBURG (AP)** — Gov. Lawrence will visit Hong Kong and five nations following his tour of Japan, his office announced today.

The governor has put Hong Kong, Thailand, India, Iran, Italy and England on his around-the-world itinerary at the conclusion of his current tour, April 18. He plans to return here May 3.

Quarterback Ralph Guglielmi and offensive tackle Ed Cook of the St. Louis Cardinals in the National Football League went to Notre Dame.

### GET \$42,000 LOOT

**BRIGHTON England (AP)** — Five thieves dressed in postmen's uniforms walked off the main railway station platform Wednesday night with a mail bag containing 15,000 pounds (\$42,000) in cash and other valuables.

They told a real postman who was sorting a pile of bags from London. "We'll look after this one for you chum."

A post office spokesman said it was a mystery how the thieves knew which bag to take.

## ADAMS COUNTY PUBLIC LIBRARY

### YOUNG CRITICS

Mrs. W. R. Schubart

Questions about the Adams County Public Library and its needs elicited a lively response from several seniors at Gettysburg High School. Their praise was not solicited, and their criticisms will not be debated. Their frank appraisals are sincere, and it is good to know that they care.

Miss Drusilla Deitch writes, in part: "The Adams County Library, as all libraries, needs the support of the people it serves. . . . Perhaps we can contribute our used books or we should be willing to give a donation of money when the library needs help. At any rate, the library exists for us, and we should do everything possible to preserve it."

Miss Jo Alston also calls for county support and points out several defects. She says: "What the Adams County Library needs is for the people of the borough and surrounding towns to take an interest in it. The main problem is lack of funds for expansion. With adequate funds it could be extended rather elaborately, not only by the addition of reading material but also added space."

**NEED NONFICTION**  
"Private study areas are sorely needed. The supply of fiction is fair. However, it is on the non-fiction level that (it) is completely lacking in just about every field. Adams County Library belongs to the people of the county. Are you satisfied with it?"

That study space is needed, Jerry Hess agrees with by saying, "I think our library could have greater advantage for research students if special rooms were constructed. Our library is entirely too noisy for one to concentrate on anything other than hunting a book."

"One excellent function which the Adams County Library has discontinued is the renewing of due books. This practice is necessary if one wishes to finish reading a large novel. Also I feel that if more librarians were on duty to help students it would greatly improve the efficiency of our county library."

The wide range of topics which are sought requires librarians who are well-versed in all fields of education."

**PAPERBACK BOOKS**  
Speaking of the current fiction shelf, Hess says: "It could profit by buying two or three copies of the same book in paperback form. The library could then permit books to be out for a longer period of time and more people will be able to read them."

Miss Connie Hartman suggests more nighttime hours for the li-

### BOYER ELECTED

**PITTSBURGH (AP)** — Harold Boyer of Reading Thursday was elected president of the Pennsylvania AFL-CIO.

The 2,000 delegates at the 3rd constitutional convention named Boyer by acclamation immediately after he was nominated. There was no opposition.

Boyer has served as co-president of the state group since the AFL-CIO merger at the state level in 1960.

### SEVENTH FIRE VICTIM

**PHILADELPHIA (AP)** — A seventh person has died as the result of a fire in the Vart Hahn Nursing Home in suburban Yeadon on April 2. Mrs. Carrie Mosher, 68, who had suffered smoke inhalation, died in a hospital Thursday. She was one of the 47 patients injured in the fire.

**SAXTON, Pa. (AP)** — The nation's newest nuclear power reactor began operations Thursday, starting a five-year experimental program aimed at increasing the efficiency in nuclear fuel.

The reactor, about 25 miles south of Altoona, is owned by a non-profit corporation known as the Saxton Nuclear Experimental Corp.

Library "One night," she says, "hardly enables a school student sufficient time to use reference books, magazines and other materials. Also, I might note that the one evening that the library is open it is highly patronized, sometimes to the extent of being overly crowded."

More suggestions come from Miss Sandra Foust. She thinks readers would be encouraged by a new book list posted somewhere in the library. Furthermore, "There should be a special section devoted to information on the 'Battle of Gettysburg.' The library itself is rather small and crowded. Possibly it could be enlarged to meet the growing needs of education."

Miss Foust thinks the bookmobile is highly useful to the county and "teaches children at an early age, how to use the library." Linden Green speaks of the book mobile as an "arm of the library" and also commends its usefulness to the county.

### MRS. KENNETH SANDERS

**FAIRFIELD—Troop, 757** Intermediate Girl Scouts met Tuesday evening with all members present at the home of their leader, Mrs. Charles Taylor. A review of the Girl Scout laws and their meaning was discussed in a round table after which the cookie chairman presented gifts to those selling the most orders. Marcia Solomon received a badge sash and Beverly McClain and Donna Nagle received World Friendship pins.

The following girls will assist at the bake sale to be held on April 28 at the bank building: Carolyn Funk, Bobbie Lynn Powell, Beverly McClain, Mary Ann Kittinger, Sandra McGlaughlin, Linda Ickes, Gail Mohler and Carole McGlaughlin.

For her horsemanship badge, Trudy Sanders explained the style, use and parts of a western saddle. Mrs. Robert Neely and Mrs. Kenneth Sanders assisted.

**CUT WATER SUPPLY**  
**BERLIN (AP)** — The West Berlin water company cut off the water supply Thursday to the north railroad station, close to the Communists' Berlin wall.

They found that East German authorities who control the railroad, were using water from the station to repair the hated wall dividing the city.

**FRIDAY, THE 13TH**  
**NEW YORK (AP)** — Don't walk under any ladders today.

Don't let a black cat cross your path.

Don't forget it's Friday the 13th.

P.S. — Don't be superstitious.

**St. Luke's Lutheran Church**, near White Hall, Rev. Mark A. Heiney, pastor. Palm Sunday, 9:15 a.m., Sunday School; 10:30 a.m., Holy Communion service.

**St. Luke's Lutheran Church**, near White Hall, Rev. Mark A. Heiney, pastor. Palm Sunday, 9:15 a.m., Sunday School; 10:30 a.m., Holy Communion service.

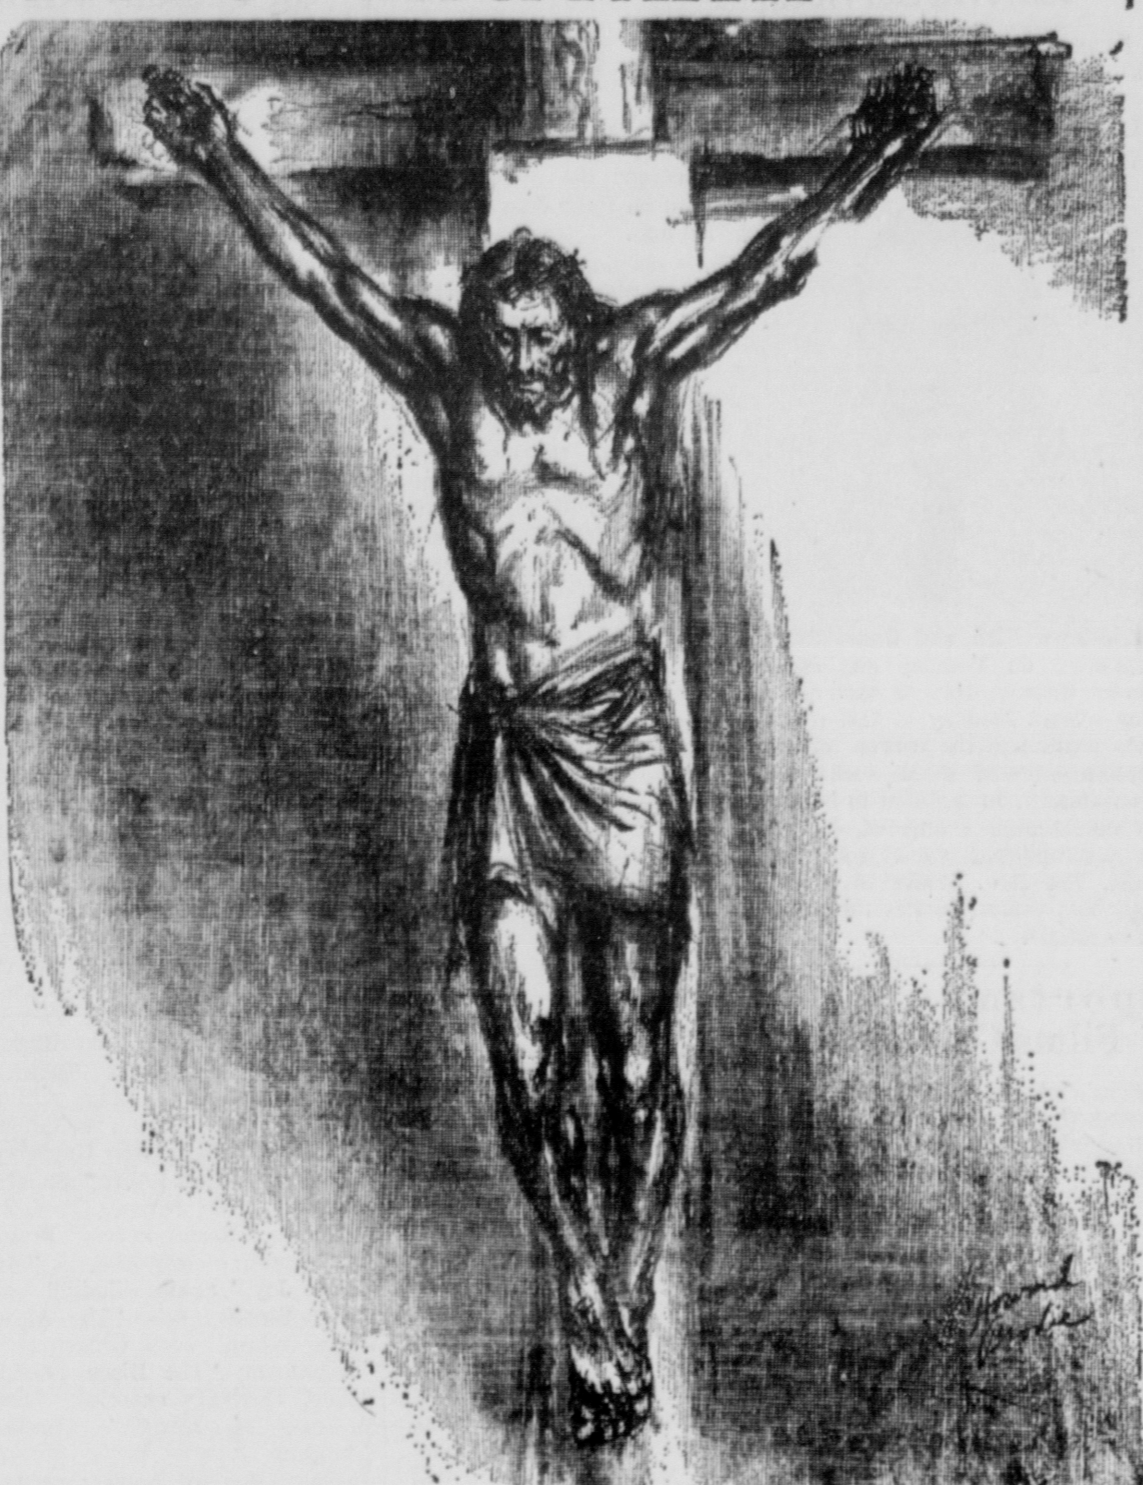

Wired music, a service enjoyed in other cities for years, at last is being made available here. One may now have this special type of soothing background instrumental music around the clock, seven days a week, without interruption for commercials.

The music is from tapes supplied by the Tape-Athlon Corp. which has Mr. Max Urban, who is in charge of the carefully programmed and edited tapes.

The service is being provided by Carl E. Sheffer, whose home office is at 583 West Philadelphia Street, York, Pa. Inquiries are invited.

The music presently available is for use in commercial and professional establishments and private homes, but Sheffer says he has plans also to provide industrial music of a type used to increase production by reducing workers' fatigue. Adv.

### EXTENDS TOUR

**HARRISBURG (AP)** — Gov. Lawrence will visit Hong Kong and five nations following his tour of Japan, his office announced today. The governor has put Hong Kong, Thailand, India, Iran, Italy and England on his around-the-world itinerary at the conclusion of his current tour, April 18. He plans to return here May 3.

Quarterback Ralph Guglielmi and offensive tackle Ed Cook of the St. Louis Cardinals in the National Football League went to Notre Dame.

### GET \$42,000 LOOT

**BRIGHTON, England (AP)** — Five thieves dressed in postmen's uniforms walked off the main railway station platform Wednesday night with a mail bag containing 15,000 pounds (\$42,000) in cash and other valuables. They told a real postman who was sorting a pile of bags from London: "We'll look after this one for you, chum."

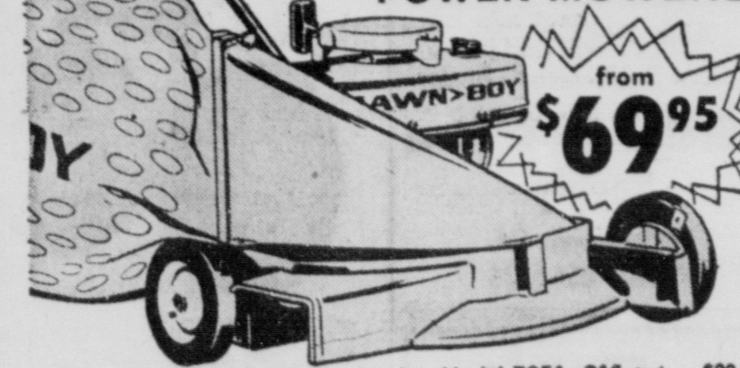

A post office spokesman said it was a mystery how the thieves knew which bag to take.

## ADAMS COUNTY PUBLIC LIBRARY

YOUNG CRITICS  
Mrs. W. R. Schubart

Questions about the Adams County Public Library and its needs elicited a lively response from several seniors at Gettysburg High School. Their praise was not solicited, and their criticisms will not be debated. Their frank appraisals are sincere, and it is good to know that they care.

Miss Drusilla Deitch writes, in part: "The Adams County Library, as all libraries, needs the support of the people it serves. . . . Perhaps we can contribute our used books or we should be willing to give a donation of money when the library needs help. At any rate, the library exists for us, and we should do everything possible to preserve it."

Miss Jo Alston also calls for county support and points out several defects. She says: "What the Adams County Library needs is for the people of the borough and surrounding towns to take an interest in it. The main problem is lack of funds for expansion. With adequate funds it could be extended rather elaborately, not only by the addition of reading material but also added space."

### NEED NONFICTION

"Private study areas are sorely needed. . . . The supply of fiction is fair. However, it is on the non-fiction level that (it) is completely lacking in just about every field. Adams County Library belongs to the people of the county. Are you satisfied with it?"

That study space is needed, Jerry Hess agrees with by saying, "I think our library could have greater advantage for research students if special rooms were constructed. . . . our library is entirely too noisy for one to concentrate on anything other than hunting a book."

"One excellent function which the Adams County Library has discontinued is the renewing of due books. . . . this practice is necessary if one wishes to finish reading a large novel. . . . Also I feel that if more librarians were on duty to help students. . . . it would greatly improve the efficiency of our county library. The wide range of topics which are sought requires librarians who are well-versed in all fields of education."

### PAPERBACK BOOKS

Speaking of the current fiction shelf, Hess says, ". . . it could profit by buying two or three copies of the same book in paperback form. The library could then permit books to be out for a longer period of time and more people will be able to read them."

Miss Connie Hartman suggests more nighttime hours for the li-

### BOYER ELECTED

**PITTSBURGH (AP)** — Harold Boyer of Reading Thursday was elected president of the Pennsylvania AFL-CIO.

The 2,000 delegates at the 3rd constitutional convention named Boyer by acclamation immediately after he was nominated. There was no opposition.

Boyer has served as co-president of the state group since the AFL-CIO merger at the state level in 1960.

### SEVENTH FIRE VICTIM

**PHILADELPHIA (AP)** — A seventh person has died as the result of a fire in the Vart-Hahn Nursing Home in suburban Yeadon on April 2. Mrs. Carrie Mosher, 68 who had suffered smoke inhalation, died in a hospital Thursday. She was one of the 47 patients injured in the fire.

**SAXTON, Pa. (AP)** — The nation's newest nuclear power reactor began operations Thursday, starting a five-year experimental program aimed at increasing the efficiency in nuclear fuel.

The reactor, about 25 miles south of Altoona, is owned by a non-profit corporation known as the Saxton Nuclear Experimental Corp.

brary. "One night," she says, "hardly enables a school student. . . . sufficient time to use reference books, magazines and other materials. . . . Also, I might note that the one evening that the library is open it is highly patronized, sometimes to the extent of being overly crowded."

More suggestions come from Miss Sandra Foust. She thinks readers would be encouraged by a new book list posted somewhere in the library. Furthermore, "There should be a special section devoted to information on the 'Battle of Gettysburg.' . . . The library itself is rather small and crowded. Possibly it could be enlarged to meet the growing needs of education."

Miss Foust thinks the bookmobile is highly useful to the county and "teaches children, at an early age, how to use the library." Linden Green speaks of the bookmobile as an "arm of the library" and also commends its usefulness to the county.

### MRS. KENNETH SANDERS

**FAIRFIELD**—Troop, 757 Intermediate Girl Scouts met Tuesday evening with all members present at the home of their leader, Mrs. Charles Taylor. A review of the Girl Scout laws and their meaning was discussed in a round table after which the cookie chairman presented gifts to those selling the most orders. Marcia Solomon received a badge sash and Beverly McClain and Donna Nagle received World Friendship pins.

The following girls will assist at the bake sale to be held on April 28 at the bank building: Carolyn Funk, Bobbie Lynn Powell, Beverly McClain, Mary Ann Kittinger, Sandra McLaughlin, Linda Ickes, Gail Mohler and Carole McLaughlin.

For her horsewoman badge, Trudy Sanders explained the style, use and parts of a western saddle. Mrs. Robert Neely and Mrs. Kenneth Sanders assisted.

### CUT WATER SUPPLY

**BERLIN (AP)** — The West Berlin water company cut off the water supply Thursday to the north railroad station, close to the Communists' Berlin wall.

They found that East German authorities, who control the railroads, were using water from the station to repair the hated wall dividing the city.

### FRIDAY, THE 13TH

**NEW YORK (AP)** — Don't walk under any ladders today.

Don't let a black cat cross your path.

Don't forget, it's Friday the 13th.

P.S.—Don't be superstitious.

## Littlestown News

### MRS. DAUM IS HONORED BY JUNIOR WOMEN

Mrs. Kent E. Daum was elected president of the Junior Women's Club of Littlestown at the April meeting held on Wednesday evening in the social room of the Eagles Home, W. King St. The session followed the community Lenten services.

Other officials nominated and elected were: Mrs. Paul F. Bolter, first vice president; Mrs. Bernard G. Kehl, second vice president; Miss Shirley Leister, secretary; Mrs. Joseph McMaisters, assistant secretary; Mrs. Robert W. Hall, assistant treasurer; Mrs. Malcolm B. Shadle, corresponding secretary; Mrs. Conrad C. Hull, historian. These new officers will be installed at the June meeting. The nominating committee was composed of Mrs. Robert Hall, chairman, Mrs. Ronald M. Lawhead, Mrs. Richard E. Barnes, Mrs. William Grove and Mrs. Robert Morgret.

The business opened with the pledge to the flag and the Junior Women's Club pledge in unison. Miss Janet Phillips, president, who presided, called for the reports of Mrs. Jay C. Showmaker, secretary, and Mrs. Harold Study, treasurer. A citation for community improvement was received and read from the General Federation of Women's Clubs; which organization also sent a communication on WAIF Month. There was also a letter concerning a traffic safety contest.

#### AID CANCER CRUSADE

The resignation of Mrs. John F. Feeser Jr. was accepted with regret. Mrs. Warren H. Wisotzky, cheer committee chairman, reported that baby shoes had been sent to Mrs. Larry Epley and Mrs. John Jacobs, club members who recently became new mothers. It was decided to have James Bowersox, Maple Ave., maintain the tot lot during the summer months. The tot lot was established and is maintained by the club.

The annual cancer drive in the community is sponsored by the club and solicitors wishing more literature for distribution may secure it from Mrs. Daum and Mrs. Bolter, co-chairmen for the drive. There are no local cancer patients presently in need of transportation, which is provided by the club.

It was announced that the orders for plastic ware can be picked up anytime after Saturday at the home of Mrs. Dale Moore, Prince St. The gadget book sales were adopted as a continuous project. The club continues to provide transportation for a cerebral palsy child to Gettysburg.

Standing committees were reminded to conduct their sandwich sales before summer. Membership dues are now payable. New record books will be purchased for the secretary and treasurer.

#### PLAN EGG HUNT

Plans were made to visit the guests at the Adams County Home, near Gettysburg, on Sunday, April 29, 2 p.m. Mrs. M. B. Shadle is in charge of arrangements for the visit. Donations of homemade candy will be appreciated for the guests and should be taken to the home of Mrs. Shadle, Glenwyn Drive.

There will be an Easter egg hunt for the children of club members on Saturday, April 21. The time, place and other general arrangements are in charge of the following committee: Mrs. Donald P. Sell, Mrs. C. Moss Morehead and Mrs. Robert Kress. The club and the Littlestown Junior Chamber of Commerce are making preliminary arrangements to cosponsor a barber shop group, in a public appearance locally, in June. The general committee to assist the Jaycees with this project includes: Mrs. Paul Bolter, Mrs. Richard Geisler and Mrs. Bernard Kehl.

A contribution of \$10 was voted to the FOE for the use of the meeting room. The merchandise club with Sue's Corner Shop has been completed. It was announced that the annual convention of the Pennsylvania Federation of Women's Clubs will be held May 23, 24 and 25 in Pittsburgh. One new member, Mrs. J. Scott Zanger, was welcomed. She was assigned to the fine arts committee. Two guests introduced were Mrs. Gordon Warner and Mrs. Mary Wolfe.

#### BANQUET IN MAY

Plans were made for the annual Mother's Night affair to be held in the form of a banquet program on Wednesday, May 16, at 6:30 p.m. in the Starlite Room, Dutterer's Restaurant. Club members and their guests are invited to attend. Colored slides taken in Hawaii will be shown by Miss Lee Ann Leaphart, Gettysburg. Tickets are \$2 each and May 11 is the deadline for making reservations with Mrs. Donald Cook. The event is in charge of the fine arts committee, composed of Mrs. Charles Kump, chairman, Mrs. Donald B. Kump, Mrs. Wilbur M. Sentz, Mrs. Donald Cook, Mrs. Scott Zanger, Miss Shirley Leister, Mrs. Earl A. Rebert, Mrs. W. Richard Marshman, Mrs. Richard A. Little Jr., Mrs. Thomas E. Craig and Mrs. Donald Sell. The affair will replace the regular May meeting of the club.

A program of light entertainment followed the business session. There were instrumental, vocal and pantomimed acts for a variety show presented by the members of the membership committee, which comprises Mrs. Larry Epley, chairman, Mrs.

## CLASS PLANS MANY EVENTS

Several annual events were planned at the April meeting of the King's Daughters Class of Christ United Church of Christ held on Wednesday evening at the church. The annual mother and daughter banquet of the congregation will be held on Friday, May 4, at 6:30 p.m. in the Pennville Fire Hall. The class will be in charge of the program with the following planning committee: Mrs. Charles A. Grove, Mrs. Harry C. Wildasin and Mrs. Clair R. Markle.

The annual turkey supper will be served to the public on Saturday, May 19, starting at 4 p.m. The meal will be served family style in the church grove hall. Mrs. Clyde L. Sterner, Mrs. Roy A. Sterner, Mrs. Harry C. Wildasin, Mrs. Delphia J. Sterner, Mrs. Wilmer F. Kessler, Mrs. Alvin C. Gerrick and Mrs. Kenneth W. Olinger will be in charge of general arrangements.

Mrs. G. Howard Koons, president, presided for the business session. In preparation for summer use of the church grove hall, the building will be house cleaned on Thursday evening, May 3, in case of rain that evening, the work will be postponed to Monday, May 7. A donation was voted to Homewood Church Home for the Aged on Mother's Day.

#### GIVE PROGRAM

A program preceded the business session and included: Group singing, accompanied by Mrs. Erwin A. Rebert; responsive reading led by Mrs. Roy Sterner; April program chairman, who also offered prayer; group song, "He Lives"; reading, "Lent Through History"; Mrs. Sterner; reading, "Seed Catalog Time"; Mrs. Rebert; reading, "I Know It Is Spring"; Mrs. Kenneth Olinger; reading, "Spring"; Mrs. Mary E. Brown; reading, "God Knows"; Mrs. Koons; reading, "Sunday"; Mrs. John N. Sell; reading, "The Bread of Life"; Mrs. Clyde Sterner; reading, "Love God"; Mrs. Irvin Markle; reading, "God Is Truly Wonderful"; Mrs. Clair R. Markle; Lord's Prayer in unison.

Contests were conducted during the social hour. The guess package, given by Mrs. Irvin Markle, was received by Mrs. John Sell. Refreshments were served to the group by Mrs. Russell V. Brown, Mrs. Bernard W. Dutterer, Mrs. Alvin C. Gerrick and Mrs. Florence Forsythe.

The class will not have a regular meeting again until Wednesday, September 19, at the summer cottage of Mrs. Harry C. Wildasin, near Hanover. A covered dish supper will be enjoyed. Mrs. John N. Sell will be program chairman.

#### LITTLE LEAGUE MEETING

The officers, directors, managers and others persons interested in the Littlestown Little League will meet at 1:30 p.m., Sunday at the engine house. Dick Selby, League president, announced that plans will be furthered for the coming season.

Donald C. Feeser, Mrs. Otto C. Sells, Mrs. Robert R. Reinaman, Mrs. Edward L. Warner, Mrs. Edward Runk, Mrs. John Jacobs, Mrs. Richard Barnes, Mrs. Jack E. Rebert and Mrs. Clyde W. Crouse. The humorous entertainment featured appropriate costumes and Mrs. Barnes was master of ceremonies.

The membership committee served refreshments, including a large birthday cake commemorating the sixth anniversary of the club.

## Will Preach At Revival Services

Evangelist Cassimire Radzinski, Camden, N.J., will conduct revival services in Bethel Assembly of God Church, along the

Littlestown Fish and Game Rd., beginning on Tuesday and continuing through April 29, each evening except Monday at 7:45 p.m. Two years ago the church membership enjoyed three weeks of his ministry. In addition to being an outstanding evangelist, he is an accomplished pianist and violinist. The Rev. Samuel A. Garret, host pastor, invites the public to attend.

## Sportsmen See Films On Hunting

President John Morehead conducted the April meeting of the Littlestown Fish and Game Association Inc., held following the community church services on Wednesday evening in the club house, near town. Assemblyman Francis Worley gave information on stocking the cottontail rabbit on the Fish and Game farm. An application has been made for stocking federal fish in the farm pond.

It was announced that the archery committee will hold its next archery shoot on Sunday afternoon, May 13. R. J. Stoniesier reported on the sportsmen's 26th annual banquet held recently. Members were reminded that dues are payable to Charles M. Morehead Jr., financial secretary. At the conclusion of business, Richard A. Little Jr. showed two films on hunting and retrieving dogs. Refreshments were served by Paul L. Hollinger.

Vernon C. Reaver, Clarence R. Reck and Clair J. Redding will be in charge of the entertainment for the next meeting on Wednesday, May 9. The refreshment committee is composed of Dr. Richard M. Phreaner, C. Wayne Purdue and Charles E. Rabenstein.

Don't want to get out the grater? Shave cheddar cheeses thin, instead of grating it, when you are using the cheese in a sauce.

## WILL PRESENT S.S. PROGRAM

The Sunday School of St. Luke's Union Church, near White Hall, will present the annual Easter program on Palm Sunday evening at 7:30 p.m.

The opening devotions will include a piano and organ duet, "Jesu, Joy of Man's Desiring," Miss Sheila Appler and Mrs. James Reichart; choir and congregational song, "Christ the Lord Is Risen Today"; Scripture reading and prayer, the Rev. George Shultz Jr., pastor of the United Church of Christ congregation; song, "Holy, Holy, Holy," choir.

The program will continue as follows: Recitation, "An Easter Greeting," David Hartlaub; exercise, "The Lilies' Message," Cathy Hartlaub, Pamela Schultz, Melody Breighner, Lisa Bittle, Dwight Gladhill, Donna Gladhill, Mary Reichart and Debbie Reichart; recitation, "Smiling," Cindy Sentz; song, "Happy Easter," Beginners; recitation, "The Flower's Message," Roger Leatherman; exercise, "The Answer," Sydney Gardner, Connie Breighner, Dennis Bessel, Diane Bessel, Karen Dayhoff, Sharon Dayhoff, Michael Mills and Mark Crouse; recitation, "My Part," Sharon Breighner.

#### RECITATIONS, EXERCISES

Exercise, "Our King," Michael Dayhoff and David Shultz; recitation, "The Story That Has No End," Linda Ripple; recitation, "My Easter Basket," Kay Appler; exercise, "Lily Bells Are Ringing," Lois Bittle, Kerry Crouse, John Schneider, Suzanne Mills; song, "Little Seeds," Primary children; exercise, "All Things in Praise," Chester Ripple, David McCoy, Joan Ginter; recitation, "Easter Message," Steven Breighner; exercise, "I Am the Way," Pamela Mills and Cindy Dayhoff.

Recitation, "We Give Thanks," Beverly Harner; exercise, "The Children on Easter Morning," Charles Ginter and James Shultz; recitation, "God Speaks," Pamela Breighner; song, "Blessed Easter Morning," Chester Ripple, Joyce Dayhoff, Richard Appler, Lana Bittle, Joan Ginter, Dean Gardner, Richard Rucker, Jeanne Gladhill, David McCoy, Sandra Schneider and David Hartlaub; recitation, "He Is Risen," Barry Sentz.

Exercise, "My Easter Joy."

## PTA Will Meet On Tuesday Night

The Littlestown Jointure Parent-Teacher Association will hold its April meeting at 8 p.m. on Tuesday in the general purpose room of the Rolling Acres Elementary School.

Mrs. Kay C. Sentz, girls' health and physical education instructor in the local high school, has announced that the evening's program will be on the theme "Posture and Exercise" with emphasis on the school program in physical fitness. Students from the Eighth Grade will demonstrate exercises and show correct and incorrect posture.

This will be the final meeting of the PTA until September.

#### MUSICAL TONIGHT

Parents and friends are invited to attend the annual spring musical of the Rolling Acres Elementary School this evening at 7:30 o'clock in the general purpose room of the school. Grade one through four will present the two-act operetta "The Frog Prince," under the direction of Mrs. Joselyn Zimmerman. Paul A. Harner will direct the Fourth Grade Tonnettes for several selections. The Fourth Grade string ensemble, directed by Robert C. Musser, will play.

Joyce Dayhoff and Lana Bittle; recitation, "He Lives Today," Kenneth Shultz; song, "It's Spring," the choir; recitation, "Take the Time," Dean Gardner; exercise, "A Book I Love," Sandra Schneider and Jeanne Gladhill; recitation, "Easter Peace," Bruce Leatherman; exercise, "My Easter Joy," James Gladhill and Steven Streig; solo, "The White Easter Lilies," Joan Ginter.

Recitation, "The Risen Lord," Robert Dayhoff; exercise, "The Message of Easter," Charles Schneider, Eugene Bittle, Steven Gardner, Richard Appler; recitation, "Time for Growing," Richard Rucker; exercise, "Little Friends of Jesus," Jay Leatherman and Richard Bessel; anthem, "The Holy City," the choir; offering and remarks; Doxology; benediction, the Rev. Mark A. Heiney, pastor of the Lutheran congregation.

If you frost many cakes, equip your kitchen with a long wide spatula. It will help make the spreading easy!

#### PLAN BROWNIE DANCE

A dance for the Brownie Scouts of the community will be held next Tuesday from 6:30 to 8:30 p.m. in the social hall of the Eagles Home, W. King St. Recorded music and refreshments will be provided courtesy of the FOE.

#### TRADE BREAKS DOWN

BALTIMORE (AP)—Boston Red Sox trade talks with Cleveland have broken down, says Manager Mike Higgins.

"We were trying to put some kind of a deal together," Higgins admitted Thursday night. "I made the Indians an offer I thought they were interested in and they turned it down."

#### WINNER IS FINED

WESTBURY, N.Y. (AP)—John Chapman of Toronto, who drove the \$92.80 winner, Worthy Sally, was fined \$50 by the New York State Harness Racing Commission for failing to obey the starter's instructions at the start of the race, Wednesday night.

#### ADVERTISE IN THE TIMES

## Plan Good Friday Service In St. John's

The annual Three-Hour devotions will be held on Good Friday from 12 noon to 3 p.m. in St. Paul's Lutheran Church. The devotions are sponsored by the Littlestown Ministerium and the public is invited to attend.

"The Seven Last Words from the Cross" will be the theme of the worship in seven parts and the members of the Ministerium will participate. There will be special music at certain intervals. The Ministerium will sponsor the Easter cantata "Olivet to Calvary" next Wednesday at 7:30 p.m. in Redeemer's United Church of Christ. Members of the community church choir will take part, under the direction of Samuel H. Higinbotham.

#### RECORD HOP

Explorer Post 84 will hold a record hop on Saturday from 8 to 11 p.m. in the Maple Ave. School auditorium. Tickets may be secured at the door.

## OCKER-SNYDER POST No. 321 AMERICAN LEGION

Littlestown, Pa.

Whereas, on April 19, 1775, forewarned by Paul Revere and William Dawes and called to muster by a tolling of bells, a small group of Minutemen gathered on Lexington Green where, face-to-face with a force of professional soldiers, they rallied to the "shot heard 'round the world"; and, with increasing numbers of patriots from the Lexington-Concord countryside, they gained the day and eventually the independence of this Nation; and Whereas, April 19th has thereafter been commemorated in Massachusetts and elsewhere as Patriots' Day; and Whereas, today, patriots everywhere are face-to-face with a force of professional conspirators who seek to dominate the world, and whose spokesman, Nikita Khrushchev, has stated that the world Communist movement will "bury" the American way of life; and Whereas, this threat to our government, our religious and other institutions, our homes, and our individual freedoms must be met by a massive mustering of our national will to survive, to the end that the leaders of the Communist conspiracy will understand beyond all doubt that Americans have not lost the spirit of the Minutemen nor the willingness to fight if necessary to retain their cherished freedoms;

Now, therefore, I, Earl L. Sites, Mayor of Littlestown, Pa., do hereby proclaim as BELLS ACROSS THE NATION DAY, Thursday, April 19, 1962, and request that all bells, carillons, and chimes within this Borough of Littlestown ring out for a period of four minutes commencing at 1:00 P.M. (E.S.T.), and that all citizens respond to the ringing of these bells—not as a call to arms—but by a massive voluntary demonstration that America is already armed—in unity, in spirit, and in deep moral conviction; by a tremendous reaffirmation of our faith in and loyalty to our form of government; by prayer; by repeating the American's Creed; by displaying the American Flag; and by participating in all community observances of Bells Across The Nation Day.

s/s Earl L. Sites  
Mayor of Littlestown, Pa.

# 'LIZ TAYLOR LEAVES CLUB ALL ALONE

ROME (AP) — Elizabeth Taylor went home alone from a night club date with Richard Burton early today and an onlooker said the film beauty had tears in her eyes.

An unidentified friend escorted the actress to her car, while Burton remained at their table. Later the actor, who has been Miss Taylor's leading man both on and off the movie set since she parted from singer Eddie Fisher, walked out of the club alone and went to a nearby bar.

One photographer said Burton had a bruise and swelling on his forehead which had not been seen there the night before.

**HAD TWO DOGS**  
The couple arrived separately earlier in the evening at a hotel cocktail lounge and then went on to the night club together. Miss Taylor, 30, brought two of her pet Yorkshire terriers along. The dogs went home with her.

Burton today was reported at work on the set of "Cleopatra," in which he plays Marc Antony to Miss Taylor's Cleopatra.

The studio said Miss Taylor was not at work but might be on the set this afternoon.

A Vatican weekly newspaper meanwhile attacked Miss Taylor for her marital record and warned that she may end up an "erotic wanderer, forever without a safe haven."

A studio spokesman said the actress would not comment on the editorial lashing given her by L'Osservatore Della Domenica — the Sunday Observer. Miss Taylor was reared a Christian Scientist but converted to Judaism after the death of her third husband, producer Mike Todd.

NEW YORK (AP) — The Wall Street Journal reported today that a survey it made in 20 cities indicates a majority of the nation's business leaders believe the steel price increases announced this week are justified, but the general public tends to disagree.

## Whooping Crane Has Slipped Tendon

ST. LOUIS, Mo. (AP) — A four-day-old whooping crane, one of only 46 such birds in existence, was flown here from the Audubon Park Zoo in New Orleans Thursday for treatment of a slipped tendon in its right leg.

George Douglass, superintendent of the zoo, brought the whooper for examination by veterinarians on the research staff of the Ralston Purina Co.

The researchers quickly diagnosed the ailment and started treatments. The whooping crane, fifth hatched at the Audubon Park Zoo, is slightly larger than a duckling. It was unable to stand without toppling over on its side because of the defect.

## KENNEDYS AT SHAH'S DINNER

WASHINGTON (AP) — President and Mrs. Kennedy dined on a six-course dinner — from caviar to spinach — amid the riches of Persia at a state dinner given by the Shah and empress of Iran.

Through the windows they could see a flood-lit Persian garden with the rain splattering in the fountain.

The dinner Thursday night was held in the new Iranian chancery — a bit of Persia smack beside the Georgian architecture of the neighboring embassy.

It has a tiled facade and gilded bronze grillwork. And inside the Kennedys walked across rich Persian rugs and saw an exhibit of art from the provinces of Iran.

The dinner, served at a U-shaped table, began with fresh caviar from Iran and vodka with thin slices of dark bread. There was consommé, pheasant, Persian rice, spinach souffle, duchess potatoes, tiny new carrots and wine.

The President and the Shah toasted each other. Later they talked over coffee while the empress, Mrs. Kennedy and other women chatted together.

Among the 60 guests were Vice President and Mrs. Lyndon B. Johnson and Secretary of State and Mrs. Dean Rusk.

## AGENT TELLS OF SEARCH

WIESBADEN, Germany (AP) — A special American agent testified today at the espionage trial of U.S. Air Force Capt. Joseph P. Kauffman that another agent searched Kauffman's California apartment without a search warrant.

Richard A. Byea Jr. told Col. James C. Cheney, Jacksonville, Fla., who is presiding as judge at the court-martial, that agent Raymond White searched Kauffman's home in Atwater, Calif., before an official search was made with a warrant on Dec. 8, 1961.

The defense has challenged evidence obtained in the searches. Byea identified himself and White as special investigators from Castle Air Force Base, Calif. He had refused to answer questions by Kauffman's civilian lawyer, George Latimer of Salt Lake City, Utah, on White's search Thursday because, he said, it involved classified investigation methods.

Kauffman, a native of Rutland, Vt., is accused of supplying the East German Communists with information on U.S. Air Force installations, their tactical and personnel strength, and with data on Air Force officers. He has pleaded innocent.

HOLLYWOOD (AP) — Veteran Hollywood columnist Louella O. Parsons is a patient at Cedars of Lebanon, undergoing tests for an undisclosed ailment.

Her condition was reported as fair. Hospital attendants said she was admitted Tuesday and was slightly improved early today.

Miss Parsons is in her early 70s, friends said.

WASHINGTON (AP) — The Atomic Energy Commission has touched off another low-yield underground blast at its Nevada test site.

The test fired Thursday, was of TNT.

## Littlestown

# "JUNIOR MISS" CONTEST HELD

Joan Barton, daughter of Mr. and Mrs. J. Wilbur Barton, Lumbee St., and Robin Thomas, daughter of Mr. and Mrs. J. Donald Lemmon, Prince St., were selected by secret ballot by the Littlestown Lions Club members to represent Littlestown in the Adams County Junior Miss Pageant on May 5.

Eight members of the Junior Class of Littlestown High School presented a talent routine and were interviewed prior to the voting by the Lions, Thursday evening in the high school auditorium.

Miss Barton sang "The Loveliest Night of the Year" and Miss Thomas did a twirling and acrobatic routine, "The Volcano." Other participants Jo Ann Beamer, Twirling with the Beat; Judy Apple, vocal solo "Thou Art Great"; Janice Evans, Charleston dance routine; Key Morehead, baton twirling; Elaine Bridinger, dramatic reading; and Gloria Bowers, vocal solo.

The Junior Miss Pageant for the county on May 5 in the high school auditorium will feature two contestants from each of the nine Lions Clubs in the county. Tickets may be secured from any member of the local club and also of the other clubs in the county. The reserved seat chart will be at Marvin's Cut-Rate Store.

The 27th announced in the current series and had the blast equivalent of not more than 20,000 tons of TNT.

**WOULD YOU LIKE TO KNOW  
HOW MUCH IT WILL COST  
TO HEAT YOUR HOME...  
Electrically?**

**Now! Reddy Kilowatt Recommended Dealers  
can tell you...and back their estimates  
with a Guarantee in Writing!**

You have read a great deal about clean, constant, flameless electric heating. Perhaps you have discussed it with family and friends. But chances are, you still wonder what the cost would be for your own home.

Now there need be no guesswork about that. We are cooperating with Reddy Kilowatt Recommended Dealers who will make an accurate estimate of your annual heating cost. So accurately, in fact, that...

**IT'S GUARANTEED!**

Every estimate is guaranteed (in writing) by the electric home heating dealer who qualifies as a Reddy Kilowatt Recommended Dealer. Each of these recommended dealers has been selected by Metropolitan Edison Company for his ability and dependability over the years.

His skill, experience and reputation for reliable service have earned him the right to make this guaranteed estimate. You will know him by this emblem which he proudly displays...

**HOW THE GUARANTEE WORKS**

The guarantee is very clear. It states, "If in any year, during the period of two years from date shown below, the electric heating cost exceeds the estimate by more than 10%, the dealer will reimburse the owner for the amount of the excess over 10%." That's fair enough, isn't it?

**KNOW THE COST IN ADVANCE**

Right now more than 1500 satisfied customers are heating their homes electrically on Meeco's low 1.6¢ per kilowatt electric heating rate, and at an operating cost amazingly close to the original estimate. You can install electric heat with even more assurance; now that the estimate is guaranteed! Don't just take anyone's word about the cost of electric heat—act now and get the true facts.

**Send coupon for full information**  
/or call your nearest Meeco office.

### DAVID HOOPER WINS Top Sales Honor

David "Pete" Hooper has been awarded Chevrolet Motor Division's highest selling honor, Mr. Hooper, a member of the sales staff of Village Chevrolet, was named to membership in Chevrolet's "Legion of Leaders" Honor Club at a special award banquet attended by fellow members from the division's Harrisburg Zone. This is his first entry into the select group of Chevrolet salesmen.

For over a quarter of a century Chevrolet has recognized its leading salesmen. The first "Honor Organization" was inaugurated in 1926.

### ENGAGEMENT

The engagement of Miss Rebecca Ann Conrad, Hanover, to Dean Ellis Yealy, son of Mr. and Mrs. J. Edgar Yealy, Littlestown R. 1, has been announced by her parents, Mr. and Mrs. Raymond Conrad, Hanover.

## WOULD YOU LIKE TO KNOW HOW MUCH IT WILL COST TO HEAT YOUR HOME...

## Electrically?

Now! Reddy Kilowatt Recommended Dealers can tell you...and back their estimates with a Guarantee in Writing!

You have read a great deal about clean, constant, flameless electric heating. Perhaps you have discussed it with family and friends. But chances are, you still wonder what the cost would be for your own home.

Now there need be no guesswork about that. We are cooperating with Reddy Kilowatt Recommended Dealers who will make an accurate estimate of your annual heating cost. So accurately, in fact, that...

### IT'S GUARANTEED!

Every estimate is guaranteed (in writing) by the electric home heating dealer who qualifies as a Reddy Kilowatt Recommended Dealer. Each of these recommended dealers has been selected by Metropolitan Edison Company for his ability and dependability over the years.

His skill, experience and reputation for reliable service have earned him the right to make this guaranteed estimate. You will know him by this emblem which he proudly displays...

### HOW THE GUARANTEE WORKS

The guarantee is very clear. It states, "If in any year, during the period of two years from date shown below, the electric heating cost exceeds the estimate by more than 10%, the dealer will reimburse the owner for the amount of the excess over 10%." That's fair enough, isn't it?

### KNOW THE COST IN ADVANCE

Right now more than 1500 satisfied customers are heating their homes electrically on Meco's low 1.6¢ per kilowatt electric heating rate, and at an operating cost amazingly close to the original estimate. You can install electric heat with even more assurance, now that the estimate is guaranteed! Don't just take anyone's word about the cost of electric heat—act now and get the true facts.

Send coupon for full information  
/or call your nearest Meco office.

Littlestown News

MRS. DAUM IS HONORED BY JUNIOR WOMEN

Mrs. Kent E. Daum was elected president of the Junior Women's Club of Littlestown at the April meeting held on Wednesday evening in the social room of the Eagles Home, W. King St. The session followed the community Lenten services.

Other officials nominated and elected were: Mrs. Paul F. Boller, first vice president; Mrs. Bernard G. Kehli, second vice president; Miss Shirley Leister, secretary; Mrs. Joseph McMasiers, assistant secretary; Miss Nancy Oaster, treasurer; Mrs. Robert W. Hall, assistant treasurer; Mrs. Malcolm B. Shadle, corresponding secretary; Mrs. Conrad C. Hull, historian. These new officers will be installed at the June meeting. The nominating committee was composed of Mrs. Robert Hall, chairman, Mrs. Ronald M. Lawhead, Mrs. Richard E. Barnes, Mrs. William Grove and Mrs. Robert Morgret.

The business opened with the pledge to the flag and the Junior Women's Club pledge in unison. Miss Janet Phillips, president, who presided, called for the reports of Mrs. Jay C. Shovvaker, secretary, and Mrs. Harold Study, treasurer. A citation for community improvement was received and read from the General Federation of Women's Clubs; which organization also sent a communication on WAFB Month. There was also a letter concerning a traffic safety contest.

**AID CANCER CRUSADE**

The resignation of Mrs. John F. Feesser Jr. was accepted with regret. Mrs. Warren H. Wisotzky, cheer committee chairman, reported that baby shoes had been sent to Mrs. Larry Epley and Mrs. John Jacobs, club members who recently became new mothers. It was decided to have James Bowersox, Maple Ave., maintain the total during the summer months. The total was established and is maintained by the club.

The annual cancer drive in the community is sponsored by the club and solicitors wishing more literature for distribution may secure it from Mrs. Daum and Mrs. Boller, co-chairmen for the drive. There are no local cancer patients presently in need of transportation, which is provided by the club.

It was announced that the orders for plastic ware can be picked up anytime after Saturday at the home of Mrs. Dale Moore, Prince St. The gadget book sales were adopted as a continuous project. The club continues to provide transportation for a cerebral palsy child to Gettysburg.

Standing committees were reminded to conduct their sandwich sales before summer. Membership dues are now payable. New record books will be purchased for the secretary and treasurer.

PLAN EGG HUNT

Plans were made to visit the guests at the Adams County Home, near Gettysburg, on Sunday, April 29, 2 p.m. Mrs. M. B. Shadle is in charge of arrangements for the visit. Donations of homemade candy will be appreciated for the guests and should be taken to the home of Mrs. Shadle, Glenwyn Drive.

There will be an Easter egg hunt for the children of club members on Saturday, April 21. The time, place and other general arrangements are in charge of the following committee: Mrs. Donald P. Sell, Mrs. C. Moss Morehead and Mrs. Robert Kress.

The club and the Littlestown Junior Chamber of Commerce are making preliminary arrangements to cosponsor a barber-shop group, in a public appearance locally, in June. The general committee to assist the Jaycees with this project includes: Mrs. Poul Boller, Mrs. Richard Geisler and Mrs. Bernard Kehli.

A contribution of \$10 was voted to the FOE for the use of the meeting room. The merchandise club with Sue's Corner Shop has been completed. It was announced that the annual convention of the Pennsylvania Federation of Women's Clubs will be held May 23, 24 and 25 in Pittsburgh. One new member, Mrs. J. Scott Zanger, was welcomed. She was assigned to the fine arts committee. Two guests introduced were Mrs. Gordon Warner and Mrs. Mary Wolfe.

**BANQUET IN MAY**

Plans were made for the annual Mother's Night affair to be held in the form of a banquet program on Wednesday, May 16, at 6:30 p.m. in the Starlite Room, Dutler's Restaurant. Club members and their guests are invited to attend. Colored slides taken in Hawaii will be shown by Miss Lee Ann Leapheart, Gettysburg. Tickets are \$2 each and May 11 is the deadline for making reservations with Mrs. Donald Cook. The event is in charge of the fine arts committee, composed of Mrs. Charles Kump, chairman, Mrs. Donald B. Kump, Mrs. Wilbur M. Soutz, Mrs. Donald Cook, Mrs. Scott Zanger, Miss Shirley Leister, Mrs. Earl A. Rebert, Mrs. W. Richard Marshman, Mrs. Richard A. Little Jr., Mrs. Thomas E. Craig and Mrs. Donald Sell. The affair will replace the regular May meeting of the club.

A program of light entertainment followed the business session. There were instrumental, vocal and pantomimed acts for a variety show presented by the members of the membership committee, which comprises Mrs. Larry Epley, chairman, Mrs.

CLASS PLANS MANY EVENTS

Several annual events were planned at the April meeting of the King's Daughters Class of Christ United Church of Christ held on Wednesday evening at the church. The annual mother and daughter banquet of the congregation will be held on Friday, May 4, at 6:30 p.m. in the Pennville Fire Hall. The class will be in charge of the program with the following planning committee: Mrs. Charles A. Grove, Mrs. Harry C. Wildasin and Mrs. Clair R. Markle.

The annual turkey supper will be served to the public on Saturday, May 19, starting at 4 p.m. The meal will be served family style in the church grove hall. Mrs. Clyde L. Sterner, Mrs. Roy A. Sterner, Mrs. Harry C. Wildasin, Mrs. Delphia J. Sterner, Mrs. Wilmer F. Kessler, Mrs. Alvin C. Gerrick and Mrs. Kenneth W. Olinger will be in charge of general arrangements.

Mrs. G. Howard Koons, president, presided for the business session. In preparation for summer use of the church grove hall, the building will be house cleaned on Thursday evening, May 3; in case of rain that evening, the work will be postponed to Monday, May 7. A donation was voted to Homewood Church Home for the Aged on Mother's Day.

GIVE PROGRAM

A program preceded the business session and included: Group singing, accompanied by Mrs. Erwin A. Rebert; responsive reading led by Mrs. Roy Sterner, April program chairman, who also offered prayer; group song, "He Loves," reading, "Lent Through History," Mrs. Sterner; reading, "Seed Catalog Time," Mrs. Rebert, reading, "I Know It Is Spring," Mrs. Kenneth Olinger; reading, "Spring," Mrs. Mary E. Brown; reading, "God Knows," Mrs. Koons; reading, "Sunday," Mrs. John N. Sell; reading, "The Bread of Life," Mrs. Clyde Sterner; reading, "Love God," Mrs. Irvin Markle; reading, "God Is Truly Wonderful," Mrs. Clair R. Markle; Lord's Prayer in unison.

Contests were conducted during the social hour. The guess package, given by Mrs. Irvin Markle, was received by Mrs. John Sell. Refreshments were served to the group by Mrs. Russell V. Brown, Mrs. Bernard W. Dutler, Mrs. Alvin C. Gerrick and Mrs. Florence Forsythe.

The class will not have a regular meeting again until Wednesday, September 19, at the summer cottage of Mrs. Harry C. Wildasin, near Hanover. A covered dish supper will be enjoyed. Mrs. John N. Sell will be program chairman.

Will Preach At Revival Services

Evangelist Cassimire Radzinski, Camden, N.J., will conduct revival services in Bethel Assembly of God Church, along the

Littlestown Fish and Game Rd., beginning on Tuesday and continuing through April 29, each evening except Monday at 7:45 p.m. Two years ago the church membership enjoyed three weeks of his ministry in addition to being an outstanding evangelist, he is an accomplished pianist and violinist. The Rev. Samuel A. Garrett, host pastor, invites the public to attend.

Sportsmen See Films On Hunting

President John Morehead conducted the April meeting of the Littlestown Fish and Game Association Inc., held following the community church services on Wednesday evening in the club house, near town. Assemblyman Francis Worley gave information on stocking the cottontail rabbit on the Fish and Game farm. An application has been made for stocking federal fish in the farm pond.

It was announced that the archery committee will hold its next archery shoot on Sunday afternoon, May 13. R. J. Stonessifer reported on the sportsmen's 26th annual banquet held recently. Members were reminded that dues are payable to Charles M. Morehead Jr., financial secretary. At the conclusion of business, Richard A. Little Jr. showed two films on hunting and retrieving dogs. Refreshments were served by Paul L. Hollinger.

Vernon C. Reaver, Clarence R. Reck and Clair J. Redding will be in charge of the entertainment for the next meeting on Wednesday, May 9. The refreshment committee is composed of Dr. Richard M. Phreaner, C. Wayne Purdue and Charles E. Rabenstein.

Don't want to get out the grater? Shave cheddar cheeses thin, instead of grating it, when you are using the cheese in a sauce.

WILL PRESENT S.S. PROGRAM

The Sunday School of St. Luke's Union Church, near White Hall, will present the annual Easter program on Palm Sunday evening at 7:30 p.m.

The opening devotions will include a piano and organ duet, "Jesu, Joy of Man's Desiring," Miss Sheila Appler and Mrs. James Reichart; choir and congregational song, "Christ the Lord Is Risen Today"; Scripture reading and prayer, the Rev. George Shultz Jr., pastor of the United Church of Christ congregation; song, "Holy, Holy, Holy," choir.

The program will continue as follows: Recitation, "An Easter Greeting," David Hartlaub; exercise, "The Lilies Message," Cathy Hartlaub, Pamela Schultz, Melody Breighner, Lisa Bittle, Dwight Gladhill, Donna Gladhill, Mary Reichart and Debbie Reichart; recitation, "Smiling," Cindy Sentz; song, "Happy Easter," Beginners; recitation, "The Flower's Message," Roger Leatherman; exercise, "The Answer," Sydney Gardner, Connie Breighner, Dennis Bense, Diane Bense, Karen Dayhoff, Sharon Dayhoff, Michael Mills and Mark Crouse; recitation, "My Part," Sharon Breighner.

RECITATIONS, EXERCISES

Exercise, "Our King," Michael Dayhoff and David Shultz; recitation, "The Story That Has No End," Linda Ruppel; recitation, "My Easter Basket," Kay Appler; exercise, "Lily Bells Are Ringing," Lois Bittle, Kerry Crouse, John Schneider, Suzanne Mills; song, "Little Seeds," Primary children; exercise, "All Things in Praise," Chester Ruppel, David McCoy, Joan Ginter; recitation, "Easter Message," Steven Breighner; exercise, "I Am the Way," Pamela Mills and Cindy Dayhoff; recitation, "We Give Thanks," Beverly Harner; exercise, "The Children on Easter Morning," Charles Ginter and James Shultz; recitation, "God Speaks," Pamela Breighner; song, "Blessed Easter Morning," Chester Ruppel, Joyce Dayhoff, Richard Appler, Lana Bittle, Joan Ginter, Dean Gardner, Richard Rucker, Jeanne Gladhill, David McCoy, Sandra Schneider and David Hartlaub; recitation, "He Is Risen," Barry Sentz; Exercise, "My Easter Joy,"

PTA Will Meet On Tuesday Night

The Littlestown Jointure Parent-Teacher Association will hold its April meeting at 8 p.m. on Tuesday in the general purpose room of the Rolling Acres Elementary School.

Mrs. Kay C. Sentz, girls' health and physical education instructor in the local high school, has announced that the evening's program will be on the theme "Posture and Exercise" with emphasis on the school program in physical fitness. Students from the Eighth Grade will demonstrate exercises and show correct and incorrect posture.

This will be the final meeting of the PTA until September.

MUSICAL TONIGHT

Parents and friends are invited to attend the annual spring musical of the Rolling Acres Elementary School this evening at 7:30 o'clock in the general purpose room of the school. Grade one through four will present the two-act operetta "The Frog Prince," under the direction of Mrs. Joselyn Zimmerman. Paul A. Harner will direct the Fourth Grade Tonnettes for several selections. The Fourth Grade string ensemble, directed by Robert C. Musser, will play.

Joyce Dayhoff and Lana Bittle; recitation, "He Lives Today," Kenneth Shultz; song, "It's Spring," the choir; recitation, "Take the Time," Dean Gardner; exercise, "A Book I Love," Sandra Schneider and Jeanne Gladhill; recitation, "Easter Peace," Bruce Leatherman; exercise, "My Easter Joy," James Gladhill and Steven Strevig; solo, "The White Easter Lilies," Joan Ginter. Recitation, "The Risen Lord," Robert Dayhoff; exercise, "The Message of Easter," Charles Schneider, Eugene Bittle, Steven Gardner, Richard Appler; recitation, "Time for Growing," Richard Rucker; exercise, "Little Friends of Jesus," Jay Leatherman and Richard Bense; anthem, "The Holy City," the choir, offering and remarks; Doxology; benediction, the Rev. Mark A. Heiney, pastor of the Lutheran congregation.

If you frost many cakes, equip your kitchen with a long wide spatula. It will help make the spreading easy!

PLAN BROWNIE DANCE

A dance for the Brownie Scouts of the community will be held next Tuesday from 6:30 to 8:30 p.m. in the social hall of the Eagles Home, W. King St. Recorded music and refreshments will be provided courtesy of the FOE.

TRADE BREAKS DOWN

BALTIMORE (AP)—Boston Red Sox trade talks with Cleveland have broken down, says Manager Mike Higgins.

"We were trying to put some kind of a deal together," Higgins admitted Thursday night. "I made the Indians an offer I thought they were interested in and they turned it down."

WINNER IS FINED

WESTBURY, N.Y. (AP)—John Chapman of Toronto, who drove the \$92.80 winner, Worthing Sally, was fined \$50 by the New York State Harness Racing Commission for failing to obey the start-up instructions at the start of the race, Wednesday night.

ADVERTISE IN THE TIMES

Plan Good Friday Service In St. John's

The annual Three-Hour devotions will be held on Good Friday from 12 noon to 3 p.m. in St. Paul's Lutheran Church. The devotions are sponsored by the Littlestown Ministerium and the public is invited to attend.

"The Seven Last Words from the Cross" will be the theme of the worship in seven parts and the members of the Ministerium will participate. There will be special music at certain intervals. The Ministerium will sponsor the Easter cantata "Olivet to Calvary" next Wednesday at 7:30 p.m. in Redeemer's United Church of Christ. Members of the community church choir will take part, under the direction of Samuel H. Hignbotham.

RECORD HOP

Explorer Post 84 will hold a record hop on Saturday from 8 to 11 p.m. in the Maple Ave. School auditorium. Tickets may be secured at the door.

**OCKER-SNYDER POST No. 321 AMERICAN LEGION**

Littlestown, Pa.

Whereas, on April 19, 1775, forewarned by Paul Revere and William Dawes and called to muster by a tolling of bells, a small group of Minutemen gathered on Lexington Green where, face-to-face with a force of professional soldiers, they rallied to the "shot heard 'round the world"; and, with increasing numbers of patriots from the Lexington-Concord countryside, they gained the day and eventually the independence of this Nation; and Whereas, April 19th has thereafter been commemorated in Massachusetts and elsewhere as Patriots' Day; and Whereas, today, patriots everywhere are face-to-face with a force of professional conspirators who seek to dominate the world, and whose spokesman, Nikita Khrushchev, has stated that the world Communist movement will "bury" the American way of life; and Whereas, this threat to our government, our religious and other institutions, our homes, and our individual freedoms must be met by a massive mustering of our national will to survive, to the end that the leaders of the Communist conspiracy will understand beyond all doubt that Americans have not lost the spirit of the Minutemen nor the willingness to fight if necessary to retain their cherished freedoms;

Now, therefore, I, Earl L. Stites, Mayor of Littlestown, Pa., do hereby proclaim as BELLS ACROSS THE NATION DAY, Thursday, April 19, 1962, and request that all bells, carillons, and chimes within this Borough of Littlestown ring out for a period of four minutes commencing at 1:00 P.M. (E.S.T.), and that all citizens respond to the ringing of these bells—not as a call to arms—but by a massive voluntary demonstration that America is already armed—in unity, in spirit, and deep moral conviction; by a tremendous reaffirmation of our faith in and loyalty to our form of government; by prayer; by repeating the American's Creed; by displaying the American Flag; and by participating in all community observances of Bells Across The Nation Day.

s/s Earl L. Stites Mayor of Littlestown, Pa.

# INFORMATION OFFICER AT PSU EXPIRES

CHERRY HILL, N.J. (AP) — James H. Coogan, 51, director of public information at Pennsylvania State University since 1956, collapsed and died Thursday night of an apparent heart attack just as he was finishing an address before an alumni group.

The former sports information director was within a few minutes of completing his address before the Penn State Alumni Club of Southern New Jersey in the Cherry Hill Inn when he suddenly slumped to the floor.

He was rushed to Our Lady of Lourdes Hospital in Camden where he was pronounced dead. Ridge Riley, executive secretary of the Penn State Alumni Association, said that he and Coogan had driven to Cherry Hill, near Philadelphia, from their homes in State College, Pa., earlier in the afternoon. Riley said Coogan gave no indication of illness during the 100-mile trip or anytime thereafter until he suddenly slumped over.

## WIDOW SURVIVES

"He seemed perfectly relaxed," said Riley. "He gave no evidence during his talk that he was ill. He was within two or three minutes of finishing when he slumped over."

Riley said Coogan was administered the last rites of the Roman Catholic Church.

Coogan, a native of Shenandoah graduated from Penn State in 1930 and later worked as a reporter for the Shenandoah Herald and the Berwick Enterprise. He returned to Penn State in 1942, working in the Information Division of Continuing Education Services.

MISS STICKLEY MISS SMITH MISS RIPLEY MISS DOWDY

Miss Joyce Amanda Ripley, 18-year-old daughter of Mr. and Mrs. Isaac Ripley, Aspers, is among four princesses to be included in the queen's court at the Apple Blossom Festival in Winchester, Va., May 3-5. She will represent the state Horticultural Association of Pennsylvania. Others selected are Miss Shirley Patsy Stickley, Maryland; Miss Mary Randolph Smith, West Virginia, and Miss Sarah Orpha Dowdy, Virginia.

# Old Locomotive To Trace Colorful Civil War Ride

By BILL RAWLINS

ATLANTA, Ga. (AP)—One of the South's most famous locomotives is to retrace the route of one of the Civil War's most colorful episodes—the great chase through north Georgia.

The General is the famous wood-burning locomotive which was stolen 100 years ago by 22 Union spies. They raced it at speeds up to 72 miles an hour toward Chattanooga—with Confederate crewmen in hot pursuit.

As part of the Civil War Centennial, the General has been reconditioned by the Louisville & Nashville Railroad for a 100-mile commemorative trip Saturday.

In 1943 he became director of sports information, succeeding Riley. He held this post until 1958 when he replaced Louis H. Bell as director of public information.

Survivors include his widow, Margaret.

With appropriate fanfare, hoopla and celebrations by bearded and costumed townsfolk at six stops enroute, the General will huff and puff back to Chattanooga—the city which was its home in retirement for many years.

## STORY OF RAID

The story of the General is the story of the Andrews raid.

It was on April 12, 1862, that 21 members of the Ohio Volunteer Infantry—led by professional spy James Andrews—stole the General at Big Shanty, Ga., just north of Marietta.

Their mission was to burn all railroad bridges and cut all telegraph lines in their wake, to isolate Atlanta.

The plan was foiled by William A. Fuller, young conductor for the Georgia-owned Western & Atlantic Railroad. He led his crewmen in pursuit of the stolen General—first on foot, then by handcar and, finally, in a relay of three other

## OVERTAKE GENERAL

The Confederates overtook the General, out of wood, water and oil, near Ringgold, Ga., just south of Chattanooga. Its crewmen, who didn't have time to burn a bridge, fled into the woods and soon were rounded up. Eight of them, including Andrews himself, were hanged and now lie buried in Chattanooga National Cemetery.

Nineteen of the raiders were awarded the nation's first Medals of Honor. Had their plan succeeded, some experts say, they would have shortened the war by three years.

The General won't burn wood this trip. It will generate its steam from fuel oil. And it will have brakes, a convenience the General didn't have 100 years ago.

## BOYS STILL ROMANTIC

WORCHESTER, Mass. (AP)—Off-duty police officers hired to police high school dancing in Worcester says it's the girls who request the Twist. They say the boys watch and gossip in masculine huddles, waiting for slower, old-fashioned music.

# Divorced Couple Found Dead Today

ZELIENOPLE, Pa. (AP) — A divorced Pittsburgh couple was found dead of carbon monoxide poisoning early today in a small cottage in nearby Harmony Junction, Butler County.

The victims were Thomas Cannon 36, and Elizabeth Cannon, 35. County Coroner J. Clinton Atwell ruled the deaths accidental. He said the deadly fumes came from an unvented kitchen stove.

The bodies were found by the Cannon woman's aunt, Mrs. Martin Myers of Pittsburgh, and her husband.

The Cannons were divorced last November. They were planning to remarry.

## HOLD THAT HATCHET

WYNNEWOOD, Okla. (AP) — Tommy Lee Johnson bought 10 hens, planned to dress them and stack them away in the freezer. But his wife found six eggs in the pen where the fowls were kept overnight. The hens got a stay of execution.

## LEGAL NOTICES

# INFORMATION OFFICER AT PSU EXPIRES

CHERRY HILL, N.J. (AP) — James H. Coogan, 51, director of public information at Pennsylvania State University since 1958, collapsed and died Thursday night of an apparent heart attack just as he was finishing an address before an alumni group.

The former sports information director was within a few minutes of completing his address before the Penn State Alumni Club of Southern New Jersey in the Cherry Hill Inn when he suddenly slumped to the floor.

He was rushed to Our Lady of Lourdes Hospital in Camden where he was pronounced dead.

Ridge Riley, executive secretary of the Penn State Alumni Association said that he and Coogan had driven to Cherry Hill, near Philadelphia, from their homes in State College, Pa. earlier in the afternoon. Riley said Coogan gave no indication of illness during the 100-mile trip or anytime thereafter until he suddenly slumped over.

"He seemed perfectly relaxed," said Riley. "He gave no evidence during his talk that he was ill. He was within two or three minutes of finishing when he slumped over."

Riley said Coogan was administering the last rites of the Roman Catholic Church.

Coogan, a native of Shenandoah graduated from Penn State in 1930 and later worked as a reporter for the Shenandoah Herald and the Berwick Enterprise. He returned to Penn State in 1942 working in the Information Division of Continuing Education Services.

MISS STICKLEY MISS SMITH MISS RIPLEY MISS DOWDY

Miss Joyce Amanda Ripley, 18-year-old daughter of Mr. and Mrs. Isaac Ripley, Aspers, is among four princesses to be included in the queen's court at the Apple Blossom Festival in Winchester, Va., May 3-5. She will represent the state Horticultural Association of Pennsylvania. Others selected are Miss Shirley Patsy Stickley, Maryland; Miss Mary Randolph Smith, West Virginia, and Miss Sarah Orpha Dowdy, Virginia.

# Old Locomotive To Trace Colorful Civil War Ride

By BILL RAWLINS

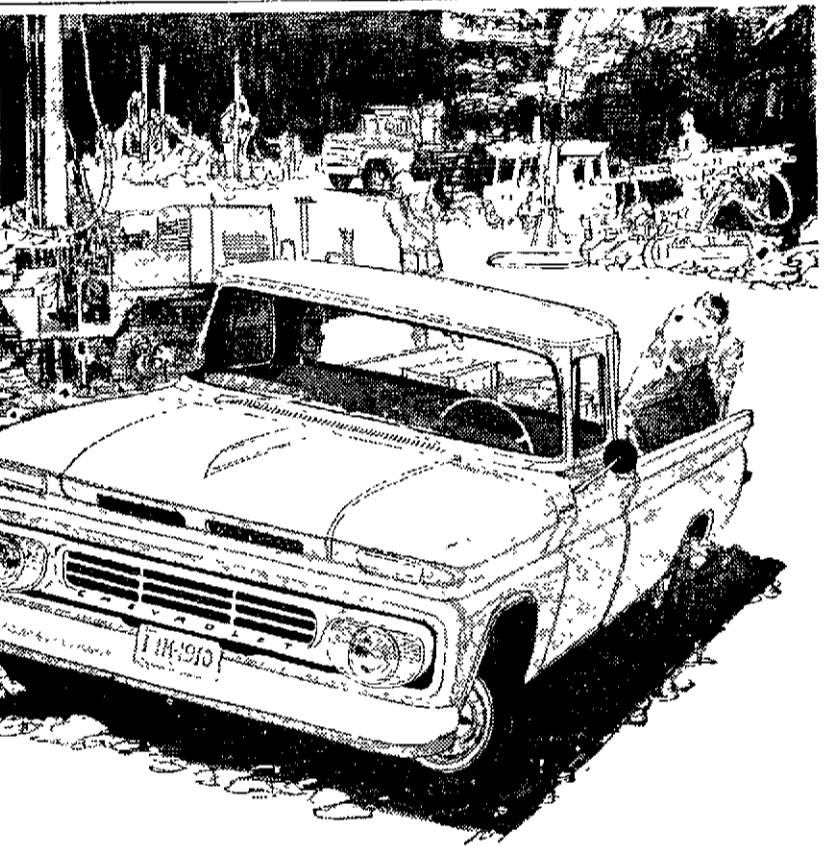

ATLANTA, Ga. (AP) — One of the South's most famous locomotives is to retrace the route of one of the Civil War's most colorful episodes—the great chase through north Georgia.

The General is the famous wood-burning locomotive which was stolen 100 years ago by 22 Union spies. They raced it at speeds up to 72 miles an hour toward Chattanooga—with Confederate crewmen in hot pursuit.

As part of the Civil War Centennial, the General has been reconditioned by the Louisville & Nashville Railroad for a 100-mile commemorative trip Saturday.

The General is the famous wood-burning locomotive which was stolen 100 years ago by 22 Union spies. They raced it at speeds up to 72 miles an hour toward Chattanooga—with Confederate crewmen in hot pursuit.

Survivors include his widow, Margaret.

Depend on it to give you an honest day's work for a long, long time and not cost much to run or keep up. It's a Chevrolet.

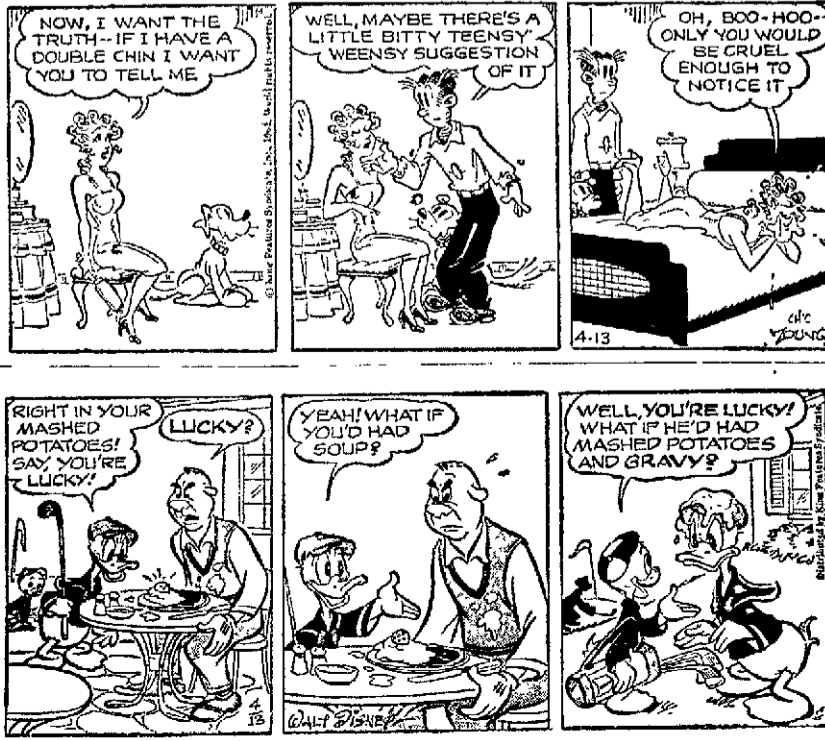

Trucks aren't all alike. This Chevrolet has double-wall roof, doors and side panels. It has suspension that helps it last longer by reducing road shock. It has a non-skid wood body floor. It has as tough a tailgate as you'll find. It has an all-welded frame made of high-quality steel. Most important, it has a name everybody respects because they know it stands for quality. When you

make up your mind to buy, get this one. We know you'll be happy with it. HAVE YOU LOOKED INTO CAMPER BODIES? This is a fine way to enjoy the outdoors comfortably and at low cost. Many Chevrolet dealers are showing camper units now. Drop by and investigate this great way to make a truck do double duty. A strong Chevrolet is your best bet for work or play.

See your Chevrolet dealer for trucks that keep working and working and working and working!

# Divorced Couple Found Dead Today

ZELIENOPLE, Pa. (AP) — A divorced Pittsburgh couple was found dead of carbon monoxide poisoning early today in a small cottage in nearby Harmony Junction, Butler County.

The victims were Thomas Cannon 30, and Elizabeth Cannon, 35, County Coroner J. Clinton Alwell ruled the deaths accidental. He said the deadly fumes came from an unvented kitchen stove.

The bodies were found by the Cannon woman's aunt, Mrs. Martin Myers of Pittsburgh, and her husband.

The Cannons were divorced last November. They were planning to remarry.

# OLD THAT HATCHET

WYNNEWOOD, Okla. (AP) — Tommy Lee Johnson bought 10 hens, planned to dress them and stack them away in the freezer. But his wife found six eggs in the pen where the fowls were kept overnight. The hens got a stay of execution.

# LEGAL NOTICES

A special meeting of the Cumberland Township School Board will be held at the Gettysburg Veterans Bank April 14 at 7:30 p.m. for the purpose of preparing a budget for the year 1962-63.

RICHARD E. SCHULTZ Secretary

# STATE AFL-CIO CHOOSSES ITS 1962 OFFICERS

PITTSBURGH (AP) — Michael Johnson of Bryn Mawr is the first executive vice president of the Pennsylvania AFL-CIO. The post carries with it the directorship of the Committee on Political Education (COPE).

A spokesman at the state-wide convention said Johnson defeated Leonard Mahoney of Philadelphia Thursday night for the \$16,000-a-year position by a margin of almost two to one.

Earlier in the day Harry Boyer of Reading was elected president of the state organization.

Other highlights of the day were the adoption of a score of resolutions, and a speech by the Democratic organization gubernatorial candidate, Richardson Dilworth, sharply attacking the price rise in steel.

## "DOUBLECROSS"

"There has never been a doublecross like it in this century," Dilworth charged.

Dilworth said the U. S. Steel Corp.'s surprise announcement of a \$6-a-ton price increase caught the other steel companies "with their pants down."

Senator Joseph S. Clark, D-Pa., running for re-election, told the convention: "These steel prices must be rolled back. The next time you buy a car or a refrigerator it is going to cost you more because of the arrogant contempt of these steel executives for the American people in launching a new wave of inflation."

He accused the leaders of the steel industry of giving practically no support to President Kennedy. In contrast, Clark praised labor for its support of the President's legislative program.

## ADOPTED RESOLUTIONS

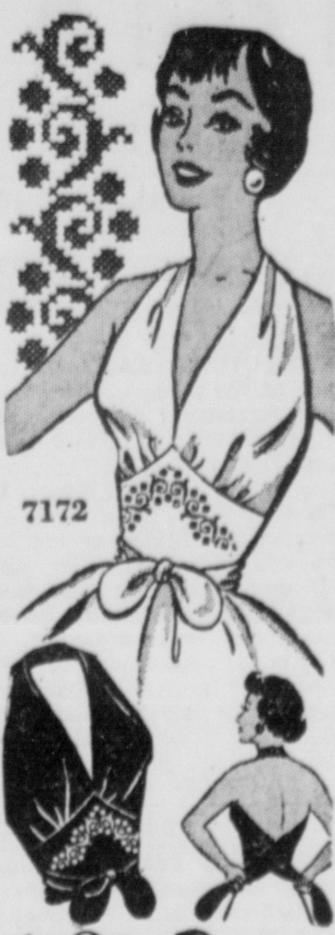

Several of the resolutions adopted by the convention were addressed to President Kennedy or to government agencies.

One requested the President to deny federal funds for housing which is not available to all, regardless of race, creed or national origin.

Another resolution urged the establishment of a cabinet-level Department of Urban Affairs and Housing—a Kennedy proposal.

Other resolutions urged the establishment of a state-wide AFL-CIO Civil Rights Committee; support of boycotts of anti-union goods and services, where sanctioned by the trade movement; employment of the handicapped, when qualified; and payment of

# U.S. Is Ready For Hundreds Of Mammoth Tests In Air

WASHINGTON (AP)—Preparations are virtually complete for a new series of U.S. nuclear weapons tests in the atmosphere which top military men feel are vital to prevent the Soviets from leap-frogging to the front in the atomic arms race.

President Kennedy has not yet given the final go-ahead signal, but it appears a foregone conclusion that he will do so soon. The Soviets have shown no sign they are willing to agree to a test ban which could be considered fool-proof.

Indications are that a series of perhaps three dozen shots, some probably hundreds of miles aloft, will begin late this month and continue for perhaps two months.

## 2 AREAS READY

The United States has staked out two big areas around Johnston and Christmas islands in the

not less than the prevailing wages to workers on housing construction programs involving federal funds.

# ARE SCHEDULED WIDE VARIETY OF TV SHOWS

By CYNTHIA LOWRY  
NEW YORK (AP) — Network television is loaded during the next few days with programs ranging from religious specials to musical variety welcoming the springtime.

Tackling the schedules chronologically, highlights are as follows:

Leonard Bernstein and the New York Philharmonic will wind up the season of young people's concerts tonight (CBS, 7:30-8:30 EST). Telephone Hour (NBC, 9:30-10:30) is "Springtime in the Park," with songs, music and dancing by Lanny Ross, Jose Iturbi and Gene Nelson.

## PASSOVER SHOWS

Both CBS and NBC will have special passover programs on Sunday — the former at 10 a.m., and the latter at 1 p.m.

"Give us Barabbas," an Eastern drama, first shown last season, will be repeated by NBC Sunday evening (6-7), and at 8:30 p.m. the network will show its new Project 20 "He is Risen," a documentary-type program on the last days of Jesus. NBC's Show of the Week (10-11) is an original comedy, "The Action in New Orleans" starring Bob Cummings and Audrey Meadows.

CBS' Walter Cronkite takes over the network's early evening news show Monday night, replacing Douglas Edwards.

## VARIETY SPECIAL

"Rainbow of Stars," based in New York's Rockefeller Center is Tuesday night's variety special (NBC, 9-10) with stars Robert Goulet, Nancy Walker, Carol Lawrence and the Radio City Rockettes and Corps de Ballet. CBS has an original Tad Mosel play, "That's Where the Town's Going" (10-11) with Kim Stanley and Jason Robards Jr. "Close-up," the ABC news show will have novelist John Masters looking back on British imperialism in India (ABC 10:30-11).

Perry Como's Wednesday night Easter show (NBC, 9-10) stars Burr Tillstrom, Kukla and Ollie and singer Jane Morgan.

NBC has another special for women, "The Problem Child," Thursday afternoon (3-4). And "CBS Reports" (10-11) concludes the two-part series on "The Taxed American."

# Westinghouse Gives More Benefits

PITTSBURGH (AP)—Raises and increased pension benefits worth about \$20 million annually will go out to some 95,000 employees of Westinghouse Electric Corp. this month as part of a three-year employee progress and security program started in 1960.

R. D. Blasler, vice president in charge of industrial relations, announced the increases Thursday and said they will take effect at most locations on April 16.

The raises run from four to 10 cents for hourly-paid employees; from \$1.60 to \$3.75 for weekly-salaried employees; and from \$6.93 to \$16.25 for those on monthly salaries.

Monthly pension benefit increases became effective April 2.

Pacific as test sectors. A task force of 11,800 scientists, technicians and military men is getting set to monitor the blasts for heat, blast, radiation and other effects.

Despite diplomatic considerations, Kennedy was impelled by military necessity to order preparations for the first U.S. tests in the atmosphere in almost four years.

American military men long have contended this country's lead in nuclear weaponry was in danger of being dissipated unless the United States ran new tests to prove out work done in atomic laboratories.

Pentagon atomic experts say the information gained in the 1958 tests has been extrapolated and analyzed to its limits.

Whatever reservations he may have had, Kennedy obviously was won over to the military view when Atomic Energy Commission and defense scientists assessed the results of more than 40 Soviet blasts last fall.

# ASKS DELAY IN THREE SUITS ON NEW DISTRICTS

HARRISBURG (AP) — Atty. Gen. David Stahl has asked Commonwealth Court to delay action on three reapportionment suits until the 1963 legislature has had a chance to redistrict.

Any judicial action at this time would "seriously disrupt" the election machinery already in motion for the May 15 primary, Stahl argued in a brief presented to the court Thursday.

"It would be fully in accord with the deliberative approach of the courts to give the General Assembly an opportunity to carry out the requirements of the Pennsylvania Constitution with respect to reapportionment," he added.

The 1962 legislature was unable to settle the problem, being limited by law to fiscal matters only.

The suits, all filed within the last two weeks, stem from a recent U.S. Supreme Court ruling allowing federal courts to hear reapportionment problems.

## NEW VACANCIES

Stahl contended however that if the court upheld the complaints before the legislature has had a chance to act, it would constitute "judicial destruction of a coordinate branch of the state government."

"Automatic vacancies would occur in the entire membership of the General Assembly with the total disruption and breakdown of the legislative processes within the Commonwealth," he declared.

The suits in question were filed by the Philadelphia Committee of 70, a citizens' watchdog group; and two Montgomery County Democrats seeking office in the primary election.

The Committee of 70 is seeking a permanent injunction to block the election of Philadelphia's

# Explosion Wrecks Pittsburgh Plant

MARS, Pa. (AP)—An explosion touched off a fire which fatally injured one man and wrecked the Pittsburgh Metals Purifying Co. and Treedale Laboratories near here early today. Another man was reported missing and one was injured.

Clyde Hilliard, 40, of Sarver R. 1, died in Butler County Memorial Hospital at Butler about an hour after the explosion. Joseph Baxter, 23, of Pittsburgh, was listed in fair condition.

A company spokesman identified the missing man as William Cooper of Sarver who was believed to be loading a dry chemical mixer when it exploded.

Multiple explosions followed and both the five-acre one-story block main building where the first blast occurred and a two-story brick addition containing offices were destroyed.

Firemen from eight companies were still trying to bring the blaze under control about two and a half hours after it broke out.

Between 30 and 35 workers were reported in the building at the time of the initial blast, but no other injuries were reported.

BALTIMORE, Md. (AP)—L. Manuel Hender, 77, who founded the Hender Ice Cream Co. in 1905 and directed its operations until his retirement in 1955, died Wednesday.

eight state senators, except on an at-large basis, until the city is reapportioned.

## AT LARGE ELECTION

An at large election in Philadelphia would be "in direct conflict" to the State Constitution "which requires that Pennsylvania be divided geographically into senatorial districts, each of which shall elect one senator," Stahl argued in rebuttal.

Lee F. Driscoll Jr. of Lower Gwynedd Twp., Democratic candidate for Congress, also filed a suit, attacking the constitutionality of House and Senate districting in Montgomery County.

The third suit was filed by Marshall J. Seidman of Oreland, who is seeking the Democratic nomination for assemblyman from Montgomery County's Third District. He has disputed the county's house districting.

Stahl rejected these petitions with the same arguments he used against the committee of 70.

# Cranemen Strike Ended Thursday

PITTSBURGH (AP)—A strike of about 300 cranemen at the nearby Brackenridge Works of Allegheny Ludlum Steel Corp. ended Thursday night.

The crane operators, members of the United Steelworkers, voted at a three-hour meeting to end their eight-day work stoppage that had idled some 3,000 production and maintenance workers.

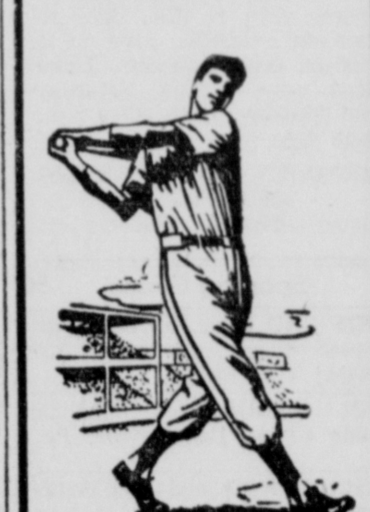

The company said workers should not report for duty until summoned.

The cranemen, according to the company, walked out in protest against the firm's plans for automation of certain cranes.

A company spokesman said Allegheny Ludlum will discuss the cranemen's grievance with union officials after the crane operators are back on the job.

The company's West Leechburg plant was partly shut down Thursday because of what a spokesman said was a lack of materials from the idled Brackenridge Works.

# STATE AFL-CIO CHOOSSES ITS 1962 OFFICERS

PITTSBURGH (AP) — Michael Johnson of Bryn Mawr was the first executive vice president of the Pennsylvania AFL-CIO. The post carries with it the directorship of the Committee on Political Education (COPE).

A spokesman at the state-wide convention said Johnson defeated Leonard Mahoney of Philadelphia Thursday night for the \$16,000-a-year position by a margin of almost two to one.

Earlier in the day Harry Boyer of Reading was elected president of the state organization.

Other highlights of the day were the adoption of a score of resolutions, and a speech by the Democratic organization gubernatorial candidate, Richardson Dilworth, sharply attacking the price rise in steel.

## "DOUBLECROSS"

"There has never been a doublecross like it in this century," Dilworth charged.

Dilworth said the U. S. Steel Corp.'s surprise announcement of a \$6-a-ton price increase caught the other steel companies "with their pants down."

Senator Joseph S. Clark, D-Pa., running for re-election, told the convention: "These steel prices must be rolled back. The next time you buy a car or a refrigerator it is going to cost you more because of the arrogant contempt of these steel executives for the American people in launching a new wave of inflation."

He accused the leaders of the steel industry of giving practically no support to President Kennedy. In contrast, Clark praised labor for its support of the President's legislative program.

## ADOPTED RESOLUTIONS

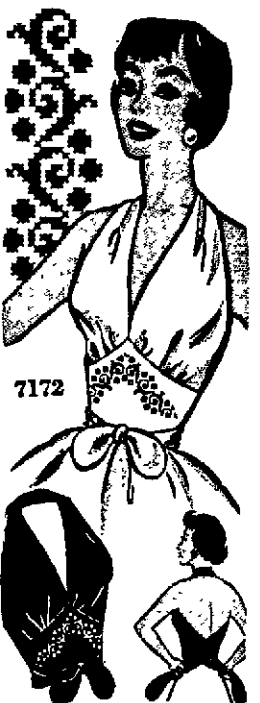

Several of the resolutions adopted by the convention were addressed to President Kennedy or to government agencies.

One requested the President to deny federal funds for housing which is not available to all, regardless of race, creed or national origin.

Another resolution urged the establishment of a cabinet-level Department of Urban Affairs and Housing—a Kennedy proposal.

Other resolutions urged the establishment of a state-wide AFL-CIO Civil Rights Committee; support of boycotts of anti-union goods and services, where sanctioned by the trade movement; employment of the handicapped, when qualified, and payment of

# U.S. Is Ready For Hundreds Of Mammoth Tests In Air

WASHINGTON (AP)—Preparations are virtually complete for a new series of U.S. nuclear weapons tests in the atmosphere which top military men feel are vital to prevent the Soviets from leap-frogging to the front in the atomic arms race.

President Kennedy has not yet given the final go-ahead signal, but it appears a foregone conclusion that he will do so soon. The Soviets have shown no sign they are willing to agree to a test ban which could be considered fool-proof.

Indications are that a series of perhaps three dozen shots, some probably hundreds of miles aloft, will begin late this month and continue for perhaps two months.

## 2 AREAS READY

The United States has staked out two big areas around Johnston and Christmas islands in the Pacific as test sectors. A task force of 11,800 scientists, technicians and military men is getting set to monitor the blasts for heat, blast, radiation and other effects.

Despite diplomatic considerations, Kennedy was impelled by military necessity to order preparations for the first U.S. tests in the atmosphere in almost four years.

American military men long have contended this country's lead in nuclear weaponry was in danger of being dissipated unless the United States ran new tests to prove out work done in atomic laboratories.

Pentagon atomic experts say the information gained in the 1958 tests has been extrapolated and analyzed to its limits.

Whatever reservations he may have had, Kennedy obviously was won over to the military view when Atomic Energy Commission and defense scientists assessed the results of more than 40 Soviet blasts last fall.

# ARE SCHEDULED WIDE VARIETY OF TV SHOWS

By CYNTHIA LOWRY  
NEW YORK (AP) — Network television is loaded during the next few days with programs ranging from religious specials to musical variety welcoming the springtime.

Tackling the schedules chronologically, highlights are as follows:

Leonard Bernstein and the New York Philharmonic will wind up the season of young people's concerts tonight (CBS, 7:30-8:30 EST). Telephone Hour (NBC, 9:30-10:30) is "Springtime in the Park," with songs, music and dancing by Lanny Ross, Jose Iturbi and Gene Nelson.

## PASSOVER SHOWS

Both CBS and NBC will have special passover programs on Sunday — the former at 10 a.m., and the latter at 1 p.m.

"Give us Barabbas," an Eastern drama, first shown last season, will be repeated by NBC Sunday evening (6-7), and at 8:30 p.m. the network will show its new Project 20 "He is Risen," a documentary-type program on the last days of Jesus. NBC's Show of the Week (10-11) is an original comedy, "The Action in New Orleans" starring Bob Cummings and Audrey Meadows.

CBS' Walter Cronkite takes over the network's early evening news show Monday night, replacing Douglas Edwards.

## VARIETY SPECIAL

"Rainbow of Stars," based in New York's Rockefeller Center is Tuesday night's variety special (NBC, 9-10) with stars Robert Goulet, Nancy Walker, Carol Lawrence and the Radio City Rockettes and Corps de Ballet. CBS has an original Tad Mosel play, "That's Where the Town's Going" (10-11) with Kim Stanley and Jason Robards Jr. "Close-up," the ABC news show will have novelist John Masters looking back on British imperialism in India (ABC 10:30-11).

Perry Como's Wednesday night Easter show (NBC, 9-10) stars Burr Tillstrom, Kukla and Ollie and singer Jane Morgan.

NBC has another special for women, "The Problem Child," Thursday afternoon (3-4). And "CBS Reports" (10-11) concludes the two-part series on "The Taxed American."

## Westinghouse Gives More Benefits

PITTSBURGH (AP)—Raises and increased pension benefits worth about \$20 million annually will go out to some 95,000 employees of Westinghouse Electric Corp. this month as part of a three-year employe progress and security program started in 1960.

R. D. Blasier, vice president in charge of industrial relations, announced the increases Thursday and said they will take effect at most locations on April 16.

The raises run from four to 10 cents for hourly-paid employes; from \$1.60 to \$3.75 for weekly-salaried employes; and from \$6.93 to \$16.25 for those on monthly salaries.

Monthly pension benefit increases became effective April 2.

## Cranemen Strike Ended Thursday

PITTSBURGH (AP)—A strike of about 300 crane men at the nearby Brackenridge Works of Allegheny Ludlum Steel Corp. ended Thursday night.

The crane operators, members of the United Steelworkers, voted at a three-hour meeting to end their eight-day work stoppage that had idled some 3,000 production and maintenance workers.

The company said workers should not report for duty until summoned.

The crane men, according to the company, walked out in protest against the firm's plans for automation of certain cranes.

A company spokesman said Allegheny Ludlum will discuss the crane men's grievance with union officials after the crane operators are back on the job.

The company's West Leechburg plant was partly shut down Thursday because of what a spokesman said was a lack of materials from the idled Brackenridge Works.

# ASKS DELAY IN THREE SUITS ON NEW DISTRICTS

HARRISBURG (AP) — Atty. Gen. David Stahl has asked Commonwealth Court to delay action on three reapportionment suits until the 1963 legislature has had a chance to redistrict.

Any judicial action at this time would "seriously disrupt" the election machinery already in motion for the May 15 primary, Stahl argued in a brief presented to the court Thursday.

"It would be fully in accord with the deliberative approach of the courts to give the General Assembly an opportunity to carry out the requirements of the Pennsylvania Constitution with respect to reapportionment," he added.

The 1962 legislature was unable to settle the problem, being limited by law to fiscal matters only.

The suits, all filed within the last two weeks, stem from a recent U.S. Supreme Court ruling allowing federal courts to hear reapportionment problems.

## NEW VACANCIES

Stahl contended however that if the court upheld the complaints before the legislature has had a chance to act, it would constitute "judicial destruction of a coordinate branch of the state government."

"Automatic vacancies would occur in the entire membership of the General Assembly with the total disruption and breakdown of the legislative processes within the Commonwealth," he declared.

The suits in question were filed by the Philadelphia Committee of 70, a citizens' watchdog group; and two Montgomery County Democrats seeking office in the primary election.

The Committee of 70 is seeking a permanent injunction to block the election of Philadelphia's

# Explosion Wrecks Pittsburgh Plant

MARS, Pa. (AP)—An explosion touched off a fire which fatally injured one man and wrecked the Pittsburgh Metals Purifying Co. and Treedale Laboratories near here early today. Another man was reported missing and one was injured.

Clyde Hillard, 40, of Sarver R. 1, died in Butler County Memorial Hospital at Butler about an hour after the explosion. Joseph Baxter, 23, of Pittsburgh, was listed in fair condition.

A company spokesman identified the missing man as William Cooper of Sarver who was believed to be loading a dry chemical mixer when it exploded.

Multiple explosions followed and both the five-acre one-story block main building where the first blast occurred and a two-story brick addition containing offices were destroyed.

Firemen from eight companies were still trying to bring the blaze under control about two and a half hours after it broke out.

Between 30 and 35 workers were reported in the building at the time of the initial blast, but no other injuries were reported.

BALTIMORE, Md. (AP) — L. Manuel Hender, 77, who founded the Hender Ice Cream Co. in 1905 and directed its operations until his retirement in 1955, died Wednesday.

eight state senators, except on an at-large basis, until the city is reapportioned.

## AT LARGE ELECTION

An at large election in Philadelphia would be "in direct conflict" to the State Constitution "which requires that Pennsylvania be divided geographically into senatorial districts, each of which shall elect one senator," Stahl argued in rebuttal.

Lee F. Driscoll Jr. of Lower Gwynedd Twp., Democratic candidate for Congress, also filed a suit, attacking the constitutionality of House and Senate districting in Montgomery County.

The third suit was filed by Marshall J. Seidman of Oreland, who as seeking the Democratic nomination for assemblyman from Montgomery County's Third District. He has disputed the county's house districting.

Stahl rejected these petitions with the same arguments he used against the committee of 70.

## Gas May Be Sole Source Of Power In All Homes

Before long, natural gas may be the sole source of power in your home!

Just how soon this may come about depends on how quickly scientists put the finishing touches on a new breed of natural gas fueled generators that convert heat or chemical energy into electricity.

Only one of these exotic packages has emerged from research laboratories. Nevertheless, it has dozens of potential applications.

Attached to a new central gas furnace, the unit generates electricity to power the blower. Simply stated, heat flowing over a device called "a thermo-couple" produces electrical current. Speed of the blower is automatically controlled by the amount of heat produced. This action eliminates strong drafts at the stop and start of each cycle.

### OPERATES ALONE

Of greater importance, the furnace operates independent of outside sources of electrical energy. And, as a byproduct of furnace heat, the electricity is free.

Such a unit could be installed on any appliance which produces heat.

One of the most promising devices under development is the "fuel cell."

As fuel and oxygen are fed into what looks like an ordinary car battery, a chemical action takes place similar to that which occurs in an ordinary storage battery and the cell produces a steady stream of electricity. However, unlike a storage battery, there is no wearing away of the battery plates and the life of the cell is virtually unlimited.

In laboratory experiments, several cells have been joined together in a series-like connecting three or four batteries. The result: Increased electrical output by consolidating the flow of individual cells into one stream of current. Thus, any desired output can be achieved by linking cells in combined series.

Looking into the future, some scientists foresee the day when "fuel cell generators" may evolve into compact home units. They could be attached to the gas supply line, absorb oxygen from the air, and produce ample supplies of electricity for the entire household.

### FUTURE POSSIBILITY

A third generating device un-

dergoing development has the jaw-breaking name "magnetohydrodynamic" converter. This unit employs a high temperature gas stream moving as a conductor between powerful magnetic poles. The MHD converter, as it is called, is a future possibility for central generating plants or industrial sites where enormous quantities of electricity are consumed.

Initial costs of these new power sources are at present forbidding. But, ultimately, additional technical advances could reduce costs and boost efficiency.

Continuing research is assured by three major attractions: Potentially higher efficiency in conversion of fuels to electrical energy, lower costs and simplified "generating equipment."

Conventional methods of converting fuel to electrical energy have peak efficiencies of about 40 per cent — which are rarely, if ever, attained.

### REJECTED HEAT

The new power sources have potential efficiencies of 60 to 80 per cent or utilize rejected heat to generate electricity. In other words they produce more electricity, using less fuel, or no fuel thereby extending our natural resources.

Costs of transporting and distributing energy in the form of natural gas are far below that of electricity. Thus, the all-gas home would pay less for power provided by a home generator.

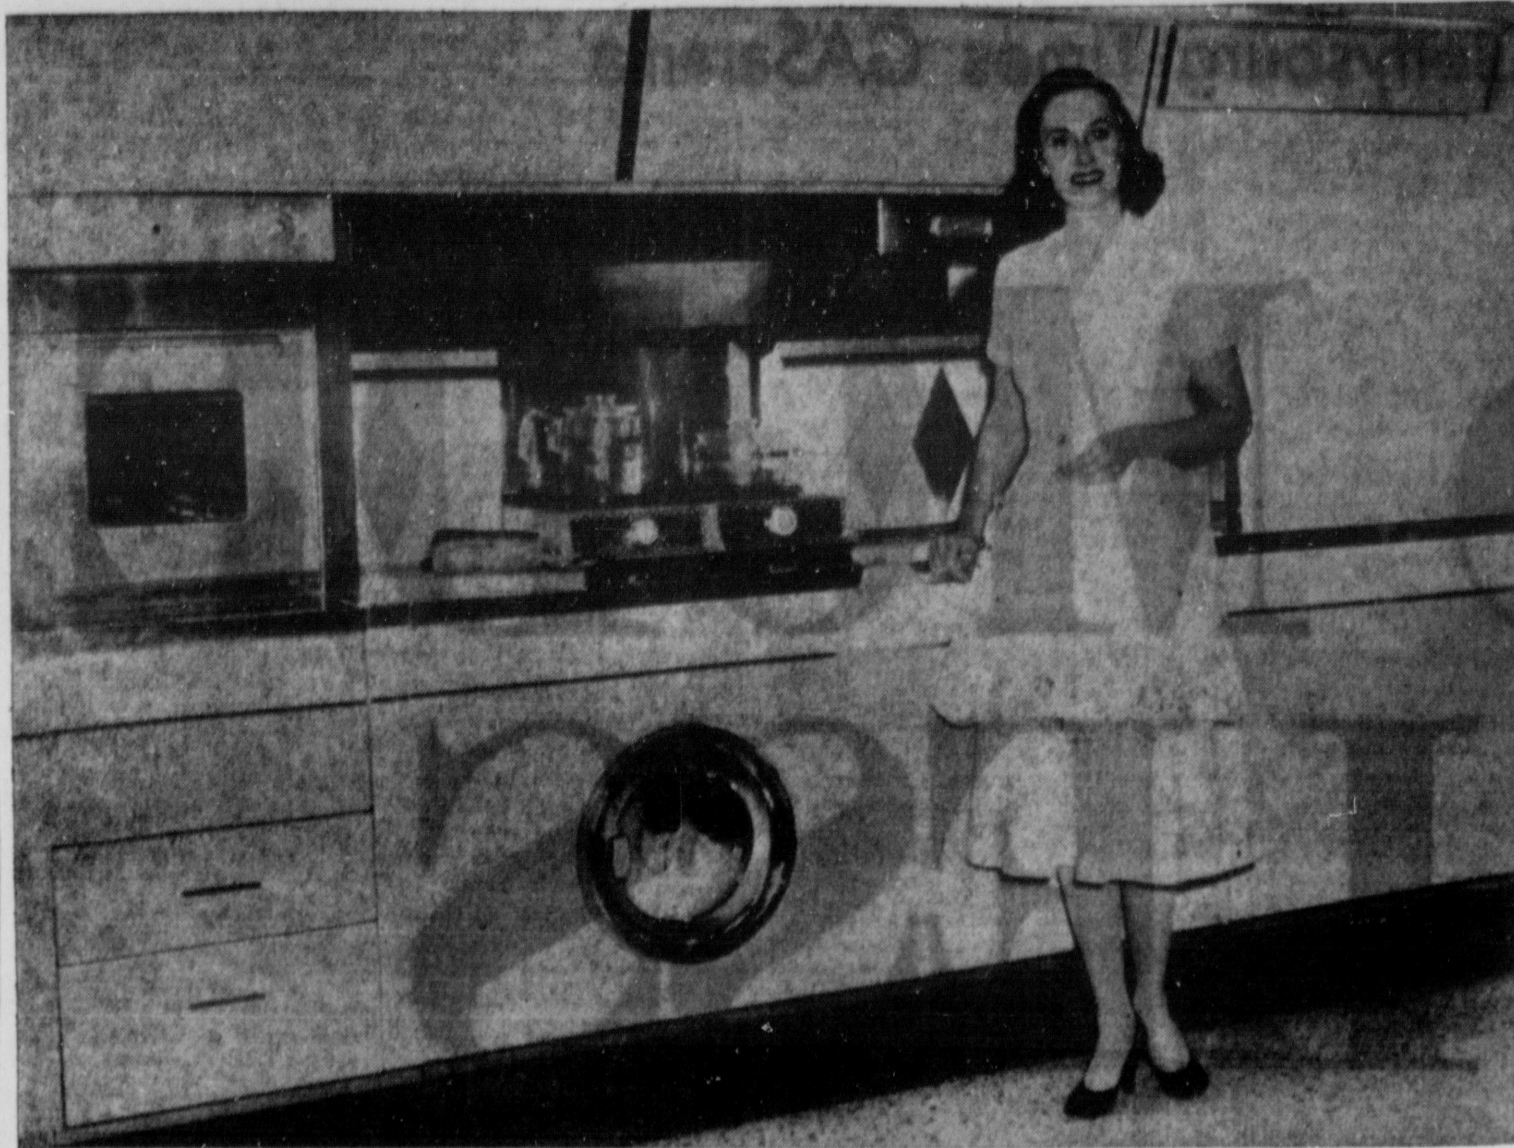

Finally, since the devices have no moving parts, maintenance or replacement will be virtually eliminated. As long as fuel or heat is supplied, they will silently produce electricity year after year.

### PERFECTING PACKAGES

Scientists and laboratories are still perfecting these power packages. Research is being conducted at an ever accelerating pace by private companies, gas utilities and even the electric industry.

When they succeed in reducing original costs and improving output, tomorrow's all-gas home will receive electricity from a fuel cell tucked in the basement. Gas appliances will be powered by "thermocouples" and industries will have their own MHW converters.

As they become popular

Gas industry's newly developed multimatic wall

## MODERN GAS FURNACES FIT "ANYWHERE"

A furnace used to take up half the cellar. But the modern gas heating plant fits in as little as 2 1/4 square feet of floor space — and doesn't even have to be in the basement.

Space-saving is one of the most important elements of furnace design today, the American Gas Association points out. An up-to-date gas furnace capable of heating the average size home, takes up no more space than a water heater. This has the advantage, A. G. A. says, of giving architects, builders and homeowners complete flexibility in designing new homes and modernizing older ones. Compact styling of modern gas heating equipment has been a major contributor in the development of both basement recreation rooms and homes without basements.

### COOL TO TOUCH

"Zero-clearance" gas furnaces can be installed so that sides and back touch walls. Insulation keeps the cabinets cool to the touch. Choice of location is almost unlimited. They can be installed in a vertical position on the floor or in a horizontal position suspended from the ceiling. It is not at all unusual to find new gas furnaces installed in a first floor closet, utility room, alcove, hallway, or in a corner of the basement. If the house lacks a basement, the furnace can also be installed in the attic, crawl space beneath the house or in an attached garage. Fully automatic gas heating systems also eliminate the need

sources of power, America will enjoy better living through the services of versatile natural gas.

## GAS FURNACES SPACE SAVERS

Many a space-hungry family is living on top of a gold mine of wasted space, according to the American Gas Association.

This is the space currently taken up by the old gravity-type furnace so common in older type homes.

To prove what a gold mine the

## MULTIMATIC WALL HAILED BY GAS USERS

Development of the new Gas Multimatic Wall has been hailed as "a dramatic breakthrough in the home appliance field" by C. S. Stackpole, managing director of the American Gas Association.

Describing the Multimatic Wall developed under A. G. A.'s PAR Research program, Stackpole said, "Here, in one compact package, we offer the American homeowner five major household uses of gas, a striking new concept of the 'all-gas' home."

"The Gas Multimatic Wall provides further evidence of the forward look of the gas appliance industry and comes as the latest in a series of impressive developments in recent months."

### SMOKELESS, ODORLESS

"We have seen, within the past year, the introduction of the smokeless, odorless gas incinerator, important progress in central gas air conditioning equipment, and the entry of one of the nation's giant manufacturers into the gas refrigeration field. Meanwhile, countless significant advances have been made on other gas appliances, their components and accessories."

"These major steps forward in the gas appliance industry have

## strengthened even further the position of gas in the highly competitive residential, commercial and industrial fields," he declared.

"We are confident that the future will bring ever-greater achievements for all segments of the fast-growing gas industry."

The new gas furnace can be installed neatly in a corner of the basement or concealed behind sliding doors. This frees the area for many decorating possibilities. A partition can be built to separate the family recreation-entertainment area from the furnace and

### FITS IN CORNER

baseboard is, the gas people estimate that at current building prices, a space 22 by 24 feet is worth several thousand dollars.

This valuable space can be reclaimed at moderate cost by installing a new, forced warm air gas heating system which can also double as an air conditioning system during hot summer months. The same furnace, ducts, blower, and automatic controls are used for both heating and cooling.

### LAUNDRY ROOM WITH WALLS AND CEILING

panels in any number of inexpensive but attractive wall board materials.

The furnace-free basement can be put to many good uses, such as a hobby shop, study room, rumorm room, playroom, model train room, or perhaps a family arts and crafts studio, depending on the family's interests and requirements.

All modern gas heating systems are fully automatic. The cleanliness and economy of gas makes it the ideal fuel for house heating.

## Large Air Conditioning Plant Nears Completion

One of the largest factory air conditioning systems ever designed expressly for worker comfort is nearing completion at the National Biscuit Company bakery on Chicago's south side.

This plant, which annually produces 22 million pounds of crackers and cookies, two million pounds of sugar wafers and a million pounds of pretzels, is said to be the world's largest bakery.

Two Carrier steam-operated absorption refrigerating machines, each with 1,000 tons cooling capacity, were recently placed in operation and a third unit is being installed to provide cooling for an addition to the plant at 7300 South Kedzie Avenue. The steam is generated in gas-fired boilers.

### EMPLOY 2,400

H. L. Henderson, Nabisco general manager, said that chilled water from the first two units provides cooling for half of the 918,000 square-foot main plant. In this air conditioned half of the two-and-eight-story structure are the sugar wafer, icing and packaging departments where most of the plant's 2,400 employees work. The oven and storage areas, which make up the other half of the plant, will not be cooled.

The third unit will serve part of the 550,000 square-foot three-story addition, which will be completed next year.

Henderson explained that spring, summer and fall comfort control should help maintain a good year-round standard of efficiency, improve employee morale and help

reduce absenteeism." He said the air conditioning installation will cost about \$750,000.

The cooling units are being installed by O. A. Wendt Co. The first of the three large-capacity units was the 2,000th such machine built by Carrier Air Conditioning Company. The three units are the largest absorption machines made and the only ones of this size installed in Chicago, according to the Peoples Gas Light and Coke Company.

### EXCESS CAPACITY

Absorption machines make use of excess boiler capacity in summer months. Steam not needed for processing or heating is utilized, resulting in improved boiler efficiency and lower steam costs on a year-round basis.

Nabisco has three integral-tube steam generators each with 25,000-pound capacity, to provide steam for processing and heating. The company is installing a 28,000 pounds-per-hour unit to take care of the needs of the addition to the plant. When operating at full capacity the three chillers will require about 60,000 pounds of steam per hour.

According to the Peoples Gas Company, a comparative cost analysis for the 3,000-ton installation indicated that the annual energy costs of the absorption system would be about \$49,000 compared with about \$74,000 for a comparable electric system.

A spokesman for the gas company said this year's installation of large air conditioning equipment which uses gas as a fuel has almost doubled the total cooling capacity of such equipment in the city. He noted that equipment with 19,000 tons of capacity has been installed this year, compared to the 20,000 tons of capacity already in use at the end of 1960.

Other large installations of absorption equipment include the Hotel Sherman, Wrigley Building, John Blair Office Building, University of Chicago, United Air Lines Hangar and the Essex Inn.

### ADVERTISE IN THE TIMES

## Here's why Dr. M. V. Ross, NEW BRIGHTON, PA. changed to GAS Heat!

Dr. Ross has resided in the Beaver Valley area since 1941. What does Dr. Ross think of Gas and electric heat? How does he compare them? Here are his answers to several important questions:

**Question:** Your total electric cost from December, 1960, through November, 1961, was \$306.95 according to your electric bills. Do you feel this to be reasonable?

**Answer:** "No, I don't, since only 864 square feet of area is heated. In one month alone, I received a bill of \$60.99. Being a commercial customer caused me to pay more than a residential customer, but even if I had been listed as a residential customer, I believe my electric bills still would have been quite high."

**Question:** Did you take any special measures to cut your electric heating costs, Doctor?

**Answer:** "As a matter of fact, I did. I used tape to seal off one door where air was entering in spite of weather stripping. I also sealed off my window air conditioner."

**Question:** How large is your building?

**Answer:** "It's a one-floor building, 24' x 36', consisting of four rooms, a bath and a utility room."

**Question:** Does the building meet electric heat requirements, Doctor?

**Answer:** "Yes. It's fully insulated and has storm doors and windows throughout."

**Question:** Do you have other electrical appliances?

**Answer:** "I have several small pieces of equipment, but they are not regularly used. I also have a window

air conditioner in one room. And, I had an electric water heater which I never used because of the apparent high cost of operation. I plan to install a Gas water heater."

**Question:** In summing up, would you recommend electric heat to anyone?

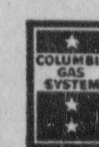

**Answer:** "Frankly, no. After my experiences, I could not honestly recommend it to anyone."

**Question:** Even though you've had Gas heat just a short time, are you satisfied with its operation and cost?

**Answer:** "Very much so. In fact, my Gas heating bill for the first 20 days ending February 6, 1962, was only \$7.15."

IF YOU ARE BUILDING, BUYING OR REMODELING, GO GAS FOR COMFORT, CONVENIENCE AND CLEANLINESS ALL AT THE LOWEST POSSIBLE COST!

## Hot Weather Living Easier With New Gas Refrigerator

Summertime — when the living should be easy — is a good time to decide whether your appliances are a help or a hindrance.

Refrigerators, for example, can make summer living truly pleasant and leisurely. Helpful ones never need defrosting, manufacture abundant supplies of ice cubes, and keep every type of food fresh and flavorful until ready to use. Those that fail in these important areas are a definite hindrance because they require constant tending and checking.

If your present refrigerator is a hindrance rather than a help, now is the time to plan its replacement. In analyzing your refrigerator, consider these five points offered by the American Gas Association:

### NEED FOOD SPACE

Capacity: Does it fulfill the present demands of your household? If your family has grown, you certainly need extra food storage space. Don't dismiss the idea of buying a larger capacity refrigerator if your kitchen is already cramped. One manufacturer of gas refrigerators has announced that his new 13 cubic foot model has smaller outside dimensions than the 11 cubic foot refrigerator he made last year.

Versatility: Can your refrigerator do the different jobs assigned to it? Frozen foods are a bigger factor than ever in the average daily diet. Is the freezer compartment big enough to hold all you need? Do you run out of ice

cubes when company comes? How would you rate your refrigerator on meat keeping, vegetable storage and maintaining milk and desserts at ideal temperatures?

The results of a long-range program of research and testing are now evident in the completely redesigned gas refrigerators. One of the improvements is based on a study of the temperature and humidity levels required to preserve different foods. New models are engineered so that each shelf and compartment is ideally suited for the storage of special types of food.

### ENOUGH ICE CUBES

Efficiency: Does the equipment function with a minimum of "off" time or are a lot of hours wasted on regulating and tending? Do you still have to defrost your refrigerator? Do you still have to refill ice cube trays and then do a circus tight rope act from sink to refrigerator so you don't leave a trail of water across the floor?

New gas refrigerators are engineered to eliminate these disadvantages. Some models feature an automatic ice maker that produces a constant supply of cubes without water trays.

Economy: What does it cost to operate the refrigerator? Keep in mind that if it's ten or more years old it can't be as airtight as it used to be and the cooling unit undoubtedly is using extra fuel to keep your food from spoiling. Furthermore, there have been vast improvements in refrigerator insulation. Recent tests in four

Gas furnaces are very compact

## FOUR PEOPLE NEED 43,800 GALS. OF WATER

If there are four people in your home, your gas water heater has to heat about 44,000 gallons of water a year according to the Gas Appliance Manufacturers Association.

Each person uses up to 30 gallons of hot water daily. GAMA says, accounting for two-thirds of the average residential use of

different warm-climate areas showed that competitive units cost from 51 to 67 per cent more to operate than the gas models.

**DEPENDABILITY** How does the equipment stand up in an emergency? If an unexpected occurrence interrupted service, how would your perishable foods fare?

Since gas is piped underground into your home, service would be unaffected by a storm. Most refrigerators would continue operating normally, aside from losing interior illumination and your food would be kept at the desired temperatures indefinitely. Even models that use electricity for nonrefrigeration features would keep foods safely chilled for eight hours or more.

At current food and living cost levels it is more important than ever to manage the home plant economically. The five points shown here will help you anticipate how soon you will have to replace your refrigerator. If you're due for a change, perhaps you ought to act now, while your old "box" still has trade-in value.

water. Much of this need came about in recent years as families grew, homes were expanded and new appliances entered the home.

When you take a shower or give the kids their baths each of you will use from 10 to 15 gallons of hot water. The automatic dishwasher gulps 10 gallons each time it runs through a cycle. A modern clothes washer swallows 25 to 30 gallons for each load.

**"WAIT FOR WATER"** With these changes many families find that "waiting for the hot water" is an aggravating problem but it is one that can be solved with a new gas water heater of the proper size. If your water heater has been in use for sometime you will be well advised to check the efficiency and capacity of the unit. GAMA recommends:

Your local gas utility representative or plumbing and heating contractor can tell you if the water heater has enough tank capacity, works efficiently and can meet the demands placed upon it.

If a new installation is needed, a balance between the new tank capacity and the rate of recovery (replacement of hot water with drawn) should be established. If there are no peak hours of hot water use, a somewhat larger tank may solve the problem. When everyone uses hot water, in a brief interval faster heating with a larger burner will speed recovery and you may not require as much tank capacity.

Finally, GAMA suggests a check on fuel costs will show that in most areas gas is the most economical for heating water as well as for other household uses.

A bolt of lightning heats the channel of air through which it passes to 50,000 degrees centigrade.

## Gas Incinerators Safeguard Health

The automatic gas incinerator is rapidly becoming popular with modern homemakers. No other disposal method gets rid of garbage and waste so quickly and thoroughly.

Health experts say that the gas

## WOMEN PLAY, DRYER WORKS

The back fence small talk that used to accompany the job of hanging out the wash has moved indoors. Now, while a modern gas clothes dryer does the work, the ladies can enjoy a coffee klatch in comfort.

Designed to make the housewife's work load as light as possible, the new gas clothes dryers offer a wide variety of controls and special features.

A feature that attracts attention to one gas clothes dryer is a four-way control. The machine can be set to tumble-dry with selected heat and air tumble-dry with air (no heat) dry at a selected heat (no tumbling), or dry with air only (no heat or tumbling).

Another model has a removable door that can be adjusted to any one of three work positions. A chute position for loading clothes into the dryer, a clothes basket position so that the basket can be held against the dryer for clothes removal and a soiling and sacking shelf position.

Other accessories offered on certain models are an air filter to clean incoming air before it comes in contact with the clothes and a sprinkler to prepare clothes for ironing. In the interest of safety, one manufacturer offers a full-width safety door. It opens to 180 degrees and if opened during the machine's drying cycle, the gas is automatically shut off and the drum stops rotating.

Caring for "wash n' wear"

incinerator is one of the most effective safeguards against disease since garbage is a breeding ground for bacteria and flies.

There is nothing to watch or worry about with a modern automatic gas incinerator. You simply put in your garbage and walk away. Gas dries out wet garbage, reducing the load, then consumes every scrap.

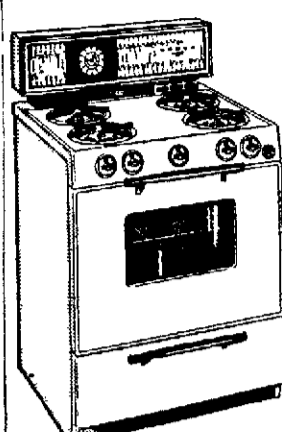

It turns bushels of refuse into a mere handful of white ashes which need emptying only occasionally. The ashes incidentally, make wonderful fertilizer for your garden or flower bed.

clothes is simplified with a gas dryer that puts clothes through a 10 minute tumbling period in room temperature air to prevent wrinkling. This unit can also be set at six different temperatures.

Hot, wash 'n' wear, medium, delicate, low and air, or in between the fixed settings.

## Hot Weather Living Easier With New Gas Refrigerator

Summertime — when the livin' should be easy — is a good time to decide whether your appliances are a help or a hindrance.

Refrigerators, for example, can make summer living truly pleasant and leisurely. Helpful ones never need defrosting, manufacture abundant supplies of ice cubes, and keep every type of food fresh and flavorful until ready to use. Those that fail in these important areas are a definite hindrance because they require constant tending and checking.

If your present refrigerator is a hindrance rather than a help, now is the time to plan its replacement. In analyzing your refrigerator, consider these five points offered by the American Gas Association:

### NEED FOOD SPACE

Capability: Does it fulfill the present demands of your household? If your family has grown you certainly need extra food storage space. Don't dismiss the idea of buying a larger capacity refrigerator if your kitchen is already cramped. One manufacturer of gas refrigerators has announced that his new 13-cubic-foot model has smaller outside dimensions than the 11-cubic-foot refrigerator he made last year.

Versatility: Can your refrigerator do the different jobs assigned to it? Frozen foods are a bigger factor than ever in the average daily diet. Is the freezer compartment big enough to hold all you need? Do you run out of ice

cubes when company comes? How would you rate your refrigerator on meat keeping, vegetable storage and maintaining milk and desserts at ideal temperatures?

The results of a long-range program of research and testing are now evident in the completely redesigned gas refrigerators. One of the improvements is based on a study of the temperature and humidity levels required to preserve different foods. New models are engineered so that each shelf and compartment is ideally suited for the storage of special types of food.

### ENOUGH ICE CUBES

Efficiency: Does the equipment function with a minimum of "off" time, or are a lot of hours wasted on regulating and tending? Do you still have to defrost your refrigerator? Do you still have to refill ice-cube trays and then do a circus tight rope act from sink to refrigerator so you don't leave a trail of water across the floor?

New gas refrigerators are engineered to eliminate these disadvantages. Some models feature an automatic ice maker that produces a constant supply of cubes without water trays.

Economy: What does it cost to operate the refrigerator? Keep in mind that if it's ten or more years old it can't be as airtight as it used to be and the cooling unit undoubtedly is using extra fuel to keep your food from spoiling. Furthermore, there have been vast improvements in refrigerator insulation. Recent tests in four

Gas furnaces are very compact

## FOUR PEOPLE NEED 43,800 GALS. OF WATER

If there are four people in your home, your gas water heater has to heat about 44,000 gallons of water a year, according to the Gas Appliance Manufacturers Association.

Each person uses up to 30 gallons of hot water daily, GAMA says, accounting for two-thirds of the average residential use of different warm-climate areas showed that competitive units cost from 51 to 67 per cent more to operate than the gas models.

**DEPENDABILITY**  
Dependability: How does the equipment stand up in an emergency? If an unexpected occurrence interrupted service, how would your perishable foods fare?

Since gas is piped underground into your home, service would be unaffected by a storm. Most refrigerators would continue operating normally, aside from losing interior illumination, and your food would be kept at the desired temperatures indefinitely. Even models that use electricity for nonrefrigeration features would keep foods safely chilled for eight hours or more.

At current food and living cost levels it is more important than ever to manage the home "plant" economically. The five points shown here will help you anticipate how soon you will have to replace your refrigerator. If you're due for a change, perhaps you ought to act now, while your old "box" still has trade-in value.

water. Much of this need came about in recent years as families grew, homes were expanded and new appliances entered the home.

When you take a shower or give the kids their baths, each of you will use from 10 to 15 gallons of hot water. The automatic dishwasher gulps 10 gallons each time it runs through a cycle. A modern clothes washer swallows 25 to 30 gallons for each load.

### "WAIT FOR WATER"

With these changes many families find that "waiting for the hot water" is an aggravating problem, but it is one that can be solved with a new gas water heater of the proper size. If your water heater has been in use for sometime you will be well advised to check the efficiency and capacity of the unit, GAMA recommends.

Your local gas utility representative or plumbing and heating contractor can tell you if the water heater has enough tank capacity, works efficiently and can meet the demands placed upon it.

If a new installation is needed, a balance between the new tank capacity and the rate of recovery (replacement of hot water withdrawn) should be established. If there are no peak hours of hot water use, a somewhat larger tank may solve the problem. When everyone uses hot water in a brief interval, faster heating with a larger burner will speed recovery and you may not require as much tank capacity.

Finally, GAMA suggests, a check on fuel costs will show that in most areas gas is the most economical for heating water, as well as for other household uses.

A bolt of lightning heats the channel of air through which it passes to 50,000 degrees centigrade.

## WOMEN PLAY, DRYER WORKS

The back fence small talk that used to accompany the job of hanging out the wash has moved indoors. Now, while a modern gas clothes dryer does the work, the ladies can enjoy a coffee klatch in comfort.

Designed to make the housewife's work load as light as possible, the new gas clothes dryers offer a wide variety of controls and special features.

A feature that attracts attention to one gas clothes dryer is a four-way control. The machine can be set to tumble-dry with selected heat and air, tumble-dry with air (no heat), dry at a selected heat (no tumbling), or dry with air only (no heat or tumbling).

Another model has a removable door that can be adjusted to any one of three work positions: A chute position for loading clothes into the dryer, a clothes basket position so that the basket can be held against the dryer for clothes removal and a sorting and stacking shelf position.

Other accessories offered on certain models are an air filter to clean incoming air before it comes in contact with the clothes and a sprinkler to prepare clothes for ironing. In the interest of safety, one manufacturer offers a full-width safety door. It opens to 180 degrees and if opened during the machine's drying cycle, the gas is automatically shut off and the drum stops rotating.

Caring for "wash 'n' wear"

incinerator is one of the most effective safeguards against disease, since garbage is a breeding ground for bacteria and flies.

There is nothing to watch or worry about with a modern, automatic gas incinerator. You simply put in your garbage and walk away. Gas dries out wet garbage, reducing the load, then consumes every scrap.

It turns bushels of refuse into a mere handful of white ashes, which need emptying only occasionally. The ashes, incidentally, make wonderful fertilizer for your garden or flower bed.

## Gas Incinerators Safeguard Health

The automatic gas incinerator is rapidly becoming popular with modern homemakers. No other disposal method gets rid of garbage and waste so quickly and thoroughly.

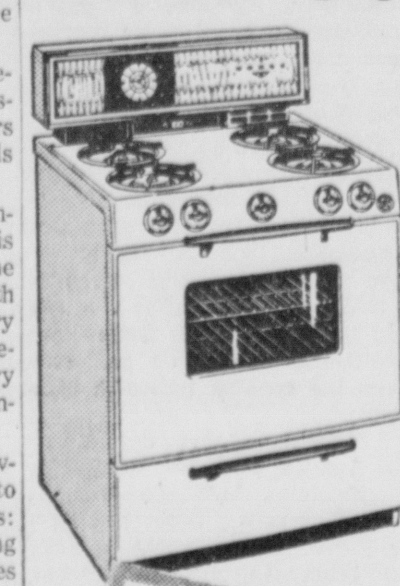

Health experts say that the gas

clothes is simplified with a gas dryer that puts clothes through a 10-minute tumbling period in room temperature air to prevent wrinkling. This unit can also be set at six different temperatures:

Hot, wash 'n' wear, medium, delicate, low and air, or in between the fixed settings.

## Gas May Be Sole Source Of Power In All Homes

Before long, natural gas may be the sole source of power in your home!

Just how soon this may come about depends on how quickly scientists put the finishing touches on a new breed of natural gas fueled generators that convert heat or chemical energy into electricity.

Only one of these exotic packages has emerged from research laboratories. Nevertheless, it has dozens of potential applications.

Attached to a new central gas furnace, the unit generates electricity to power the blower. Simply stated, heat flowing over a device called "a thermocouple" produces electrical current. Speed of the blower is automatically controlled by the amount of heat produced. This action eliminates strong drafts at the stop and start of each cycle.

### OPERATES ALONE

Of greater importance, the furnace operates independent of outside sources of electrical energy. And, as a byproduct of furnace heat, the electricity is free.

Such a unit could be installed on any appliance which produces heat.

One of the most promising devices under development is the "fuel cell."

As fuel and oxygen are fed into what looks like an ordinary car battery, a chemical action takes place similar to that which occurs in an ordinary storage battery and the cell produces a steady stream of electricity. However, unlike a storage battery, there is no wearing away of the battery plates and the life of the cell is virtually unlimited.

In laboratory experiments, several cells have been joined together in a series-like connecting three or four batteries. The result: Increased electrical output by consolidating the flow of individual cells into one stream of current. Thus, any desired output can be achieved by linking cells in combined series.

Looking into the future, some scientists foresee the day when "fuel cell generators" may evolve into compact home units. They could be attached to the gas supply line, absorb oxygen from the air, and produce ample supplies of electricity for the entire household.

### FUTURE POSSIBILITY

A third generating device un-

dergoing development has the jaw-breaking name "magnetohydrodynamic" converter. This unit employs a high temperature gas stream moving as a conductor between powerful magnetic poles. The MHD converter, as it is called, is a future possibility for central generating plants or industrial sites where enormous quantities of electricity are consumed.

Initial costs of these new power sources are at present forbidding. But, ultimately, additional technical advances could reduce costs and boost efficiency.

Continuing research is assured by three major attractions: Potentially higher efficiency in conversion of fuels to electrical energy, lower costs and simplified generating equipment.

Conventional methods of converting fuel to electrical energy have peak efficiencies of about 40 per cent — which are rarely, if ever, attained.

### REJECTED HEAT

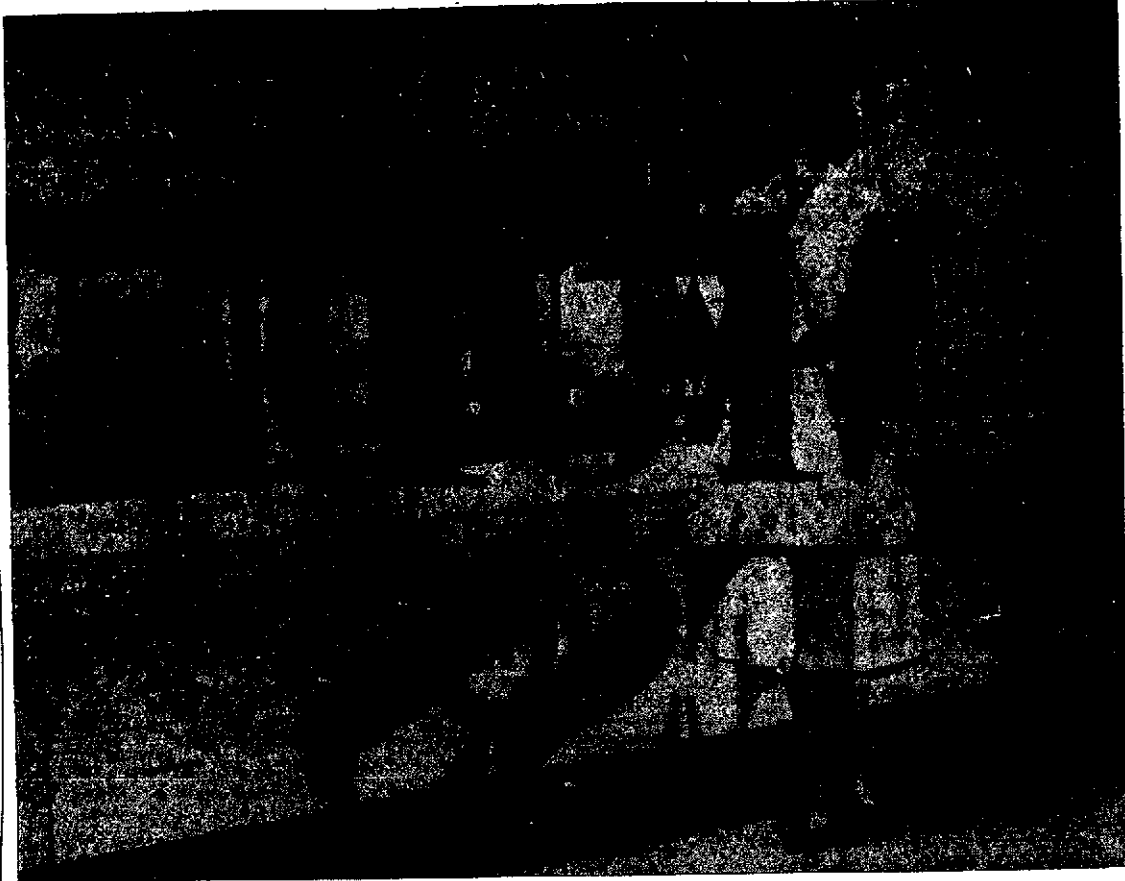

The new power sources have potential efficiencies of 60 to 80 per cent or utilize rejected heat to generate electricity. In other words they produce more electricity, using less fuel, or no fuel thereby extending our natural resources.

Costs of transporting and distributing energy in the form of natural gas are far below that of electricity. Thus, the all-gas home would pay less for power provided by a home generator. Finally, since the devices have no moving parts, maintenance or replacement will be virtually eliminated. As long as fuel or heat is supplied, they will silently produce electricity year after year.

**PERFECTING PACKAGES** Scientists and laboratories are still perfecting these power packages. Research is being conducted at an ever accelerating pace by private companies, gas utilities and even the electric industry.

When they succeed in reducing original costs and improving output, tomorrow's all-gas home will receive electricity from a fuel cell tucked in the basement. Gas appliances will be powered by "thermocouples" and industries will have their own MHD converters.

As they become popular

Gas industry's newly developed multimatic wall

## MODERN GAS FURNACES FIT "ANYWHERE"

A furnace used to take up half the cellar. But the modern gas heating plant fits in as little as 2 1/2 square feet of floor space — and doesn't even have to be in the basement.

Space-saving is one of the most important elements of furnace design today, the American Gas Association points out. An up-to-date gas furnace capable of heating the average size home, takes up no more space than a water heater. This has the advantage, A. G. A. says, of giving architects, builders and homeowners complete flexibility in designing new homes and modernizing older ones. Compact styling of modern gas heating equipment has been a major contributor in the development of both basement recreation rooms and homes without basements.

### COOL TO TOUCH

"Zero-clearance" gas furnaces can be installed so that sides and back touch walls. Insulation keeps the cabinets cool to the touch. Choice of location is almost unlimited. They can be installed in a vertical position on the floor or in a horizontal position suspended from the ceiling. It is not at all unusual to find new gas furnaces installed in a first floor closet, utility room, alcove, hallway, or in a corner of the basement. If the house lacks a basement, the furnace can also be installed in the attic, crawl space beneath the house or in an attached garage.

Fully automatic gas heating systems also eliminate the need

for storage facilities since gas is delivered directly to the furnace by underground pipes. Other advantages are cleanliness, economy and dependability.

For expert guidance on all phases of house heating, the American Gas Association suggests that homeowners contact their local gas company and look for the Blue Star Seal of Approval on heating equipment.

## MULTIMATIC WALL HAILED BY GAS USERS

Development of the new Gas Multimatic Wall has been hailed as "a dramatic breakthrough in the home appliance field" by C. S. Stackpole, managing director of the American Gas Association.

Describing the Multimatic Wall developed under A. G. A.'s PAR Research program, Stackpole said, "Here, in one compact package, we offer the American homeowner five major household uses of gas, a striking new concept of the 'all-gas' home."

"The Gas Multimatic Wall provides further evidence of the forward look of the gas appliance industry and comes as the latest in a series of impressive developments in recent months."

### SMOKELESS, ODORLESS

"We have seen, within the past year, the introduction of the smokeless, odorless gas incinerator, important progress in central gas air conditioning equipment, and the entry of one of the nation's giant manufacturers into the gas refrigeration field. Meanwhile, countless significant advances have been made on other gas appliances, their components and accessories."

"These major steps forward in the gas appliance industry have

## GAS FURNACES SPACE SAVERS

Many a space-hungry family is living on top of a gold mine of wasted space, according to the American Gas Association.

This is the space currently taken up by the old gravity-type furnace so common in older type homes. To prove what a gold mine the

basement is, the gas people estimate that at current building prices, a space 22 by 24 feet is worth several thousand dollars.

This valuable space can be reclaimed at moderate cost by installing a new, forced warm air gas heating system which can also double as an air conditioning system during hot summer months. The same furnace, ducts, blower, and automatic controls are used for both heating and cooling.

### FITS IN CORNER

The new gas furnace can be installed neatly in a corner of the basement or concealed behind sliding doors. This frees the area for many decorating possibilities. A partition can be built to separate the family recreation-enter-training area from the furnace and

strengthened even further the position of gas in the highly competitive residential, commercial and industrial fields," he declared. "We are confident that the future will bring ever-greater achievements for all segments of the fast-growing gas industry."

## Large Air Conditioning Plant Nears Completion

One of the largest factory air conditioning systems ever designed expressly for worker comfort is nearing completion at the National Biscuit Company bakery on Chicago's south side.

This plant, which annually produces 22 million pounds of crackers and cookies, two million pounds of sugar wafers and a million pounds of pretzels, is said to be the world's largest bakery.

Two Carrier steam-operated absorption refrigerating machines, each with 1,000 tons cooling capacity, were recently placed in operation and a third unit is being installed to provide cooling for an addition to the plant at 7330 South Kedzie Avenue. The steam is generated in gas-fired boilers.

### EMPLOY 2,400

H. L. Henderson, Nabisco general manager, said that chilled water from the first two units provides cooling for half of the 918,320 square-foot main plant. In this air conditioned half of the two-and-eight-story structure are the sugar wafer, icing and packaging departments where most of the plant's 2,400 employees work. The oven and storage areas, which make up the other half of the plant, will not be cooled.

The third unit will serve part of the 550,000 square-foot three-story addition, which will be completed next year.

Henderson explained that spring, summer and fall comfort control should help maintain a good year-round standard of efficiency, improve employee morale and help

reduce absenteeism." He said the air conditioning installation will cost about \$750,000.

The cooling units are being installed by O. A. Wendt Co. The first of the three large-capacity units was the 2,000-hp machine built by Carrier Air Conditioning Company. The three units are the largest absorption machines made and the only ones of this size installed in Chicago, according to the Peoples Gas Light and Coke Company.

### EXCESS CAPACITY

Absorption machines make use of excess boiler capacity in summer months. Steam not needed for processing or heating is utilized, resulting in improved boiler efficiency and lower steam costs on a year-round basis.

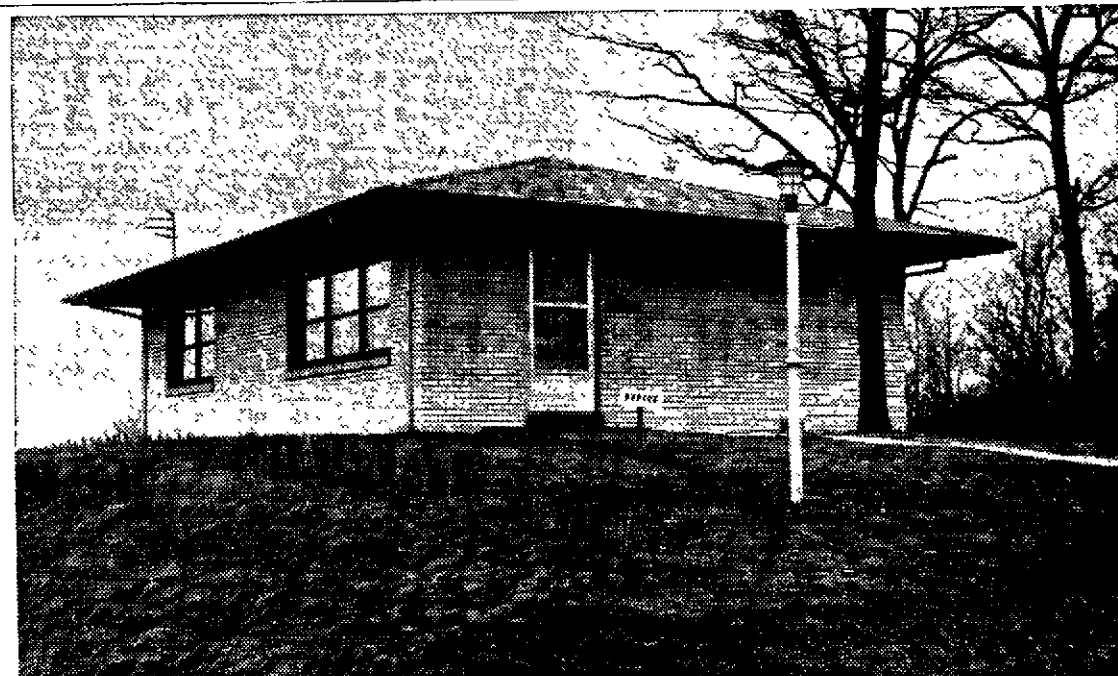

Nabisco has three integral-tube steam generators each with 25,000-pound capacity, to provide steam for processing and heating. The company is installing a 23,000 pounds-per-hour unit to take care of the needs of the addition to the plant. When operating at full capacity the three chillers will require about 60,000 pounds of steam per hour.

According to the Peoples Gas Company, a comparative cost analysis for the 3,000-ton installation indicated that the annual energy costs of the absorption system would be about \$49,000 compared with about \$74,000 for a comparable electric system.

A spokesman for the gas company said this year's installation of large air conditioning equipment which uses gas as a fuel has almost doubled the total cooling capacity of such equipment in the city. He noted that equipment with 19,000 tons of capacity has been installed this year, compared to the 20,000 tons of capacity already in use at the end of 1960.

Other large installations of absorption equipment include the Hotel Sherman, Wrigley Building, John Blair Office Building, University of Chicago, United Air Lines Hangar and the Essex Inn.

ADVERTISE IN THE TIMES

## Here's why Dr. M. V. Ross, NEW BRIGHTON, PA. changed to GAS Heat!

Dr. Ross has resided in the Beaver Valley area since 1941. What does Dr. Ross think of Gas and electric heat? How does he compare them? Here are his answers to several important questions:

**Question:** Your total electric cost from December, 1960, through November, 1961, was \$306.95 according to your electric bills. Do you feel this to be reasonable?

**Answer:** "No, I don't, since only 864 square feet of area is heated. In one month alone, I received a bill of \$60.99. Being a commercial customer caused me to pay more than a residential customer, but even if I had been listed as a residential customer, I believe my electric bills still would have been quite high."

**Question:** Did you take any special measures to cut your electric heating costs, Doctor?

**Answer:** "As a matter of fact, I did. I used tape to seal off one door where air was entering in spite of weather stripping. I also sealed off my window air conditioner."

**Question:** How large is your building?

**Answer:** "It's a one-floor building, 24' x 36', consisting of four rooms, a bath and a utility room."

**Question:** Does the building meet electric heat requirements, Doctor?

**Answer:** "Yes. It's fully insulated and has storm doors and windows throughout."

**Question:** Do you have other electrical appliances?

**Answer:** "I have several small pieces of equipment, but they are not regularly used. I also have a window

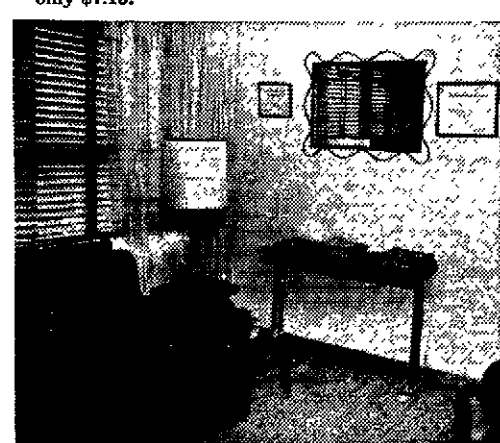

air conditioner in one room. And, I had an electric water heater which I never used because of the apparent high cost of operation. I plan to install a Gas water heater."

**Question:** In summing up, would you recommend electric heat to anyone?

**Answer:** "Frankly, no. After my experiences, I could not honestly recommend it to anyone."

**Question:** Even though you've had Gas heat just a short time, are you satisfied with its operation and cost?

**Answer:** "Very much so. In fact, my Gas heating bill for the first 20 days ending February 6, 1962, was only \$7.15."

# LITTLE KNOWN USES FOR ICE ANNOUNCED

Do you think ice cubes are made just for tall, cool tinkling beverages?

You're in for a surprise.

Ice, brought dramatically to the forefront by the new automatic ice-server gas refrigerators, has uses you probably never dreamed of.

Of course, increased quantities of easier-to-handle ice find their greatest use in preparation of appetizers, relishes, salads, entrees and desserts, but many other household uses are reported.

Ice cubes may be used to "skim the grease" from gravy or a stew. When ice is dropped into the hot liquid, surplus grease collects the cube and may be easily lifted out.

## WATER PLANTS

House plants may be watered without fuss and muss by dropping a few pieces of ice into the flower pots. When cubes melt, the plants are watered; no dripping around the pot.

An ice cube wrapped in a washcloth and held against closed eyelids for 10 minutes daily helps relax the eyes and relieve strain. A hot washcloth may be used before the ice is applied.

Then, of course, there's the tried-and-true ice pack. It relieves headaches, fevers, and soreness. It can also be used as a facial astringent.

And with ice now easier to handle, you'll probably think of many more uses to fit your family needs.

This is one reason why home-makers hail the automatic ice maker, the American Gas Association reports. The ice maker manufactures a steady flow of semi-circular ice discs, deposits them in a handy storage bin, then fills itself with water and freezes a new supply. The process is repeated until an automatic control indicates that the bin is filled.

Best of all, there are never any trays to fill or spill. Just reach inside and take as many ice cubes as needed.

In addition to keeping you abundantly supplied with ice cubes, gas refrigerators offer safe, dependable storage for all types of perishable foods. They have the smart new square-look, and are economical to operate.

## ONE-FAMILY EXPLOSION

FLORENCE, Ala. (AP) — To put it mildly, the Melvin Rickard family is growing fast — six children in 3½ years. Mrs. Rickard, 20, recently gave birth to the latest additions — twin boys. She earlier had a son and a daughter and twin girls.

## Automatic Cooking With Gas Ranges

It is common conversational practice to say that the improvements found on modern gas ranges free women from kitchen drudgery beyond the wildest imaginative flights of their grandmothers.

And this is true.

But modern-minded grandmothers are using these marvelous new cooking devices, too, and really appreciate the time and effort they save.

Today's homemaker, regardless of her age, takes to gas range improvements enthusiastically, reports the American Gas Association. She practically enjoys cooking by a kind of remote control — which means that she can be absent from home when the fuel is turned on and even when the cooking period is completed.

Automatic timing devices on gas ranges built to Gold Star specifications turn the oven on and off at preset times and temperatures. If she wants to meet her commuting husband's train, the homemaker merely sets her low temperature oven control at 140 degrees and the meal will be kept at ready-to-serve temperatures without continued cooking — up to several hours if necessary.

## PRESENT NEW GAS HEATERS

Supposing you've decided the family should give itself a special Easter gift — a much needed new gas water heater. Do you know what size to buy?

The size you buy should be determined by two things: The amount of hot water you need and the recovery capacity of the heater.

Recovery capacity means the ability of the heater to replenish hot water as fast as it's used. With a fast-recovery heater you can use a smaller tank. This will save you money on purchase price, installation, maintenance and operating costs. Besides, it will take up less space.

Many 30-gallon gas-fired water heaters, will recover their entire capacity in about an hour. They give more hot water per hour than any other kind of automatic heater, says the American Gas Association, even including heaters twice as large.

## ARE AUTOMATIC

Gas water heaters will turn off and on automatically. And there is never any danger their hot water supply will be cut off by power failures or delivery curtailments.

There are many automatic gas tanks that have dial-like controls enabling you to obtain instantly the very high temperatures re-

"EASY AS APPLE PIE" becomes full-flavored reality when baking is done in the clock-controlled oven of a modern, matchless gas range. Pies, cakes and baked goods are done to perfection, thanks to complete circulation of constant,

even heat. See how easily this 30-inch oven handles six pies at once. Other features include clock controls, adjustable racks, oven insulation and thermostatic controls. Ask for a demonstration at any gas appliance dealer store.

## CLOWNING CARMEN

ROCHESTER, N. Y. (AP) — The favorite story of exwelterweight and middleweight champion Carmen Basilio concerns a recent visit to San Francisco, where he says he heard a sportscaster refer to him on the air as "ugly."

Basilio, who has always had that craggy look, sought the man out and feigned great anger. "If you want to discuss boxing and fighters," stormed Carmen, "why don't you do just that! You're not supposed to be judging a beauty contest!"

Basilio breaks up laughing at the story. "The guy was terrified," he reports gleefully.

Eight members of Dartmouth's freshman basketball team played high school football. Four were T quarterbacks and four played end.

## A PERFECT SEASON

NIAGARA FALLS, N. Y. (AP) — Niagara University's only undefeated basketball season was registered in the 1918-19 campaign when the Purple Eagles won the only game they played.

## WARM, COOL GAS SYSTEM CONVERTIBLE

Homes equipped with forced air gas heating systems are well on their way to summer air conditioning.

They already have the necessary duct work, the American Gas Association explains, which can be used to carry cool air to all parts of the house.

If you are considering air conditioning, the first step is to have a survey made of your existing warm air system. Your local gas company may be able to do this for you, or will recommend a reputable contractor. In most instances, there is no charge for this service.

## AIR COOLING UNIT

A survey will establish: (1) the effectiveness of the present duct system for cooling use, (2) what, if any, duct work, air intakes

and circuit connections need be added, (3) the size of the gas air conditioning unit needed to cool the house.

If the present forced warm air furnace is in good operating condition, there is no need to replace it in order to enjoy year-round air conditioning. All that is necessary is to install an air cooling unit alongside the furnace. If space is a factor, the unit can be installed outside the home. It will handle the cooling of the air in the summer and the furnace will take over the heating duties in the fall.

On the other hand, if you have been thinking about replacing the furnace, you may want to consider one of the new gas combination heating-air conditioning systems which will handle both the heating and cooling requirements with one single piece of equipment.

This is the 13th National Football League campaign for Chuck Bednarik, center and linebacker with the Philadelphia Eagles. He's a former Penn All-America.

## Gas Dryer Is Air Conditioner, Too

When you hang a load of wet wash in the basement to dry on rainy days, you loose a few quarts of water into the atmosphere.

The moisture has to go some place, so it spreads through the house and puts a clammy film on furniture, walls and clothing and adds to the discomfort of the family.

In home laundries equipped with a gas clothes dryer, this problem doesn't exist. A gas dryer, experts of the Gas Appliance Manufacturers Association point out, is always vented to the outside of the house. The vent pipe not only carries off the excess heat of drying but the moisture as well.

You can actually see this venting process work on cold days, GAMA says. Just look out the window above the vent-pipe and you'll see the clouds of steam that would otherwise be spreading invisibly through the house turning to frost on windows and other cold surfaces.

## Gas Air Conditioning Meets Comfort Needs

Most people think of air conditioning as a summertime luxury — something to be enjoyed only during the hottest weather.

Actually, says the American Gas Association, air conditioning is a year-round necessity. Cooling is but a small part of the story — for air conditioning is just what the name implies: a conditioning of the air.

When you install a central gas heating-air conditioning system, you control the climate inside your home so that a condition of comfort may be maintained the year round.

Outside and inside air is mixed in the unit and passed through a filter. From this point the air is either heated as in a conventional gas heater and sent on through the duct system into the home, or it is passed over the cooling unit where excess moisture is removed and the air is cooled and then sent through the duct system.

**CAN FILTER AIR**  
The operation is a rapid one with the warm or cool air continuously being circulated throughout the entire home. For in-between seasons when neither heating nor cooling is necessary, the

air can still be filtered and circulated.

The cooling system in a modern gas air conditioner is much the same as that used in gas refrigerators. There are no moving parts in either the heating or cooling cycles. This pays off in noiseless, trouble-free operation and adds to the life of the equipment.

No community in the nation is entirely immune to the plague of heat and humidity. In recent years, factories and traffic-clogged highways have added still another problem — air pollution. Air conditioning is the only method of obtaining clean, pure, cool air inside the home.

Basically, there are two types of gas air conditioners: a central system which provides cool, filtered air in the summer and warm, filtered air in the winter; and an "add-on" air conditioning unit which can generally be hooked-up to an existing warm air furnace.

Both types can be installed either indoors in a basement, utility room or closet, or out of doors providing it is close enough to ducts to allow a short connection. An attached garage or car-

All year-round air conditioning system

not only cover the elimination of smoke, odor and fly-ash nuisance, but every detail of construction and performance that bear on safety and durability as well.

### FULLY AUTOMATIC

The new gas disposers are designed to consume virtually all combustibles originating in the home—garbage, paper, rags, cartons, string, sweepings, small pieces of wood, even heavy bones and old shoes. And they are fully automatic and smartly-styled.

Outstanding benefits in convenience, health, safety, sanitation and property improvement are added dividends. Gas disposers never have to be cleaned out or scoured. They can be used as often as necessary, although once a day is usually enough. A turn of a knob starts the controlled combustion process and an automatic timer turns the machine off. Up to two bushels of refuse can be consumed at one time. The gas flame reduces this amount to a handful of fine, powdery ash, which needs emptying perhaps twice a month.

Leading home economists in the gas industry recommend the following "do's and don'ts" to insure complete satisfaction from a gas disposer:

1. The garbage should be well wrapped in several layers of newspaper. This prevents small items from going through the grate into the ash pan. It also hastens combustion.
2. When loading the disposer, pack the load in as tightly as you wish. A layer of paper at the bottom speeds up ignition.
3. Place the wrapped garbage in the disposer several times a day—as it accumulates. Ignore the disposer daily.
4. To light the disposer, always use the timer control. Don't expect flames immediately, as there is a warming period just as there is for a car. This allows the wet garbage to dry out.
5. Set the timer long enough to burn the garbage completely. This is the secret of really odorless, smokeless burning. If the load does not burn completely the residue continues to smolder but there is no open flame to consume smoke or odor.
6. Keep the ash door and top opening closed while the disposer is burning. More items may be added if necessary during the burning period, but use caution when opening. Then close the unit as quickly as possible.
7. Do not allow ashes to accumulate until they touch the grate. This interferes with combustion. Remove the ashes and clear the grate once a week, or when necessary.

## World Briefs

**SAIGON, South Viet Nam (AP)**—South Viet Nam government forces reportedly killed 74 Communist Viet Cong guerrillas in widespread operations announced Thursday. Government losses were given as 25 dead and six wounded.

**PARIS (AP)**—France is going to repay the United States \$58 million overdue on its long-term debt, Finance Minister Valéry Giscard d'Estaing said Thursday.

The payments were due in 1953 and 1959 but were delayed because of France's unfavorable foreign exchange balance at that time. After the payment France will still owe the United States \$1.6 billion.

**BRASILIA, Brazil (AP)**—President Joao Goulart said Thursday he was grateful for the very great reception he had received in the United States and Mexico.

Goulart appeared in good health after the plane trip Wednesday from Mexico, where he had been forced to cancel all official engagements because of an illness described as a dizzy spell caused by Mexico City's high altitude.

**TUNIS (AP)**—President Habib Bourguiba freed 429 prisoners Thursday and gave the schools a holiday to mark his marriage to a Tunisian society woman.

Bourguiba, 60, and Mrs. Quasila ben Ammar, 49, scheduled an afternoon ceremony at Bourguiba's ornate suburban palace, the House of Happiness. It is the second marriage for both.

**MAJORING IN GIRLS?**  
**BUFFALO, N. Y. (AP)**—Heard in a theater lobby as a proud father reported on the progress of his undergraduate son: "He's taking an exhilarated course."

## SLEEP BETTER WITH GAS AIR CONDITIONING

Gas air conditioning is cool, man!

You don't have to be a beatnik to know that it's the coolest. Even on hot, muggy days the only sensation you feel is one of complete comfort. It's never too hot nor too cold, draughty or stagnant, humid or dry. Instead, the atmosphere inside your home is just right.

The secret lies in the ability of gas equipment to control the elements that produce true comfort. These include cleanliness, temperature, humidity and circulation of the air. When all of these elements are in proper balance, the result is complete unawareness of indoor weather.

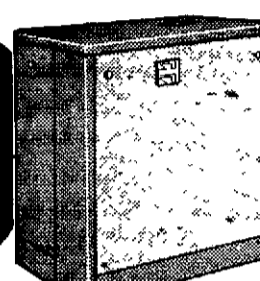

And today, air conditioning can be enjoyed all year long, because gas central systems heat or cool the air as needed. In addition, explains the American Gas Association, they "condition" the air so that a healthy, comfortable environment exists throughout the entire house.

This means that you sleep better at night and awaken refreshed in the morning. With windows closed, dust, pollen and noise are kept out. You enjoy more privacy and have less need for heavy cleaning and expensive redecorating. Problems such as mildew, stuck drawers and musty summer odors are completely eliminated. Appetites and dispositions improve. Colds, hay fever and similar ailments are drastically reduced. And every member of the family gets more enjoyment out of living.

Modern gas air conditioning is not only efficient and dependable—it's a low cost luxury every family can afford.

**MAJORING IN GIRLS?**

**YEARS AHEAD IN  
YEAR 'ROUND  
COMFORT**

**bryant**

port are possible locations.

"Cost?" and "Will it fit my house?" are probably the two questions most frequently asked about air conditioning.

### MORE ECONOMICAL

Gas air conditioning units, like most other gas appliances, are usually more economical to operate than any other type of equipment. They are also the most efficient and dependable.

Installation and operating costs vary in different locations, but in most parts of the country a complete gas heating, air conditioning system for a 7-room home, including all ductwork, costs about \$2,000. This includes a five-year warranty on parts and service. Gas company experts can best advise on costs based on individual needs and use.

Most people buy air conditioning for the comfort it offers. After living with it for a season or two they are amazed at the countless bonuses they never dreamed they were buying: better sleep, more energy, improved appetites, less housework, little or no heavy cleaning, fewer colds, all-around better health and greater enjoyment of family life.

Air conditioning also increases the value of the property, adding to the resale price of the home. The Federal Housing Administration recently stated, "Within a few years any house that is not air conditioned will be considered obsolete. Savings on heat, cleaning, laundering and medical expenses, resulting from air conditioning, more than offset the cost of operating the equipment during the cooling season."

### BEST HEATING FUEL

Gas is now the nation's number one house heating fuel. Within a

## INCINERATOR IS ANSWER TO GARBAGE FUSS

An automatic gas disposer is one of the most useful home appliances ever devised. It will keep the home free of garbage and trash all year long. It is attractively designed and can be installed inside the home where-ever proper venting permits. And it is completely smokeless and odorless.

The "smokeless-odorless" designation is not a vague claim, the American Gas Association points out. It is an accurate description of a modern appliance built to meet exacting requirements and

few years it is expected to be the nation's leading air conditioning fuel as well. This is based on the add on advantages of gas air conditioning equipment, the current trend toward whole-house air conditioning and the availability of gas systems to fit every size home.

The test of every air conditioning system is its ability to control the air inside the home at the exact degree of coolness desired regardless of outside temperatures. The ideal system does this quietly, efficiently and economically. Only gas excels in meeting all of these requirements.

When all considerations are taken into account, gas air conditioning pays for itself. It's the nation's newest necessity for healthier, better living the year around.

port are possible locations.

"Cost?" and "Will it fit my house?" are probably the two questions most frequently asked about air conditioning.

### MORE ECONOMICAL

Gas air conditioning units, like most other gas appliances, are usually more economical to operate than any other type of equipment. They are also the most efficient and dependable.

Installation and operating costs vary in different locations, but in most parts of the country a complete gas heating, air conditioning system for a 7-room home, including all ductwork, costs about \$2,000. This includes a five-year warranty on parts and service. Gas company experts can best advise on costs based on individual needs and use.

Most people buy air conditioning for the comfort it offers. After living with it for a season or two they are amazed at the countless bonuses they never dreamed they were buying: better sleep, more energy, improved appetites, less housework, little or no heavy cleaning, fewer colds, all-around better health and greater enjoyment of family life.

Air conditioning also increases the value of the property, adding to the resale price of the home. The Federal Housing Administration recently stated: "Within a few years any house that is not air conditioned will be considered obsolete. Savings on heat, cleaning, laundering and medical expenses, resulting from air conditioning, more than offset the cost of operating the equipment during the cooling season."

### BEST HEATING FUEL

Gas is now the nation's number one house heating fuel. Within a

## INCINERATOR IS ANSWER TO GARBAGE FUSS

An automatic gas disposer is one of the most useful home appliances ever devised. It will keep the home free of garbage and trash all year long. It is attractively designed and can be installed inside the home where-ever proper venting permits. And it is completely smokeless and odorless.

The "smokeless-odorless" designation is not a vague claim, the American Gas Association points out. It is an accurate description of a modern appliance built to meet exacting requirements and

few years it is expected to be the nation's leading air conditioning fuel as well. This is based on the add-on advantages of gas air conditioning equipment, the current trend toward whole-house air conditioning and the availability of gas systems to fit every size home.

The test of every air conditioning system is its ability to control the air inside the home at the exact degree of coolness desired regardless of outside temperatures. The ideal system does this quietly, efficiently and economically. Only gas excels in meeting all of these requirements.

When all considerations are taken into account, gas air conditioning pays for itself. It's the nation's newest necessity for healthier, better living the year round.

Surface Units Have Automatic Set 'N' Forget Burner.

not only cover the elimination of smoke, odor and fly-ash nuisance, but every detail of construction and performance that bear on safety and durability as well.

### FULLY AUTOMATIC

The new gas disposers are designed to consume virtually all combustibles originating in the home—garbage, paper, rags, cartons, string, sweepings, small pieces of wood, even heavy bones and old shoes. And they are fully automatic and smartly-styled.

Outstanding benefits in convenience, health, safety, sanitation and property improvement are added dividends. Gas disposers never have to be cleaned out or scoured. They can be used as often as necessary, although once a day is usually enough. A turn of a knob starts the controlled combustion process and an automatic timer turns the machine off. Up to two bushels of refuse can be consumed at one time. The gas flame reduces this amount to a handful of fine, powdery ash, which needs emptying perhaps twice a month.

Leading home economists in the gas industry recommend the following "do's and don'ts" to insure complete satisfaction from a gas disposer:

1. The garbage should be well wrapped in several layers of newspaper. This prevents small items from going through the grate into the ash pan. It also hastens combustion.
2. When loading the disposer, pack the load in as tightly as you wish. A layer of paper at the bottom speeds up ignition.
3. Place the wrapped garbage in the disposer several times a day—as it accumulates. Ignite the disposer daily.
4. To light the disposer, always use the timer control. Don't expect flames immediately, as there is a warming period just as there is for a car. This allows the wet garbage to dry out.
5. Set the timer long enough to burn the garbage completely. This is the secret of really odorless, smokeless burning. If the load does not burn completely the residue continues to smolder but there is no open flame to consume smoke or odor.
6. Keep the ash door and top opening closed while the disposer is burning. More items may be added if necessary during the burning period, but use caution when opening. Then close the unit as quickly as possible.
7. Do not allow ashes to accumulate until they touch the grate. This interferes with combustion. Remove the ashes and clear the grate once a week, or when necessary.

## World Briefs

**SAIGON, South Viet Nam (AP)**—South Viet Nam government forces reportedly killed 74 Communist Viet Cong guerrillas in widespread operations announced Thursday. Government losses were given as 25 dead and six wounded.

**PARIS (AP)**—France is going to repay the United States \$58 million overdue on its long-term debt, Finance Minister Valéry Giscard d'Estaing said Thursday.

The payments were due in 1958 and 1959 but were delayed because of France's unfavorable foreign exchange balance at that time. After the payment France will still owe the United States \$1.6 billion.

**BRASILIA, Brazil (AP)**—President Joao Goulart said Thursday he was grateful for the very great reception he had received in the United States and Mexico.

Goulart appeared in good health after the plane trip Wednesday from Mexico, where he had been forced to cancel all official engagements because of an illness described as a dizzy spell caused by Mexico City's high altitude.

**TUNIS (AP)**—President Habib Bourguiba freed 429 prisoners Thursday and gave the schools a holiday to mark his marriage to a Tunisian society woman.

Bourguiba, 60, and Mrs. Quasila ben Ammar, 49, scheduled an afternoon ceremony at Bourguiba's ornate suburban palace, the House of Happiness. It is the second marriage for both.

Modern gas air conditioning is not only efficient and dependable—it's a low cost luxury every family can afford.

## SLEEP BETTER WITH GAS AIR CONDITIONING

Gas air conditioning is cool, man!

You don't have to be a beatnik to know that it's the coolest. Even on hot, muggy days the only sensation you feel is one of complete comfort. It's never too hot nor too cold, draughty or stagnant, humid or dry. Instead, the atmosphere inside your home is just right.

The secret lies in the ability of gas equipment to control the elements that produce true comfort. These include cleanliness, temperature, humidity and circulation of the air. When all of these elements are in proper balance, the result is complete unawareness of indoor weather.

And today, air conditioning can be enjoyed all year long, because gas central systems heat or cool the air as needed. In addition, explains the American Gas Association, they "condition" the air so that a healthy, comfortable environment exists throughout the entire house.

This means that you sleep better at night and awaken refreshed in the morning. With windows closed, dust, pollen and noise are kept out. You enjoy more privacy and have less need for heavy cleaning and expensive redecorating. Problems such as mildew, stuck drawers and musty summer odors are completely eliminated. Appetites and dispositions improve. Colds, hay fever and similar ailments are drastically reduced. And every member of the family gets more enjoyment out of living.

Modern gas air conditioning is not only efficient and dependable—it's a low cost luxury every family can afford.

### MAJORING IN GIRLS?

**BUFFALO, N. Y. (AP)**—Heard in a theater lobby as a proud father reported on the progress of his undergraduate son: "He's taking an exhilarated course."

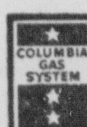

## more people are choosing Gas air conditioning for their homes

When you discover economical, whole-home, Gas air conditioning, you'll want it! Every room in your home is cool regardless of simmering summer temperatures. You sleep comfortably... cook and bake in relaxed coolness... have fresh, cool air throughout the house for comfort and health. Comes winter and your Gas cooling system readily gives you carefree heating with a flick of the finger... filtered, fresh-air Gas heating that keeps the whole house snug and clean.

The installation costs of a central Gas heating-cooling system in a new home can be financed with the mortgage for a very modest increase in payments. Or if you're planning to remodel your home, consider having a Gas add-on air conditioning unit installed in your present Gas forced air heating system. You can probably use the existing heating ductwork for cooling to get added installation economies. In either case, Gas air conditioning costs less than you might think.

If you are planning to buy or build a new home, or to remodel your present home, find out about Gas air conditioning. You'll want it! Call your Gas Company for a free air conditioning survey and estimate.

# LITTLE KNOWN USES FOR ICE ANNOUNCED

Do you think ice cubes are made just for tall, cool tinkling beverages?

You're in for a surprise.

Ice, brought dramatically to the forefront by the new automatic ice-server gas refrigerators, has uses you probably never dreamed of.

Of course, increased quantities of easier-to-handle ice find their greatest use in preparation of appetizers, relishes, salads, entrees and desserts, but many other household uses are reported.

Ice cubes may be used to "skim the grease" from gravy or a stew. When ice is dropped into the hot liquid, surplus grease collects the cube and may be easily lifted out.

**WATER PLANTS**

House plants may be watered without fuss and muss by dropping a few pieces of ice into the flower pots. When cubes melt, the plants are watered; no dripping around the pot.

An ice cube wrapped in a washcloth and held against closed eyelids for 10 minutes daily helps relax the eyes and relieve strain. A hot washcloth may be used before the ice is applied.

Then, of course, there's the tried-and-true ice pack. It relieves headaches, fevers, and soreness. It can also be used as a facial astringent.

And with ice now easier to handle, you'll probably think of many more uses to fit your family needs.

This is one reason why home-makers hail the automatic ice maker, the American Gas Association reports. The ice maker manufactures a steady flow of semi-circular ice discs, deposits them in a handy storage bin, then fills itself with water and freezes a new supply. The process is repeated until an automatic control indicates that the bin is filled.

Best of all, there are never any trays to fill or spill. Just reach inside and take as many ice cubes as needed.

In addition to keeping you abundantly supplied with ice cubes, gas refrigerators offer safe, dependable storage for all types of perishable foods. They have the smart new square-look, and are economical to operate.

## Automatic Cooking With Gas Ranges

It is common conversational practice to say that the improvements found on modern gas ranges free women from kitchen drudgery beyond the wildest imaginative flights of their grandmothers.

And this is true.

But modern-minded grandmothers are using these marvelous new cooking devices, too, and really appreciate the time and effort they save.

Today's homemaker, regardless of her age, takes to gas range improvements enthusiastically. She practically enjoys cooking by a kind of remote control — which means that she can be absent from home when the fuel is turned on and even when the cooking period is completed.

Automatic timing devices on gas ranges built to Gold Star specifications turn the oven on and off at preset times and temperatures. If she wants to meet her commuting husband's train, the homemaker merely sets her low temperature oven control at 140 degrees and the meal will be kept at ready-to-serve temperatures without continued cooking — up to several hours if necessary.

## PRESENT NEW GAS HEATERS

Supposing you've decided the family should give itself a special Easter gift — a much needed new gas water heater. Do you know what size to buy?

The size you buy should be determined by two things: The amount of hot water you need and the recovery capacity of the heater.

Recovery capacity means the ability of the heater to replenish hot water as fast as it's used. With a fast-recovery heater you can use a smaller tank. This will save you money on purchase price, installation, maintenance and operating costs. Besides, it will take up less space.

Many 30-gallon gas-fired water heaters will recover their entire capacity in about an hour. They give more hot water per hour than any other kind of automatic heater, says the American Gas Association, even including heaters twice as large.

**ARE AUTOMATIC**

Gas water heaters will turn off and on automatically. And there is never any danger their hot water supply will be out off by power failures or delivery curtailments.

There are many automatic gas tanks that have dial-like controls enabling you to obtain instantly the very high temperatures re-

**"EASY AS APPLE PIE"** becomes full-flavored reality when baking is done in the clock-controlled oven of a modern, matchless gas range. Pies, cakes and baked goods are done to perfection, thanks to complete circulation of constant, even heat. See how easily this 30-inch oven handles six pies at once. Other features include clock controls, adjustable racks, oven insulation and thermostatic controls. Ask for a demonstration at any gas appliance dealer store.

**CLOWNING CARMEN**

ROCHESTER, N. Y. (AP)—The favorite story of ex-welterweight and middleweight champion Carmen Basilio concerns a recent visit to San Francisco, where he says he heard a sportscaster refer to him on the air as "ugly."

Basilio, who has always had that craggy look, sought the man out and feigned great anger.

"If you want to discuss boxing and fighters," stormed Carmen, "why don't you do just that! You're not supposed to be judging a beauty contest!"

Basilio breaks up laughing at the story. "The guy was terrified," he reports gleefully.

**A PERFECT SEASON**

NIAGARA FALLS, N. Y. (AP)—Niagara University's only unbeaten basketball season was registered in the 1918-19 campaign when the Purple Eagles won the only game they played.

## WARM, COOL GAS SYSTEM CONVERTIBLE

Homes equipped with forced air gas heating systems are well on their way to summer air conditioning.

They already have the necessary duct work, the American Gas Association explains, which can be used to carry cool air to all parts of the house.

If you are considering air conditioning, the first step is to have a survey made of your existing warm air system. Your local gas company may be able to do this for you, or will recommend a reputable contractor. In most instances, there is no charge for this service.

**AIR COOLING UNIT**

A survey will establish: (1) the effectiveness of the present duct system for cooling use, (2) what, if any, duct work, air intakes

and circuit connections need be added, (3) the size of the gas air conditioning unit needed to cool the house.

If the present forced warm air furnace is in good operating condition, there is no need to replace it in order to enjoy year-round air conditioning. All that is necessary is to install an air cooling unit alongside the furnace. If space is a factor, the unit can be installed outside the home. It will handle the cooling of the air in the summer and the furnace will take over the heating duties in the fall.

On the other hand, if you have been thinking about replacing the furnace, you may want to consider one of the new gas combination heating-air conditioning systems which will handle both the heating and cooling requirements with one single piece of equipment.

This is the 13th National Football League campaign for Chuck Bednarik, center and linebacker with the Philadelphia Eagles. He's a former Penn All-America.

## Gas Dryer Is Air Conditioner, Too

When you hang a load of wet wash in the basement to dry on rainy days, you lose a few quarts of water into the atmosphere.

The moisture has to go some place, so it spreads through the house and puts a clammy film on furniture, walls and clothing and adds to the discomfort of the family.

In home laundries equipped with a gas clothes dryer, this problem doesn't exist. A gas dryer, experts of the Gas Appliance Manufacturers Association point out, is always vented to the outside of the house. The vent pipe not only carries off the excess heat of drying but the moisture as well.

You can actually see this venting process work on cold days, GAMA says. Just look out the window above the vent-pipe and you'll see the clouds of steam that would otherwise be spreading invisibly through the house turning to frost on windows and other cold surfaces.

## THE GAS BOILER WITH EVERYTHING

for carefree  
winter comfort!

Everything to make winter just another pleasant season with clean, convenient, trouble-free heating! As automatic as the sunrise... just set the thermostat and your Weil-McLain Gas Boiler carries on from there.

Certainly there's nothing like gas heat, but before you buy, see the extra values offered by a Weil-McLain boiler. It's built of cast iron, for corrosion resistance and long life. Its clean-lined design and handsome hammerloid jacket make it an asset to the appearance of any basement. A water heater for year 'round hot faucet water is available as optional equipment.

**Here's heating in the most modern, economical manner**

**QUIET**  
The highly efficient stainless steel ribbon burners are quiet in operation and ignite and extinguish noiselessly.

**COMPACT**  
It's hard to believe so much home heating comfort can come from so small a package. These boilers are an engineering achievement in designing to fully meet today's demand for space saving equipment.

**EASY TO CLEAN**  
The lustrous hammerloid jacket needs only the touch of a dust cloth to keep it spotlessly clean.

**COMPLETELY INSULATED**  
Thorough insulation with aluminum foil-backed fibre glass keeps heat within the boiler.

### COMPLETE RANGE OF SIZES

Weil-McLain Cast Iron Gas Boilers are available for homes, apartments, commercial and industrial buildings.

## World's Finest Ranges Now Wear A Gold Star

Today, more people than ever are cooking with gas. In many families, everybody is "getting into the act," trying their hand at all kinds of dishes, from gourmet delicacies to that old standby stew.

The results are astonishing!

Stews have become ragouts and the more difficult specialties of the house are worthy of the "Cordon Bleu." Yet these culinary triumphs are being turned out by teen-agers just learning to cook, and by husbands whose best efforts were formerly burnt offerings from the backyard barbecue.

The explanation is simple, says the American Gas Association. These amateurs can become expert cooks overnight when they cook on gas ranges built to Gold Star standards.

### "FINEST COOKING"

The Gold Star on a gas range is the mark of the world's finest cooking appliance. It means the range has met at least 30 of the highest standards ever devised for performance, construction and design.

There's no guesswork with Gold

Star ranges. Failure is virtually eliminated by thermostatically controlled ovens and top burners that prevent over-cooking, under-cooking, burning or scorching.

They're the ultimate in modern cooking appliances. All top burners, ovens and broilers ignite automatically. Broiling is smokeless and gives a charcoal flavor to meats. Ranges with two thermostatically controlled ovens have one oven equipped with an automatic clock control and a meat thermometer that turns the oven on and off automatically.

Every range over 37 inches wide must have a waist-high broiler, or a built-in-griddle with thermostatic control or two ovens, one with a clock control and automatic meat thermometer.

### RUST-RESISTANT

All materials used in the construction of the range must be rust-resistant and non-corrosive. Broilers, drawers and racks are nontilt, and roll out easily and smoothly on special bearings for safe, effective stops.

Back panels have a light, clock,

## AIR FORCE HAS A PEP PILL TO SLASH WEIGHT

By DORMAN CORDELL

ATLANTIC CITY, N.J. (AP)—The Air Force has come up with a crash reducing diet in the war against weight.

The chief weapon is a little pep pill that brings big appetites down.

A doctor claims it's a sure fire way of losing 30 pounds in 60 days.

And, for dietary diehards, he had these happy words—you don't feel hungry while doing it.

You consume the pill and 350 calories a day, explains Maj. Paul W. Musgrave.

The food prescribed gives enough proteins, vitamins, minerals and bulk to maintain health. The pill—actually a 15 milligram capsule of dexedrine sulphate—suppresses hunger.

biting again."

Mrs. Glenn disclosed that part of the award will be donated to the Westminster Presbyterian Church in New Concord, Ohio, their hometown.

Dr. Musgrave of the Air Force's School off Aero Space Medicine outlined the program Wednesday at the annual meeting of the Aerospace Medical Association. He said it was tried on volunteers at the school.

Here's what you eat:  
For breakfast—One egg and six ounces of skim milk.

For lunch—A tossed salad (100 grams) with vinegar, salt and pepper if you need some kind of dressing.

For dinner—Three ounces of lean meat and another tossed salad.

If you want it, you get one high-ball with water or soda before dinner, but no beer. And you can drink all the tea or coffee you want—without cream or sugar, of course.

Persons with a history of psychiatric disorders shouldn't try it, the doctor said, but it's safe for anybody else—if it's done under a physician's direction.

### DRIVER WAS LOADED

FULTON, Mo. (AP)—"Too much whiskey," said magistrate Hugh P. Williamson in fining a truck driver.

The driver for a whiskey distributing company was fined \$782 and costs for an overload of 8,740 pounds of liquor on his truck.

## SAYS DOCTRINE CLOUDS DREAM

LANCASTER, Pa. (AP)—Bishop Fred Pierce Corson, resident bishop of the Philadelphia Area Methodist Church and president of the World Methodist Council, says serious problems of doctrine are clouding the dream of church unity.

However, Bishop Corson predicted the achievement of a union of a large part American Protestantism as discussed in Washington this week.

But, he said in an interview Wednesday night, it would not take place within the next decade.

He said the meeting in Washington of four Protestant denominations—United Presbyterian, Protestant Episcopal, Methodist and United Church of Christ—was extremely encouraging.

Bishop Corson was here for a union Lenten service conducted by five local churches.

### GOP WOMEN'S VIEW

ROCHESTER, N. Y. (AP)—Overheard in an elevator at a downtown department store: Well, if you don't want to look like Jackie—and I don't—you just can't buy clothes anymore!

## SENIOR GLENN'S ENJOYING FAME

CHICAGO (AP)—The parents as astronaut John H. Glenn Jr. say they haven't become a bit tired of the attention given them since their son's space flight.

The senior Glenns, in Chicago to receive a \$1,000 cash award from the Conference of Club Presidents and Program Chairman for distinguished service to humanity, said they were "as pleased as we can be—it's been a thrill, all of it, the neighbors in our town, the President, people everywhere have been wonderful."

"We've been sort of calm the last week or two," says Mrs. Glenn, "but now we've started or-

sults will amaze you. There's no danger of burning, scorching, over-cooking or under-cooking. The top burner heat control automatically adjusts the flame as needed. It even cuts it low to keep food warm when the cooking is done.

Griddles built right into the top of the range also come equipped with thermostatic controls and can often be converted into an extra burner when the griddle is not in use. Teen-agers enthusiastically griddle large quantities of furters, fried eggs, scrambled eggs, and a host of hearty foods. Even crepes suzette cease to be a challenge.

Little wonder, then, that more people than ever are cooking with gas—and cooking better than ever on ranges built to Gold Star standards.

timer and extra outlet. Top burners have a "keep warm" and "simmer" setting and will re-light automatically at "simmer."

All ovens have an interior light and some have an "oven-ready" signal light. Extra-insulated with seal-sealing doors to guard against heat loss, they keep the kitchen comfortably cool. And they now come equipped with the revolutionary new low-temperature control that will keep food at serving temperatures, without continued cooking for several hours.

Meats can be roasted exactly as desired. A new automatic meat thermometer can be set for any degree wanted—from rare to well-done. The thermometer will shut the oven off automatically, and in some cases flashes a red light on the back panel to signal the cook.

Motorized rotisseries are also featured. Some have as many as three revolving spits which can be used at the same time. Barbecued self-basting chickens, roasts and shishkebab can be enjoyed the year-round.

For the last word in automaticity, oven and burned controls take the cake. They'll bake it, too, even on top of the range thanks to the amazing new top burner heat control which can be set at the exact temperature required.

The "burner-with-a-brain" accurately maintains any preselected temperature to make every cooking utensil an automatic appliance. No matter what is cooked on this burner, from delicate custards to difficult sauces, the re-

### COOKING IS FUN

No wonder amateurs are trying dishes ordinarily associated with the world's most celebrated chefs. They know they're using the same fuel preferred by nearly all professional cooks, and they know that cooking can be fun when it's done on a really modern appliance.

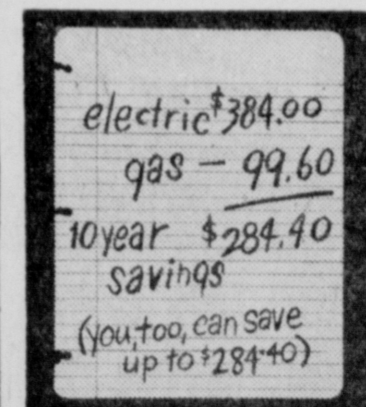

There's a Gold Star range to fit every family's needs in both built-in and free-standing models. One has a meat oven entirely separate from the bake oven that offers a choice of regular grill broiling, rotisserie broiling and deep-pan broiling. The gas flame gives an ember-like glow and the sealed-in flavor usually found in charcoal-cooked foods.

Automatic clock controls and

## GAS FUELED INCINERATORS ARE POPULAR

A gas disposer approved by the American Gas Association Laboratories can raise both your morale and your popularity with family and neighbors.

Safe, economical gas disposers free the homemaker from her most unpleasant household chore. Instead of emptying scraps in the kitchen garbage container, emptying the kitchen container in the out-door garbage can, then emptying that at a dump or having it picked up days later, the housewife merely drops all scraps and rubbish into her gas disposer. A gas flame does the rest.

Until the advent of the gas disposer, garbage and trash disposal was an unavoidable problem

shared by all. Many municipalities spend tremendous sums of money collecting garbage and other burnable waste. A collection truck alone costs about \$10,000 and requires two or three men to operate it.

### MODERN DISPOSERS

Modern gas disposers, which can be installed inside the home, eliminate all garbage and refuse worries. No trips outdoors in stormy weather, no temptation for dogs, cats and rats, no breeding grounds for insects and germs, and no unpleasant odors indoors or out. The gas units dispose of everything from wet garbage to large bones and old shoes. Everything goes except cans and bottles.

Gas disposers also contribute to safety in the home by eliminating fire hazards. Disposers serve as a constant and convenient reminder to clean out trash before it accumulates. And they also eliminate another fire hazard — flying sparks from outside trash

## BANISH SMOKE NUISANCE WITH GAS BURNERS

While everyone else talks about the air pollution problem, the gas industry has done something about it.

Smokeless-odorless gas incinerators developed through intensive research conducted by the American Gas Association are scientifically designed and engineered to consume food wastes and trash without smoke, odor, fly-ash or similar objectionable byproducts.

The units, which can be installed inside the home, automatically devour virtually all combustibles originating in the home — garbage, paper, rags, milk cartons, cardboard boxes, string, sweepings, wood, bones, old shoes, magazines and, in fact, everything except noncombustible materials, such as metal and glass.

Thus, household garbage and trash can be disposed of quickly before they have a chance to accumulate. This is both a health and safety factor. Because the units are smokeless and odorless, it is the modern, easy way to rid the home of objectionable refuse.

### "AFTER-BURNER"

Central feature of the new gas disposers is an auxiliary combustion chamber, or "after-burner." Operating on the principle that smoke and objectionable gases are the products of incomplete burning, the disposers direct the smoke over a second gas flame. In the after-burner chamber, combustion is completed, and the smoke is completely destroyed.

To demonstrate this principle, a simple experiment may be performed. If a lighted match is held in the stream of smoke arising from a burning cigarette, the smoke will seem to vanish. It is destroyed as combustion of its partially burned components is completed.

Smoke-banishing gas disposers offer these additional benefits: Completely automatic operation, the ability to consume difficult types of combustible waste including "wet" garbage, easy removal of the slight ash residue, and an average capacity of seven pounds, or one and a half bushels, more than the daily household accumulation. Fuel costs average about five cents a day. The units can be installed in a utility room, basement, back porch, garage, or kitchen.

The American Gas Association Laboratories Blue Star Seal of burners.

Smokeless-odorless gas disposers are safe, durable and economical. They are fully automatic and completely dependable. The American Gas Association Laboratories Blue Star Seal of Approval indicates that the disposer has passed hundreds of rigid tests for safety, durability and satisfactory performance.

The homemaker who lightens her work load with an automatic gas disposer makes a big contribution to her family's health and safety — and she's a better neighbor, too.

When Remodeling or Building—Plan to Install An American-Standard Hot Water Heater

**NEW!**

**YOU WON'T RUN OUT OF HOT WATER**

WITH A PERFORMANCE-RATED AMERICAN-Standard GAS

• Up to 25% more hot water than other heaters  
• Glass-lined and galvanized tanks in all sizes  
• Up to 10-year warranty

**Geo. W. Strevig**  
PLUMBING AND HEATING  
Dial 359-4210  
Littlestown, Pa.

**NO MORE GARBAGE CANS** for this modern homemaker. She's solving her garbage and waste disposal problems the modern way with an automatic gas incinerator. She simply drops garbage into her gas incinerator and walks away. Gas dries out wet garbage, reduces the load, then consumes every scrap. It turns bushels of refuse into a mere handful of white ashes. Clean, healthy, gas incinerators are highly economical to operate.

Approval on a gas disposer is assurance that the appliance has passed rigid tests for safety, durability and performance.

There's a difference between garlic salt and garlic powder. Read the labels when you buy and use.

### YOUNG RECRUIT

ELLICOTTVILLE, N. Y. (AP) — Timon Keith Ramondi of near-by Rushford has applied for appointment to the U. S. Military Academy in a letter to his congressman, Rep. Charles E. Goodell (R-N.Y.). Timon is 6 years old.

## STYLES CHANGE IN GAS DRYERS

Styles change in clothes dryers as in ladies' hats — maybe not so much in terms of fashion but certainly where function is concerned.

The Gas Appliance Manufacturers Association recognizes the fact that a new gas dryer may not give milady as much of a "lift" as a new bonnet, but it is willing to bet that the dryer lift will last longer.

After all, you can't carry a load of wet wash out to the line in a hat. But with a new gas clothes dryer you don't have to carry anything anywhere, least of all a mess of wash.

Some of the new off-the-face chapeaux are convertible, and versatile, you say. Well, all right, what's more versatile than the new gas dryer? Here's what it will do, says GAMA:

It has automatic controls that will turn the burner off before the drying is completed, so that the drying task is finished in room-temperature air, thus preventing wrinkles from setting in fabrics.

It will automatically select proper drying time for wash loads of different types and weights. It will turn the heat off instantly should the loading door be opened. It will provide a variety of combinations of heat, air flow and tumbling actions, depending on the nature of the load.

What's more, there are new models that do both the washing and the drying in a single appliance.

Name a hat that'll do that!

**PROMISE HAS HALLOW RING**  
ABERDEEN, Md. (AP) — A sign in an open field along U. S. 40 near this Maryland town still says construction on a shopping center will begin in 1958.

## Italian School Teachers Strike

ROME (AP) — Italian public school teachers started a three-day strike Wednesday, giving elementary and high school pupils an extra spring vacation.

Most public schools were closed until Saturday. An estimated 370,000 teachers were out.

Teachers' unions called the strike to back up demands for a temporary allowance granted to other state employees. All government workers are seeking pay raises and most of them have received the allowance while the pay scales are being adjusted.

## CHANGE STYLE OF GAS HEATING

The public's preference for ranch style and split level homes has played a major role in the design of modern heating equipment, the American Gas Association reports.

This is why baseboard units have replaced the old-fashioned radiator in modern homes which use "wet" heat systems now known as hydronic heating. The hot water travels through pipes concealed in a special baseboard

housing. Another advantage is that the baseboard unit runs across an entire wall, usually the outside cold walls. When placed beneath a picture window, for example, the units spread an even curtain of warmth over the glass area and prevents chilling. Furniture placement is easy because there are no problem areas where furniture cannot be used for fear of blocking a heat outlet. And gas baseboard units provide constant, even temperatures with no on-and-off blasts.

Gas also puts owners of older homes heated by radiators in an especially fortunate position from a modernization standpoint. By replacing radiators with baseboard units, and using gas as fuel, homeowners can enjoy greater comfort and convenience than they might get in a brand new home.

Even buyers of new homes often settle for less than the ultimate in comfort, A.G.A. points out, when they fail to investigate the merits of economical, dependable, fully automatic gas heat.

### COACH COULD SCORE

OLEAN, N. Y. (AP) — Larry Weise, the 25-year-old basketball coach at St. Bonaventure University, was the school's leading scorer in the 1956-57 season with 324 points.

## GAS FUELED INCINERATORS ARE POPULAR

A gas disposer approved by the American Gas Association Laboratories can raise both your morale and your popularity with family and neighbors.

Safe, economical gas disposers free the homemaker from her most unpleasant household chore. Instead of emptying scraps in the kitchen garbage container, emptying the kitchen container in the out-door garbage can, then emptying that at a dump or having it picked up days later, the housewife merely drops all scraps and rubbish into her gas disposer. A gas flame does the rest.

Until the advent of the gas disposer, garbage and trash disposal was an unavoidable problem

shared by all. Many municipalities spend tremendous sums of money collecting garbage and other burnable waste. A collection truck alone costs about \$10,000 and requires two or three men to operate it.

### MODERN DISPOSERS

# World's Finest Ranges Now Wear A Gold Star

Today, more people than ever are cooking with gas. In many families, everybody is "getting into the act," trying their hand at all kinds of dishes, from gourmet delicacies to that old standby stew.

The results are astonishing! Stews have become ragouts and the more difficult specialties of the house are worthy of the "Cordon Bleu." Yet these culinary triumphs are being turned out by teen-agers just learning to cook, and by husbands whose best efforts were formerly burnt offerings from the backyard barbecue.

The explanation is simple, says the American Gas Association. These amateurs can become expert cooks overnight when they cook on gas ranges built to Gold Star standards.

**"FINEST COOKING"**

The Gold Star on a gas range is the mark of the world's finest cooking appliance. It means the range has met at least 30 of the highest standards ever devised for performance, construction and design.

There's no guesswork with Gold

Star ranges. Failure is virtually eliminated by thermostatically controlled ovens and top burners that prevent over-cooking, under-cooking, burning or scorching.

They're the ultimate in modern cooking appliances. All top burners, ovens and broilers ignite automatically. Broiling is smokeless and gives a charcoal flavor to meats. Ranges with two thermostatically controlled ovens have one oven equipped with an automatic clock control and a meat thermometer that turns the oven on and off automatically.

Every range over 37 inches wide must have a waist-high broiler, or a built-in griddle with thermostatic control or two ovens, one with a clock control and automatic meat thermometer.

**RUST-RESISTANT**

All materials used in the construction of the range must be rust-resistant and non-corrosive. Broilers, drawers and racks are non-tilt, and roll out easily and smoothly on special bearings for safe, effective stops.

Back panels have a light, clock

Gas ranges add variety to menu planning

timer and extra outlet. Top burners have a "keep warm" and "simmer" setting and will re-light automatically at "simmer."

All ovens have an interior light and some have an "oven-ready" signal light. Extra-insulated with self-sealing doors to guard against heat loss, they keep the kitchen comfortably cool. And they now come equipped with the revolutionary new low-temperature control that will keep food at serving temperatures, without continued cooking for several hours.

**COOKING IS FUN**

No wonder amateurs are trying dishes ordinarily associated with the world's most celebrated chefs. They know they're using the same fuel preferred by nearly all professional cooks, and they know that cooking can be fun when it's done on a really modern appliance.

There's a Gold Star range to fit every family's needs in both built-in and free-standing models. One has a meat oven entirely separate from the bake oven that offers a choice of regular grill, broiling, rotisserie broiling and deep-pan broiling. The gas flame gives an ember-like glow and the sealed-in flavor usually found in charcoal-cooked foods.

Automatic clock controls and

timers let the cook take time out to watch a baseball game (husbands will, anyway) or even leave the house while the meal is cooking. The oven turns off automatically when the food is done.

Meats can be roasted exactly as desired. A new automatic meat thermometer can be set for any degree wanted — from rare to well-done. The thermometer will shut the oven off automatically, and in some cases flashes a red light on the back panel to signal the cook.

Motorized rotisseries are also featured. Some have as many as three revolving spits which can be used at the same time. Barbecued self-basting chickens, roasts and shishkebab can be enjoyed the year-round.

**GOOD CONTROLS**

For the last word in automaticity, oven and burned controls take the cake. They'll bake it, too, even on top of the range thanks to the amazing new top burner heat control which can be set at the exact temperature required.

The "burner-with-a-brain" accurately maintains any preselected temperature to make every cooking utensil an automatic appliance. No matter what is cooked on this burner, from delicate custards to difficult sauces, the re-

# AIR FORCE HAS A PEP PILL TO SLASH WEIGHT

**By DORMAN CORDELL**  
ATLANTIC CITY, N.J. (AP)—The Air Force has come up with a crash reducing diet in the war against weight.

The chief weapon is a little pep pill that brings big appetites down.

A doctor claims it's a sure fire way of losing 30 pounds in 60 days.

And, for dietary diehards, he had these happy words—you don't feel hungry while doing it.

You consume the pill and 350 calories a day, explains Maj. Paul W. Musgrave.

The food prescribed gives enough proteins, vitamins, minerals and bulk to maintain health. The pill—actually a 15 milligram capsule of dexedrine sulphate—suppresses hunger.

biting again."

Mrs. Glenn disclosed that part of the award will be donated to the Westminster Presbyterian Church in New Concord, Ohio, their hometown.

Dr. Musgrave of the Air Force's School of Aero Space Medicine outlined the program Wednesday at the annual meeting of the Aerospace Medical Association. He said it was tried on volunteers at the school.

Here's what you eat:

For breakfast—One egg and six ounces of skim milk.

For lunch—A tossed salad (100 grams) with vinegar, salt and pepper if you need some kind of dressing.

For dinner—Three ounces of lean meat and another tossed salad.

If you want it, you get one high ball with water or soda before dinner, but no beer. And you can drink all the tea or coffee you want—without cream or sugar, of course.

Persons with a history of psychiatric disorders shouldn't try it, the doctor said, but it's safe for anybody else—if it's done under a physician's direction.

## DRIVER WAS LOADED

FULTON, Mo. (AP) — "Too much whiskey," said magistrate Hugh P. Williamson in fining a truck driver.

The driver for a whiskey distributing company was fined \$782 and costs for an overload of 8,740 pounds of liquor on his truck.

# SAYS DOCTRINE CLOUDS DREAM

LANCASTER, Pa. (AP)—Bishop Fred Pierce Corson, resident bishop of the Philadelphia Area Methodist Church and president of the World Methodist Council, says serious problems of doctrine are clouding the dream of church unity.

However, Bishop Corson predicted the achievement of a union of a large part American Protestantism as discussed in Washington this week.

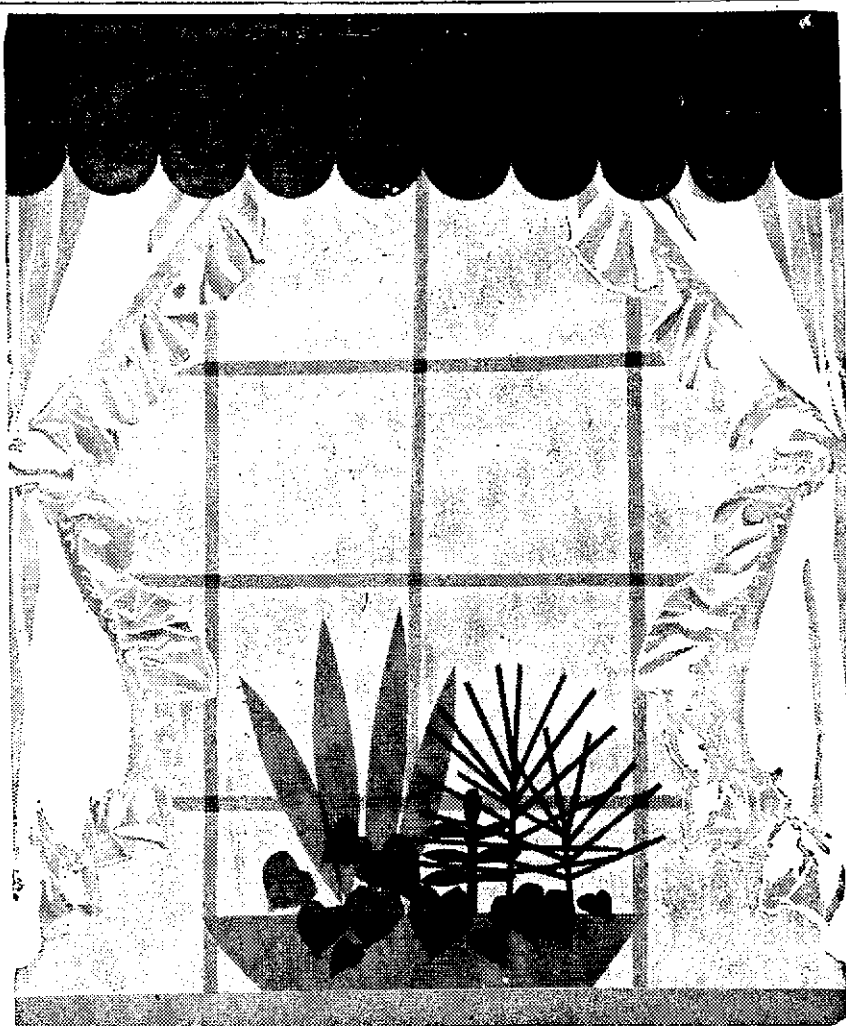

But, he said in an interview Wednesday night, it would not take place within the next decade.

He said the meeting in Washington of four Protestant denominations—United Presbyterian, Protestant Episcopal, Methodist and United Church of Christ—was extremely encouraging.

Bishop Corson was here for a union Lenten service conducted by five local churches.

## GOP WOMEN'S VIEW

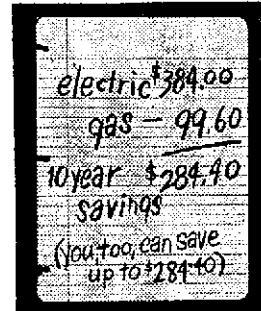

ROCHESTER, N. Y. (AP) — Overheard in an elevator at a downtown department store: Well, if you don't want to look like Jackie — and I don't — you just can't buy clothes anymore!

FOOD BUDGETS STRETCHED BY G. STAR RANGES

Has the rising cost of living got you down? Are you constantly seeking new ways to stay within the food budget and still provide appetizing, nutritional meals for your family?

You can accomplish your goal easily and economically with a gas range built to Gold Star standards. These modern, feature-packed cooking appliances are designed to help homemakers meet the basic requirements of good nutrition — defined by doctors as a diet of varied foods properly cooked to preserve precious vitamins and minerals.

Planning a varied menu is no longer a chore, the American Gas Association explains, because of the special cooking devices built right into the range. Rotisseries, griddles, meat thermometers, ovens, broilers and top burners offer a wide choice of cooking methods.

CLOCKS, TIMERS

Automatic clocks, timers and thermostatic controls provide the widest possible range of temperatures and times for fast or slow cooking, depending on the type of food. Important food values are carefully conserved and natural flavors greatly enhanced because gas is ideally suited to accurate regulation.

Cheaper, less tender cuts of meat, for example, can be flame-cooked in a variety of ways to bring out their full flavor and mouth-watering juiciness. Delicate sauces that make an ordinary dish "fit for a king," appetizing

casseroles utilizing left-overs, hearty stews, tempting ragouts and pressure-cooked foods are inexpensive solutions to the budget blues that take on superior qualities when cooked with gas.

All of these items can be cooked slowly on top of the range for several hours or more without fear of over-cooking or burning. The amazing thermostatic control, called the burner-with-a-brain, takes over the pot-watching, raising and lowering the flame as needed to maintain the exact temperature setting.

Another time and money-saving feature on gas ranges built to Gold Star standards is the new low temperature oven control that automatically keeps an entire meal ready-to-serve for several hours without continued cooking. Meals cooked to perfection are no longer ruined because dinner was unavoidably delayed. Roasts stay rare or medium rare at 140 degrees until the family is ready to eat.

CUT COOKING TIME

Or you may prefer one of the new infra-red gas ranges that cut cooking time and fuel consumption by 50 per cent. These radiant heated ranges are winning praise from homemakers for their ability to seal-in natural juices, provide even browning and keep shrinkage and spatter to a minimum.

Gold Star features include rotisseries and broilers that give meat the flavor ordinarily associated with outdoor barbecues, griddles with thermostatic controls, self-basting ovens and meat thermometers that automatically shut off the oven when the meat reaches the exact degree of doneness desired.

With features like these, you'll be more inclined to try new dishes using food that is seasonably priced or on special sale at your favorite market. For those occasions when you want to splurge and serve a prime roast of beef or sirloin steak, you know that the original flavor will not only be retained but actually enhanced.

Gas ranges built to Gold Star standards automatically instill confidence in the cook. She knows

Whirlpool dryer features damp dry cycle

BRIDE'S BEST FRIEND IS GOLD STAR RANGE

The 1962 bride finds a far different world than her mother did when she began married life. The moon, for example, is no longer merely a symbol of romance. It's also a destination for scientific exploration.

From her pink refrigerator to her wall-hung gas range, portable TV set and packaged cake mix, today's bride is living in a changed world. Fortunately, most of the changes are for the better, because today's bride is younger, better educated and more practical than her predecessors.

Her love of multi-purpose furniture and time-saving appliances plus her unfrivolous eye for first-things-first are acknowledged by manufacturers, retailers and parents alike.

This is one reason, the American Gas Association explains, why manufacturers are emphasizing quality and automaticity on modern gas ranges. And it is also a reason why brides are following the Gold Star when buying cooking equipment. The Gold Star

she is using the world's finest range and the same fuel preferred by 95 per cent of all professional chefs.

Award on a gas range immediately identifies it as the world's finest cooking appliance. It means that the range has passed the highest possible standards for quality, construction and design. The bride who starts married life with a range wearing the coveted Gold Star Award will begin as an accomplished cook, able to turn out appetizing meals with

a minimum of effort and a maximum of confidence. Costly failures are virtually eliminated by revolutionary new controls on ovens and top burners that remove all possibility of over-cooking or un-

der-cooking, burning or scorching.

The bride can be a better cook because there's no guesswork involved. The major tool of her cooking craft is equipped with modern controls that automatically raise or lower the flame as needed to maintain exact temperature settings. Gas responds instantly, offers a wide range of heat settings and can be accurately controlled.

Gas ranges built to Gold Star standards light automatically, have burners and racks designed to prevent spillage, can be easily cleaned and will even cook an entire meal while the bride is away from home. An ingenious clock control turns the oven on and off automatically. A new low temperature oven control will keep food warm for several hours without continued cooking and an automatic meat thermometer will turn the oven off when the roast reaches the exact degree of doneness desired, ranging from rare to well-done.

Even after hours of baking, gas-equipped kitchens remain comfortably cool because super-insulation keeps the heat where it belongs — tending the food.

All of these features appeal to the 1962 bride's appreciation of real value for her appliance dollars. She knows that a Gold Star range will provide cooking satisfaction for years to come and will help her be a better cook and home manager.

GUILT BY ASSOCIATION

BUFFALO, N. Y. (AP) — Miss Jennie Scott Graham, a University of Buffalo professor, has 59 nieces and nephews who visit her at her home near the Buffalo Municipal Zoo.

"They all think I own the zoo," she says. "And they ask me 'How is your elephant?' or 'What's happened to your giraffe?'"

NATURE CALLING

DES MOINES, Ia. (AP)—Early one morning two Des Moines women were walking along the shore of a lake when they heard strange little sounds that kept on and on.

They insist that their own investigation brought the answer: The water-lily buds were opening.

## BURNERS WITH BRAINS ADD A NEW FEATURE

Burners with brains are adding a new dimension to home laundering.

Homemakers, tired of playing guessing games with their laundry equipment, can now turn the job over to automation.

Revolutionary new controls on 1962 gas dryers and washer-dryer combinations automatically select the right temperature and drying time to suit each load, regardless of size or content. When the proper degree of dryness is reached, they automatically shut off the machine.

Guesswork on the part of the homemaker is completely eliminated. So is all possibility of over-drying. Variables which ordinarily affect drying times cease to be important. Even mixed loads, such as heavy denims, Turkish towels, and lightweight cottons can now be dried together without the lighter items becoming over-dried.

### FABRICS KEPT MOIST

Lightweight fabrics are kept moist by the heavier, damper articles and the moisture in the drum. Only when the moisture has been evenly distributed and the last article properly dried does the machine turn itself off.

Natural moisture, necessary in all nonsynthetic fibers, is retained in the dried items. This adds greatly to their appearance and wearability. Over-drying removes residual moisture leaving fibers wrinkled and rough to the touch.

For those occasions when homemakers want laundry dried a particular way, special settings are provided. One dries clothes ready for immediate wearing or storing, another leaves them ready for immediate ironing and a third provides additional tumbling at the right temperature for wrinkle-free synthetics and treated cottons.

The ultimate in convenience is offered with a fourth setting which allows up to 30 minutes of heatless tumbling for dusting and refreshing drapes, curtains, bedspreads, woolen garments and similar items.

The new concept in home laundering is made possible by the ability of the controls to accurately measure moisture inside the drum and regulate heat input accordingly. While this is accomplished in different ways by different manufacturers, the American Gas Association explains, all offer the same desired end—the elimination of over-drying and guesswork on the part of the homemaker.

### MEASURES MOISTURE

One gas dryer equipped with an exclusive electronic control system, measures the moisture with sensory elements located on baffles inside the drum. These

## CITE BENEFIT OF AUTOMATIC LAUNDERING

Down through the ages, one way of judging a homemaker was by the appearance of her laundry hanging on the line. Signs of "tattle tale gray" tagged the laundress a poor housekeeper while clothes that were sparkling white or brightly colored won her the respect of her neighbors.

But times have changed. Clotheslines are fast disappearing from the American scene. Modern women no longer trudge out to the backyard with baskets or wet wash. Instead, they dry the laundry indoors, in modern gas appliances.

Do they miss the old days? Is there a hankering to return to the clothesline routine? A yearning to battle the elements once more in the name of Wash Day?

### ARE INDISPENSABLE

No indeed, says the American Gas Association. Gas industry home economists in interviews with thousands of women using gas dryers and washer-dryer combinations have yet to find one who would willingly return to clothesline drying. In fact, A. G. A. reports, women say their dryers are indispensable.

A young mother with a new baby is delighted because she is saving both time and money. "I have more time to tend the baby and it's amazing how few diapers, sleepers, and baby clothing I need. An entire load of diapers takes only 15 minutes to dry. I figure that the money saved on baby garments is helping to pay for the machine."

An efficient career woman explains that she does the laundry while preparing the family's evening meal. "I simply load the machine and go about my business. Later, while the dishes are being washed, I fold the clothes and put them away. On occasion, I wash very late at night or early in the morning. I just pick the time that suits me, not the weather."

A mother with a cardiac condition calls her gas washer-dryer constantly "feel" the clothes. When the moisture drops below a preselected level, the control system automatically shuts off the dryer.

Another method, called modulation, is offered on several models of gas dryers and washer-dryer combinations by leading manufacturers. It permits large amounts of heat to be added at the beginning of the drying cycle when clothes are wet and more heat absorbent. As the clothes begin to dry, the moisture content drops and the temperature of the air leaving the dryer increases.

A control placed at the heat outlet constantly measures the temperature, regulates the flame as needed, then turns off the machine when the proper degree of dryness is reached.

The new models are now on display at gas companies and gas appliance dealers. All wear the A.G.A. laboratories blue star seal of approval indicating that they have met rigid standards for safety, durability and performance.

her "heart saver." "It's in a bathroom adjacent to the bedrooms where most soiled items accumulate and saves me countless steps. I never have to touch the clothes from the moment I load the machine until they're dried and ready to be put away. And I practically never have to iron any more. We use mostly synthetic fabrics and they come out of the dryer ready to wear."

### MANY HOURS SAVED

A busy mother interested in community activities kept track of the hours she saved with a gas dryer. "It came to approximately 156 hours last year, or a dividend of three hours each week that I now devote to important community projects. Best of all, I still have more time and energy for my family."

A mother with a large family is especially happy with her gas dryer because it keeps her caught up with the laundry and cuts the family's clothing needs by half. "My dryer is going constantly. I use it for everything. On stormy days, I dry the children's boots, raincoats and snowsuits while they eat lunch. Everything's ready for the trip back to school and one set of outer clothing is all they need."

And last, but not least, there's the mother who calls her gas washer-dryer "husband-proof." It's equipped with a special control that automatically regulates temperatures and drying times to suit each type of load, eliminating all possibility of over-drying. "Now I can let my husband do the laundry on those occasions when I have to be away from home. He can't possibly guess wrong, even if he tosses a pair of dungarees in with the sheets. Everything comes out of the dryer just right."

BALTIMORE (AP) — For Mr. and Mrs. H. A. Williams of Baltimore, it was their first visit to Milwaukee since they had lived in the Wisconsin city 40 years ago.

So they were more than a little surprised when they found this handwritten note under the windshield wiper of their car:

"It's good to have you back again in Milwaukee."

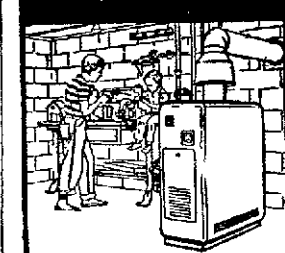

The mystery was solved later. They found out that Rudolph Laub, a Milwaukee relative who knew their car from his Baltimore visits, spotted it as he drove past and planted the note.

**SAVE WITH GAS**—Daughter's piggy-bank is a good place for savings made possible by use of gas for family water heating. Hot water costs less because gas heaters are designed for peak efficiency. Gas burner supplies direct heat at tank base. This gives maximum heat at lowest fuel cost. Once water is hot, fiberglass insulation keeps it hot, reducing heat loss. Gas water heaters are fast, automatic and dependable, too. Using thermostat, housewife can select the water temperature desired. Automatic controls then take over, delivering tankful after tankful of clean, HOT water at low cost. To select proper sized tank for your family, ask gas appliance dealers about "laundry-rated" gas water heaters.

## Look what you can do with an EMPIRE GAS FIRED BOILER by AMERICAN-Standard

The compact Empire fits right into any basement, utility room or even a laundry without looking bulky and out of place. Its handsome Forge Red finish goes well with any surroundings.

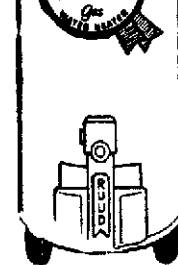

Most important, the Empire, with its dependable automatic controls, will give you all the heat you want when you want it. It is a precision-made cast iron boiler, designed for low operating cost. It's highly responsive, provides quick, even, clean heat. The great savings of truly efficient modern gas heating make it well worth your while to stop in and see the Empire... the country's most popular gas-fired boiler. Plan or do it today.

# FOOD BUDGETS STRETCHED BY G. STAR RANGES

Has the rising cost of living got you down? Are you constantly seeking new ways to stay within the food budget and still provide appetizing, nutritional meals for your family?

You can accomplish your goal easily and economically with a gas range built to Gold Star standards. These modern, feature-packed cooking appliances are designed to help homemakers meet the basic requirements of good nutrition — defined by doctors as a diet of varied foods properly cooked to preserve precious vitamins and minerals.

Planning a varied menu is no longer a chore. The American Gas Association explains, because of the special cooking devices built right into the range, Rotisseries, griddles, meat thermometers, ovens, broilers and top burners offer a wide choice of cooking methods.

## CLOCKS, TIMERS

Automatic clocks, timers and thermostatic controls provide the widest possible range of temperatures and times for fast or slow cooking, depending on the type of food. Important food values are carefully conserved and natural flavors greatly enhanced because gas is ideally suited to accurate regulation.

Cheaper, less tender cuts of meat, for example, can be flame-cooked in a variety of ways to bring out their full flavor and mouth-watering juiciness. Delicate sauces that make an ordinary dish "fit for a king," appetizing

casseroles utilizing left-overs, hearty stews, tempting ragouts and pressure-cooked foods are inexpensive solutions to the budget blues that take on superior qualities when cooked with gas.

All of these items can be cooked slowly on top of the range for several hours or more without fear of over-cooking or burning. The amazing thermostatic control, called the burner-with-a-brain, takes over the pot-watching, raising and lowering the flame as needed to maintain the exact temperature setting.

Another time and money-saving feature on gas ranges built to Gold Star standards is the new low temperature oven control that automatically keeps an entire meal ready-to-serve for several hours without continued cooking. Meals cooked to perfection are no longer ruined because dinner was unavoidably delayed. Roasts stay rare or medium rare at 140 degrees until the family is ready to eat.

## CUT COOKING TIME

Or you may prefer one of the new infra-red gas ranges that cut cooking time and fuel consumption by 50 per cent. These radiant heated ranges are winning praise from homemakers for their ability to seal-in natural juices, provide even browning and keep shrinkage and spatter to a minimum.

Gold Star features include rotisseries and broilers that give meat the flavor ordinarily associated with outdoor barbecues, griddles with thermostatic controls, self-basting ovens and meat thermometers that automatically shut off the oven when the meat reaches the exact degree of doneness desired.

With features like these, you'll be more inclined to try new dishes using food that is seasonably priced or on special sale at your favorite market. For those occasions when you want to splurge and serve a prime roast of beef or sirloin steak, you know that the original flavor will not only be retained but actually enhanced. Gas ranges built to Gold Star standards automatically instill confidence in the cook. She knows

Whirlpool dryer features damp dry cycle

# BRIDE'S BEST FRIEND IS GOLD STAR RANGE

The 1962 bride finds a far different world than her mother did when she began married life. The moon, for example, is no longer merely a symbol of romance. It's also a destination for scientific exploration.

From her pink refrigerator to her wall-hung gas range, portable TV set and packaged cake mix, today's bride is living in a changed world. Fortunately, most of the changes are for the better, because today's bride is younger, better educated and more practical than her predecessors.

Her love of multi-purpose furniture and time-saving appliances plus her unflinching eye for first-things-first are acknowledged by manufacturers, retailers and parents alike.

This is one reason, the American Gas Association explains, why manufacturers are emphasizing quality and automaticity on modern gas ranges. And it is also a reason why brides are following the Gold Star when buying cooking equipment. The Gold Star

she is using the world's finest range and the same fuel preferred by 95 per cent of all professional chefs.

Award on a gas range immediately identifies it as the world's finest cooking appliance. It means that the range has passed the highest possible standards for quality, construction and design. The bride who starts married life with a range wearing the coveted Gold Star Award will begin as an accomplished cook, able to turn out appetizing meals with

a minimum of effort and a maximum of confidence. Costly failures are virtually eliminated by revolutionary new controls on ovens and top burners that remove all possibility of over-cooking or under-cooking, burning or scorching.

# SOMETHING TO SING ABOUT!

your hot water will never run cold with a

# FAMILY RATED GAS WATER HEATER

No matter how much hot water a family uses at one time, there's never a chance of running out—when you've got a Family-Rated Gas Water Heater. As soon as you use some, it automatically heats up more! There's always plenty for a family-sized number of baths, showers, washloads, dishes and clean-ups. And thrifty Gas does the job so much cheaper than the other method!

See any of these "Family Rated" GAS water heaters at your dealers AMERICAN STANDARD • JOHN WOOD • HOTSTREAM • NATIONLINE • BRADFORD • LOVEKIN • COLEMAN • A. O. SMITH • HOMART • LAWSON • MONTGOMERY WARD • REPUBLIC • RHEEM • RUUD TRAGESER

Columbia Gas of Pennsylvania  
15 York St., Gettysburg, Pa.

der-cooking, burning or scorching.

The bride can be a better cook because there's no guesswork involved. The major tool of her cooking craft is equipped with modern controls that automatically raise or lower the flame as needed to maintain exact temperature settings. Gas responds instantly, offers a wide range of heat settings and can be accurately controlled.

Gas ranges built to Gold Star standards light automatically, have burners and racks designed to prevent spillage, can be easily cleaned and will even cook an entire meal while the bride is away from home. An ingenious clock control turns the oven on and off automatically. A new low temperature oven control will keep food warm for several hours without continued cooking and an automatic meat thermometer will turn the oven off when the roast reaches the exact degree of doneness desired, ranging from rare to well-done.

Even after hours of baking, gas-equipped kitchens remain comfortably cool because super-insulation keeps the heat where it belongs — tending the food.

All of these features appeal to the 1962 bride's appreciation of real value for her appliance dollars. She knows that a Gold Star range will provide cooking satisfaction for years to come and will help her be a better cook and home manager.

## GUILT BY ASSOCIATION

BUFFALO, N. Y. (AP) — Miss Jennie Scott Graham, a University of Buffalo professor, has 39 nieces and nephews who visit her at her home near the Buffalo Municipal Zoo.

"They all think I own the zoo," she says. "And they ask me 'How is your elephant?' or 'What's happened to your giraffe?'"

## NATURE CALLING

DES MOINES, Ia. (AP)—Early one morning two Des Moines women were walking along the shore of a lake when they heard strange little sounds that kept on and on.

They insist that their own investigation brought the answer: The water-lily buds were opening.

ROCHESTER, N. Y. (AP) —

Former patrolman Joseph Fer-

lica of the Rochester police de-

partment's complaint bureau has

turned in his badge for the shingle of a practicing dentist. He was a patrolman for eight years while attending college.

# NEW GENERAL ELECTRIC Custom GAS FURNACE

SAVES YOU MONEY 2 WAYS

## 1 LOW FIRST COST

Matter of fact, this entirely new General Electric Gas Furnace costs as little as \$50 a month. Costs no more than ordinary furnaces.

## 2 LOW OPERATING COST

Maximum efficiency on minimum use of fuel. Inexpensive to service and maintain. Clean, quiet, compact — easily "grows" into year 'round, whole-house air conditioning.

# Modern Cooks Use Gas For Indoor Barbecues

Summertime when the livin' is easy, families everywhere take to the great outdoors and, like Indians, send up smoke signals for all to see.

No, they're not in distress. They're enjoying America's favorite pastime — barbecuing in the backyard.

The fun and informality of this popular activity no longer has to be restricted to warm weather and the wide open spaces. Modern families can now barbecue indoors during the coldest months of the year with the same degree of enjoyment.

A new gas range with a built-in rotisserie-barbecue located on top of the range is making this possible, reports the American Gas Association. Meat is self-basted as it rotates on a motor driven spear, reducing shrinkage and retaining more of the natural juices and delicious flavor. Cooking time is greatly reduced by the use of efficient radiant heat and two individually controlled gas burners give flexibility of heat concentration.

## FREES THE OVEN

The built-in rotisserie frees the ovens for other baking or broil-

ing at the same time meat is cooking on top of the range. The entire rotisserie unit may be removed for easy cleaning and storage, and a handy griddle may be used in its place when desired. It is also possible to broil without smoke on top of the range simply by using the side racks that are supplied with the rotisserie assembly.

Highlighting the top burners of the new range is a thermostatically controlled surface burner which regulates the temperature of cooking utensils to the exact degree desired. For popular waterless cooking there are two simmer burners, and one super-jet unit which provides extra high heat for very fast cooking.

Automatic operation of the new range enables all of the cooking units, including the giant oven and broiler, to be lighted automatically without matches. A useful second oven with its own separate broiler and thermostat control gives added convenience. Glass viewing panels let the cook keep an eye on the meal's progress without having to open oven doors. This results in cooler, faster cooking.

The new gas range also wears the coveted Gold Star Award, symbol of the world's finest cooking appliances. The Gold Star immediately identifies a range as having met more than 30 of the highest standards ever devised for cooking equipment. It means that the range is superior in every way because only the most modern ranges, offering the most desirable features, can qualify for the Gold Star Award.

## GAS COOKOUTS ARE CAREFREE AND PLEASANT

Is the scene serene when you have a cookout?

If not, says the American Gas Association, you may need outdoor equipment especially designed to take the chaos out of cookouts — gas barbecuers for ease of cooking and gas lights for dependable illumination.

There are few things left in this troubled world as carefree as the cookout. With a backdrop of clear blue sky or shining stars and a spotlight of glowing coals, the stage seems set for lighthearted dining.

Ease, however, is the essence

Whirlpool gas "no-frost" refrigerators

of such meals and the scene can soon be spoiled through lack of know-how or makeshift equipment. Huffing and puffing to make the charcoal burn, cooking in acid smoke — these are only two of the troubles that mar a barbecue. Insects and harsh illumination are added woes.

## MODERN BARBECUES

To insure success, families in increasing numbers are turning to modern gas barbecues that ignite instantly, imparting a rosy glow to ceramic "coals." They're ready to cook in seconds. Meat and other foods take on the heavenly flavor and appetizing appearance everyone associates with outdoor cooking. And there's no mess or fuss involved. Smoke and soot from dripping grease is consumed by the gas flame. There are never any ashes to empty or fly about. The ceramic briquets are self-cleaning and can be used over and over again.

Homeowners can choose from a variety of gas models, ranging from portable units that can be used indoors as well as out of doors, to built-in equipment permanently installed on the patio or terrace.

For cooking at night, families find the mellow glow of gas light ideal. It provides ample light for working, yet never spoils the setting because it is too bright or glaring. Instead, gas light is similar to moonlight, casting a soft, flattering glow over the scene. It actually enhances the setting and adds a touch of elegance.

Equally important, gas light doesn't attract annoying insects.

Unlike filament-type lamps, gas lights create light on the yellow band of the color spectrum which in effect makes them insect-repellent. And, of course, gas lights are dependable. Sidewalks, driveways, swimming pools, patios, porches, etc., are properly lighted at all times in good weather and bad. Families are never without outdoor illumination when they need it most.

Small wonder, then, that cookouts planned around gas equipment are truly carefree.

The call of the marine toad, a deep, booming trill, is sometimes mistaken for a far-off tractor.

## HOUSE GROUP APPLAUDED

NASHVILLE, Tenn. (AP) — The Methodist Laymen's Club here has adopted a resolution commending the House Committee on Un-American Activities for "bringing to the American people relevant information as to the tactics, methods and intentions of the Communists."

## DON'T TALK, WRITE

NORMAN, Okla. (AP) — University of Oklahoma Professor George B. Fraser said on a final examination one of his law students wrote: "An oral contract is not enforceable unless it is in writing."

## NEW MODEL GAS REFRIGERATOR IS GOOD BUY

Ever had the ice cubes give out right in the middle of a party?

You had two choices: Borrow from the neighbors or sit around and wait for more to freeze. In either case it was troublesome and embarrassing.

But you can bet it will never happen again if you get a gas refrigerator. This year's model highlights the automatic ice server.

It seems almost by magic that an unlimited supply of ice cubes flows from the futuristic ice server without the bother of ice cube trays. As one cube is removed from the ice basket, another is produced automatically to take its place. And the cubes won't stick together, either, while they're waiting to be used. Instead of the ordinary chunks of ice, these are half discs.

## OTHER ADVANTAGES

But the ice server is only one of the many advantages of your gas refrigerator, the American Gas Association points out.

The freezing section holds up to 1½ bushels of frozen fruits, vegetables, meats, ice cream, and desserts.

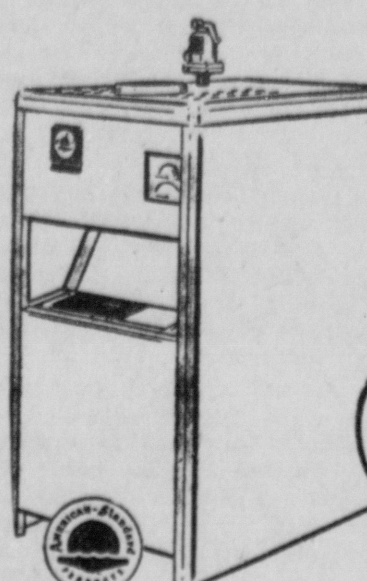

Because it's gas, it is the only system in the world that is both continuous and automatic — no noisy stopping and starting. There's little to break down since there are few moving parts, and safety features are built right into the unit.

The new gas refrigerators are popular for built-in installation.

ROCHESTER, N. Y. (AP) — Tailor Bob Ryan had some olive green suiting material that he liked very much. He recommended it highly, and at least five prominent industrialists had suits made from it.

They later discovered that they had identical suits, and decided to hold a party at which they would all wear them. Ryan was invited, but he had the last laugh. He showed up in one of the olive green outfits, too.
